Dimes Programs Set This Weekend

Final week of the annual March of Dimes Drive in Coke County is here and Ernest Ivey, chairman of the drive for the east side of the county, said he hopes to finish up the fund campaign this weekend.

Two outstanding entertainments are on the docket for this weekend. Friday night a free program of music and other entertainment will be held at the Bronte School auditorium.

Chester Derrick, Richard Beck, Gob Franklin, Mel Stanley, E. Wilson and David Carroll will provide music. These popular TV and radio stars will have an evening of real entertainment in store for all who attend. In addition to the music, Mrs. Marvin Corley will be on the program in her well known role as Mule Creek Minnie.

RICHARDS DANCE

Annual March of Dimes dance at Tad Richards' barn will be held Saturday night, Jan. 30. The same entertainers who are on the program at the school Friday night will play for the dance. Mr. Richards donates the use of his famous barn each year and persons come from several surrounding counties for this affair.

All proceeds derived from these programs will go to the March of Dimes. The public is guaranteed an evening of good fun at either of them.

\$549 TURNED IN

Up to Thursday morning the east side of Coke County had

turned in \$549.75, according to Ivey. A canvass of the business district here Wednesday netted \$379.75. Prior to that time \$170 had been deposited in the bank.

MOTHERS MARCH

Everyone is urged to remember the Mothers March tonight, Friday, at 6:45 p. m. Members of the various clubs here in town will conduct this part of the drive. Any person who wishes to make a contribution to the March of Dimes should turn on their porch light or hang out a white flag of some sort. When the ladies see these signals, they will stop by and pick up the contribution.

The Dimes Drive is also making progress in the west part of the County. Robert Lee has turned in a sizeable amount and some benefits are planned at Silver to raise money.

The March of Dimes is asking for more money than usual this year, due to the large amounts that are being spent in research for a vaccine to prevent polio. Of course, the usual expense of taking care of patients who have polio will go on, creating the need for additional money.

TO GIVE 10 PER CENT

W. W. Millican, owner of the Bronte, Ice Co., has a unique idea to help the March of Dimes. He is offering to take a dime from his cash register every time a \$1 cash purchase is made, and give it to the March of Dimes. His offer is good Friday and Saturday only.

AD-LIB-BEN

The time is growing short. If you haven't made your contribution to the March of Dimes, you are missing a chance to be a part of the development of one of the greatest benefactions to the health of mankind. You see, scientists are close behind the discovery of a vaccine to immunize children and grown-ups against polio.

If the money holds out, more than likely within a short time, you will be able to go right down here to the hospital and take a shot against polio just as you do now against diphtheria, small pox, whooping cough, etc.

There are a couple of excellent entertainments on the docket for this weekend. If you want to attend one of them, you will receive your money's worth in entertainment as well as helping this great cause. If you don't want to go to these programs, you can make your contribution to Mrs. Geraldine Proctor at the city hall.

One doctor to another at an Army Induction Center: "But on the other hand, doctor, he isn't in shape to be a civilian either."

FOUR LOCAL YOUTHS JOIN MARINE CORPS

Four young men from this vicinity have enlisted in the U. S. Marine Corps. They have joined the newly formed Alamo J. O. Bagwell, son of Mr. and Mrs. Floyd Bagwell; Doyle Caulder, son of Mr. and Mrs. E. L. Caulder; Wayne Roberts, a brother of Mrs. H. C. Murtishaw, Jr., whose parents live at Goldthwaite; and Freddie Brown, who is related to Mr. and Mrs. J. H. Jackson are the local men who enlisted.

The group left Sunday for San Antonio for physical examinations, and from there they will go to San Diego, Calif.

LAST WEEK TO PAY POLL TAX

Some very important elections are coming up in 1954, including state, district, county, school and city.

Taxpayers are reminded that Saturday is also the final date for the payment of school and county taxes without a penalty attached.

Auto Inspection Deadline April 15

Captain Ray B. Butler, commanding officer of District Eight of the Texas Highway Patrol, with headquarters at San Angelo announced today that Highway Patrolmen would begin issuing tickets to persons who operate an auto on the streets and highways after April 15 without a current inspection sticker.

