Anti-Strike Bill Passed Over Veto

The big news in Washington last week-end was the passage of the Connally anti-strike bill over the Presidential veto.

I voted to override that veto. I did so because I am not ready to place the interests of John L. Lewis above those of this nation and the American people who want to get on with the war.

gressmen and the bulk of the A-Like most of the other commercial people, I had had my fill of the civil anarchy fostered by Lewis and others of his calibre.

I have not witnessed a more tense and dramatic occasion since I came to Congress. As the news spread through the House that the Senate had just received and promptly overridden the President's veto, Congressman Woodrum of Virginia, than whom there are few more eloquent and forceful, arose to say:

"The Chief Executive, for reasons undoubtedly sufficient in his own mind, has vetoed the Connally-Smith bill. The Senate has passed the bill over the presidential veto. The clerk of the Senate is at the portals of the House of Representatives with a message from the Senate. It is timenow for action. Every man is entitled to his own individual opinion, and he must take his own responsibility. The President can take his. I want to take mine. I want to send a message to the boys in the fox holes and on the battle fronts that those of us at home are going to do our part. We should pass this bill over the veto."

The vote was 244 to 108.

What the Bill Provides . . .

My only objection to the bill is that it does not go far enough. It provides that in case of a threat of a strike in a war production plant, at least 30 days must expire before strike action could be taken, during which time a secret vote is taken of all employees. If a majority votes to quit making war materials to fight Hitler and Tojo with, the President can step in and take over the plant. It then becomes a criminal offense for any worker or leader to "coerce, induce, conspire or encourage" anyone to impede output by strike, slowdown or other interruption.

The bill does not deprive legitimate, patriotic laboring people of a single right.

But it does very properly impose certain restrictions and controls over labor leaders who are irresponsible, defiant and selfish, and who in recent years have become intoxicated with power.

And it does provide some insurance to labor of its right to work when the life of this na-

Rev. Lewis Stuckey -- Will Lead Revival Meeting at Norton

Beginning Friday night of next week, July 9, Rev. Lewis Stuckey of Hempstead, Texas, will begin a series of revival services with the Baptist church at Norton.

Rev. Roy Stuckey, brother of the visiting minister, is pastor of the church. The pastor and interested members of the congregation have set everything in order much as possible. They have thoroughly advertised the meeting.

The visiting minister is widely and well known in these parts. He was pastor of the Bronte Baptist church for several years and did a good work while serving in that capacity. He and Mrs. Stuckey have many friends here who will be glad to know that they are coming back this near "home," for a meeting.

Pastor Stuckey and his interested members join in a hearty invitation to each and all to attend the meeting.

FORMER BRONTE YOUNG LADY MARRIES AT IRAAN

Friday afternoon, July 25, 1943, at Iraan, Miss Lucy Lowry, formerly of Bronte, but more recently of that place, became the bride of George Bevins, also of Iraan, in a single ring ceremony. Rev. H. D. Christian, pastor of the First Baptist church of Iraan, administering the nuptial vows.

The bride was born and reared in Bronte. Following her school work in the Bronte High school she took a course in beauty culture and became a beauty shop operator. She operated her shop at Iraan until recently.

The bridegroom is in the employ of a contracting firm at Iraan. Following a short wedding trip Mr. and Mrs. Bevins will be at home at Iraan.

The many friends of the bride in and around Bronte, will wish for her and the one to whom she has given herself in marriage, every blessing in life.

T. C. Price who is at Marlin, taking the baths, writes that he is improving. Mrs. Price and Mrs. C. C. Glenn accompanied Mr. Price to Marlin early last week, returning Friday. Miss Betty Jo Glenn went as far as Waco and visited relatives until Mrs. Price and Mrs. Glenn returned.

Mrs. Tom Williams returned Tuesday from Wichita Falls, where she had been for some time at the bedside of her sister, Mrs. W. B. Fulgham who underwent major surgery. Mrs. Williams left her sister recovering most satisfactorily.

tion is at stake.

