IDEAL SOLDIER

By Joe Blake Whalen—5th Grade

He used to sit on the hillside,
And watch the train go by;
Then, he would say, "Gee," with a sigh.

He grew up in the modern way,
And hoped to be a soldier some day—
War came and he got his chance;
He got his duds, his shirt and pants,
He was proud, so he went off with a prance.

Before he knew it, he was in a trench,
Killing Japs with a monkey wrench,
Knocking and socking Japs around,
Then you would hear "bang," when they hit the ground.
Before he knew it he was given leave to depart,
Then he'd say, "Why I had just begun to start."

THE HONEY BEE

By Johnnie White—5th Grade

I like to eat honey,
It's as good as can be,
But it isn't very funny,
To get stung by a bee—
They fly away,
And then come back,
Filled with pollin in their sacks,
They mound it in their comb
Then they fly away and come back to their home.

MY DOG

By Dan Daniels—5th Grade

My dog's name is Puddles,
He gets into all the muddles,
He has a terrible habit
Of chasing every rabbit.

One day he was bitten by a snake,
And what yells he did make!
But I am glad to tell
He at last did get well.

We want in this way to thank all of those who so faithfully worked and contributed to make our Red Cross War Fund Drive a success. Our surrounding communities: Edith, Wild Cat, Sango and Silver gave splendid cooperation and support. Our workers at Bronte led by Mrs. Alfred Taylor made that end of the county in a fine way; with Tennyson and the people of other communities helping in a fine way. The ladies who so faithfully worked in this drive both here in Robert Lee and in Bronte, also deserve commendation.

New Steel Beauties on the Santa Fe

There isn't yet the ceremony in taking delivery of a new locomotive that there is in christening a ship.

But, just the same, it's a great occasion on the Santa Fe when we receive those super-powered, high-speed locomotives so badly needed today.

For every new one means "rolling" more and longer freight trains loaded with war matériel, and more trains operated for the increasing troop movements.

The three locomotives shown above are among the first delivered of the big fleet of powerful locomotives ordered by Santa Fe. And more are coming!

★ Locomotives illustrated above—new "4-8-4" steam locomotive, "2900 class"; 5,400-horsepower freight Diesel; "2-10-4" steam locomotive, "5001 class." You can bet your driving wheels they'll pull a lot of freight cars fast!
