LIEUT. GOVERNOR JOHN LEE SMITH

Lieutenant Governor John Lee Smith, who is to speak Wednesday evening before the graduating class of the Bronte High school, is not only capably filling his official place in the affairs of state, but he is also one of the most popular speakers of his day. He is not only a man with broad information touching matters generally, but he also is a man of culture and a devout Christian gentleman. In his manner of public address he is one of the most pleasing and inspirational speakers the writer ever heard. Truly, he is "the silver tongued orator of Texas." It was quite fortunate for the graduates, for the entire school and for the town and community at large that Supt. B. F. Kirk succeeded in securing Governor Smith as the Commencement speaker. Don't fail to hear him—for, he is "a man with a message."

**SOLOMON'S, SAN ANGELO, GROWS RAPIDLY IN VOLUME OF BUSINESS**

The Enterprise, last week carried a beautiful ad for Solomon's, Women's Wear, of San Angelo. By oversight, the ad failed to carry the name of the city where Solomon's is in business, which we regret, and this reminds that when you see an ad from Solomon's, whether it carries San Angelo at the bottom of the ad or not, that city is the home of this progressive women's ready-to-wear store.

Solomon's has just observed its sixth anniversary. The growth of this store has been remarkable. It is owned and operated by Laurence Solomon. Mr. Solomon knows women's wear merchandise business from beginning to end. Having been engaged in this line of business for many years, Mr. Solomon knows women's wearables and correct prices for same. Hence, he always buys at right prices which means that he sells at close prices.

Opening in San Angelo six years ago Solomon's began to grow. Hence a short time ago he had to move his large and growing business into larger quarters and today he has one of the largest women's ready-to-wear stores between Fort Worth and El Paso.

I. E. Lloyd joins The Enterprise subscription family, with a paid-in-advance subscription. Thanks to you, Mr. Lloyd.

W. C. Walton is as regular as the ticking of the clock in paying his subscription, about May 10. Thanks to you, Mr. Walton.

# The Railroad LAND GRANT

★ To speed the settling of the West, our nation wanted railroads pushed across great unsettled areas to develop rich but distant regions and to bind the country together for military and other reasons.

In the 1850's and 1860's, to encourage railroads to push their tracks into the undeveloped territory, Congress granted the odd sections on each

side of the track to the railroads, with certain "strings" attached, and these grants varied in depth up to several miles.

The even sections retained by the government were for the most part sold to settlers at a substantial increase in price.

The Land Grant policy was very helpful in getting the railroads started in those early days. BUT...

## Isn't it out of date today?

In return for their Land Grants, the railroads originally were required, and are still required to do so in respect of military and naval property and personnel, to haul government passengers, freight, and mail at rates far below those applicable to ordinary traffic.

Since the Land Grants were made, railroads have paid out in reduced rates on government traffic many times the amount they have received from these Land Grants.

In the case of the Santa Fe, here are the figures: In more than 80 years which have elapsed since the

Land Grants were made, Santa Fe's net realization from these lands has been about \$23,000,000. In 1943 alone, the government received from Santa Fe, in the form of rate reductions, approximately \$40,000,000.

Many governmental agencies as well as private shipper groups are convinced that the time has arrived for the entire repeal of these burdensome Land Grant requirements.

Edwin and Delbert Walton, sons of Mr. and Mrs. W. C. Walton, are in the service. Edwin is at Camp Christi, in the Navy, and is now carpenter's mate. Delbert is in the Army—he trained at Camp Wolters, but was transferred Saturday to Camp Bowie at Brownwood. Mrs. Walton and little daughter were out at Bronte visiting Mr. and Mrs. W. C. Walton. Friday she had a telephone call from her husband saying that he would be transferred that night, but did not know where he would be sent, and for her and the baby girl to come at once, if she could drive it in six hours, else he would be gone. That was two o'clock. She started and drove to Mineral Wells.

### W. C. ("BILL") McDONALD TRANSFERRED TO NAVY LEGAL DEPARTMENT

W. C. ("Bill") McDonald was in Bronte Sunday, visiting his parents, Mr. and Mrs. Fred McDonald, and shaking hands with friends. The editor acknowledges a call. Bill has been in the Navy "Boot Camp" at San Diego, California, and that fact could be easily determined by looking at "Bill"—for, he is "swunk up," until he looks like he had been "zippered." Said Bill: You ask: "What do you do

in the Navy?—we march, we march, we march." "But," said Bill, "I like it."

Mr. McDonald, however, got a most pleasing surprise. He was transferred to the legal department of the Navy in Washington, and was only home for a brief visit with Mrs. McDonald and his children at San Angelo before departing for Washington. He went to the Capital City Monday.
