Red Cross Quota Reached As \$935 Is Raised in County

AD-LIB-BEN

Frankly, I am a little surprised this week to find myself holding the first public office I ever held. (Probably the reason I got elected.) I'll do my best but I'll probably make a mistake or two. I made one last year and one the year before (and we have one critic who says we make one every week), so there's no telling what this year will bring. At any rate, before the election, I was talking with another candidate about the election. "What happens," I asked him, "when, if we are elected, and everybody gets sore about something, as they invariably do, and business falls off to nothing. What do we use to support the family?" "That's simple," he replied "just sit back and live off the salary you get!" (Mayors job pays \$5 and alderman \$3 monthly.)

When down in the mouth, remember Jonah! He came out all right.

We've been saving up some for the "small fry" department. We have a little first grader friend who came home and told her mother that some new "Flatin Americans" enrolled in school that day. And then, of course, we have to pass on what our baby, who loves to eat better than anything in the world, calls the afternoon TV programs, the "Bar-B-Q Lewis Show" and "Sagebrush Frigerator."

J. B. Mackey says he didn't have a chance to retire this year. He was elected to the Bronte school Board just three days before he could retire as city councilman.

Was talking with Junior Pruitt this week and he informs me that coffee prices are still on the climb. Wholesale coffee this week was \$1.22 per pound. They claim coffee is bad for the nerves but coffee prices are beginning to get on people's nerves too.

CRUSADE WILL FIGHT CANCER DURING APRIL

The American Cancer Society has launched its annual April drive for funds, and Coke County will take an active part in the movement.

To keep giving to March of Dimes, Red Cross and many other funds is a strain on the purse, but don't call it quits before giving to the Cancer fund also. Who knows — you may be helping to save one of your own family — even yourself, from great suffering.

The Cancer Crusade this year will give vital information about cancer to the public and will raise funds to advance the society's programs of research, education and service.

Official goal of the Texas Crusade is \$700,000. The national goal is \$25,000,000.

Cancer is expected to kill more than 9,000 Texans this year.

At least 25 per cent of funds raised will go for advanced scientific research and much of that will be used by Texas scientists and institutions. Sixty per cent will stay right here in Texas to provide professional and public information, service to cancer patients and to maintain tumor clinics and information service centers.

The Coke County Chapter of the American Cancer Society has the following officials: A. J. Kirkpatrick, chairman; Mrs. J. B. Mackey, Bronte, vice chairman; Mrs. Violet Eaton, Robert Lee, secretary and layman.

Dr. John D. McDaniel of Robert Lee and Dr. John R. Harris of Bronte compose the medical committee.

The general committee for Coke County also includes Miss Kay Reeder and Rev. James C. Shipman of Robert Lee, and Rev. Maynard Rogers, Ben Oglesby and Mrs. W. H. Maxwell of Bronte. Earl F. Glenn is treasurer.

MEETING MONDAY

Mrs. Mackey states that a county-wide meeting of committee members and all interested persons will be held next Monday night at 8 o'clock at the Baptist Church recreation parlor.

New Mayor and Three Councilmen Elected Tuesday

Bobby Good to Conduct Baptist Youth Revival

"Youth Week at the First Baptist Church has been progressing in fine order this week," says Miss Jean Timmons, chairman of the Publicity Committee of the youth officers. She informs The Bronte Enterprise that tonight, Friday, is their recreation feature with a picnic at 6:30 o'clock at the Bronte Park, to be followed at 7:30 p. m. with roller skating in Robert Lee.

"Our young people get down to the most important feature of the week's experience of church leadership," she said "when they promote a weekend revival." The speaker will be Bobby Good, youth preacher who is in training for the ministry at Fort Worth. He will arrive here tomorrow, Saturday, to promote an All Youth Visitation Program from 2 until 5 p. m.

Good, who is well known to most Bronte citizens, will preach first on Saturday, April 10, at 7:30 p. m.

Good will bring with him a song leader from the seminary.

A youth prayer service will precede the service at 7 p. m. A time of youth fellowship will follow the Saturday night service, led by the Seminary students.

Miss Timmons also said "Our big day is Sunday when all the Sunday School positions of leadership will be filled by youth." Sunday School begins at 10 a. m.

Leslie Dean Caperton will act as Superintendent, assisted by Aubry Don Denman. General secretary is Rickie Hester. The teachers will be Jimmy Glenn, Glenna Fletcher, Faith Rogers, Johnny Smith, Volita Harwell,

Committee Points Out Many Features of Bronte School System As Being Inadequate

Our report for this week shall cover the work of the Present School Facilities Committee, J. A. Stephenson, Chairman.

A thorough study of the problem was made with many startling discoveries. The present building was found to be structurally sound with the exception of cracks in the supporting beams around the building and a number of the floors in the upper rooms sagged, some as much as two inches. This committee was unable to determine the exact amount of danger prevailing as a result of these defects but it is agreed that a great safety hazard could prevail. The building was found to be, educationally speaking, obsolete. Much valuable time is being lost in climbing stairs while changing classes. All the class rooms, with the exception of the two rooms in the new annex, are too small

to meet State requirements. Insufficient drinking fountain and the intricate system of stairways and exits cause much confusion, especially to the smaller children.

