District 2 Baseball Championship Tournament For

Pony League At Nazareth

PONY LEAGUE ALL STARS: Pictured above are the Pony League All Stars from Castro County which will enter District competition Monday against Anton at Nazareth. Front row, left to right, Andy Schumacker, business manager, Mark Cleavenger, Jerry Birdwell, Bobby Baker, Gene Schumacker, Jerry Killingsworth, Loy Ray

Wiley, Randy Schumacker and Manager Howard Schulte. Back row, President Norville Birdwell, Hoyt Hestand, Billy Sanders, Harold Schacker, Johnny Vick, Kenny Doss, Henry Rivera, Gary Young and Coach Bob Baker. Not pictured is J. C. Pohlmeier who was injured in an automobile accident but will be playing in the tournament.

Castro County will get the 1966 District Two Pony League Tournament underway at Nazareth Monday with two tilts on tap for the opening day of play.

Hereford meets Littlefield in the opener at 6:30 and then Anton takes on Castro County in the second game at 8:30. Borger meets the winner of the Littlefield-Hereford game on Tuesday night while the two losers will play at 6:30. The tournament is a double elimination affair.

Coach Bob Baker and Manager Howard Schulte have been working the local team out each day this week and pronounce them ready to go except for one player. J. C. Pohlmeier, catcher and infielder, was injured last week as he was dragged by a car for several feet but he is expected to be

ready for limited action by game time Monday.

This will be the first time in the history of Castro County that a Boys Tournament has been held and many observers feel that it came at the most opportune time as Castro County is fielding the strongest team ever to enter a tournament, pitching wise.

Borger, Littlefield and Hereford rule as tournament favorites, due to past experiences, but however Anton has said that their team is also much improved over last year's team. All in all, the tournament should bring Castro County some fine baseball for five or six days.

Tournament Director Jimmie Chapman has appointed all of his committees and President Norville (Red) Birdwell of Dimmitt and Francis Wilhelm of Nazareth will be in charge of the tournament. Anyone wishing to help in any way could contact either of these men. The mothers of the Dimmitt Pony League will run the concession stand and the rest of the duties of the tournament will be handled by volunteers from Nazareth.

Chapman emphasized that there will be plenty of seating capacity since bleachers from the high school have been moved to the field to take care of the expected crowds.

Borger will eat supper at the Colonial Inn Restaurant Tuesday night before journeying to Nazareth for their game at 8:30.

President Birdwell says that anyone wishing to help could either contact him or Francis Wilhelm and they could tell them what committee chairman to contact.

President Birdwell also expressed his appreciation to the five sponsors of the teams for supporting and financing the teams during the 1966 season. These sponsors are: Community Grain, Inc., Flash-O-Gas, Dimmitt Wheat Growers, Inc., Castro Coop Gin and Killingsworth Builder's Supply.

Oscar Wylie has been appointed by Tournament Director Jimmie Chapman to act on the decision committee and another man will be appointed from Nazareth this weekend. This committee will act immediately upon all protests and rules governing the Pony League games, as no game can be played and then protested in tournament play.

The winner of this tournament will journey to Bartlesville, Oklahoma August 3rd for the Sectional tournament that the city was awarded last week.

Three Dimmitt Students Study Spanish In Mexico For Six Weeks

Three Dimmitt girls are among the 54 Texas Tech students who will spend the second summer session studying the Spanish language, literature and culture in Mexico. Danelle Crowley, Estelle Pesina and Mary Graham Gabel were among the members of the part that assembled Tuesday in San Antonio to travel by train to San Luis Potosi where headquarters for the field course will be set up.

This special course is designed to perfect the student's fluency in Spanish and to explore various phases of pre-Hispanic civilization said Dr. Harley D. Oberhelman, head of the Tech Foreign Languages Department.

The students will speak only Spanish during their stay in Mexico. They will lodge in San Luis Potosi and will attend classes during the week, visit places of inter-

est and be given opportunities to attend operas, concerts, plays, lectures and bull fights.

The group will return to Texas August 20. The field course, offered alternate years at Tech, may be taken for six hours of advanced undergraduate or graduate credit.

Mother Of Swain Burkett Dies Monday

Funeral services for Mrs. Estelita Burkett, mother of Swain Burkett, died Monday in Henrietta. She died there around noon on Saturday.

Mr. and Mrs. Burkett went to Henrietta for the services.

"Paraphernalia" 4-H Dress Revue Viewed By 175 Thursday Night

"Paraphernalia — Past and Present" was viewed by about one hundred and seventy-five Castro County citizens Thursday, July 7, at 8:30 p.m. in the Junior High School Auditorium. There were two style shows — one presented by the 4-H girls modeling the garments they had made; the other was fashions of yesterday.

The welcome was by Irene Albrecht, Home Demonstration Agent. Narrator for the girls was Mrs. James Profitit. Mrs. Edd McLeRoy narrated for models of yesterday. The 4-H record book judges were Mrs. J. C. Beene and Mrs. A. J. Bezner, 4-H leaders from Hereford. Garment judges were Mrs. Cricket Taylor, Home Demonstration Agent from Farwell and Mrs. Tom Draper, Home Demonstration Agent from Hereford. Mrs. Faun Welker was the pianist. The prizes and awards were presented by County Judge Raymond Wilson.

The senior winner will compete in the district 4-H dress revue at Amarillo on Tuesday, July 19, 1966. The junior winner will go and model her garment at district.

Sharon Hochstein is the winner in the senior division. She modeled a three piece ensemble. She wore a blue and green plaid cape coat over an aqua two piece short sleeved, collarless dress. She wore

a dark aqua hat and black shoes, gloves, and bag. She got a prize and a blue ribbon. Debbie Hochstein got second prize and a blue ribbon. Susan Benson got third prize and a blue ribbon. Others in the senior division who got blue ribbons are Sandra Huseman, Betsy and Patty Simpson.

Marlyn McLeRoy was first place junior girl. She had a three piece ensemble of 100 percent wool with a cotton blouse. Her skirt was pumpkin and rust plaid; her sleeveless blouse with rolled collar was pumpkin. Over it she wore a collarless pumpkin blazer. She wore green suede shoes. Second prize blue ribbon winner was Diana Adams; Julia Hottel was third prize blue ribbon winner. Other blue ribbon junior girls were Judy McLeRoy, Teena Profitit and Marian Sue Stokes. Red ribbon winner were Kathy Markley, LeeAnn Merritt, Julie Huseman, Genie Robbins, Sue Smith, Janna Thanisch, Jeanne Petty, Lissa Dannevik Rita Wornack, Lissa Huckabay, Agnes and Deborah Acker, Rita Vick and Patricia Hochstein.

