

about dimmitt  
and castro county

By Bascom Nelson

The American Legion building will be fully completed within the next few weeks. About all that is lacking is inside painting, wiring and clean-up.

It is our understanding that the Legion will charge for the use of the building only when activities are held where admission is charged, but if anyone is seriously contemplating a public activity where admission will be charged, it would be nice if they would consider the Legion building. The Legion needs the revenue to pay off remaining indebtedness against the building.

Most of the Legionnaires have apparently considered the new building as more of a community center than a meeting place for the Legion. It is admirably suited for a community center and will handle almost any meeting we are likely to have in Dimmitt.

It was constructed with economy uppermost in the minds of the Legionnaires. It is nothing like the county center that failed in the recent bond election but it is still a sound building, has plenty of floor space, kitchen and other facilities and will be available to the public.

While we should have known better, we were a bit disappointed when the Tech Board of Regents failed to give publicly their reasons for firing Doctors Abernathy, Greenberg and Stensland. There has been very little attitude of cooperation evident on the part of the board with the people of the state who own and operate the College.

It is unfortunate that some men, with a small amount of power, use it to further their own purposes and attempt to set up a dictatorship where such a move was never intended by the government's fathers. They have acted in bad judgment, and have shown very little consideration for the college and the general public.

There are certain publications in this country that should never be considered as a basis for judgment of American people. Such periodicals as Confidential, The Daily Worker, True Confessions and many others fail to reflect in any way the thinking minorities.

Another minority publication that arrived, unsolicited, through our mail box this week was a little monthly newspaper called "The Citizens Council." It is a vicious little thing, full of slander, prejudice, bigotry and outright lies. We say it represents the thinking of a minute minority of this nation simply because it goes deeper into the mire of race hatred than any major group we have known of in the deep south.

"The Citizens Council" isn't the only such publication to attempt increasing the turmoil between black and white in this country. There are others just as bad, but usually such a publication is written and paid for by an individual rather than a group as this one is.

"The Citizens Council" offers such illogical and impractical ideas as shipping all the nation's Negroes back to Africa. To read about it, the reader would think the ships were being prepared for the trip.

It goes on to label anyone in favor of giving Negroes an even break as socialists and communists. Its lead story makes it appear there is a great struggle in the Methodist Church between a communist "nigger-lover" element and another group called "Circuit Riders, Inc." The story also attempts to sell a pamphlet of the later group for 25 cents each.

There are other shouts against integration, intermarriage, equality and other pet themes of race radicals.

Naturally we have a waste basket in our office and we use such things as "The Citizen's Council" to keep it well-filled. But anything can be written, and often it is easy to believe when printed in newspaper form. We doubt that anyone here would agree with such things even if he were against migration of any kind. But even a deep Southerner, who wants a high fence between himself and the Negro population, would hardly make such a ruckus.

We bring this up simply because the mails will probably be full of such tripe during the next few years to come and everyone in the south may find their names on the mailing lists of these sheets. We still maintain that everyone in this county is perfectly capable of making up his own mind without help from radicals on either side.

### Nazareth Plans for Labor Day Outing

Nazareth will hold its annual Labor Day celebration on Monday, September 2. A picnic with bingo and other games will be a feature attraction of the event with the highlight being the giving away of a pony and saddle at the dance Monday night. Everyone is invited.

### Major Clanahan Dies of Injuries In Germany

Major James R. Clanahan, 40, son of Mrs. Connie Hudnall of Dimmitt, was accidentally killed on maneuvers in Germany recently. His mother was notified of his death Monday. Details of Major Clanahan's death were not contained in the notification released by the Army.

Major Clanahan was stationed with the 613th Field Artillery Battalion at Pirmasens, Germany at the time of his death. He was born June 20, 1917 in Collingsworth County, Texas. He was graduated from Amarillo High School in 1935 and Amarillo College in 1937.

He graduated from Texas Technological College in Lubbock in 1941 receiving his degree in Business Administration. Following graduation he enlisted in the Marine Corps and Completed Officers training school at Quantico, Va., in 1942.

