Bronte Wallops Steers Friday at Robert Lee

By Bobby Franklin

Jack Price's Bronte rejuvenated (improved) Longhorns rolled to a 14-0 decision over our Coke County neighbors, the Robert Lee Steers, at Robert Lee Friday night, in the mud.

The Steers took the opening kickoff and fumbled on their own 30-yard marker. Then on the third play from scrimmage, Earl Rusk lefthanded a pass to Ben D. Snead who galloped 10 yards to pay dirt. The whole play netted 25 yards. Kenneth Hester made the extra point on a quarterback sneak.

In the second quarter, Gerald Sandusky intercepted a Steer pass and from the 40-yard line, the Longhorns drove to pay dirt again. Gerald Sandusky powered his way over the double stripe from the 4-yard line. Rusk plunged over for the extra point.

Rusk and Sandusky were the main offensive threats as ball carriers and Jack Vaughn made a spectacular catch of one of Rusk's tosses.

The big show of the night was the defensive play of Randal McCutchen, Jack Vaughn, Earl Rusk, Sandusky and Hester. The no-glory boys in the line really showed up well. Rusk played defensive guard and offensive back.

WALTON-BROWN VOWS READ FRIDAY AT BAPTIST CHURCH

In an evening ceremony Friday, September 16, at 7:45 in the First Baptist church of Bronte, Miss Dorothy Yvonne Walton became the bride of Frank Pritchard Brown of Robert Lee. The Rev. C. R. Blake, pastor of the Sylvester Baptist church, read the double-ring ceremony in a candle-lighted church. The church was decorated with fern and gladioli.

The bride is the daughter of Mr. and Mrs. R. S. Walton of Bronte. Parents of the bridegroom are Mr. and Mrs. John H. Brown of Robert Lee.

Given in marriage by her father, the bride wore a traditional white satin wedding gown. Her flowers were orchids.

Maid of honor was Miss Jo Dell Walton, sister of the bride, of Bronte. She wore a blue net dress with a nosegay of pink carnations. Matron of honor was Mrs. Dale Brown of Robert Lee, who wore a yellow net dress with a nosegay of yellow gladioli. Bridesmaids were Mrs. Harold Shepard of Robert Lee and Miss Bobbie Tomlinson of Bronte, both dressed in orchid taffeta dresses and wearing white roses, and Misses Norma Jean Gentry of Bronte and Marlene Arrott of Bronte, both dressed in blue taffeta dresses and wearing white roses.

Flower girls were Phelan Ann Parker, who was dressed in orchid taffeta, and Eloise Hester, who wore white satin.

Dale Brown of Robert Lee was best man. Ushers were Bobby Vaughn of Bronte, Will Percifull of Robert Lee, Gary Simpson of San Angelo, Foy Dell Smith and Billy Green, both of Robert Lee.

Wedding music was presented by Mrs. Chet Holcombe, pianist, and Mrs. Alfred Taylor, soloist.

A reception followed the wedding ceremony in the home of Mr. and Mrs. Taylor Emerson. Mrs. W. D. McDonald and Mrs. Royce Fancher presided at the serving table.

The couple is now on a week's wedding trip to San Antonio. The bride chose a brown suit with brown and tan accessories as a traveling costume. The couple will live in Robert Lee on their return.

The bride is a graduate of Bronte high school and the bridegroom is a graduate of Robert Lee high school. He also attended San Angelo business college. He is now employed by the Sun Oil Company at Silver.

NEW MAINTAINER

The county has purchased a new maintainer which will be used in precinct 3, west of Robert Lee. T. R. Harmon is commissioner in that precinct.

Senator Hardeman Speaks to Lions, Ladies and Guests

Senator Dorsey Hardeman of San Angelo was scheduled to be the main speaker at a barbecue last night, sponsored by the Bronte Lions club.

About 125 Lions and guests were expected to be present for the affair. It was to be held at the city park, providing the weather is fit for an outdoor gathering, and at the Home Motor Co. in case of inclement weather.

The Skagg sisters, well known entertainers in this section, were also scheduled to be on the program. Plenty of barbecued goat, ranch style beans, and all the trimmings were promised to those who attended.

A more complete writeup of this occasion will be carried in next week's paper.