All who were there will agree that it was a wonderful evening. The sponsors would like to thank everyone for coming and making this event successful.

Action Committee Directors Endorse Five Component Projects

In their monthly meeting July 5 CPA accountants locally, regionally and nationally.

Directors in attendance were Paul Hilburn, Don Newman, Dr. H. W. Bischoff, Luther Rogers, Claude Chavers, Rev. Raphael Chen, Robert Gonzales, T. D. Martinez, Tony Garza, McCunnie Washington, and Frank Latimer. Absent directors were John Slavik, W. A. Gardenhire, George Bradford, E. E. Foster, Al Maurer, Pete Aguirre, Joe Ortega, Fred Joiner, Alvin Vasquez, Sammy Espinosa and Tony Martinez.

Any project must meet the approval of the regional OEO director and Governor Connally. Close audits are maintained by

Jubilee Historical Decorations To Appear In Dimmitt Windows

A feature of the Castro County Diamond Jubilee Celebration, designed for its educational value as well as the atmosphere it will create, is the decoration of store windows in the county. A committee, composed of Mrs. Helen McLean, Mrs. Virginia Gilbreath, and Mrs. Carl Bruegel, are conducting all business firms to encourage participation in the window decorating program. They are urging each merchant to make available window space for displays.

Merchants have a choice of four categories in selecting the

period they wish their displays to represent. Periods to be represented by displays are Pioneer Days, Gay Nineties, Roaring Twenties or the Dust Bowl Days. Anyone having items of interest falling in the above categories are requested to contact members of the committee, merchants, or Diamond Jubilee headquarters.

A spokesman for the committee declared that the windows would be judged and a plaque will be awarded to the best historical display. Windows should be ready through August 2.

Headquarters For Jubilee Moved To Larger Facilities

Jubilee Headquarters and Country Store has moved to a new location directly across the street from the Byrnes Agency where it was previously located. The need for more floor space necessitated the move. The extra space will be used for offices for a celebratory secretary and the Rogers Co. firm in charge of directing the Castro County Diamond Jubilee Celebration.

Plant Disease Clinic Scheduled

A Plant Disease Clinic for ornamental plants and shrubs will be held Monday, July 18th at 1:00 p.m. in the community room in the courthouse, according to Charles Hottel, County Agent.

Dr. Robert Berry, Extension Plant Pathologist will be on hand to conduct the Clinic. Individuals who have been having plant disease problems in their yard or garden are invited to bring their plant specimen to the Clinic for diagnosis.

J. H. Schmucker on FHA Committee

Mr. Joseph H. Schmucker, a long time resident and farmer in the Nazareth Community has been appointed to a three year term on the local Farmers Home Administration County Committee. He was sworn in as Committee member at the committee meeting on July 7, 1966. The other two Committee members are: Mr. Floyd M. Stanford and Mr. Edgar Doyle Underwood.

Wheat Growers Elect Board Members In Annual Meeting

Annual elections to the Board of Directors were the top items on the agenda of the 32nd annual membership meeting of the Dimmitt Wheat Growers held Tuesday night in the high school auditorium.

Elected to the senior board of directors, in place one, was Morgan Dennis and in place two, Frank Wise. The board was reorganized and Frank Wise was elected to replace the retiring president, Houston Lust. Calvin Petty replaced Wise as vice president, and Leo Witkowski was named advisory board member for Producers Grain Corporation. Aaron Isaacs was re-elected to secretary-treasurer.

Because of a tie vote, three new men were elected to the associate board instead of the usual two. Ben Holcomb and James Welch tied for place one so both obtained positions. Anthony Acker won the election in place two.

Preceding the business meeting, a film, made by Southwestern Farm Supply, on the anhydrous ammonia operation at Plainview was shown. Jack Tompkins of

Southwestern Farm Supply and Producers Grain Corporation narrated the film and was on hand for the showing.

Barry Love, Dimmitt Wheat Growers' agronomist and field representative, showed a set of slides on the problems with grain sorghum, conditions with crops and some new farm machinery.

Bill Sims of Merriman and Company, Certified Public Accountants, reviewed the financial statement after the business meeting was opened.

Following the meeting door prizes were given away. They included a Motrola TV, a complete socket set, a truck ladder and a lawn sprayer.

Walter Jetton of Fort Worth catered the annual barbecue supper.

VISITING PARENTS
Mr. and Mrs. Leondous Frye and sons of Fort Neches are visiting her parents, Mr. and Mrs. Ray Bearden this week.

LEADING THE WAY in the chow line at the thirty second annual membership meeting barbecue of the Dimmitt Wheat Growers, Inc., was Alvin Frazier. Frazier was the

first of 720 people to enjoy the barbecue dinner at the Dimmitt High School gymnasium Tuesday evening. See story.

Car tags are not much of a conservation piece, but there are times when they arouse your curiosity, or at least maybe attract your attention. Unless you are on a main highway in Texas you will not see enough out-of-state cars to make a comparison. It's different in New Mexico, Arizona or Colorado. That's where the tourists are, and if there are as many as a half dozen cars in your range of vision at least four of them will be from out of state and many times as many as six states will be represented. On a recent trip into our neighboring state of New Mexico our attention was attracted to an unusual number of cars that failed to sport a license tag on the front bumper. We noticed cars from as many as six different states that had only one license tag, and that of course was on the rear. We have what is referred to as a conservative state government, if they want to live up to their professed philosophy why don't they leave off the unnecessary front tag and save fifty percent in the cost of production. It is inconceivable that a peace officer, or anybody else for that matter, would jump in front of a speeding car in order to get their license number. This is a matter that should be taken care of by the legislature immediately. I would like to go on record as being a rear-end tag man.

The vegetable harvest is just now getting underway. We had hoped to have some pictures this week of the cucumber, onion and green bean harvest. Maybe we can make connections next week, in the picture department that is. Western Vegetable Company of La Junta, Colo., are harvesting cucumbers and beans, with the beans being harvested with a mechanical picker, and LaMantia-Cullum & Collier & Company of Crystal City have just begun processing the onion crop in the Dimmitt Produce Company processing plant. We will try to have some details about the vegetable harvest next week.