Major Clanahan saw service with the 2nd Marine Division at Guadalcanal, Tarawa and Saipan. He transferred to the Army as a Captain in 1951 and served during the Korean War and later with the occupational forces in Japan.

He returned to the United States in 1954 where he was assigned as an instructor in Military Science at the University of Tennessee at Chattanooga, a position he held to March of 1957, when he was transferred to Germany for a three-year tour of duty.

In April 1942 he was married to Miss Anis Foyler of Silverton, Texas. The couple had three daughters, K. Lynn, 11; Pat, 9; and Judy, 3.

Mrs. Clanahan and the three children along with the body will arrive in Amarillo Saturday by plane and burial will be in the Silverton Cemetery.

Major Clanahan is survived by his grandmother, Mrs. J. C. Montgomery; an uncle, W. C. Montgomery; five aunts, Mrs. L. A. Womack and Mrs. Jack Cowsett all of Dimmitt; Mrs. Eleanor Koehler of Ft. Collins, Colo.; Mrs. Cecil Montgomery of Midland, Texas and Mrs. Ernest Dahnke of Tyler, Tex.

### Public Service Sets High Safety Record

Plains Division employees of the Southwestern Public Service Company, which includes Dimmitt, have worked 2,000,000 man-hours without a lost-time accident, it has been reported by Earl Brock, the company's manager here.

There has not been a lost-time injury in the division since January of 1953, and this is the first time that one of the company's divisions has reached the 2,000,000 man-hour mark, although several of them have accumulated 1,000,000 accident-free man-hours on more than one occasion.

"Safety is no accident, it is the result of constant cooperation and teamwork among all members of our organization. You and all of our fellow-workers have made our service to our customers better by performing your work safely and efficiently," J. M. Collins, division manager for the company, told Brock in congratulating the local Public Service people for their part in the new safety record.

From then to now:

## First Reunions Were Gigantic Affairs for Young Castro County

By MARY FLYNT  
Let us take a trip back a number of years to one of Castro County's first Old Settlers Reunions.

The year is about 1896 and the location is of the Courthouse Square. The Square, unlike it is today, is completely surrounded by a fence. There are four Stiles: one on the north, one on the east, one on the south and one on the west. A number of "hitching-posts" are conveniently located all around the Square. A windmill is over to the east of the wood-frame courthouse. (This mill played out after several years and a new one was dug in the north-west corner of the square about the place where

### Hart to Stage World's Only Irrigation Rodeo

Tube-Setting Ability Of Area Farmers Will be Tested

Hart American Legion will stage its annual Irrigation Rodeo on Saturday, August 31 at the Legion grounds.

This event, believed to be the only one of its kind in the world, pits farmer against farmer in a race to see who can set irrigation tubes the fastest. Connie English won first place and the world championship last year, by setting 25 tubes in 28.4 seconds, although two stops gave him a final time of 32.4. In the junior division, Kenny Johnson holds the championship.

About thirty people are expected to participate. The event will begin at 10 a.m. and last until champions in the junior and senior divisions have been declared.

In the junior division, for boys under 14 years of age, prizes of \$7.50 for first; \$5 for second; and \$3 for third will be awarded. In the senior division first place will be worth \$25; 2nd place, \$15; and third, \$10. Entry fee for each contestant is \$2.00 and entries must be made by 9 a.m. Saturday, August 31. To enter a contestant can contact any member of the Hart American Legion.

### Yankees, Sox Tied for Lead In City Series

Thirty-five runs were scored during the first two nights of Dimmitt's City Series between the Little League Yankees and White Sox with both teams winding up tied with one and one.

In the first game Monday night the White Sox lambasted the Yankees 10-0 in a walkaway, with winning pitcher Jim Ratcliff looking like he had spent all his life on the mound. Ratcliff struck out 13 batters and gave up only two hits. With the White Sox well in the lead, pitcher Larry Fields was sent in to give Ratcliff a break. Fields proved to be no slouch either and gave up only one hit during his inning. Ratcliff at bat got three hits and scored four runs. Horners were belted by Mike Goodwin and Manual Cantu.

