**MEASLES, CHICKEN POX,
INFLUENZA, MALARIA**

According to an article in the Dallas Morning News of March 16, 1946, State Health Department officials were reported as predicting the increased prevalence of measles "quite probably would continue for the next few weeks." For the week ending March 9, there were 1,541 cases of measles reported, more than twice the number for a 7-year average for that week. Nearly twice the number of cases of chicken pox were also reported, and according to the story the department estimates that only one of ten cases are reported. That would mean there were over 6,000 cases of chicken pox, in the state of Texas. Influenza was also reported at a rate higher than the 7-year average, and malaria was up nearly three times its average.

People are asking, therefore - why is this? Do we not have more serums, vaccinations, inoculations, increased medical costs, and yet much more sickness? People wonder why.

As we reminded you last week, the medical way is one of chemicals, the chiropractic way is one of removing the cause of disease.

If more people are sick, there must be a reason, there must be a cause. Increased use of chemicals, it seems, has not reduced sickness.

The chiropractic way is simple - a chiropractor removes the cause of disease. If germs are present, according to the germ theory - then why do we not all get sick? Why are some people well, others sick? Germs, according to the theory, should make everyone sick. Why are some sick, others not sick?

The chiropractic answer is simple - let's put it this way - as long as body tissues are healthy, disease germs will not grow on them. But if the nerve force supplying that tissue is decreased, due to spinal interference, disease will set in and because of rotten tissues germs will grow. Again the answer is simple - remove the interference on the nerve going to that tissue, nature heals the body, the patient gets well. No chemicals, drugs or serums to cause complications, just the removal of the cause. It will pay you to investigate.

MR. STIMSON'S DIARY

As presented to the Pearl Harbor investigating committee, it was revealed in Mr. Stimson's diary that on November 25, 1941, he wrote that "the question was how we should maneuver them (the Japs) into the position of firing the first shot without allowing too much danger to ourselves."

Those who lost loved ones in the Pearl Harbor disaster will very readily agree that the "maneuver" of working the Japs into firing the first shot was eminently successful. We may be thankful that it was not more "successful."

People of the United States, however, were kept in ignorance of the mounting crisis, believing, from all reports, that war was not at hand. Our Government, according to the diary, remained silent on the intent to "maneuver the Japs into the position of firing the first shot." If we had known, it might have been different.

A slightly different emphasis on Lincoln's Gettysburg address would go like this - "that government of the PEOPLE, by the PEOPLE, and for the PEOPLE, shall not perish from the earth."

HOW ABOUT LUMBER?

Well, it seems to go like this - right after VJ Day, the Government cancelled Order L-41 which controlled only CONSTRUCTION of all kinds. Orders having to do with PRODUCTION of building materials are still in effect. Orders governing wages in building material plants are still in effect, and the same is true for orders controlling prices at which lumber, bath tubs, gypsum board and other things, are sold.

The result - enormous increase in demand, no increase in supply. So what - many lumber mills have shut down, others use a growing black market.

What's to be done - if production is made free and easy, prices will quickly be adjusted by competition. If price controls are removed on production, competition and building should take care of themselves.

We have no quarrel with OPA, but if we are going to have controls - let's have them, if not, then do away with them.

THE CITY'S YOUTH PROGRAM

Excerpts below are from an editorial which appeared last week in the Nolan County News, and which may be of interest to all of us:

"After 12 months of operation, the Sweetwater Youth Center has been proven - it has been proven good. The youngsters... are unanimous in their plea that "it should be maintained."...

"Let it be said that dancing has not been stressed - that it has been permitted - on the theory that there is nothing harmful about clean, supervised dancing, and that a large per cent of boys and girls are going to dance even if they have to go to some of the undesirable, so-called entertainment spots hereabouts."

If some refuse to support the program due to dancing, it was said, they might be permitted to have charge of the program on certain days - and perhaps could make it so interesting "that the ones who favor dancing might compromise by cutting out all activities which are objectionable."

"If parents and adults who are really interested in the betterment of conditions for their children, would get behind the youth program, it could be made a fine service."

"Let's not let the youngsters down."

COKE COUNTY R. E. A.

The authorization to construct 150 miles of R. E. A. lines in Coke County has been approved in Washington according to word received by the County Agent. The official papers of authorization by mail has been promised within 30 days. Routine procedures are in process now. This will include those who signed up for R. E. A. in 1942. Extensions will be authorized by mid-summer we are told.