At the regular meeting of the Dimmitt School Board Monday night the trustees voted to raise the district school tax rate from \$1.60 per \$100.00 valuation to \$1.75. The increase in the school tax rate will apply to the 1966 tax year with collections beginning in October. According to school officials, the increase in the tax rate became necessary because of the increment salary schedule established by state law, the addition of two additional teachers and general increase in operating expenses. For budget purposes the \$1.75 tax is apportioned to maintenance and interest and sinking fund, with \$1.25 earmarked for maintenance and 50 cents into the interest and sinking fund.

A number of school districts in the Panhandle area are being forced into reapportioning their tax needs, the most recent being Dumas, Tulia and Canyon. A re-evaluation program has been in progress in each of those districts with farm land coming in for a more realistic valuation.

National polls indicate majority approval of President Johnson's conduct of the Viet Nam war. The United States is committed to preserving freedom in that beleaguered country, and there is no way out of the dilemma other than convincing the North Viet Nam Communists and China that they can't impose their rule and will on neighboring countries by force. The President made it perfectly clear that the United States would not tolerate the spread of communism by armed aggression. He deserves and should have the support of his countrymen, and that he has and will have whenever the chips are down.

More wheat stubble is being burned off this year than at any time in recent years. We wonder why. Agronomists have discouraged the practice of burning wheat straw for many years, and it was our opinion that the practice had been discontinued.

Young Farmers Plan Field Trip

The Dimmitt Young Farmers will meet at the Ag building on Thursday, July 14 at 1:00 p.m. for a field trip of member's farms. The highlight of the tour will be the visitation of grain sorghum yield plots, which have been planted by several members.

After the field trip, a regular meeting will be held in the Community Room at the First State Bank at 8:00 p.m.

Members and anyone interested in the field trip are urged to attend.

Two PONY League Players Injured

J. C. Pohlmeier, PONY League All-Star, received burns on his legs, shoulder and arm when his foot caught the bumper of a car and he was dragged for several yards. He is still expected to play in the PONY League All-Star game to be held in Hereford.

Another PONY League player, Mark Wohlgenuth, suffered a broken ankle earlier in the season.

History Of Federal Land Bank Given

Fifty years ago this month, on July 17, 1916, farming in the U. S. "went into business."

On that day President Woodrow Wilson signed the Farm Loan Act which created the Federal Land Bank System. Through the 12 district Banks of the system, farmers were—at last able, by 1917 to borrow capital for production on equal terms with city businessmen.

Today, according to Hal Weatherford, president of the Federal Land Bank of Houston, the Land Banks play a leading role in the financing of agricultural enterprises of all types — from dairy farms to fruit orchards, cotton farms and cattle ranches.

"A half-century ago, farmers had almost no access to capital for growth," he said. "When they could borrow money, they usually had to pay 10 percent annual interest on it or more. And they had to repay the principal in five years or less. They were regarded as poor credit risks."

"For them, capital was an oppressive liability — not a productive tool. And their production reflected it. There were twice as many farmers then as there are today, yet they produced only half as much."

Presidents prior to Wilson were aware of the situation.

In 1908 President Roosevelt appointed the Country Life Commission which held 30 public hearings into farm problems. The Commission found "a lack of any adequate system of agricultural credit, whereby a farmer may readily secure loans on fair terms."

In 1912, President Taft asked the American ambassadors in Europe to report upon rural credit systems of the principal European countries. In that same year, the Republican, Democratic, and Progressive parties all adopted planks in their platforms favoring improved agricultural credit facilities.

More commissions were formed and were sent to Europe to study farm credit operations.

The system which was eventually adopted and which became the basis for the Farm Loan Act of 1916 was the "Landschafts" of Germany, which had operated successfully since 1769.

The Farm Loan Act authorized 12 district Land Banks, each to serve a geographical region. The Houston Land Bank, established in April, 1917, was formed to serve the State of Texas.

Each Land Bank, in turn, was (and is) made up of farmer-owned Land Bank Associations. Through these Federal Land Bank Associations (Continued on Page 11)

Improved Texas Agriculture Objective Of Study Group

About 175 Texas agricultural leaders and Texas A&M University College of Agriculture staff members met here June 27-28 to begin a study of the state's farming and ranching industry.

The session was the Agricultural Study Convocation, a project requested by the A&M Board of Directors because of the importance of agriculture to the Texas economy, its increasing complexity, and the state-wide responsibility of A&M to the industry.

Nationally known authorities spoke at the meetings and suggested various approaches for the study.

A. E. Cascino, vice president for sales of International Minerals, Inc., in Illinois, said the study should be aware of the "great transition" underway internationally. The U. S. has operated in

an economy dominated by agricultural surpluses, but if it is to help feed the world, it must learn to live with the world shift to a food-deficient economy.

"The most important thing is to get rid of provincial interests and bias," Cascino said. "You can not think entirely as citizens of Texas or the United States. There are no political boundaries. You are citizens of the world, producing food for the world."

F. R. Wilcox of the American Arbitration Association at Pasadena, Calif., said farm people can no longer leave merchandising of their products to other persons.

"Through group action of various kinds, producers will find it necessary to advertise and merchandise to the extent of expenditures which, in some instances, will be as much as 10 to 20 percent of the wholesale price," he said.

H. C. Heldenfels of Corpus Christi, president of the A&M Board of Directors, said the convocation could be the most important planning effort ever made by the university.

He said if Texas is to remain an agricultural leader, it must use advanced technology and management, develop enterprises which have advantages over those of other states, and encourage in-state, out-of-state and world markets for its products.

W. W. Lynch of Dallas, president of the Texas Power and Light Company, said nothing is more important than research to agriculture, and nothing is more profitable.

The problem "seems to be one of enlisting the interest and support of the local people, of showing what can be accomplished and of laying the ground work for the rather substantial financial program necessary to put the lands in a suitable condition for high productivity," he said.

The Provost for Agriculture of the University of Florida, E. T. York, said that land-grant universities, such as Texas A&M, should seek help from other sections of the university instead of leaving the job entirely to the college of agriculture.

His talk centered on mobilizing resources of a land-grant university to support a dynamic agricultural industry.

"I would suggest very strongly that we need to mobilize resources within the university, but outside the college of agriculture, to assist with many problems which go beyond problems of agricultural technology," he said. "I should emphasize the fact that while some of these problems are peculiar to agriculture, many others are problems of a total society which are merely shared by agriculture."