BELVA RIPPETOE IS TAKEN TO MAYO CLINIC

Mr. and Mrs. J. M. Rippetoe left Bronte Monday night with their daughter, Belva, for Mayo Clinic at Rochester, Minnesota, where the child will receive examinations and treatments.

Belva has had a hard time of it this summer, having been a victim of polio and rheumatic fever. Despite the fact that she became better for awhile, she became ill again late last week and on the recommendation of Dr. John R. Harris of Bronte, she has been taken to the world-famous clinic. Dr. Harris wired the clinic for an appointment for the child.

Everyone is hoping that her trouble can be diagnosed and cured while she is away. The Rippetoes said before they left that they did not know when they would be back, as they intended to stay as long as necessary for Belva to receive whatever treatment she needs.

JOHNSON FAMILY HOSTS AT BARBECUE

Three hundred and twenty-five persons attended a barbecue Saturday night at the Cedar Mountain home of Mrs. John Johnson. The barbecue was primarily to celebrate the oil well recently completed on Johnson's land. Members of the McQueen-Cleavinger drilling crew, who drilled the well, were present with their families. One hundred and fifty-seven families were represented at the affair.

Assisting Mrs. Johnson with the barbecue were her children, O. B. Johnson, who did the barbecuing, the Pat Johnson family who registered all the guests, and Bob Johnson, who did the serving. Other relatives and friends also helped in preparing the feast.

Barbecued goat, western style beans, coffee, son-of-a-gun, tea, cakes, pies, potato salad, vegetable salads and other foods were served from tables located on the south side of Mrs. Johnson's rock home.

MAN PAYS FINE FOR TRANSPORTING BEER

E. R. Anderson paid \$200 and court costs, a total of \$230.40 in the Coke County Court Monday on a plea of guilty to a charge of transporting beer in a dry area. Large quantities of beer were taken from his car when it was apprehended just north of Bronte Monday. He was arrested by inspectors for the Texas Liquor Control Board office of San Angelo.

through the line, McCutchen, Sandusky and Hester, the linebackers, smeared them. McCutchen, center linebacker, was always there. Rusk slipped through the Robert Lee line and threw the ball carrier for losses more than once. Jack Vaughn was immovable and broke up many end runs.

Kenneth Hester continued to handle the ball like an expert from his quarterback position and the punting of Sandusky kept the Steers backed up. Sandusky is a very good punter and kicks the ball far and high, a lot of the time so high that the boys are waiting for the safety man to catch the ball. That makes being the safety man a hazardous job.

The boys are working hard in preparation for their go with the tough Eldorado Eagles next Friday. They have an open date tonight.

Don Daniel Elected President of FFA

The Bronte Chapter of Future Farmers of America met September 16 and elected officers for the coming year. Officers in the local chapter for 1949 and 1950 are:

President, Don Daniel; vice-president, Billy Hipp; secretary, Doyle Adair; reporter, Bobby Franklin; treasurer, Gerald Sandusky; first vice-president, Charles Brown; second vice-president, Roy Wilkins; sentinel, Bobby Lasswell; historian, Joe Blake Whalen; parliamentarian, W. D. Latham.

Committees were also named as follows: initiation committee, John Rusk, Gerald Sandusky and Bobby Lasswell; program of work committee, Doyle Adair, Billy Hipp and Bobby Lasswell; yearbook committee, Woodrow Howell, Bobby Joe Clark and Bobby Evans.

The FFA chapter is planning on having a busy year, according to sponsor J. T. Henry, with many phases of activities on their schedule.

J. R. (BOB) MEYERS NOW WITH HOME MOTOR CO.

James R. (Bob) Meyers, formerly of Stamford, has accepted a position which places him in charge on the shop of the Home Motor Co. Announcement was made this week by Bob Krierim and R. W. Rees, owners of the local firm.

Meyers came to Texas from Minnesota in 1941. He has had seven years' experience in automotive repair work and has also done a large amount of work on airplane engines.

He is married and has one daughter, Candy, age 4. Meyers said that he likes Bronte fine and that he and his family are going to plan on making this their home. He invites all the people in this area to come in and get acquainted and talk over their car troubles with him.

MORE RAINFALL

The city of Bronte and surrounding areas received more rainfall over the last week with Bronte receiving about a quarter of an inch Monday. Spotted showers fell over other parts of the county and in San Angelo. Farmers and ranchers of the area welcomed the showers.