Engineer and workmen are ready to begin staking out the line as soon as official authorization is received by mail.

NEWSPAPER ADS VS. DIRECT MAIL

Let's consider some facts here - a post card is about equal to 8 column inches of newspaper space. 1,000 cards would cost \$10, to say nothing of the cost of printing the message and addressing them. A similar space in a weekly newspaper of 1,000 circulation would cost from \$2.50 to \$3.50, and would be read by an average of from 4,000 to 5,000 people. Worth thinking about, isn't it?

HAYRICK WHD CLUB COOKS VEGETABLES
By Gladys Waldrop

Ten guests were present when the Hayrick WHD Club met last Thursday, March 21, in the home of Mrs. J. A. Waldrop.

-Mrs. Fay C. Roe gave a demonstration on vegetable cooking, which was really enjoyed by those present, including Mmes. J. W. Labenske, W. G. Cresap, Glenn Waldrop, J. A. Waldrop, B. W. Waldrop, and the writer.

Mrs. Tom Rives and daughter of the Friendship Club visited the group, and members elected two THDA delegates, Gladys Waldrop as first designate, and Mrs. A. R. Coalson as alternate delegate.

UNION WHD CLUB MEETINGS IN MARCH
By Mrs. Truman Parker

Mrs. Jimmie Allen and Mrs. Lester Parker were welcomed as visitors when 20 members of the Union club met with Mrs. Evert Bruton on March 8. It was decided that if a prospective hostess is unable to hold the meeting, she must in turn find another place for the group to gather and notify its members.

Mrs. Will Gideon, who attended the recent Big Spring school, demonstrated the vegetable preparation, and all enjoyed the grab bag.

On March 22nd, Club members met with Mrs. Felix Allison, including 27 members and 10 visitors, including Mmes. Willis Smith of Robert Lee, Lola Allison, John Warner, Crumes, Oscar Hayes, Homer Phillips, Helen Bennett, Maudie Clark, and Misses Mary Pruitt and Owens. Mrs. Bennett and Mrs. Phillips were received as new members, making the enrollment now 32.

A short business session was held following the Lord's Prayer and "Home Sweet Home," led by the writer. Roll call was answered by each member telling of her hobby.

Mrs. Fay C. Roe demonstrated bed-spread tufting, and at the next meeting on April 12 with Mrs. Claude Beaver and Mrs. C. E. Bruton serving as hostesses, the demonstration will cover yard improvements.

CHALK DUST...

FROM BRONTE HIGH SCHOOL

The High School Annual went to press last Tuesday. Delivery is promised the first week in May.

The senior trip is in the air - So are the seniors.

We suggest renaming:
Loretha Wrinkle as "Blondie," Johnnie Joe Butner as "Red," Roger Browning as "Brownie," Vera Richman as "Pug," Rosa Lee Langford as "Rosie," Bob Pierce as "Slats," Myra Kevil as "Half-Pint," J. S. Hageman as "Pokey," Lonnie Rogers as "Noisy," L. E. Conger as "Four-eyes," Cecil Hurt as "Smiley," Kathryn Wrinkle as "Creases," Della Gibson as "Gabby," Betty June Heidel as "Blackie," Wayne Arrott as "Runt," Billie Bob Herron as "Silence."

Notice: No High School marriages reported this week.

The Robert Lee Outsiders played the Bronte outsiders in basketball Monday night. The score: 19-17, in favor of Bronte. The Bronte High School boys then played the Bronte Outsiders. The outsiders won the honors. In the volley ball, Robert Lee won one game, the Bronte girls won the second.

The Bronte baseball team is getting pretty tough. Travis McCarty recently returned from the hospital where he repaired a broken collar bone. Bob Pierce is recovering after hitting himself in the head with a baseball bat.

Seems that we have forgotten to mention any of our chapel programs of this semester and how much we enjoy them. On February 8 we had a general sing song program. Some of the merchants in town had presented us with some new song books. We are proud of the books and enjoy the good songs. On February 15, the Juniors put on a skit of their play. The students enjoyed it so much they told all their friends and everyone enjoyed their play on February 18.

March the 8th was the Freshman assembly program. They invited Bro. McCrary to speak to us. He told of visiting schools in England, France, and Germany, and some of the experiences he had encountered with the boys and girls.

