LEAGUE PROGRAM FOR SUNDAY NIGHT

The Epworth League will render a program at the Methodist church Sunday evening, which will take the place of the regular worship of the evening.

The program is in commemoration of the origin of the League. It is the thirty seventh anniversary of the League.

The first League was organized in St. Louis, Missouri, in 1890. As a religious organization for the young people of the Methodist church, it has a wonderful growth and a wonderful history. It has gone around the world, and wherever Southern Methodism is known the Epworth League is also known as a great working force among the young people. The League was the only church organization that paid its full amount to the Centenary fund.

The purpose of the program Sunday evening is to emphasize the origin, aims and purposes of the League.

The program will consist of a monologue, pantomimes, with a musical program interspersed. There will be about twenty five take part on the program. It is believed that it will be one of the most interesting and at the same time instructive and enjoyable programs ever rendered in Bronte.

Following is the program:
Title: Golden Youth.
Song: True-hearted, whole-hearted.

Scripture, Rev. P. L. Shuler.
Prayer, Rev. D. M. West.
Prologue, Rev. P. L. Shuler.

April showers will bring May flowers—but they may bring a killing frost, too.

The next one to hold the footlights will be Mr. April Fool. But you don't have to wait till April to find "a fool," for truly did Barnum speak when he said that there was one born every minute.

Don't forget when you get into the "stabbing" business, that you can't "stab" a man in the back unless he is in front of you. Hence, it does seem that there is some infamy of jealousy when one goes into the "character assassinating" business.

"THE SLOW CLUB"

"The slow club" is the latest bidder of young women's organizations for popular recognition. One of the leading religious universities of the Southwest has gotten into the prints by the young women of the student body of the school, organizing themselves into a club under the above name. The purpose of the "Slow Club" is to resist "fast life," especially "drinking, necking, smoking and cursing." Of course, they could not possibly be anything but a bevy of "grouchy old maids," else they would not intimate that any girl or woman would be guilty of the things they set themselves to oppose. Speaking seriously, it is a sad comment on the tendencies of the ways of woman of today, for such an organization among women ever to have cause to exist. But, these are perilous times to which we've come. Women these days "cuss, smoke, drink and raise ——— just like men do." Woman in her struggle for "equal rights with men" must have been misunderstood. Instead of intending to bring man up to her high standard, she meant by "woman's rights" that she could descend in the moral scale and do as men when it comes to the moral proprieties. But, thinking in the good old-fashioned strain, we are reminded of the old poet's admonition to woman:

"O, spotless woman, in a world of shame,

With splendid and silent scorn,
Go back to God as white as you came,

The noblest warrior born."

"The early bird catches the worm," is an old saying. But, it is also true that "the early bird" sometimes gets caught. And that seems to be about the predicament of the early gardeners this year—since the cold snap first of the week. You can't ever tell. Hence, it was wholesome advice given by a very wise man long ago: "In the morning sow thy seed and in the evening withhold not thine hand for thou knowest not whether shall prosper or both."

Disloyalty after all to an employer is a very ungrateful and unmanly thing. If we were working for the devil, we'd be loyal to him long as he paid us. And it is the only "four square" thing a man can do, and it is the only thing a "four square" man will do.

BAPTIST CHURCH SUNDAY

Sunday school at 10 o' clock, not 10:30, not 10:30, but 10 o' clock sharp. Pastor will preach at both hours. The morning theme will be:

An Evangelistic Interpretation Of the Book of Romans

Introduction.—Paul wants to visit Rome and hold a revival in which he would teach the saved how to do soul-winning, while winning some of the lost himself. Since he could not go, he attempts to hold the revival by correspondence. The book of Romans is the result and it makes the best personal worker's handbook in print.

I. THE SOUL WINNER HIMSELF:

He is presented in a series of attitudes:

1. Toward himself.
2. Toward God—a servant.
3. Toward the church, "thank, prayer."
4. Toward the gospel.
5. Toward sin.
6. Toward the lost—"debtor."

II. THE SOUL WINNER SHOULD KNOW SIN:

1. Its origin.
2. Its progress.
3. Its power.
4. Its penalty—"worthy of death."
5. Its inclusiveness, Jew and Gentile.

III. THE SOUL WINNER

AND SALVATION.

IV. THE SOUL WINNER AND THE CHRISTIAN'S PROBLEMS OF CONFLICT AND SIN:

Chapters 6, 7.

V. THE SOUL WINNER AND ASSURANCE. Romans 8.

VI. THE SOUL WINNER AND SOUL WINNING.

Romans 9, 10, 11. Passion, Appreciation, Prayer, Program, Plan, Optimism, Price, Power, Prize.

VII. THE SOUL WINNER AND SERVICE:

1. To God.
2. To the State.
3. To the Church.
4. To Society.

B. Y. P. U. meets at 7:15 in the evening. The theme is: How can Christ become real to us? Come and encourage the young people—they are the hope of the nation.