In the Tuesday night game, the tables were reversed with interest, as the Yankees swamped the White Sox 22-5. Winning pitcher was Kelton Cates and the losing pitcher was Jim Ratcliff. Cates struck out nine men for his win. Hitting star for the Yankees were Cisco Mike (5 for 5) and Harold Golden (3 hits). Home runs were hit by Mike Burkett, Harold Golden and Donnie Nelson. Harold Golden scored 4 runs.

The third game in the series, if necessary, will be played Saturday night. No admission will be charged.

FREDA HOLBROOKS

MYRNA FINCH

FARM BUREAU QUEEN CANDIDATES—These young ladies will compete in the Farm Bureau Queen contest here Saturday night. Freda Holbrooks, 18, is a 1957 graduate of Dimmitt High School and is the daughter of Mr. and Mrs. J. C. Holbrooks. Myrna Finch, 16, is a senior in Dimmitt High School and the daughter

RUBYE MAY ANNEN

TOMMIE SHEFFY

of Mr. and Mrs. H. W. Finch. Rubye May Annen, 21, is the daughter of Mr. and Mrs. Raymond Annen and is a graduate of St. Paul's Hospital School of Nursing in Dallas. ### Soil Conservationists and Bank To Sponsor Farm Tour Thursday

Running Water Soil Conservation District and the First State Bank of Dimmitt will sponsor a farm educational meeting and tour on Thursday, August 29th.

The event will take place in the Sunnyside Community, with the first part of the program being given in the community building and the tour in and around Sunnyside.

Starting at 10 a.m., Mr. Marvin Jensen of the Amarillo Experiment Station, will lead off the morning program. He will give experimental data on fertilizing and irrigating wheat.

Mr. Ernest Thaxton of the Lubbock Experiment Station will discuss water efficiency on milo and cotton. He will also discuss several of the more distinctive cotton diseases.

Mr. Sam Gilbreath will give his experience in raising wheat and milo and their place in a crop rotation to insure maximum crop yields and weed control.

Mr. Kay Joe Riley will discuss the production of hybrid milo for seed purposes. He will discuss the possibilities of yellow indowper milo.

The noon meal will be prepared and served by the ladies of the Sunnyside Community in cooperation with the First State Bank.

The farm tour will start at about 1:30 p.m. Practices to be observed will include bench land and underground pipe on the R. B. Haydon farm. Hybrid milo interplanted with New Era Cowpeas and cotton will be observed on the Troy Blackburn farm.

Hybrid milo for seed production will be seen on the Haydon farm. At this stop a state inspector will be present to cover briefly regulations governing seed production and problems of hybrid milo. He will also answer questions covering certified and hybrid seeds.

### Old County Surveyer's Field Notes Finally Returned After 66 Years

After many years of searching two old record books made their appearance in Castro County last week. They are surveyer's field notes from 1876 to 1891 and are the only record of the first surveys made of the county.

Castro County was created in 1876 out of the Bexar and Jack Districts of the State of Texas. While the county was not organized in 1891, surveying began will before that time.

Before the county was organized, all court house business was transacted at the Oldham County Courthouse in Tascosa. It was there that the two books of field notes had originally been kept. Then about a month ago Jack

### Local Boy Scouts High in Swim Meet

Dimmitt Boy Scouts walked away with the junior division trophy and several individual awards at the swimming meet held in Plainview Friday.

The indoor swimming meet was held in two divisions, the junior and intermediate. There were no awards in the intermediate division for Dimmitt.

Aside from winning first place in the junior division several Dimmitt boys won awards. Larry Hastings won first in the free style and Jackie Nichols was second in this division. Tommy Nichols won second in the back stroke and the boys, together won first in the junior division relay.

Representatives from all over the district were present to compete at American Legion pool.

### Scouts Camp in Tres Ritos N. M.

Two Boy Scout patrols returned August 11 from a four-day outing at Tres Ritos, New Mexico. They were accompanied by adult leader Swain Burkett and Marvin Simms and Explorer Scouts Joe Burkett and Marion Oakley.

Camping out on Little Santa Barbara River were Flaming Arrow Patrol members Jim Cowsett, Sammy Henry, Larry Hastings and Ronnie Shepard, and Blackfoot Patrol members Mike Burkett, Jerry Morris, Bobby Owens, and James Carrell.