Polio Emergency Drive Extended; County Results Encouraging

Around \$400 has been raised in Coke County so far in the polio emergency drive which was extended another week by national foundation president Basil O'Connor. \$148.08 has been contributed to the drive in the east side of the county and about \$250 has been contributed from the west side of the county, according to A. J. Bilbo, chairman for that side of

the county. The drive in Bronte has been temporarily halted due to the absence of Mac Rippetoe, county chairman, and it is possible that he will extend the drive another few days here when he returns.

In the meantime, those wishing to contribute to the fund raising campaign may do so by putting their money in an envelope, addressed to POLIO, care of the local post office.

The emergency drive is being held because the National Foundation for infantile paralysis is exhausting its funds taking care of the increased number of polio patients this summer. Everyone is urged to give and give generously in this county. Coke County had a high incidence of the disease this year and is receiving aid from the national foundation in many instances. Both Rippetoe and Bilbo said that the results to date are encouraging.

PRICE RECALLED AS BAPTIST PASTOR

Rev. V. D. Price was recalled as the pastor of the Bronte Baptist church last Sunday. Price came here in October of last year from Bellevue, Texas to fill the vacancy left by Rev. Fred Blake.

Rev. and Mrs. Price have three daughters and one son and live in the Baptist parsonage.

City Council Approves Budget for Fiscal Year

The proposed budget for the City of Bronte for the fiscal year beginning April 1, 1949, and ending March 31, 1950, was approved at a public hearing held by the City Council Monday night at the city hall.

The budget was based on an estimated valuation of \$800,000 with a tax rate of one dollar per one hundred dollars valuation. The budget was reviewed and adopted by a unanimous vote of the city council.

The estimated resources from consolidated tax supported funds total \$17,073. This estimate was broken down as follows: on hand April 1, \$5,548; from taxes, \$8,000; from other sources, \$3,125; and from the West

Texas Utilities Co. gross receipts tax, \$400.

Humble Makes Two New Locations This Week; No. 1 Warren to Be Re-Tested

Oil activity in the Bronte area was on the increase this week with Humble Oil & Refining Co. making a new location in the Bronte field and another northeast of town. Another interesting development was the moving of a rig over the abandoned hole of the Hickok & Reynolds and Dan Auld No. 1 Warren.

Humble staked location for their No. 3 R. E. Hickman 2,000 feet from the north and 630 feet from the west

line of tract 1 in the southeast quarter of section 453-1A-H&TC. The well is scheduled to go to 4,500 feet with rotary equipment. McQueen and Clevinger have the drilling contract with C. E. Earnest in charge.

The same company staked their No. 3 Sallie Odum and others 1,250 feet from the north and 1,380 feet from the east lines of Seforiana De La Garza survey 304.

No potential has been reported by Humble on their No. 1 Johnson. However, unofficial reports say that it is a "good well" and it is expected that it will be as good as any in the field.

Hickok & Reynolds and Dan Auld were setting up their spudder rig Thursday over the abandoned No. 1 Dr. Warren. One of the men working on the job said they had received no instructions except to set the rig up and get it ready for operation. This well was abandoned when it failed in the Palo Pinto and it was deepened at a later date. However, it failed again and was abandoned a second time. Operator has not announced whether he intends to deepen the hole or test some higher stratum.

The group will make four stops to explain protection of crop residue, seeding of range grasses, identification of range vegetation, contour farming with level, broad bass terraces, and the effects of a good cover on water intake during rainfall, Allen explains.

The tour is planned in connection with the election of a supervisor in Zone No. 1, of the Coke County Soil Conservation District. Zone No. 1 is the northwestern part of Commissioner's Precinct No. 1. The landowners around Silver and Sanco are urged to attend this tour, Allen went on.

The last session of the Texas Legislature passed a bill appropriating money to be given to Soil Conservation Districts for advancement of soil and water conservation in Texas, Allen explained. Attend this tour and learn how this money is to be used in assisting landowners in doing a better job of applying conservation on their farms and ranches.

R. C. Lasswell, Taylor Emerson, and F. S. Higginbotham are landowners who developed their complete coordinated soil and water conservation plans last week. These plans were developed to treat each acre of land according to its needs. The personnel of the Soil Conservation Service assisted these land owners with the development of their plans.