A&M President Earl Rudder said an internal study by the university's College of Agriculture staff members has just been completed as a possible reference for the external study group. The external study should be finished late this year.

An investment in Your Future ..ATTEND CHURCH

DOOR OPENERS

Keys and churches are door openers. In both cases, each require you to put forth some effort. The key you must insert in the lock and turn. Our Lord made the way to heaven even easier, for all that you have to do is present yourself and believe.

"For by grace are ye saved through faith; and that not of yourselves: it is the gift of God: Not of works lest any man should boast: For we are his workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

"THE CENTER"
By Ronnie Parker

In John 12:32 Jesus says, "And I, if I be lifted up from the earth will draw all men unto myself." Jesus Christ is himself the center of Christianity. Personal, heart-felt attachment to him is the controlling principle in the Christian life.

The basis of Christianity is not a theory, nor a system of formulated doctrines, but it is a person. In Christianity Christ is the Alpha and Omega, the beginning and the end, the first and the last (Rev. 1:8).

The two great questions of Christianity are, "What think ye of Christ?" and "What then, shall I do with Jesus?" He who in heart and life answer these with true answers is a Christian. Above all other love should be the Christians love for Christ. He is the living vine from which to draw the power to sustain spiritual life. We must turn individual hearts, with their deepest devotion to CHRIST. He is the center.

You are welcome at all the services.

CONSUMER QUIZ

What a wide range of decisions you must make each time you shop in the supermarket.

If you are on a budget, or should be, and consider yourself well-endowed with common sense, take this quiz to see just how wise a shopper you really are.

1. The least expensive cuts of beef come from which part of the carcass? (1) Round (2) Loin (3) Chuck (4) Rib.

2. Your store is selling a dozen Grade A Large eggs for 56 cents and a dozen Grade A Medium eggs for 47 cents. Which is the better buy in terms of getting the most egg for your money?

3. Which of the following is the best preparation for your regular food shopping spree? (1) make out a list and buy only what is on it (2) check the ads to see what and where the best buys are (3) walk around the store and buy whatever appeals to you (4) don't keep a regular pattern of shopping.

4. Your market is having a

sale on ground round at 89 cents a pound. The store also sells ground chuck at 59 cents a pound and plain ground beef at 39 cents a pound. You'd like to stock up on chopped beef and use it for meat loaf, spaghetti sauce, chili and casseroles. The best buy, in terms of nutrition and economy, is the (1) ground round (2) ground chuck (3) plain ground beef.

5. The best way to store chicken in your refrigerator is (1) leave it in the original wrapping (2) remove the original wrapping, then cover loosely with waxed paper (3) remove the giblets and store uncovered.

ANSWERS: (Score 20 points for each correct answer.)

1. (3) Chuck. Knowing your cuts of meat can save a lot of trouble, time and money. A handy booklet put out by the U. S. Department of Agriculture tells about the grades of beef, the cuts, and best cooking methods for each cut. Write for Marketing Bulletin No. 15, "U. S. Grades for Beef." Since meat takes up a good part of your food bill, you would do well to study the information in this booklet. (Please include your zip code number in your address when requesting any USDA publication.)

2. The grade A Medium eggs are the better buy. A rough rule of thumb to judge egg prices on the spot is this: take either one-eighth or seven cents (whichever is easier) from the price of large

eggs. Medium eggs of the same grade category below this price are a better buy. (Remember, size has nothing to do with quality.) In this example, Grade A Large are selling for 49 cents to be equal in cost. Confused by this strategy? Send for another USDA leaflet, No. 442, "How to Buy Eggs —" and wise up on egg buying.

3. The best answer is (2), check the ads to see what and where the best buys are. Supermarkets often buy up large quantities of meat or other products and sell them as "specials." This is to attract customers to the store, but specials usually work to your advantage. Food ads also tell you what products are the best buys and are most plentiful that week. Follow the other practices too. They are all good. You should definitely make cut a list before you shop, but make it flexible. Do take advantage of the unadvertised specials in the store, but don't rely on impulse buying. It can be expensive.

It is also a good habit to read the columns of food editors in newspapers and magazines.

4. (3) Ordinary ground is fine for these uses. Ground chuck is recommended when you want hamburgers for the small fry. Ground round is used on special occasions.

5. (2) remove the original wrappings, cover loosely with waxed paper. Poultry, like other raw meats, is very perishable and should be stored in the coldest part of the refrigerator. The store wrappings should always be removed or punctured, and the poultry should be stored loosely covered. Do remove the giblets and store separately since they will spoil more rapidly than the rest of the bird. Poultry should be used within two days.

If you score 80 to 100 — excellent! You don't need to much extra help. Chances are you've had a lot of experience in shopping for food.

A FOURTH OF JULY FAMILY REUNION brought together these four brothers, three sisters and their mother. The brothers are (top, l. to r.) Bill Carter, Delton Carter, Delbert Carter and Loman Carter. Resweber, Harris County attorney; Dick Kirby, president, County Auditors Assn.; and Bill Waters, president, District and County Attorneys Assn.

Council is composed of 10 State Representatives and five Senators, with Smith as chairman and House Speaker Ben Barnes, vice-chairman.

CONTRASTING JOB SITUATION
Texas employment is continuing its upward trend, but at the same time, unemployment is rising too, the Texas Employment Commission reports.

Total employment rose from 3,867,600 in April to 3,898,000 in mid-May while unemployment rose from 121,000 to 124,000 during the same period. The number of workers on non-farm payrolls rose by 6,500 to 3,585,300, and farm employment jumped 23,900 during May. The 3,000 increase in unemployment was caused by early entrants into the market from schools.

SHORT SNORTS — Governor Connally has approved nine grants under the Economic Opportunity Act. Fort Worth and Tarrant County got the biggest chunk of money — \$368,980 — for use in

Higher education, pay raises for teachers and state employees, water development, state park and recreation expenditures. Texas Highway Patrol — all want in on the act.

The tax policy committee is headed by Rep. Ben Atwell of Dallas, who asked the Texas Research League to list possible sources for new taxes.

Proposed were:
Increase the state sales tax from its present two per cent to two and a half or three per cent, raising \$72,400,000 to \$144,800,000 a year;

Corporation income tax of 4.4 per cent (average of those in the 37 states which levy it), raising from \$18,000,000 to \$106,000,000 a year;

Graduated personal income tax, raising \$75,000,000 a year. (There are 36 states with personal income taxes.)