Jack Cowsett loaned the boys a trailer for the trip, Goldman Dyer an automobile and County Judge Bob Estes a pickup.

The boys concentrated on camping, cooking and working on their camping merit badges. In addition they did some hiking, fishing and falling in the creek," Mr. Burkett said.

### Mary Taack in Colorado Farm Talks

A Hart farm youth took a prominent part in the three-day summer conference of the American Institute of Cooperation at Colorado State University, Fort Collins, August 18-21.

She is Mary Taack, 4-F of Hart, Texas, and participated in the discussion on the subject: "What Is A Cooperative?" on Section 4, Tuesday, August 20th.

The conference dealt with current farm business problems and ways in which farmer cooperatives help youth make a success of farming as a career. Theme of the meeting is "Cooperatives Are Youth's Business."

The participated with some 800 other farm youth from all parts of the country, and several foreign nations in discussions, a visit to famed Estes Park in the Rockies and to farms and cooperatives near Ft. Collins.

IT TAKES PRACTICE—These young ladies will be Dimmitt High School's cheer leaders this year and they have already begun practicing. Left to right they are Judith Maples, Jeanneane Robison, Donna Wooddell, Alice Waggoner,

and Vera Brown. Misses Wooddell and Brown, head cheerleaders, are attending a cheerleaders school on the campus of Southern Methodist University August 19-26. Sponsor of the group is James W. (Rosy) Bates.

### Farm Bureau Queen Selection Set Saturday at School Cafeteria

Eleven girls have entered the Farm Bureau Queen contest which will be held at the Dimmitt Cafeteria on August 24, 1957 at 8:00 p.m. Cotton John, of KGNC will act as Emcee. Mrs. Keith Howard has been chosen as pianist for the contest. Two men and one lady residing outside of the county will judge the contest.

An outstanding group of girls, The Rhythmettes from Tulia who have won first place at the Plainview Talent Contest and have also won first place at the Dimmitt Talent Contest will furnish entertainment before and during the contest.

Mr. Noble C. Howard, county Farm Bureau president extends a welcome to everyone to attend the contest. Mrs. Noble C. Howard is county chairman for the contest.

### Notice to Band Students

All high school band members are requested to be present in the band room at 9 o'clock Monday morning. This will be an organizational meeting for the 1957-58 High School Band.

# Wheatland Soil Bank Rules Defined

General provisions of the Soil Bank's 1958 Acreage Reserve program, including its application to the winter wheat crop which will be planted this fall, were announced August 2, 1957, by Acting Secretary of Agriculture True D. Morse following Congressional action authorizing continuation of the program for the coming year.

The Acreage Reserve is that part of the Soil Bank under which farmers agree to reduce their acreage of "basic" crops below their established acreage allotments. It was in effect on a limited basis in 1956, and for the full 1957 crop year. The Conservation Act under contracts running for three or more years.

Changes in Acreage Reserve provisions for 1958, as compared with previous years, include the following:

1. Establishment of a total crop acreage figure for each farm.

to be based primarily on past production history and known as the "Soil Bank base," with the winter wheat crop which will be planted this fall, were announced August 2, 1957, by Acting Secretary of Agriculture True D. Morse following Congressional action authorizing continuation of the program for the coming year.

The Acreage Reserve is that part of the Soil Bank under which farmers agree to reduce their acreage of "basic" crops below their established acreage allotments. It was in effect on a limited basis in 1956, and for the full 1957 crop year. The Conservation Act under contracts running for three or more years.

will be in position next week to start notifying farmers regarding these payment rates, and also that bank base which will be established for each farm before the signing of agreements. With this information available, wheat farmers will be able to make plans for their Acreage Reserve participation.

The sign-up period for winter wheat is scheduled to open on August 26 and close October 4 of this year. During this period, all farmers who have an "old farm" wheat acreage allotment for 1958, and who normally grow winter wheat, will be eligible to sign up for the Acreage Reserve agreement with their county ASC committee.