On March 18th the Seniors put on a skit of their play "Brother Goose." Incidentally Mr. Dean always has a few announcements to make along with these programs.

The Intermediate grades favored us with a short program on March 26. The sixth grade sang "I'm Forever Blowing Bubbles" and they blew real bubbles. The seventh grade gave a patriotic number regarding the pledge to our Flag. The eighth grade girls gave a folk dance with half of the girls dressed as boys - with cob pipes and mustaches.

Our next program will be put on by the Primary grades sometime during the week ending April 5.

Notice to All Patrons

All census enumerations must be in April 1, 1946. Mr. Dean requests that all parents who have children starting to school next year be sure that they have been enumerated for the census roll, or if you have moved into the community recently, be sure that your children are enumerated. If you need a census blank, see Mr. Dean, Supt. and he will help you.

MAC RIPPETOE HAS BAKED CHICKENS

Never a dull moment in the Rippetoe household! Here it was last week, with the Rippetoe's having retired, after a busy day, and trying to sleep soundly. On the back porch, Mrs. Rippetoe's 20 little chicks were drowsily chirping away. The light bulb provided a warm place in the brooder - only too warm!

The chirps turned into excited squawks and cackles, even from the baby chicks at their tender age. The brooder's on fire!

Well, Mac started in, not wanting fryers so soon. Being barefooted, however, and not too warmly dressed, he had a time. The curtains got on fire, the brooder, the back porch, the whole place seemed ablaze, with chickens squawking, feathers flying, Mac rushing around with a hose and bucket, trying to dodge grass burrs, Mrs. Rippetoe offering her help, Mac tripping and falling around, and chickens terrified and griddled.

When it was all over, no more chickens, Mac says "never more," couldn't sleep the rest of the night, went back several times to see that the fire was out, and now swears that the next time he has baked hen, will see to it that it's done the proper way, in a pan, not a brooder on the back porch! (For Sale - One partially burnt cardboard brooder, special, one week only.)

All Shampoos 75c Until April
BRONTE

M. J. ASKEY ESTATE BEING SETTLED

Mrs. Docia Askey, wife of the late M. J. Askey, filed application in Tom Green County court last Monday to probate the will. Among other provisions, the residue of the estate, which includes all of section 167, block 2, H&TC survey in Sterling County, and also all of the west 500 acres of section 195, block 2, H&TC survey which lies partly in Coke and partly in Sterling County, and 105.5 acres in the B. N. Tannehill Survey in Coke County, were left to Mrs. Askey.

OTIS SMITH TO ABILENE FOR IRONING LESSONS

'Tis a fact! Poor Otis had to go to Abilene during the week to take part in a demonstration of Thor ironers and washers. Before the manufacturer will let the agent distribute his products, the agent, that's Otis, had to take some lessons in how to use this washer and ironer, and the Abilene visit was to see that he could properly iron his shirts.

Mrs. Smith was anxious to see the result, while Jean just couldn't believe it could be done. From all accounts, though, Otis came through with flying colors.

AUCTION PLANNED TO HELP SCHOOL ATHLETIC FUND

According to Supt. Jeff Dean, an auction sale will be held in Bronte a week from tomorrow, Saturday, April 6, the time to be announced later. Its purpose is to raise funds for the school athletic program, which, due to the war and other unavoidable circumstances, has run low on cash.

In other words, the schools have just ordered around \$400 worth of equipment for your boys and girls, and they also plan to buy jackets for the football lettermen.

So to help out, you are asked to attend the auction, and to contribute towards its success. Here's what you do - if you'll donate feed of any kind, poultry, canned goods, lambs, pigs, calves, pies, cakes, and what have you, these things will be auctioned off.

It should be a lot of fun, but it takes your help and support. The money will be used on the athletic program for your boys and girls, and they'll benefit, you'll have the fun, and probably pick up lots of bargains! See you there!

Jack Good, \$1/c, a nephew of Mrs. Carrie Williams, is home for 20 days before reporting to Dallas for further assignment.

YOU, THE CITIZENS OF BRONTE,

will agree that the future of Bronte is going to depend almost entirely upon the foresight of its leadership during the postwar period. These men, whose names we present for your consideration, vote, and support on next Tuesday, April 2, have proven themselves to be efficient, capable, and qualified in every respect.