DRAFT CALL — Texas' part of fulfilling the national draft call for 31,300 men in September includes furnishing 1,381 men in July; 1,837 in August; and 1,585 in September, says Col. Morris S. Schwartz, State Selective Service Director.

In addition, between 4,000 and 5,000 Texas men will be called for pre-induction physical and mental examinations in September.

GRAIN FARMERS CAUTIONED — John C. White, Commissioner of Agriculture, advised Texas grain farmers to "make certain your harvest is stored in a state-licensed warehouse and to demand a valid Texas Grain Receipt."

Approximately 70 warehouses have failed to renew their licenses this year, though the grain harvest is well underway in many parts of the state. Grain stored in these warehouses is not protected by bonds and license required by law, said White.

MORE BOAT RAMPS — Thirty-three new boat ramps across the state, making a total of 94 such ramps, have been approved by the Texas Highway Commission.

Twenty of the new ones are adjacent to farm-to-market or park roads.

These new ramps will increase launching facilities by more than one-half and will cost \$241,800, or an average of \$7,327 each. Source of money, provided for under the Texas Water Safety Act, comes from Certificate of Number fees collected from Texas boat owners.

And, speaking of boats, new boat inspection fees and unclaimed boat gasoline sales taxes are reaping about \$100,000 a month for the state.

According to the State Parks and Wildlife Department, a new system is being set up so that fines collected for boat safety law violations will go to a State fund, rather than to county funds where most other law-breakers' fines are deposited.

BIG THICKET ENDORSED — State Parks and Wildlife Commission endorsed "in principle" the creation of a Big Thicket State Park. It will embrace some 15,000 acres of the three hundred thousand acres in Liberty, Hardin, Tyler and Livingston Counties known as the "Big Thicket."

Will Odom of Austin, commission chairman, said endorsement would be made "specific" after the Parks and Wildlife staff has studied the proposal. Then all the Commission needs is legislative approval.

OTHER PARKS NEED REPAIR
According to William M. Gosdin, park services director, state parks' buildings need repairs to the tune of \$970,000.

State Parks are expected to get \$2,200,000 for improvement from federal sources during each of the coming two years. But Gosdin said a complete statewide outdoor recreation plan is needed by 1970 to keep the state qualified for federal aid for park construction.

COUNTY GOVERNMENT STUDY
Lt. Gov. Preston Smith appointed the following as an advisory committee to the Legislative Council Study Committee on County Government:

Harold Green, president, County Judges and Commissioners Assn.; L. D. McCormick, president, County Treasurers Assn.; O. D. Ginegan, president, County Tax Assessors-Collectors Assn.; V. G. Young, assistant director, Agricultural Extension Services at Texas A&M University; Joe G.

family-neighborhood services, poverty centers and dental care. Waco and McLennan County received \$346,130 for day-care services booster education, remedial and summer education, expansion of Planned Parenthood.

Department of Agriculture designated as drought disaster areas Hemphill and Collingsworth Counties.

Dr. Hal Potts, Dallas, is new Pate and children of Torrance, Texas OEO, appointed by Governor Connally.

Sheffy's Chatter

Hi neighbors! We have all been busy watering yards and "party-ing."

Saturday morning, Myrna Cowsett had a bunch of ladies in for coffee and melon balls and tiny doughnuts. The occasion — her sister Eleanor Koehler of Ft. Collins, was here to visit the Cowsetts. Another sister, Ethel Womack, Monette Montgomery, Shirley Stephens, Carol Farris helped with hostess duties.

Friday afternoon many friends called on Mr. and Mrs. Sam Butler, who have been married for 60 years. Sam says "a long time with the same woman." Both looked fine. They received many lovely flowers and plants. Jerry and Jim Butler, grandchildren, and Nola Henderson helped serve punch and that beautiful cake, covered with sugar roses (Johnny baked). The town of Dimmitt wish you both, health, happiness and more years.

And the fun we all had wearing the long ago styles in the 4-H Style Show Friday night.

More new-comers to Dimmitt are Ronnie and Cheryl Smith who are here from Littlefield. They are winter time students at WTSU. Ronnie is with the Western Vegetables. Cheryl is secretary at L. C. Lee's Real Estate. They are Methodists. Cheryl is related to Irene Carpenter.

Mr. and Mrs. Don Shackelford and son Doug, are on a business and pleasure trip to Mesa, Arizona and around.

The 4-H Style Show under the direction of Irene Albrecht, narrated by Jackie McLeroy and Mrs. Jasper Proffitt was a big success. The young girls modeled the dresses they made and we old girls wore the styles of long ago. About 20 of us participated. Mrs. Etta Brashears who is 83, modeled a dress that was 60 years old, that had been worn by her mother, Mrs. Ramey, an early day settler. The dresses were interesting and makes us remember another day.

Most all of the county was represented at the planning meeting for the big historical pageant to be held in August. Miss Hazel Merritt and Betty Griffing presented the outline of the play to be given on the football field.

Betty Griffing is speech and theatrical director at Dimmitt High School. She helps with makeup, cosmetics and other ways behind the scenes at the big "Texas" play in the Palo Duro Canyon. She will help with our big Castro County History also.

Charles Houtchens left this week for Arkansas to be with his brother Doyle and Betty Houtchens. He will help do interior decorating at Gravette where they live and the surrounding area.

Monette (Mrs. Pie) Montgomery and her sister Mrs. B. M. Glass of Amarillo spent a few days visiting a sister Mrs. Oleta Patton in Ft. Worth. They all went on to Dallas to shop the big stores. Had some food at Port O Calls, where you can see the whole city from the glass walls on top of a big building in Dallas.

Gerber-Backus Vows Planned For August 3

Mr. and Mrs. Leonard Gerber announce the engagement and approaching marriage of their daughter, Connie, to Francis Backus, son of Mrs. Helen Backus. The wedding will be solemnized August 3 in the Holy Family Catholic Church in Nazareth.

hosts at a fireworks party at Joe's house Monday evening. Then they all came back to their house for chocolate cake and ice cream. Guests were Dr. Dennis and Mrs. Blackburn and boys, John, David and Paul, Houston and Verna Frye and children, Kim and Kirk and Jimmy Joe and Jane.