The Patrol Captain said that the men in his command have all received orders to that effect as the result of a directive issued at Austin by Homer Garrison, Jr., Director of the Texas Department of Public Safety. Butler said that Garrison's order was made following definite instructions from the State Public Safety Commission that enforcement of the modified motor vehicle inspection law which was enacted by the last Legislature would definitely begin following the April 15 deadline.

Captain Butler also pointed out that local and county police officers are empowered to enforce the inspection law.

According to the Patrol commander, only about 18 per cent of the cars in the twenty-one county area have been inspected to date. This means, he said, that car owners who have not yet had their vehicles checked will run the risk of being caught in a last minute "log jam" at the inspection station if they delay longer in complying with the law.

"Our Patrolmen will continue to issue warnings to motorists whose cars do not bear a current inspection sticker through April 15," Captain Butler said in a prepared statement for the press and radio. "After that date, offenders will face court action."

Of 2,469 motor vehicles registered in Coke County, only 336 or 14% have been inspected thus far. There are four inspection stations in the county, two in Robert Lee and two in Bronte. Inspection stations in Robert Lee are at Ivey Motor Co. and Vaughan Chevrolet Co. In Bronte inspection stations are Caperton Chevrolet Co. and Home Motor Co.

Texans Living Longer, Health Officer Says

AUSTIN, TEXAS — "Texans are living longer than ever before," declares Dr. Geo. W. Cox, State Health Officer. A baby born in 1937 had a life expectancy of 59 years. This has increased during the past 17 years until a baby born in Texas today can reasonably expect to live to the age of 69, or very near the

Biblical prophecy of three score years and ten.

Many things have contributed to this extension of life, such as early diagnosis, new methods of treatment and medicine, immunization and the intensive public health program conducted by the Texas State Department of Health and local health agencies. This program has stressed education and demonstration.

Dr. Cox points out that the greatest strides in disease prevention has come about in diseases of infancy and childhood. Since 1937 infant mortality has been reduced 54 per cent, diarrhea, enteritis and dysentery 68 per cent, whooping cough 88 per cent, diphtheria 92 per cent, and other childhood diseases. During the past 17 years, tuberculosis deaths have dropped 76 per cent, malaria 99, syphilis 74, appendicitis 98, pneumonia 72, and typhoid fever 98 per cent. Small-

pox has all but disappeared.

Dr. Cox warns against any feeling of complacency or reduction in efforts to prevent disease. Those listed above could, if not guarded against, again become a definite menace to health. Some diseases have increased, specially among those over forty years of age. Two of these are heart disease and cancer whose toll continues to mount. More emphasis must be placed upon them as well as the so called degenerative disease because as our population ages, they are becoming more common.

Officials pointed out that applications for sites will be welcome following the drawing, and will be processed for location as they are received after the drawing.

'Colored Caper Cutters' to Show At School Feb. 11

CHATTER AT REHEARSALS COLORED CAPER CUTTERS

Gene and Sissy can really dance the chicken reel.

Jerry McShan has a dark gal in Orient.

Carolyn Kemp lures the colored guys down the Mississippi.

"The Sassy Steppers" —Pat, Wanda, Aletha, Linda, Joan and Missie— have plenty of rhythm. Take a look at those top hats.

Peanut brittle is really "exciting" candy. Ask Ida Lou or Mr. Durbin for further information.

Several stores in town are offering specials about which they know nothing.

Basketball practice has suddenly changed into rhythm time.

Don is sad about a mishap to his family tree.

The make up has arrived!

The wigs are here—

The entire chorus is thrilled over the prospect of hearing Dr. Harris and Dr. Stephens. Wonder if we could request "Ol' Man River" and "Without A Song" as two of the numbers.

Wonder who sells frog legs?

The time nears — Next week we shall give you the complete lowdown. Mark Feb. 11 on your calendar and reserve that night to see "Colored Caper Cutters" to be presented by the 7th and 8th grade chorus.

1953 RAINFALL 14 INCHES IN COKE COUNTY

Parts of the Coke County Soil Conservation District received about 65 per cent of the annual expected rainfall in 1953, A. V. Sheppard, work unit conservationist with the SCS, said this week. The area around Robert Lee received 14.3 inches. The rain fell in such a way that the amount received was very ineffective, Sheppard pointed out. Other parts of the district received more rain and some received less.

