## Bronte Takes Second in Regional Tournament

The boys made the hometown proud when they went to the finals in the regional contest at Brownwood last weekend. The boys showed high spirits and good cooperation throughout the tournament and Coach Jolley said the local team was in better condition than any other team in the contest, although they averaged being shorter than any other team entered.

The boys went to Brownwood Friday morning and played Alexander at 2 p. m. Nothing was known about the opposition but rumor had them a hard team to beat. The Bronte boys came from behind a five point lead to win 61-49. J. W. Caudle was high point man for Bronte, making 26 points.

A large delegation from Bronte went to Brownwood Friday night to see them win over Evant 37-36 in a thrilling last minute battle. Behind all the way, Bronte was trailing 12 points in the middle of the third quarter and nine points at the beginning of the last period. Evant had complete control on the backboards as their boys were tall enough to get the ball before the Bronte boys could jump. In the last 80 seconds of the game, Dean Stephenson made 3 points and J. W. Caudle made 2, winning the game for Bronte.

Any Bronte fan will say it was the most exciting and nerve-racking game in recent Bronte basketball history. Lyndon Waldrop was taken off on fouls after chalking up 12 points.

The Bronte boys beat Scranton 49-36 in a Saturday morning game to put them in the finals. The Scranton team had tall boys and excellent team cooperation. Coach Jolley's boys kept hitting and working harder and the half

time score was 21-21. J. W. Caudle led his teammates with 17 points.

The home-town boys were tired but happy and excited when they began the last go-round Saturday night at 8 with the regional title at stake. Their opponent, Hawley, had a good record, tall players and excellent cooperation on the team. They had a record of 44 wins out of 47 games. Bronte went under 49-34 in the game after putting up a good scrap. McCutchen scored 12 points be-

fore leaving the game on fouls. Bronte boys had a hard time hitting their free shots in the last game. Coach Jolley praised the team for their cooperation in all four games and said that although the boys trailed in the score in the first half of each game, their conditioning showed up in that they were going strong when the other teams started to wear down. Eleven boys were suited out in the four games and each one saw action in at least two of the games.

## Mayor, Councilmen Up for Re-Election

Mayor H. O. Whit issued this week that he and the three outgoing councilmen for the City of Bronte agreed last Friday that they would permit their names to be placed on the ballot which will be voted upon April 1.

The Mayor said that he tried unsuccessfully to obtain some other candidates, and that since they were not available he and Councilmen J. B. Mackey, Joe George Wilkins and J. P. McGuire thought it was their duty to serve another term.

Whitt issued the following statement in connection with his offer to serve another two years as mayor of the City:

"I was so hopeful that I might find some one who was willing to take on the responsibility of serving Bronte as it's mayor for the next two years. It wasn't because I didn't want to do my part as a citizen that I wished to vacate this honorable position but

I feel that I am depriving others equally as capable of the honor. You people, in a very large majority, have been very considerate and cooperative and have made it possible for me to carry on a most successful tenure of office for which I certainly would be ungrateful if I didn't express my sincere appreciation and give credit where credit is due."

"I realize that it was not my ability which has brought a reasonable amount of success but, the cooperation of splendid councilmen to work with and the cooperation of the finest citizenship any one ever served, to work for and with. I'd just like to say 'Thanks a million for being so nice.'"

"Although the financial condition of the City is in the best shape that it has been for years, yet there is still a rough road ahead if we are going to obtain our major goal, plenty of fine water. The cost is going to be high. The value to the entire community during the years ahead will be tremendous. We just can't afford to pass up the opportunity at any cost. Some one is overlooking a great opportunity to make himself a public work-horse during the next two years."

"In view of the inability to find anyone who would permit their name on the ticket, the pressure that has been brought on me, my duty as a citizen to serve my town and the people that I love so much and the desire in my heart to see the one barrier removed that is holding this town's progress back (lack of water), I am going to yield and offer my services in anyway the people care to use me during these trying times, regardless of the personal sacrifice."

"The one thing I would like to ask of everyone of you is your continued cooperation and support in building a better Bronte. I can't do it without your help. It is so easy to sit back and say 'Let H. O. do it.' Let's not be a parasite on the townsite. Become a member of the civic organizations

## LEARN TO SAVE

The lesson of saving is simple to learn;  
Just spend something less than that which you earn;  
But the man who saves, who lays something by,  
Must first always himself to deny.  
It's not what you make that brings riches to you,  
He who makes less may have more when he's thru.  
Many men have made money, have rode high the wave,  
But their boat hit the rocks, they nothing did save.  
THE FIRST NATIONAL BANK has regard for the man

## YOU'LL FEEL RIGHT AT HOME

Folks all seem to like Bronte and one big reason is probably because of the neighborly feeling that makes everyone feel right at home. The merchants here believe that friendliness and fair dealings are the best ways for them to show they appreciate your patronage. Yes, it's great to be here in Our Town—it's the best town in which to live, trade and do business.