Pastor will preach at 8:15. His subject will be: The Christian's Hope.

1. The promise of Christ.
2. The assurance of the Spirit.
3. The earnest of Sonship.

W. M. U. meets Monday afternoon at 3 o' clock. Let all the ladies come to this meeting.

W. L. Ayres, Pastor.

(Editor's Note)—The above was the announcement of Rev. W. L. Ayres, pastor of the Blackwell Baptist church, in the

Blackwell Times last week for last Sunday's worship at the church of which he is pastor. The outline he gives of his Sunday morning's sermon, being purely evangelistic, we consider good reading and will at least be interesting to all our readers who are interested in religious lines of thought—hence we produce it in The Enterprise that all who will may get the good of the sermon, which though an outline, has, as we interpret, a splendid and beautiful line of thought.

Log Drivers' Memorial

HANDLES OIL SAN ANGELO REFINERY

Things are going in Bronte—gradually other substantial business institutions are learning that Bronte is a winner and they want to come.

The last to make business connection in Bronte is the San Angelo Refinery, a gasoline, kerosene and motor oil refining plant operated at San Angelo by West Texas people.

This gasoline manufacturing plant has closed a deal with the Home Motor Company by which the Home Motor Company has San Angelo Refinery and will hereafter handle their gasoline to which they have given the suggestive and euphonious name of Rainbow gasoline.

The Home Motor Company has secured a new pump of the latest type for handling Rainbow gasoline. The San Angelo Refinery sent the pump out Monday and installed same and now it is pouring out Rainbow gasoline to all who call for same at the service station of the Home Motor Company.

The San Angelo Refinery has already made an enviable reputation with their products and hence it is believed by Mr. Knierim, manager of the Home Motor Company, that the popular products of the San Angelo Refinery will soon be used by the people in a large way, throughout the Bronte country.

Read the joint announcement of the San Angelo Refinery and the Home Motor Company in this issue of The Enterprise.

B. L. Boynton of Lubbock was in Bronte Saturday on both business and pleasure. Mr. Boynton is a representative of a stock and bond company. He is a cousin of Postmaster M. M. Boynton and spent the day with Mr. and Mrs. Boynton. The visitor is a son of Federal Judge Boynton of Waco and is an athlete of prominence. He starred with the Williams College football team in 1920—the in which he graduated.

Rev. C. V. Carroll and Mr. W. T. Curtis of Brownwood, two old-time friends of The Enterprise editor, were in town part of the week. The writer has known Rev. Carroll since we were a boy and we have known Mr. Curtis for many years. It was a genuine pleasure to have these old-time friends in our home.

Mesdames E. P. Williams, R. L. Keyes and Clint Duncan are shopping in San Angelo today.

OPENS CHIROPRACTIC OFFICES IN SAN ANGELO

Dr. Howard H. Kennedy, chiropractor, has opened offices in the Findlater Headquarters building on Chadbourn street, in San Angelo.

Dr. Kennedy's offices are on the second floor and he has cozy appointments. The Enterprise editor called on Dr. Kennedy the other afternoon when in San Angelo and met both Dr. and Mrs. Kennedy. Dr. Kennedy, though a young man, is not a "kid," by any means. Dr. Kennedy is fully qualified to practice his profession. He is a graduate of the Palmer School of Chiropractic at Davenport, Iowa, which is the head school of the art of healing by chiropractic. Besides, Dr. Kennedy has a license granted him by the Board of Chiropractic Examiners of New Mexico. Dr. Kennedy advises us that there are twenty eight states that have Boards of Examiners for chiropractic, the same as medical boards of examiners.

Dr. Kennedy is a most pleasing, affable gentleman, thoroughly trained for his work and impressed us as a thorough-going gentleman. Mrs. Kennedy is also a chiropractor. It was a genuine pleasure to meet these excellent people and form their acquaintance.

Dr. Kennedy has an introductory announcement in this issue. Read it.

Hubert A. Hayley, who is now manager of an "Acorn Stores Incorporated" at Dallas, sends us "the long green" and says: "Shoot me fifty two bunches of the 'old home town' news. We thank Mr. Hayley and beg to advise him that we are 'coming up' with the first 'bunch' this week. Mr. and Mrs. Hayley are pleased with Dallas, but their friends here, who are legion, not only in Bronte but all over the Bronte country, would be glad for them to come back 'home.'"

May Solve Rivet Problem

Prediction is made by the American Society of Mechanical Engineers that the flame of the electric arc may replace the rivet and that the steel skeleton of the future building may be a single welded unit. It is said that this method would save the cost of drilling thousands of rivet holes; that the strength of an arc weld is equal to that of the parts welded, and that a welded joint is impervious to water, oil or gas. Finally, the expense of welding is said to be only three-quarters of that of riveting.—Popular Mechanics Magazine.