Before the signing of an agreement, however, a "farm Soil Bank base" must be established for the farm. Each producer is responsible for furnishing the county ASC committee the production history and other information needed to establish this base. This information should be supplied at least 15 days before the end of the sign-up period.

The "national" average rate for the 1958 Acreage Reserve will be \$20.88 per acre—with available wheat price supports averaging \$2.00 a bushel. This rate will be translated into varying State, county and individual farm per-acre rates. For the 1957 wheat Acreage Reserve, the average rate of payment per acre available to producers on a national basis was approximately \$20.04 per acre—with wheat price supports averaging \$2.00 a bushel. The average rate for those who actually signed agreements for 1957 was about \$18, reflecting the fact that it had not yet been determined how much of the acreage would be placed on the Acreage Reserve.

Of the \$500 million authorized by Congress for the 1958 Acreage Reserve annual payments which will be made in any one year, if located to the wheat Acreage Reserve—for both spring and winter wheat.

In acceptance of agreements, preference will be given to those farmers who first sign agreements, in the event more acreage is offered than can be accepted within the money available for the wheat Acreage Reserve program.

For 1957, the total Acreage Reserve authorization was \$750 million. Of this total, \$276 million were allocated for possible wheat Acreage Reserve participation.

Agreements actually signed for 1957 under all Acreage Reserve programs called for total payments of \$614 million. Of this total, \$231 million were obligated for the wheat Acreage Reserve.

Detailed provisions of the 1958 Acreage Reserve program for winter wheat, and how it will apply in various areas and on individual farms, will be available at county ASC offices.

Individual notices were mailed to all wheat producers giving their payment rate on August 16, 1957.

Individual payment rates for the 1958 Acreage Reserve will be determined primarily on the basis of average per-acre rates. For each reserve crop except tobacco, there will be a "national" average rate of payment per acre. This State and county rates will be established. These will vary in accordance with productivity and other factors, but in total will reflect the "national" rate. For tobacco, individual rates will be determined on the basis as for 1957—the established unit rate per pound multiplied by the yield figure for the farm.

County ASC committees will determine per-acre rates for individual farms. These will be based on the county "average" rate for all crops except tobacco, but they will vary among farms primarily according to relative productivity.

The individual farm per-acre rates will be available before Acreage Reserve agreements are signed. There will be provision for appeals to county and State ASC offices if a producer is not satisfied with the per-acre rate—established for his farm.

Farmers who took part in the 1957 Acreage Reserve program will be a 10 per cent premium, above the 1958 compensation rates, if they put the identical land in the Acreage Reserve program for 1958.

In addition to the provision that previous weeds must be controlled on Acreage Reserve land, participants in the 1958 program may also be required to control erosion. Otherwise, the land designated for the Acreage Reserve may be left idle, or a soil or water conservation practice may be carried out on it. It is possible for participating farmers to qualify for Agricultural Conservation (ACT), cost-sharing practices on land in the Acreage Reserve.

After the deadline for signing agreements covering a particular crop under the Acreage Reserve for 1958, participating farmers will be permitted to withdraw from the program, except in some cases involving "new" commercial corn croppers. (For the 1957 program, there were special provisions under which in certain circumstances a producer could withdraw voluntarily from an Acreage Reserve agreement up to the time he received notice of the last basic crop allotment for his farm.)

Winter Wheat First in 1958

The 1958 Acreage Reserve program will be available first for winter wheat to be seeded this fall for harvest next year. Details of the program for spring-seeded crops (the other "basic" crops which are eligible for the program) will be announced before their sign-up period next spring.

The information needed by ASC county committees in determining under the 1958 wheat Acreage Reserve program, and completing other preliminary work, was sent for from Washington through State committees in advance. County committees in ad-

farmers who first sign agreements, in the event more acreage is offered than can be accepted within the money available for the wheat Acreage Reserve program.

For 1957, the total Acreage Reserve authorization was \$750 million. Of this total, \$276 million were allocated for possible wheat Acreage Reserve participation.

Detailed provisions of the 1958 Acreage Reserve program for winter wheat, and how it will apply in various areas and on individual farms, will be available at county ASC offices.