Girls like this are in great demand.  
The actor she likes is Farley Granger  
We don't know it if she ever met a stranger.  
If disappointment comes, she's always a good loser.  
In our play, she fell in love with Bruiser.  
As for her name, it rhymes with Nell  
And she's this week's mystery belle.

**DIRT**  
Billy Paul now is singing: "Baby, It's Cold Outside".  
Mary Ann goes around singing My Donald is a "Slowpoke".  
J. O. told Frances "It May Be Silly But Ain't It Fun".  
R. J. told Scooter "Baby, We're Really in Love".  
Eddie Roy sings "Cold, Cold Heart" when Rita walks by.  
Some of the girls are saying: "That Mean Dean is so remote".  
It's been rumored that Shirley Tomlinson asked Caudle for a "Kiss To Build a Dream On".  
After the Sweetwater tournament, Mrs. Miller has her volleyball girls jumping high and hitting hard.

Sunday afternoon after the show Scooter, Leslie, Stanley and Linda rode around.

### Catholic Group Has Lenten Program

The Ark and Dove Club met Friday afternoon in the home of Mrs. Frank Percifull in Robert Lee.  
The meeting opened with a special Lenten devotion "Your New Life in Christ". In addition to this devotion, the Mass of the day was read and the purpose of Lent was discussed.  
Father Fdelis presided over the group which included the hostess, Mmes. Frank Percifull, Jr., Frank Dickey, R. A. Stroud, A. V. Hughes, James Burnett and Jack Price.  
After the meeting, the club attended Lenten Devotions in St. Isidore's Catholic Church in Bronte.  
L. T. Youngblood and Rev. J. E. Fuller attended a district meeting of the West Texas Chamber of Commerce in San Angelo Tuesday night.

**Call out the Reserves with a touch of your toe!**

Most cars lead a double life. A good part of the time, they're running errands, taking children to school, taking women to stores, taking men to work, taking family and friends to clubs and social functions.

It doesn't call for a very great output of horsepower for duties like these.

But there are times when you want a car that can do vastly more, and these are the times when you'll want what this year's ROADMASTER has to offer.

Beneath its proud hood, there's a Fireball 8 Engine—a valve-in-head that can let loose 170 lively horsepower when needed.

And—alongside this engine—there's also an Airpower carburetor which thriftily feeds fuel and air through two smaller-than-usual barrels for normal driving—which means that you now use less gas at 40 than you'd formerly use at 30.

But there are two barrels in reserve—waiting for you to call them into action—and they let loose a soaring rush of power that sinks your shoulders back into the seat cushion, swoops you past a truck—out of a tight spot—up a hill—sets your speedometer needle to registering

added miles more than twice as fast as your watch can tick off the seconds.

This is an experience you certainly should know firsthand.

You should also know Low Buick's Power Steering\* provides a helping hand in slow-motion maneuvers—lets you keep the "feel" of the car in straightaway driving.

And just for good measure, this '52 ROADMASTER also has the biggest brakes of any postwar Buick—the greatest trunk space since spare tires moved off the front fenders—a warning light that glows when the parking brake is set—and to top it all, the smartest interior fabrics that Buick has ever offered.

When are you coming in to look this distinguished performer over? We urge you to make it soon.

\*Optional at extra cost on 200AUC1000 only.

Sure is true for '52

**Parents' Problems**

By DONALD M. MAYNARD

My three-year-old goes to play with the three-year-old neighbor girl (always asking my permission) and when I call her home for lunch or dinner she doesn't come. I usually call her once, go to the home and take her by the hand and try to get her home without tears. However, she will pull away from me, stand, and pout. Almost always it ends up with a spanking. I have explained and talked to her so much about it, and she will always say "I'll try." What more could we do to ease this situation?

A three-year-old is not especially time-conscious and if she is having a good time at play, it is not at all surprising that she should not even hear you when you call, or, having heard, forget very quickly that you have done so. You will want to be patient with her, therefore, as you are helping her to develop the habit of coming when called.

I am not sure from your question whether you give her a warning call. It is important that you do so, letting her know, for example, that in a few minutes she will be expected to come for dinner. This gives her and her playmate a chance to get ready for the breakfast of their play if lunch is ready. Even then, she may not come immediately. You will not want to be too lenient at this point, but it would be well to give her a little extra time. After all, a little girl can move quite slowly at times!

I am wondering how you approach her when you go to get her. If you approach her as if she has done something wrong and you get hold of her hand and begin to yank her along, it is not surprising that she should try to pull away and create more or less of a scene that, as you say, usually ends in a spanking. Your very attitude, you see, creates a feeling of antagonism on her part; even a three-year-old doesn't want to be hauled around.

On the other hand, if you should go over, show an interest in what the children are doing, perhaps play with them yourself for a few minutes, and then make a sort of "game" of walking home for lunch, you might have better success.

What should I do to help my child meet situations more positively? She is five years old, only child and grandchild. I try to appeal to her to want to go places without pres-

sure, but she doesn't want to pull away from her own neighborhood group. I would like for her to approach situations more enthusiastically.