Some Dire Threats

Some of the labor leaders opposed the bill very vigorously, and went so far as to threaten that their unions would "use all the resources at their command" to "vote out of office" those of us who supported the anti-strike bill.

But the vast majority of the Congress was more concerned with stopping strikes and winning the war than with such political threats.

A PRAYER FOR MY DEAR BOY AND HIS COMRADES

Recently, under the confidence of a longtime, and intimate friendship we were privileged to see the writing below, which is the prayer of a mother, reduced to written form, for her soldier boy son, and his comrades. The mother is approaching old age and her prayer has in it the expression only of a mother's heart. It so nearly expresses the mother heart of the world today, that we take the liberty without the mother's knowledge, to print same.

O, God, our Father: Thou hast taught, that when trouble comes to us in this life, to come to Thee. And Thou hast promised to hear when we come to Thee as we should.

Thou knowest that throughout life we have had trouble and sorrow. But, now, as we approach old age, it seems life's deepest sorrow has come. Hear us, O, God—hear a mother praying for her boy and for his comrades, in this cruel war. He is yonder, somewhere—Thou knowest his whereabouts. We pray Thee, keep him, wherever he is, and under whatever circumstances he may be placed at this moment, or at any other time. Keep his feet in right paths, that he may not go astray—spare his life wherever he may go and let him come back to his companion and to mother and other loved ones and friends, a manly man, devoted to his family, to his country and to life's best things. Let him know, dear God, that mother loves him as she did when he was a little baby in her arms, and that she thinks of him every hour during the daylight time and that she wakes up at night, and prays for him. Help him, dear God, to be a brave man and face the enemy and do his duty under all circumstances. And let him know that if he must die for his country, it will be a comfort to mother, if he dies only as a brave man can die.

I ask this, dear God, in Jesus' own dear name. Amen.

GAS RATION BOOK NOTICE

H. O. Whitt, county chairman of the ration board, requests The Enterprise to state that the gas ration books A application blanks have been received and are now at the ration board office. Those wanting new A books are requested to call at once at some service station or at the ration board office and make application for the new ration book. This is important, if you are going to want a gas ration book next period.

Paul Brown with W. B. Ferguson Lbr. Co., at Sweetwater

A business change in Sweetwater in which Paul Brown becomes manager of the W. B. Ferguson Lumber Company is a matter that will be of interest to the many friends of Mr. Brown throughout the Bronte-Blackwell section of country.

Mr. Brown has been in the lumber business in Sweetwater for many years, being assistant manager of the Burton-Lingo Company in their Sweetwater branch.

Therefore, Mr. Brown not only has a host of personal and business friends throughout the Sweetwater trade area, but he is also a thoroughly trained and experienced building materials man and hence can give estimates and advice on all construction jobs. He is a pleasing gentleman and always courteous. He invites all his old-time friends and all others to visit him at his new place of business. Read the announcement of the W. B. Ferguson Lumber Company in this issue of The Enterprise, announcing the connection of Mr. Brown with the Company as manager.

Mrs. Watson Kirk of Barnhart is a guest of her sister-in-law, Mrs. Louise J. Hanson.

Methodist Church Announcements

To avoid any confusion in the minds of the people, let me announce as to the hours of worship for the Methodist churches at Bronte, Tennyson and Hayrick:

There is worship at Bronte every Sunday morning and evening.

Worship at Hayrick is the 1st and 3rd Sunday afternoons each month at 3 o'clock.

Worship at Tennyson is the 2nd and 4th Sunday afternoons each month at 3 o'clock.

Everybody is cordially invited to attend any and all these hours of worship.

A. Hanson, Pastor.

M. E. Conferene at Hayrick, Sunday, as Announced

Let there be no misunderstanding with reference to the Methodist Quarterly Conference at Hayrick next Sunday.

Due to the fact that District Superintendent W. F. Hamner came out from San Angelo and preached at the Bronte Methodist church Sunday night, some may wonder whether or not he is to be at Hayrick Sunday. He will be there as announced in The Enterprise last week. Dr. Hamner will preach at 11 o'clock. Dinner will be served on the ground and the Quarterly Conference will be held in the afternoon.