You meet such nice people at the beauty salon, for instance, Judy Matzinger, formerly of Denton, is at the Blue Coiffures. She lives with Brooka York, home ec teacher, who moved here in January from Mt. Pleasant. Also met Mrs. Connie Coulter, she and husband Jerry, and two-weeks old baby Cherie are from Clarendon. They are Presbyterians Church folks. Jerry is office manager at A-1 Mechanical.

Don Stokes, son of Mr. and Mrs. N. B. Stokes, is with the U. S. Navy stationed at San Diego, Calif. Another son Jim and his wife, the former Gwen Dunn, also live in San Diego. He is with a carpet company there.

The people who own cherry farms at Flathead, Montana are up there for awhile, the folks I heard about are the Ben Hills, Covingtons, Ted Newmans, Bill Reisdorfs, Ralph Smiths. Jerry says the Joe Butlers are there and have bought a new house on or near the lake and the Montana folks round about gave them a big housewarming party. Betty and Buck Woods of Muleshoe went up this week for a visit. The girls are sisters.

Jane Blackburn was hostess at bridge and luncheon Tuesday. She served smoked turkey, wild rice, green salads and an orange fruit dessert. A table arrangement of orange and yellow flowers and her pretty summer cotton dress in yellow, orange and green matched her food decor.

Her guests were: Nancy Ross, Peggy Prather, Ruth Jackson, Jerry Butler, Katy Graham, Mary Jo Brown Carolyn Jones Beth Jones, Joy Baker, Roberta Stokes Shirley Wise, Mona Merritt Martha Dannevik and Gail Parsons.

Mary Jo won high score with Mona guest high and Ruth traveling.

Alvin and Frances Frazier, son Jerry and daughter Cara Nell, and David Wimberley have returned from a vacation trip to Arizona. They stopped off at Wilcox to visit the A. H. Howell's. She was Ellene Ivey, a sister of Frances'.

Mr. and Mrs. Don Johnston and family of Abilene were here this week to visit his mother, Mrs. Pearl Johnston. They all visited son, Chesley and family in Herefors for a hamburger cook-out supper one evening.

Mr. and Mrs. Lee Roy Rushin and three children have moved here from Plainview. They go to the Baptist Church and Lee Roy is with Harry at Piggly Wiggly.

Lorena Warnock and children of Eldorado, Texas, Lee's nephew Stanley Staggs and son from Okla. City have been guests for a few days with Lee and Belle McAfee. Also Mrs. Thelma McAfee's children Charlie and wife, daughter Monlene and family were here

from Pampa. Mrs. Thelma McAfee is seriously ill in the Plains Memorial Hospital.

Sheri Lynn Bruegel, Nita Singer, and Lisa Huckabay celebrated their 11th birthdays at the Skating Rink Wednesday July 6th. Mothers Gail Bruegel, Betty Singer and Betty Huckabay served home made ice cream and cake to 15 girls. Juanita Bruegel (grandmother) said she had 3 bowls of ice cream.

Guests in the Duwayne Wallace home this week were Mrs. Joy Patterson (mother of Sue) of Austin and Lue, twin sister, who lives in New Orleans.

Sandra Sanders Yarbrough of Corpus Christi is visiting this week with her aunt, Mrs. C. O. Burt, Hart, the Ray Rileys and

M. L. Simpsons and with other relatives in and around Dimmitt and Hart. Her children, Cindy, Debbie, Michael and Melanie are with her.

Mr. and Mrs. P. L. Cunningham were in Ruidoso last week. They visited Mrs. Robert Singer some, played a little bridge, saw the horses and visited the Angleys who were there from Earth.

Mrs. Helen Killgore of Roscoe is visiting her brother Jack Cowsett and family and Ray Cowsett of Hereford who is ill. Ruby Woods called, and said to tell Uncle Jay of KDHN that the ladies of the Volunteer Auxiliary of the Fire Fighters make a good salad — all different. Oleat Sanders and Ruby said they had a very good supper Friday night at

their girl party, 11 came. John Summers and family of Clackmas, Oregon and all of the Dimmitt Summers were guests of Mr. and Mrs. Jack Summers on Friday.

Mrs. Etta Brashears visited a few days with Mr. and Mrs. Gus Barron at Tulia and Sarah Northerr, of Amarillo spent one night this week with her mother, Mrs. Brashears.

Oleta Golleon told us about little Tod Touchstone (their 3-year-old grandson) falling down and breaking the top part of his thigh bone. He (his parents are with him) is at West Texas Hospital in Amarillo. He is doing nicely now. Oleta visited the Burches in Colorado recently. They told her that son Jesse

Burch, who is with the Naval Air Corps will be in Hawaii for the next three years Jesse is a former Dimmitt boy. Nice place to be stationed!

Mrs. Horace Carlile is hostess Friday morning, July 15th at 9:30 at a coffee to celebrate taking the cast off her healed up broken arm. She told me to tell you to "Ya all come."

GIRLS ATTEND WESTERN REPUBLIC

Ann Scarborough, daughter of Mr. and Mrs. J. S. Scarborough, and Yvonne Huseman, daughter of Mr. and Mrs. Vincent Huseman of Nazareth, are both presently attending Western Republic College in Amarillo.

LETTER TO THE EDITOR:

Dear Editor:

This is one of those days when I am looking up instead of down my nose. Almost two weeks of Medicare have gone by and all the casualties among our doctors was in the last week before Medicare became effective. The prophets of doom about all the hospitals being half big enough and the nurses and doctors winding up in total prostration did not come to pass. My guess is within five years any doctor hearing a derogatory statement about Medicare will try to punch the author of the statement in the nose. They will be fighting for it harder than they are against it till now. It is a familiar observation that a little articulate minority will do most of the talking in any organization if allowed the opportunity. Simultaneous with Congressional debate was A.M.A. national convention in New York. I remember two articulate delegates. One wanted to defy Congress in case the Medicare bill passed, the other wanted to save the country from Communism. I guess they represented about five percent of the A.M.A.

Roger Babson and Drew Pearson both say it is a windfall for the doctors and the hospitals. Let's all hope the doctors prove them both wrong and I believe they will.

