and improvement of the school first morning of school. in the early summer the legal Everybody is cordially invited under the ditch. educational institution.

District Enlarged

The territory of the district in the practical workings of the school has been extended making the scholastic population of the school much larger. Arrangements were perfected by which the graduates and the overs in the Maverick school district will be students in the Bronte school. A bus route into the Maverick section of country has been arranged and a new modern school bus has been purchased. Hence those students in the Maverick precinct who otherwise would have been deprived, have the advantages of a good school brought to their

In the above like manner the shool's advantages have been extended to those in the Tennyson community who were legally barred from the advan-

Improvements Made During the summer decided in school circles has been look- tified. More rooms have been provided in the building and the whole of the interior has been painted and made more attractive. Hence as Monday morning approaches interest and enthusiasm in shool work runs high and the opening of the 1934-1935 session opens under the most favorable auspices, perhaps, of any session in the school's history.

Opening Exercises The Bronte school opening exercises will be held Sunday evening, September 16, at the school auditorium. While the spiritual will predominate in the exercises, there will be a discussion of the school and its work following the worship.

Rev. Lewis Stuckey will direct the program for the religious exercises.

Following is the program for the worship of the evening:

Community song, lead by Mrs. R. E. Cumbie, with Miss Susie Tannehill at the piano.

Invocation, Rev. D. M. West. Scripture reading, Rev. Lewis Stuckey. Solo, Mrs. C. C. Holder.

iermon, Rev. Wallace N. Dun-Following the religious servic- had yielded.

Address, Dr. J. D. Leonard.

Address, H. O. Whitt. Address, C. R. Owen.

Closing song.

Benediction, Rev. Lewis

#### BUYS HI-WAY GARAGE FROM OSCAR LONG

Evert Best has bought the Hi-Way Garage from Oscar Long and has taken charge of

The Hi-Way Garage is located in the rear part of the Gulf Service Station building. Mr. Long established the Hi-Way Garage some months ago and had built up a good trade. But Mr. Long was offered a good straight salaried position at Palmer and so he decided that was the best thing for him. Mr. and Mrs. Long moved to Palmer first of the week. Their friends regret to give them up but wish them well in their new home.

Mr. Best needs no introduction. He was born and reared here. He knows everybody and everybody knows him. Mr. Best is an experienced auto mechanic. He has had many years experience and knows from practical knowledge, his work.

Mr. Best says that he is going to be right on the job all the time will do his own work and hence will know that every job is turned out right.

Mr. Best has an announcement with reference to his garage in this issue of The Enterprise, turn and read it.

Mr. and Mrs. Arthur Hendry and children of Blackwell were enests in the editor's home Thursday.

COMMISSIONER PREC. NO.4 Sam Gaston, Jr.

The Federal Deposit Insurance Corporation WASHINGTON, D. C. MAXIMUM INSURANCE

FOR EACH DEPOSITOR

CONTRACTOR CONTRACTOR

The First National Bank in Bronte today received from the Federal Deposit Insurance Corporation at Washington the official signs which will hang at all receiving windows as visible evidence that the depositors of this institution are insured.

The First National Bank is one of more than 14,000 licensed banks in the country which are receiving these signs. Insured banks are able to offer protection to their depositors up to \$5,000. Statistical studies have shown that this maximum fully protects more than 97 per cent of all the depositors in insured banks.

A statement by the Federal Deposit Insurance Corporation follows:

The purpose of the signs is to let depositors know which banks are insured. Heretofore, although 90 per cent of the licensed banks are insured, depositors have had no easy means of identifying them.

If by any unforeseen circumstances, an insured bank should suspend, the Insurance Corporation would begin paying off the depositors just as soon as a receiver was appointed for the closed institution. The depositors would receive their money in a few days instead of waiting months or years as was the case in the former method of liquidation. This is not only a benefit to the depositors but it saves the community from a terrible economic and social blow. When the depositors receive their insured accounts they assign their claims to the Insurance Corporation. Thereafter liquidation proceeds on a business-like basis with the maximum chance of the Corporation and other creditors being paid in full."

# OF ROAD TESTS! MOTOR OIL DEN QUART STAY

NEW and Improved Conoco Germ Processed Motor Oil is the most thoroughly tested oil ever put on the market! And every test proved that it gives greater motor protection and lower oil consumption!

First, it was tested in more than a hundred cars, trucks and tractors for 963,000 miles of road tests.

Then it was tested against five other na-

tionally known oils in the Destruction Test at Indianapolis Speedway. One fill of this new, patented oil carried a car 4,729 miles -outdistancing the best of the competing oils by 1,410.2 miles!

Drive into a Conoco Red Triangle Station today and fill with New and Improved Conoco Germ Processed Motor Oil-the oil that every test has proved is a better oil!

# Appreciation

TO THE VOTERS OF RUNNELS COUNTY WHO ARE READERS OF THE BRONTE ENTERPRISE:

I wish through the columns of The Enterprise to express my sincere appreciation for the vote of confidence given me, by electing me your county superintendent in the recent election.

In return for your expression of confidence I pledge you unfailing effort to violate in no way the trust you have placed in me; I pledge myself to carry out the duties of the office fully and with fairness to all to the best of my ability.

DEPOSITS INSURED The Federal Deposit Insurance Corporation WASHINGTON, D. C. 5000 MAXIMUM INSURANCE

The First National Bank of Ballinger today received from the Federal Deposit Insurance Corporation at Washington the official signs which will hang at all receiving windows as visible evidence that the depositors of this institution are insured.

The First National Bank is one of more than 14,000 licensed banks in the country which are receiving these signs: Insured banks are able to offer protection to their depositors up to \$5,000. Statistical studies have shown that this maximum fully protects more than 97 per cent of all the depositors in insured banks.

A statement by the Federal Deposit Insurance Corporation follows:

The purpose of the signs is to let depositors know which banks are insured. Heretofore, although 90 per cent of the licensed banks are insured, depositors have had no easy means of identifying them.

"If by any unforeseen circumstances, an insured bank should suspend, the Insurance Corporation would begin paying off the depositors just as soon as a receiver was appointed for the closed institution. The depositors would receive their money in a few days instead of waiting months or years as was the case in the former method of liquidation. This is not only a benefit to the depositors but it saves the community from a terrible economic and social blow. When the depositors receive their insured accounts they assign their claims to the Insurance Corporation. Thereafter liquidation proceeds on a business-like basis with the maximum chance of the Corporation and other creditors being paid in full."