But, as Dr. Hamner preached in Bronte Sunday night, he will not preach here next Sunday night.

Mrs. Howard Brock of Barnhart is visiting her parents, Mr. and Mrs. W. H. Mackey, whose home is five miles northeast of Bronte.

Army Trucks will Cover the County, Saturday, July 10

Yes, there have been scrap drives in Coke county—and much scrap has been collected.

But, the most thorough and outreaching drive for scrap iron and steel is now being launched since the gathering of scrap was inaugurated by the government.

The drive for scrap in Coke county is just a part of the nation-wide plan to collect the scrap that remains, from the farms and ranches throughout the country. The war plants are running low on scrap iron and steel. There is much of this metal at the farm and ranch homes of the people everywhere, which, if collected, and turned in to the war plants, will afford sufficient metal of the kind needed to carry on the work indefinitely.

Hence, under government direction, a united effort is made in every county, to go into the very fence corners and get the scrap to the government with which to supply the pressing need. Texas is divided into districts. San Angelo district is composed of ten counties, one of which is Coke county.

Unled the direction of Lt. D. R. Parsons, all these counties are going to be worked one at a time, until the metal that should be in the hands of the government, is collected. Lt. Parsons has a detachment of ten army trucks and forty men, to man these trucks, whose duty it is to gather the available metal.

Monday morning Lt. Parsons accompanied by County Commissioner S. A. Kiker, called on The Enterprise and gave the information we are imparting here.

The plan is for every farm and ranch to gather every bit of the available scrap iron and steel and place same at mail box of the farm or ranch that gathers the metal. If you have no mail box contact S. A. Kiker, phone 18, or Frank Keeney, phone 49.

The government is asking that those who yet have metal of the kind wanted, to donate this scrap to the government. Lt. Parsons and his detachment are stationed at Ballinger. They have machinery there with which to cut the scrap into proper lengths, so it can be shipped to the mills.

Folks of Coke county, do your duty—gather the last pound of this metal and place at your mail box or contact one of the above phones and advise as to the scrap you have gathered. Doing this is just as important as it is for our boys to get in their planes and bomb the "day-lights" out of Hitler and the Japs—so, let no one fail to do his full duty in this critical hour.

And remember, you must have your metal gathered and ready for the army trucks by Saturday morning, July 10.

Mrs. Inez Franklin was a shopper, Saturday, in San Angelo.

1st Lieut. and Mrs. Erwin Wilson have been visiting Mrs. Pink Eaton. Lt. Wilson has returned to North Carolina where he is stationed now. Mrs. Wilson is making her home with Grandmother Eaton for the duration.

USE OF SALT AS AID TO PREVENT CRAMPS FROM HEAT SUGGESTED

Austin, Texas, July 1.—To help prevent heat cramps, salt water should be added to the drinking

water of those persons whose work is such as to cause excessive perspiration, Dr. Geo. W. Cox, State Health Officer, advises in an attempt to forestall a possible increase in the number of heat victims as the Texas thermometer hits 90 degrees and above.

Laborers, mechanics, farmers, and white collar workers whose work causes them to sweat profusely are in danger of having their body salt content become

deficient, with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as forty to fifty grams of salt during hot days. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. However, salt deficiency may be prevented by

taking salt in various ways. Where prepared salt tablets are not available, a pinch of table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains in the abdominal region, headache, and in severe cases, by nausea and vomiting.

Western Union Telegraph School at Sweetwater

One of the most "home-like" places of business the editor has visited recently is that of the Western Union Telegraph School at Sweetwater.

Although it was a very busy place, yet courtesy was supreme and the visiting editor was shown every consideration. J. W. Bibb, chief operator, and manager of the school, had finished his shift, and had gone home for the day. Hence, we did not have the pleasure of meeting him personally, except our conversation by telephone. But, Mrs. Lola Lee Pryor, one of the teachers, when we made known our identity, showed us through the school. Mrs. Pryor is a native Texan but had been sent by the Western Union some weeks ago from Shreveport, Louisiana, to Sweetwater, to be one of the instructors in the school.