Children differ markedly in the enthusiasm and positiveness with which they face situations, such differences being due, frequently to temperament or physical energy. It is quite possible, therefore, that your daughter's temperament is different from your own and that she never will enter into situations with the enthusiasm and energy that you think she should manifest.

If this is the case, you will need to guard both against trying to fit her into your own particular pattern of behavior and against giving her the impression that you are disappointed in her because of her lack of enthusiasm. At the same time, you will want to show real approval when she is enthusiastic and positive. If you have not already done so, you may be interested in reading the comments in my booklet, *Your Child Today*, about individual differences in children.

On the other hand, your daughter's reticence may be due largely to lack of experience with playmates of her own age. An only child is likely either to try to dominate her playmates, or to be shy in their presence. Your daughter evidently does not feel quite secure in the presence of strange children. She prefers, therefore, to remain with the neighborhood group rather than to go to the vacation church school. This is to be expected and although there is no harm in urging her to attend, you should not force her against her will to go.

This does not mean, however, that you should not attempt to get her to want to go to the school. Perhaps this can be done by getting some of the children in the neighborhood to attend it. Visits in the home by those who are in charge of the school and an interesting description by them of what is going to be done at the school may be of help in developing in her an interest in it and a willingness to go.

Dr. Maynard's new booklet gives six suggestions for getting your child to eat. It's free to readers of this newspaper. Mail a postcard to Donald M. Maynard, 810 Broadway, Nashville 2, Tennessee, and ask for a copy.

**WEARY AND WET, THE FROGMEN RETURN.** Their dangerous mission is completed. Members of a Navy Underwater Demolition Squad, they have been working to clear 1,500 to 2,500 mines from a Korean landing area, performing a duty in which every second is a matter of life or death. But that is the Frogmen's job for defense!

Defense is your job, too, and next to theirs how simple your job is! For yours is to keep this country's civilian front safe and stable, and solidly behind our military power.

And one of the best ways to do that is by buying United States Defense Bonds. By creating a stable financial backlog of your own, through bonds and other forms of

saving, you are also making America's economy strong. And remember, *peace is only for the strong!*

So buy Defense Bonds. Buy them today and buy them regularly... through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

**The U. S. Defense Bonds you buy give you personal financial independence**

Remember that when you're buying Defense Bonds you're building a personal reserve of cash savings. Money that will some day buy you a house or educate your children, or support you when you retire. Remember, too, that if you don't save regularly, you generally don't save at all. So go to your company's pay office—now—and sign up to buy Defense Bonds through the Payroll Savings Plan. Bankers recommend them as one of the safest forms of investment.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy United States Defense Bonds now!

**NOTICE TO BIDDERS**

In case of ambiguity or lack of clearness stating the prices in the bids, the Owner reserves the right to consider the most advantageous construction thereof, or to reject the Bid. Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done. Attention is called to the provisions of the Acts of the Legislature of the State of Texas concerning the Wage Scale and payment of prevailing minimum wage established by the Owner. Said scale of prevailing rates of wages is set forth in the Specifications.

Information for Bidders, Proposal Forms, Specifications and Plans are on file at the office of the Chairman and of the Secretary of the Upper Colorado River Authority; at the office of Parkhill, Smith & Cooper, Consulting Engineers, Lubbock, Texas and in the Plan Room of the Texas Contractor, 809 Thomas Building, Dallas, Texas.

Copies of the Plans and Specifications may be secured from Parkhill, Smith & Cooper, Consulting Engineers, 1414 Avenue J, Lubbock, Texas, upon a deposit of \$25.00 as a guarantee of the safe return of the Plans and Specifications. The full amount of the deposit will be returned to Contractors on submission of a bona fide bid on the work, with the return of the Plans and Specifications or upon return of the Plans and Specifications prior to the receipt of Bids. \$15.00 of the deposit will be returned to all others upon return of the Plans and Specifications; otherwise, the deposit will be forfeited.

**MOTHER DESPERATELY ILL**

**NEED YOUR HELP**

**MARY**

**Where in the world can he get help?**

*The answer is anywhere... through your Red Cross!*

What happens when a serviceman thousands of miles from home needs help to fly to the bedside of a critically ill mother? Every serviceman knows that when leave is approved by the military, help is as near as his nearest Red Cross Field Director. And that means anywhere in the world a serviceman may be.

Red Cross help takes many forms. It may be money that's needed... or just friendly advice. It may mean tracking down news of the folks at home... or finding a toothbrush, a pack of cigarettes, a razor to replace those lost in combat. No job is too big or too small for your Red Cross.

And remember, it is your Red Cross. It is your contributions that make such help possible. The need is urgent. Last year, in the Far East alone, it was necessary to double the Red Cross staff needed to serve our fighting men. This year, as more men are called into service, the need is even greater. In 1952-53 Red Cross services to the armed forces and their families alone will cost \$29,333,100. So give now, won't you? And give generously, to your Red Cross.