WHEN YOU VOTE FOR THIS TICKET, you are voting for a program which these men are pledged to support:

1. A water supply adequate to meet the needs of Bronte — both — today and in the future;
2. A city-maintained fire-fighting equipment that will meet the requirements of the State insurance laws;
3. A City-maintained park and recreation center for our citizens;
4. A tireless campaign to make Bronte the neatest and cleanest town in West Texas;
5. Enforcement of all present ordinances that apply to the sanitation and health of Bronte;
6. A complete program of publicity about the affairs of Bronte, both financial and otherwise, for its affairs are the affairs of its people;

We respectfully solicit your vote and support next Tuesday, and would like to point out that a bond issue, IF WANTED, must be FIRST VOTED ON AND PASSED BY YOU, THE PEOPLE, NOT by your City officials. It is YOU who decide this issue, it is NOT saddled on you.

IN REVIEW

By Mayor R. E. Cumbie

Friends and Neighbors of Bronte:

The fiscal year for the City of Bronte ends with March 31st, 1946. We think it advisable to briefly review the outstanding events of the past four years, years which, we feel sure, have not been easy for any of us but a time also when necessary chores had to be done and the affairs of our community carried on to the best interest of all its citizens in as safe and conservative manner as could be done. Your present administration has served through these years, willingly and gladly and we leave it to our citizenship to judge whether or not we have been faithful to the task given us to do.

Attention Voters!

Rumors are going this week that, if elected Mayor, I would raise your taxes and water rates. Good friends, I have lived among you for 17 years and have been one of your strongest boosters for Bronte. I doubt your being able to find any one who has helped as many people or been instrumental in securing more federal donations without obligation to any one than I have. Even though I should have ever entertained the idea of such a thing as either raising taxes or increasing the water rate, neither of which ever entered my mind, the law does not permit any individual or governing body to increase property taxes. That must be done by the vote of the people. As to the water rates, our water system has always been self supporting and surely there would be no need for an increase. Should I make any kind of a recommendation concerning our water rates it would be on a downward trend. Please do not be misled by misrepresentations from uninformed sources.

H. O. WHITT.
(Paid Political Adv.)

The problem of an adequate water supply has been our major difficulty and it has been our endeavor to meet this need without plunging the City into a heavy bonded indebtedness which might result in failure to attain the desired result. In 1943, after waiting and hoping in vain for rain to fill our reservoirs, we were compelled to lay a four-inch line to the Colorado River for a water supply — this project cost approximately \$8,000. Due to wartime restrictions we were unable at that time to secure electrical power and pumping equipment to operate this well and had to depend on badly worn gasoline equipment which proved costly and undependable. However during the past year we have been able to make a desirable deal with the West Texas Utilities Company for power and have installed an electrical unit for pumping at a cost of \$1,200. However \$650 of this cost was installation and will be repaid by deducting 20 per cent monthly from our bills until it has all been repaid, which should take about three years to recover the entire deposit. During the past few months the well at the river has been failing and your council was compelled to take some action promising relief, so in addition to the existing well another well has been dug and connected to the present well, having greater storage and producing much additional water and it is our hope and belief that this addition will provide an ample supply of water to our town for some time to come. This project has cost \$1,300.00. For this purpose we had to borrow \$1,500, which we expect to retire with water rentals over a period of 18 months. Our next project will be to begin work on the proposed City Hall. This will no doubt fall to the new administration, which should be installed next week and to which I

TO ALL CITIZENS OF BRONTE:

Believing that it is the duty as well as a privilege for every citizen to serve the best interests of his community, the names of our citizens, shown below, are offered for the consideration of our voters in the

CITY ELECTION OF NEXT TUESDAY, APRIL 2, 1946,
on the promise that your affairs will be conducted IN A BUSINESS-LIKE MANNER, with our SPECIAL ATTENTION to the following measures:

1. IMPROVEMENT OF OUR SIDE STREETS BY CALICHE OR GRAVEL.
2. EXTENSION OF WATER MAINS.
3. ADDITIONAL FIRE PLUGS AT NEEDED POINTS, and
4. CHLORINATION SYSTEM TO PROTECT HEALTH OF OUR PEOPLE.

We believe these ends can be had without unduly straining our credit, and without burdening ourselves with a bond issue, which in our opinion, would be unnecessary at this time.

We present this following group of men for your earnest consideration on Tuesday, April 2, 1946:

FOR MAYOR:
NOAH L. PRUITT

FOR ALDERMEN:
B. E. MODGLING
I. M. CUMBIE
J. B. MACKAY
W. H. MAXWELL, JR.