The student body is composed of girls and young ladies. They were busy with the telegraph instruments and other types of machines, learning the mysteries of telegraphy and how to send and receive messages over the wires. Indeed, to the visitor, it was all quite interesting.

The Western Union is doing a fine thing for the girls and young women of all this section, who want to learn telegraphy, giving this course of instruction and then providing jobs for those who complete the course, thus becoming qualified to fill the positions the Western Union offers. Let all the girls and young ladies read the ad of the Western Union in this issue of The Enterprise and consider well the opportunity that is offered.

The United States Coast Guard Recruiting Office in Lubbock, Texas wants men who are seventeen years old for enlistment. Those men who are accepted will

TEXAS BAPTISTS TO RAISE \$75,000 FUND WORLD EMERGENCY

Dallas, Texas, June 28.—Texas Baptists plan to raise a minimum of \$75,000 for World Emergency Relief on Sunday, July 18, in response to their Foreign Mission Board's request for \$500,000 (half million dollars) from the entire South, Dr. W. W. Melton, Dallas, executive secretary of the Baptist General Convention of Texas announced today.

A large percentage of the funds raised will go to China, Dr. Melton said, but no area where Baptists have work, around the world, will be neglected.

Commenting on the desperate need for immediate help in war-torn countries, Dr. R. S. Jones, Dallas, western secretary of the

Foreign Mission Board, estimated that "at least one-half of the world's population is slowly starving to death." There will be need for relief efforts, he said, until the end of the war and for many months thereafter.

The Foreign Mission Board, Dr. Jones said, was made the official agency for handling all relief matters by request of the World Emergency Relief Committee, headed by Dr. George W. Truett, Dallas, when the Committee asked to be relieved of its duties at the San Antonio meeting of the Southern Baptist Convention in May, 1942.

Since 1937, when Japan started her present onslaught against China, Southern Baptists have raised for relief a total of \$855,817.31. Of this amount, \$446,903.11 was given to World Emergency Relief during 1942 in response to the appeal made by Dr. Truett's committee for \$300,000.

The United States Coast Guard wants men between the ages of twenty-five and thirty-eight for the mounted beach patrol. If you like horses and have riding experience the Coast Guard needs you. Men accepted will be sent to a training station where they will be trained to patrol the many jobs that are assigned to the Coast Guard. The qualifications are that a man must have wide riding experience, pass a strict physical examination, and be able to furnish three letters of recommendation as to his riding ability. Men who want to apply or write for information can do so, to the Coast Guard Recruiting Office, 217 Post Office Bldg., Post Office Box 1142 Lubbock, Texas.

be sent to the Coast Guard Training Station at St. Augustine, Florida for a twelve week period of training. Write to the Coast Guard Recruiting Office, 217 P. O. Building, P. O. Box 1142, Lubbock, Texas for information pertaining to enlistment. When writing this office send date of birth, place of, and parents full name and address.

W. B. Ferguson Lumber Company

Announces The Appointment of

Mr. Paul Brown as Manager

Of Its Sweetwater Office

Formerly assistant manager of the Sweetwater branch of Burton-Lingo Company, Mr. Brown is thoroughly conversant with all phases of the building and construction business in this area. The Ferguson Company invites, all of his friends, all former patrons of the Ferguson Company and all others contemplating building, repairing, or maintenance of property to visit him and consult about their building plans.

Mr. Brown calls attention to the fact that there are no government restrictions on building materials necessary to the maintenance and repairing of property. He also points out that liberal allowances are made for conversion of resident units into multiple family units and other improvements.

HE INVITES ALL OF HIS OLD FRIENDS, THOSE OF THE FERGUSON LUMBER COMPANY AND ALL OTHERS WITH BUILDING PROBLEMS TO CONSULT HIM.

What Does It Mean to You—

The Constitution of the United States?

"We, the people of the United States..."

One hundred fifty-six years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small, silent ways—when sons have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting, too.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.