Two diversion terraces were staked last week on Otis Smith's farm. The diversion terrace is a part of Smith's complete coordinated soil and water conservation plan as a district co-operator with the Coke County Soil Conservation District.

Preparations are underway for a barbecue supper Friday night at the home of Mrs. C. E. Arrott, as the first party for the new school year.

Mr. and Mrs. Otis Smith announced this week that they have sold their home in Bronte. Mrs. J. Black bought the house and will take possession October 20. The Smiths said that they will build them a new home on the highway about three-fourths of a mile north of Bronte.

Children present were Rex and Anne Harris, La Jan Kiker, Reid Griffiths, Margaret Oglesby, Patricia Robinson, Beatrice Cannon, Johnnie Sims, Richard Wayne Rees and the little honoree.

Mr. and Mrs. Albert Wynn, Mr. and Mrs. Jim Johnson and Mr. Coalson, all of Bronte, were dinner guests in the John Gaston home in Tennyson on Sunday, September 18.

B. E. Modgling and R. E. Hickman left Thursday morning for Austin where they will attend to business regarding a claim against land which they own.

THE ETHICS OF SAVING

The wisdom of ages we have for our guide,
 Showing how men have lived and how they have died.
 From Solomon's Proverbs to the wisdom of now,
 We are taught the ethics of saving and how;
 But it makes little difference by whom they are taught,
 These lessons by many are all put to naught.
 Saving is simple, it has no complex plan;
 Just store for the future whenever you can.

IMPORTANCE OF SLEEP CITED BY DR. COX

Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, State Health Officer, and habitual loss of sleep will tend to retard the body's recovery from fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged period will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said. "When good health can be protected to such a large extent merely by sleeping, and thus allow over-taxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure."

Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A good night's rest means a sufficient number of hours spent in sleep to enable each person to feel well, do efficient work, and to keep in a cheerful humor the next day.

"Some outdoor exercise each day, a comfortable bed, and fresh air in our sleeping quarters," Dr. Cox said, "will help us to sleep soundly at night. Do not mull over your problems and ideas after you have gone to bed. Make your plans early in the evening for a good night's rest by slowing down from the physical and mental work of your daily life. When you arise each morning, rested and with a

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is no Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

... it is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act.

Obviously the railroads cannot be run

efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law which are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

Health for All ALLERGIES

Allergy, or sensitivity to various substances, is not a new ailment that suddenly struck for the first time during this generation. But the fact that allergy is responsible for a number of conditions which were formerly unexplained has been known to medical science only for the past few years. The person who is allergic reacts

peculiarly to contact with a certain substance or agent that is harmless to most people. The allergic person is usually normal and healthy in all other respects. When the offending agent affects the skin of the allergy patient, it is the cause of a rash similar to eczema. Another common allergic reaction is hay fever, a condition resulting when the eyes and nose of the sufferer are sensitive to ragweed pollen or pollen of other plants.

An allergic person whose bronchial tubes are affected by some agent, causing difficulty in breathing, is said to have asthma.

We still have a lot to learn about allergies, but progress is constantly being made toward relieving and even curing allergic patients. When he seeks medical treatment, the person with allergic reactions will find that the doctor questions him thoroughly about his habits, his occupations, his home life, environment, diet and other living habits.

Before he can specifically advise or treat his allergic patient, the doctor

STATE FAIR 'ATOM PILE'—This model of a uranium pile is a small segment of one of the dramatic exhibits in the "Man and the Atom" show coming to the 1949 State Fair of Texas Oct. 8-23 direct from the famed American Museum of Atomic Energy at Oak Ridge, Tenn., cradle of the atom bomb. Admission to exhibit will be free.

must act as a detective and a complete history of the patient furnishes him with "clues" in finding the offending agents and substances.

Then the doctor can advise his patient in avoiding things to which the sufferer is sensitive, and, in some cases, the doctor can even treat his patient so that he will build up resistance to the substances bothering him.

In his search for the offending agents, the doctor may also use skin tests on his allergic patients. Among the most common substances causing sensitivity are milk, eggs, fish, alcoholic beverages, spices, plant pollens, house dust, animal hair or dandruff, tobacco, insecticides and drugs.

An allergy in itself is not a serious illness. But things like hay fever and asthma, when neglected, can interfere with sound health as well as cause great discomfort. The person who suspects he has an allergy takes a wise step when he consults his doctor for relief.