YOU, THE CITIZENS OF BRONTE,

will agree that the future of Bronte is going to depend almost entirely upon the foresight of its leadership during the postwar period. These men, whose names we present for your consideration, vote, and support on next Tuesday, April 2, have proven themselves to be efficient, capable, and qualified in every respect.

WHEN YOU VOTE FOR THIS TICKET, you are voting for a program which these men are pledged to support:

1. A water supply adequate to meet the needs of Bronte - both - today and in the future;
2. A city-maintained fire-fighting equipment that will meet the requirements of the State insurance laws;
3. A City-maintained park and recreation center for our citizens;
4. A tireless campaign to make Bronte the neatest and cleanest town in West Texas;
5. Enforcement of all present ordinances that apply to the sanitation and health of Bronte;
6. A complete program of publicity about the affairs of Bronte, both financial and otherwise, for its affairs are the affairs of its people;

We respectfully solicit your vote and support next Tuesday, and would like to point out that a bond issue, IF WANTED, must be FIRST VOTED ON AND PASSED BY YOU, THE PEOPLE, NOT by your City officials. It is YOU who decide this issue, it is NOT saddled on you.

FOR MAYOR:
H. O. WHITT

FOR ALDERMEN:
C. E. BRUTON
D. K. GLENN
T. H. ROGGE
C. R. SMITH

IN REVIEW
By Mayor R. E. Cumbie

Friends and Neighbors of Bronte: The fiscal year for the City of Bronte ends with March 31st, 1946. We think it advisable to briefly review the outstanding events of the past four years, years which, we feel sure, have not been easy for any of us but a time also when necessary chores had to be done and the affairs of our community carried on to the best interest of all its citizens in as safe and conservative manner as could be done. Your present administration has served through these years, willingly and gladly and we leave it to our citizenship to judge whether or not we have been faithful to the task given us to do.

Attention Voters!

Rumors are going this week that, if elected Mayor, I would raise your taxes and water rates. Good friends, I have lived among you for 17 years and have been one of your strongest boosters for Bronte. I doubt your being able to find any one who has helped as many people or been instrumental in securing more federal donations without obligation to any one than I have. Even though I should have ever entertained the idea of such a thing as either raising taxes or increasing the water rate, neither of which ever entered my mind, the law does not permit any individual or governing body to increase property taxes. That must be done by the vote of the people. As to the water rates, our water system has always been self supporting and surely there would be no need for an increase. Should I make any kind of a recommendation concerning our water rates it would be on a downward trend. Please do not be misled by misrepresentations from uninformed sources.

H. O. WHITT.
(Paid Political Adv.)

The problem of an adequate water supply has been our major difficulty and it has been our endeavor to meet this need without plunging the City into a heavy bonded indebtedness which might result in failure to attain the desired result. In 1943, after waiting and hoping in vain for rain to fill our reservoirs, we were compelled to lay a four-inch line to the Colorado River for a water supply - this project cost approximately \$8,000.

Due to wartime restrictions we were unable at that time to secure electrical power and pumping equipment to operate this well and had to depend on badly worn gasoline equipment which proved costly and undependable. However during the past year we have been able to make a desirable deal with the West Texas Utilities Company for power and have installed an electrical unit for pumping at a cost of \$1,200. However \$650 of this cost was installation and will be repaid by deducting 20 per cent monthly from our bills until it has all been repaid, which should take about three years to recover the entire deposit. During the past few months the well at the river has been failing and your council was compelled to take some action promising relief, so in addition to the existing well another well has been dug and connected to the present well, having greater storage and producing much additional water and it is our hope and belief that this addition will provide an ample supply of water to our town for some time to come. This project has cost \$1,300.00. For this purpose we had to borrow \$1,500, which we expect to retire with water rentals over a period of 18 months. Our next project will be to begin work on the proposed City Hall. This will no doubt fall to the new administration, which should be installed next week and to which I

WITH EXPENSES PAID**

Here's important news for young men 18 and over (17 with parents' consent). Under the GI Bill of Rights, if you enlist in the U. S. Army before October 6, 1946, for 3 years, upon your discharge you will be entitled to 48 months of college, trade or business school education. Tuition up to \$500 per ordinary school year will be paid. And you will receive \$65 monthly living allowance—\$90 if you are married. Get the facts at your nearest U. S. Army Recruiting Station.