During the years 1951, 1952 and 1953, the Coke Soil Conservation District has received about 55 per cent of the expected rainfall. The table listed below gives the rainfall received during the last three years by months:

Month	1951	1952	1953
Jan.	0.00	0.20	0.00
Feb.	0.50	0.30	0.30
March	1.10	0.70	2.60
April	0.40	2.90	0.00
May	2.90	1.00	3.00
June	3.75	0.30	0.00
July	0.25	0.60	0.00
Aug.	3.40	0.00	3.40
Sept.	0.90	1.40	0.90
Oct.	1.20	0.00	4.00
Nov.	0.00	1.90	0.10
Dec.	0.00	0.80	0.00
Totals	14.40	10.10	14.30

Floods took their toll in the District during 1953. The first flood hit Green Mountain and Edith in form of hail, wind and rain. The Green Mountain flood destroyed all crops including range grasses. Flood water caused severe soil erosion. The flood that really did the damage was on the Kickapoo watershed when on August 19 the Bronte area received from eight to twelve inches of rainfall. The three main prongs of the Kickapoo creek flooded the town of Bronte. The damage to crops, soils and conservation practices was very heavy. Many conservation practices, such as ponds and diversions failed and all terraces were topped.

Each and every year we see examples of range management

that point up the value of a rancher utilizing a part of his range grasses and returning a part of it to the soil, Sheppard emphasized. Range grasses protected during the drought responded much quicker than the range grasses severely abused during the drought, Sheppard said. By analyzing many ranges with district cooperators, the technicians of the Soil Conservation Service found ranges carrying as many as one hundred ewes per section, making much faster recovery if they had been protected during the drought than ranges totally deferred during the fall if they had been abused during the past several years. It was revealing to see the value of range conservation following a drought. The plant vigor of the range vegetation excelled on protected ranges, Sheppard explained.

Sombbrero Tamales— Quick and Flavorful Oven Dish

Really fine eating, pardner, is this wonderfully delicious casserole of satisfying food which all the "cow punchers" in your family will praise and praise.

This quick oven dish is put together in a matter of minutes. It is almost an "out-of-the-can-affair" because the rice cooks while you get out the cheese, the tamales and chili con carne and light the oven. This "savory favorite" from the southwest is different enough to make a big hit with company, too, and you'll find you won't need to "lasso" any compliments for it.

INGREDIENTS:

1 — 15 ounce can or jar of tamales and sauce

3 cups cooked rice

1 — 15½ ounce can chili con carne with beans

¾ cup water

¼ lb. American cheese, sliced

PREPARING THE FLUFFY WHITE RICE:

To make 3 heaping cups of white, fluffy, perfectly cooked rice:

1. Put 1 cup uncooked rice, 2 cups of cold water and 1 teaspoon of salt into a 2-quart saucepan and bring to a vigorous boil.
2. Turn the heat as low as possible. Cover the saucepan with a lid. Do not remove lid nor stir rice while it is cooking.

3. Leave saucepan over this low heat for 14 minutes. Remove from the heat. The rice is now ready to use.

For extra fluffy, tender, separate grains allow the rice to steam for an additional 10 minutes — with heat off, but without removing lid.

For extra convenience and economy of time and effort, cook 2 cups of rice, 4 cups of water and 2 teaspoons of salt — keeping the extra cups of unused ready-cooked rice in the refrigerator in a covered container.

Use this rice as needed in quick, delicious and inexpensive soups, salads, casserole dishes, hot breads and desserts.

METHOD: Place the tamales and sauce in the bottom of a greased 2-quart baking dish. Top with the cooked rice. Pour the chili con carne over the rice.

Add the water. Place the cheese slices over the top of the chili con carne. Place in a 350°F. oven for 30 minutes or until the cheese has melted and the tamales, rice and chili con carne mixture is heated through.

If desired, save out three of the tamales and arrange them on the top of the cheese in the shape of a sombrero. Do this about 10 minutes before the cooking time is over in order that these tamales may become hot.

This recipe makes 8 servings.