If Senator Tower was half as heavy as he would like to be his platform and voting record would

Walter Rogers' NEWSLETTER WASHINGTON

THE FOOD DOLLAR AND THE FARMER

The farm share of the consumer's dollar spent for food ranges from about 10 to 70 percent, according to the recently issued report of the National Commission on Food Marketing. This lengthy survey of the economics of food marketing, which from farmer through retailer comprises the Nation's largest industry, shows that farmers are not to blame for higher food prices in recent years. The report points up the extent to which farmers are being made the scapegoats by other segments of the economy.

The Commission's report is highly controversial, especially as it concerns ostensible problems of size and bigness in food marketing and in processing new regulations and restrictions. In the view of many, the Commission exceeded its grant of Congressional authority by making recommendations for action to be taken — and these aspects of the report, to which some Commission members issued strong dissents, are sure to be followed by a long round of argument and debate in Congress and the country.

But the factual side of the report — the studies on where the housewife's food dollar goes — are very revealing, and in this research the Commission and its staff performed a helpful service.

It is obvious that when the housewife buys a food product in the market, she pays for all the services involved in producing, processing, and distributing the food. Many housewives, however, don't understand the relationship of the price received by the farmer to the price she pays. Since the product is food, too many housewives tend to blame the farmer for the cost. The Commission report should help many Americans to understand the truth in the farm-retail price spread. Using figures for 1964, the Commission determined that consumers' expenditures for domestically produced farm food totaled \$69.8 billion. The marketing bill made up 68 percent of the consumer's food dollar that year; the farm value was 32 percent.

That \$69.8 billion spent by consumers in 1964 breaks down as follows: Of the \$47.3 billion marketing bill, \$20.8 billion went to labor costs; \$5.1 billion went to transportation; \$18.7 billion is classed as "other" costs, including costs of buildings and equipment, containers and supplies, and advertising and promotion; and \$2.7 billion were corporation profits. The arm value — again 32 percent of the total spent — was \$22.5 billion.

As I indicated above, the report notes differences in the farm share of the consumer's dollar for specific products. For example, the farm share for butter is approximately 70 percent because processing is relatively simple, transportation costs are low since the product is highly concentrated, and handling costs are moderate. By contrast, the farm share of the dollar spent for canned to-

matoes is low — 16 percent — mainly because of high processing and container costs. Twenty-one leading farm food products were surveyed in detail. This is the breakdown for a pound of choice beef retailing for 70.3 cents: Retailing costs were 2.3 cents; wholesaling, transportation, and other distribution costs were 5.3 cents; assembly cost 3.8 cents; and farm value was 42.4 cents. For one pound of white bread, retailing at 20.7 cents, the breakdown is: Retailing, 3.7 cents, wholesaling, transportation, and other distribution, 6.1 cents; processing, 6.7 cents; assembly, .2 cents; and farm value, 4 cents.

Hand it to the farmer and his efficiency. The report states that although farm prices of a market basket of foods were unchanged between 1950 and 1965, the farm-retail spread rose 37 percent and retail prices increased 20 percent.

PARENTS VISIT

Mr. and Mrs. Roy Ivey and daughters Celia and Allie are visiting Ira and Jeannine Wimberley this week. The Iveys are Mrs. Wimberley's parents. The girls and Jeannine sang a trio at Lazzibuddy First Baptist Church Sunday morning. The group attended a family reunion in Plainview Sunday also.

Art Gallery Perspective

by Alice Cowen
Several Dimmitt dabblers are planning to attend the five-day art workshop course in Amarillo the 18th through the 22nd. It is sponsored by the Palette Rouge Art Shop in Sunset Center. Those who have signed up are Theo Campbell, Babe Scoggin, Tommy Bischoff, Eddie Lee Smith, Ethel Jones and his columnists.
Leona Turner is the instructor. Mornings will be spent in portrait painting, and afternoons in landscape. Mrs. Turner has studied at the University of Texas, Texas State College for Women, and at West Texas. She is an active artist, has had many works published, including articles, and is a former staff artist for the Globe-

News Publishing Company in Amarillo. She maintains a private studio in Amarillo.
Eddie Lee says her pupils on Tuesday afternoon are still painting enthusiastically. They include Kathleen Burrus, Jo Eddie Riley, Lee Ann Merritt, Karyn Hughes of Ft. Worth, and Joan Braafladt. The studio is open for anyone who is interested in painting there on Tuesday afternoons.
Our Beth Moore, who distinguished herself by having a painting to place in the exhibit last year at Childress, is the new Art Editor for the Dimmitt High School annual. She will attend a five-day school for annual staff members at Tech August 8-12.

Jesse C. Burches Visit Grandmother

L. C. DR. and Mrs. Jesse C. Burch, and daughter, Brittany visited his grandmother, Mrs. Stella Burch on Thursday. They will be leaving in about ten days for Hawaii, where Jesse will be stationed for three years.
They will visit with Bettye's parents in Houston before leaving the States.

MOVE TO CALIF.

Fred Lenz has resigned as highway patrolman in Floyd County and accepted a position with Border Patrol at Chula Vista, Calif.

He was formerly with the highway patrol in Castro County. He is married to the former Sharon Rothwell of Dimmitt and they have one son.
Mr. and Mrs. Lenz and son visited with her father, Junior Rothwell and grandmother, Mrs. Leona Rothwell and also in the J. M. Wright home this week. They were enroute to Chula Vista.

Teaching Set-Up Recognized As Outstanding

Maurine Ricks Moore of the National Guild of Piano Teachers recognized the Dimmitt piano

teaching situation as "outstanding" in a recent letter to the National Guild of Piano Teachers in Austin.

Mrs. Moore pointed out that the community's three private piano teachers are Guild members and that piano studios were included in the new schools for these teachers' use. She said that this particularly helps the teachers

Federal Land Bank—

(Continued from Page 1)
ations the Banks make long-term, low-interest real estate loans to farmers. Upon becoming a borrower the farmer also becomes a stockholder by taking 5 percent of his loan in FLBA stock.

The farmers thus own the Association, which own the Land Banks themselves.

While the Federal government was at first financially involved in the Land Banks — it subscribed about \$8.8 million of the original \$9 million needed in 1917 — there is now no "government money" in the Land Banks, and there hasn't been any since 1947, when the last of the federal subscriptions was repaid to the Treasury, Mr. Weatherford says.

All 12 Land Banks went into operation in 1917. Farmers who had been paying as much as 10 percent per year or more interest for loans stood in line for Land Bank loans at 5 percent per year. By November 30, 1917, local FLBA's throughout the country had made 14,000 loans totaling \$29,824,656. A year later, loans reached a total of \$147 million.