Individual notices were mailed to all wheat producers giving their payment rate on August 16, 1957.

Individual payment rates for the 1958 Acreage Reserve will be determined primarily on the basis of average per-acre rates. For each reserve crop except tobacco, there will be a "national" average rate of payment per acre. This State and county rates will be established. These will vary in accordance with productivity and other factors, but in total will reflect the "national" rate. For tobacco, individual rates will be determined on the basis as for 1957—the established unit rate per pound multiplied by the yield figure for the farm.

County ASC committees will determine per-acre rates for individual farms. These will be based on the county "average" rate for all crops except tobacco, but they will vary among farms primarily according to relative productivity.

The individual farm per-acre rates will be available before Acreage Reserve agreements are signed. There will be provision for appeals to county and State ASC offices if a producer is not satisfied with the per-acre rate—established for his farm.

Farmers who took part in the 1957 Acreage Reserve program will be a 10 per cent premium, above the 1958 compensation rates, if they put the identical land in the Acreage Reserve program for 1958.

In addition to the provision that previous weeds must be controlled on Acreage Reserve land, participants in the 1958 program may also be required to control erosion. Otherwise, the land designated for the Acreage Reserve may be left idle, or a soil or water conservation practice may be carried out on it. It is possible for participating farmers to qualify for Agricultural Conservation (ACT), cost-sharing practices on land in the Acreage Reserve.

For the only home he ever owned... Lincoln chose a Hartford policy

It was February, 1861. Abraham Lincoln was about to leave Illinois to become President of the United States. But first, he insured the Springfield home he loved so much.

He's proud that Mr. Lincoln chose to insure in the Hartford... then, as now, one of the oldest, strongest, and most dependable insurance companies in the nation.

And as local agents of the Hartford Fire Insurance Company, we are proud to offer you — without obligation — a facsimile of the famous Lincoln policy. It's yours for the asking.

**SCANNING THE NEWS**

ANOTHER debate is on in Congress on the question of whether we face a depression or whether we face inflation, which in the opinion of many amounts to the same thing.

It is the age-old difference in looking at the nation's economy. Republicans, including President Eisenhower and his advisors, look at the economy through a telescope which shows huge production and big business expansion. Many of the more responsible Democrats look at the economy through the telescope which sees big consumption, purchasing power and small business prosperity as the measure of the nation's economy.

Secretary of the Treasury George Humphrey told a press conference recently that unless Government cuts expenditures, this country would find itself in a depression "that will curl your hair." A few days later former President Herbert Hoover chimed in with an agreement, and who should know better than Mr. Hoover.

Undersecretary of the Treasury Randolph Burgess along with the U. S. Chamber of Commerce says that inflation is the "great danger" and that "financial stability" under the Hamiltonian theory is at "the very head of the list of economic and social virtues."

The so-called Hard Money Policy with its rise in interest rates together with present high taxes, personal, corporate and excise, are the means the administration is using to achieve "stability and a balanced budget." In the meantime Labor Unions are being blamed for their wage increases

as the cause for higher prices. As a matter of fact, however the figures show that in industries like iron and steel, non-ferrous metals, fabricated metal products, non-electric machinery and in stone, clay and glass products, profits after taxes shows increases in the second quarter of 1956 over the first quarter of 1955 of from 20 to 70%, or an average of about 40%, while in contrast, the average hourly earnings of production workers in manufacturing and construction rose only 6 per cent in 1956.

The President's 1957 Economic Report seeks to put this blame on Labor by declaring that the improvement in output per man in 1956 was less than the increase in 1955 and less than the average recorded in the average post war period and the report makes the flat statement that "the smallness of the 1955 gain contributed to the rise in unit labor costs and in turn to increases in prices." However the profit comparisons with the labor increases do not bear out that statement.

George Meany, President of the AFL-CIO points out that the present economy is not marked by inflationary pressures across-the-board. He points to what he calls "an investment boom, accompanied by drops in home building and automobile output, a decline in farm equipment and relatively soft markets for many lines of household goods." He further points out that this investment boom is now leveling off and that there is danger that investment and plant and equipment may drop in 1957 if consumer markets are not strong enough.