There are seventy-three Federal Land Bank Associations in Texas. All are solidly solvent and prospering. And while their fundamental purpose is to provide a service to farmers, with profit a secondary consideration, the FLBA's in the Houston district showed a total net worth of almost \$50 million at the end of 1965.

Operations of the 12 Land Banks are supervised by the Farm Credit Administration, an independent agency of the Federal government paid for completely by earnings of the banks.

Since 1917, the Federal Land Banks have loaned in excess of \$12 billion to farmers. The 10th district bank, according to Mr. Weatherford, has loaned more than \$1.1 billion. By the end of 1965, the 12 Land Banks had made nearly two million loans.

No farmer has ever lost a dime he has invested in association stock in this district, Mr. Weatherford said. Even during the depression years, when some of the associations' stock became impaired due to financial difficulties, every stockholder ultimately received full payment for his stock.

The Land Banks haven't cost the government, and thus the taxpayer, any money either, he said. For a period during the depression the government advanced money to the Land Banks to help some of its members hold on to their farms. Every cent of that was repaid.

As owners of their FLBA's, farmers have received good returns on their stock.

The investing public which has bought Land Bank bonds over the

years had done well, too. All bonds sold by the 12 Land Banks (which consolidate on bond issues) are supported by first mortgages on agricultural real estate. Land Bank bonds are generally classed as non-risk assets, and fit into a category of investments regarded by many as comparable in quality to Government securities.

These bonds are sold nationally through security dealers and deal-banks.

The 12 Land Banks, overall, paid out \$17.9 million in dividends in 1965, \$2 million more than in 1964.

Nationally, the 12 Land Banks had 384,246 loans for \$4.3 billion outstanding at the end of 1965. The land volume was up 15.1 percent from the previous year.

While the 50-year-old Farm Loan Act changed farming from a way of life into a business, its effects upon the American economy and everybody's way of life have been even more profound, Mr. Weatherford believes.

"If the farmer hadn't been able to change his ways, he wouldn't be able to feed his share of a population of 200 million today. A lot of us might not be eating very well. And if he hadn't been willing and able to use capital and technology to keep up with the times, food prices would be a good deal higher.

"But he has more than kept up. One farmer today produces enough for 33 people. As recently as 20 years ago, he wasn't producing enough for 15.

"That's a rate of progress few industries can match."

TIPS FOR OUTDOORSMEN
by Vern Sanford

EASY PLUCKING—Ducks are hard to pick clean. So, when plucking your birds, ease the job by using an ordinary rubber stall on your finger. Stall helps in gripping the little feathers and inner down. They may be purchased at most any drug store.

WATCH A DUCK'S HEAD—Stalking ducks on ponds and farm tanks is a popular Texas sport. However, ducks are wary critters and you must be careful and sly when creeping up on them. Otherwise they'll flush prematurely.

There is one sure way for you to determine when's the last minute to rise and shoot. A duck—when it's ready to "take off"—will jerk its head rapidly back and forth.

IMPROVISED RAMROD—Any sportsman who has done much hunting has been caught in the woods when he needed a ramrod and didn't have any.

You can make an improvised ramrod by cutting a straight sapling about 18 inches longer than your gun barrel. Whittle this down until it's slim enough to run through the bore. Then split one end and insert a piece of rag, such as a handkerchief, to serve as a swab.

BAG FOR 22's—Two objections to 22's is the way the box disintegrates in your pocket and the difficulty one has in returning unfired loads to the box. There seem to be twice as many cartridges to put back than you took out.

Eliminate both these nuisances by emptying the entire box of cartridges into a zippered tobacco pouch. Such a container is pocket-size, spillproof and waterproof.

MARKING YOUR DEER—A deer hunter often is faced with the job of getting his kill back to camp before nightfall. Usually this occurs when hunting quite some distance from camp.

It is much better not to try to lug the kill in after dark. Leave it where it lies. But protect the carcass from being molested by predators by tying your bandana around an antler prong.

Human scent on the hanky will keep away other wild animals.

AVOID BREAKING FIRING PINS—To avoid breaking the firing pin, when dry firing your handgun, replace the primers in six empty shells with a tight-fitting piece of leather in primer pockets. This cushions the blow of the firing pin.

SALT AND PEPPER STRAWS—For camping conveniences and space-saving purposes, make individual salt and pepper shakers by filling ordinary soda-pop straws.

Pinch one end of straw closed, pour in salt or pepper, then pinch other end closed. Place one strawful of each condiment beside each plate.

REPAIRING WADERS—When your fishing waders become worn and cracked, try covering worn spots and cracks with tire paint. This type of paint won't crack and its pliable.

Your waders so treated will serve you for several more seasons.

DON'T LOSE YOUR ARROWS—Arrows frequently are lost from the quiver. To prevent an occurrence of this sort, fit a 2" chunk of styrofoam into the bottom of the quiver.

Arrowheads then can be stuck into this pliable material. But, a slight pull will release them.

KEEP POSSESSIONS SAFE—Small objects sometimes are lost overboard in rowboats, or other small craft, during rough weather.

Keep such valuables safe by screwing, or nailing, the metal top of a widemouth mason jar to the underside of a boat seat. Then place your keepsakes inside the jar and screw it to the top that you fastened under seat.

Not only will your valuables be out of the weather but they'll also be off the floor, partially hidden and out of harms way.

LIGHT WEIGHT RATIENS — Experienced sportsmen, out for only a day or two, do not tire themselves by lugging along a lot of heavy cooking stuff. Instead they package a supply of raisins, chocolate chips, and nuts before leaving home. Secured in a plastic bag, these eatables afford plenty of concentrated nourishment that is light to carry.

And of course Texas "jerky" can't be beat for energizing, concentrated food.

LOOSENING TENT ROPES—Loosening tent ropes that have become wet can be a chore.

Make such work easier by digging a 6-inch hole on the tent side of each pole. Then as you slide the poles into the holes the ropes become loosened.

Washington Report

Here's a listing of where the United States' \$104,220 million in foreign aid has gone since 1945. It is interesting for Americans to consider how many of these nations have failed to support U. S. interests in the United Nations and in keeping of world peace.

I believe our expenditures for foreign aid can be considerable waste in the program. I expect Congress this year to reduce these costs and to look more closely than ever at the program, keeping only that which is obviously working, discarding that which is wasteful.