The boiler for the school heating system is located just across the hallway from class rooms and, altho the boiler is kept in good repair, there would be great danger that all means of escape would be cut off for the basement children in case of a boiler explosion. Such an accident could result in great disaster.

The State Board of Education recommends 25 students to 720 square feet of class room space. This committee found only two rooms in the entire building that have 720 feet of floor space and each of those rooms have 40 to 45 pupils in them. Too much space would be required to give

the dimensions of each room; however, their reports reveals a total class room space of 5,504 feet and their investigation reveals that in order to make our school system meet standard requirements, an addition 13,390 feet is required.

This committee believes that the school should have a first class auditorium as a separate unit from the gymnasium to meet the needs of the school and the community. The bad acoustics, conflicts in use and difficulty in seating make the present combination gymnasium-auditorium very undesirable. An auditorium capable of seating 500 people is recommended.

The modern school requires much activity, both socially and physically. For these, there must be more room per pupil, as well as teacher. Each child should

Progressive Business And Civic-Minded People of San Angelo And Vicinity

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Bronte Enterprise as he saw conditions. These people are all leaders in their various lines of endeavor and the cooperation of those citizens in San Angelo who helped make this department possible is sincerely appreciated.

L. A. "Dock" Williamson

In paying tribute to some of the more progressive business and professional men of San Angelo we would be remiss in our duty should we fail to include L. A. "Dock" Williamson of Dock's Garage, whose business ability is no greater than the "know-how" and mechanical skill which has contributed to his well-earned success in the automotive repair and maintenance business.

He has also contributed generously to the welfare of his city and the community for many miles around. And his civic spirit is evidenced by the many services which he has performed and continues to perform in the interest of the people as a whole.

Mr. Williamson is a man of wide acquaintance, whose many friends admire and respect in him those virtues which inspire confidence and promote good feeling. And his upright business methods are a credit to his inherent sense of fair play.

We congratulate "Dock" Williamson on his splendid record of service and trust he shall continue to assist us for many years to come.

A. M. Hagan

We take pleasure in this San Angelo review to call the attention of our people to one of the more progressive geologists of this district. That personality is A. M. Hagan, who is rendering a valuable service to the oil producers of the state.

The production of petroleum in this section has been one of the greatest single factors in the growth and progress of San Angelo and this district, and Mr. Hagan is a man who has taken an important part in many phases of oil field activities.

He is a resident of San Angelo and has a large circle of personal friends throughout this entire district. He is also a man who has considered his civic responsibilities in a serious manner and is always ready and willing to help in the promotion of any project which promises to benefit his city and this district.

We congratulate A. M. Hagan for the part he is playing in the development of the petroleum resources in this part of the state and wish him many more years of successful operation.

Robert L. "Bob" Young And M. L. Young, Jr.

In every community there are a number of business and professional men who can be pointed out as having taken a threefold part in the onward progress of their city. Two well known business men of San Angelo who belong in this category are Robert L. "Bob" Young and M. L. Young, Jr., of The Acme Top & Awning Company.

Their leadership in their line of business is recognized throughout this entire district. Their furtherance of civic activities and support of those organizations whose main objectives are directed along lines of civic betterment and community

progress is well known to their immediate associates.

The Young's are men who are equally well liked and respected by their intimate friends, and their associates. They are loyal to the community, thankful for their success in business, and have shown their appreciation by their contributions to various civic movements of benefit to the city.

We congratulate M. L. and "Bob" Young for being good citizens, progressive business men and boosters of their home community.

Tom Ridgway

It is gratifying to include Thomas W. Ridgway of The Concho and Cowden Garden's, in this review of progressive and civic-minded men of San Angelo. Aside from his success in business he has always evidenced a willingness to take part in some manner in those activities which will promote the growth and progress of his city and the surrounding metropolitan trade area.

Mr. Ridgway is a floriculturist who, literally and figuratively, knows his business from the ground up. This knowledge plus his artistic ability and ideals of service have made him one of the more popular floriculturists in San Angelo. All of which combined with his sound and upright business principles are sure to keep him in the public's favor.

Tom Ridgway's integrity, responsibility and thorough knowledge of his business gained through long experience, will always keep him in the forefront of his line. And it is a pleasure to compliment him for his many successes.

H. John Hill

It is a privilege in this San Angelo review of progressive men and firms that have been such a great aid to the growth and development of this section of the state, to place such a man as H. John Hill of The H. John Hill Company, authorized dealer for Lennox Aire Flo Air Conditioning, in this area, on an equal plane with all others in this rank. In the past, few men have exceeded him in contributing of their time and energy to the onward progress of San Angelo.

Mr. Hill is generally recognized as one of the more progressive air conditioning dealers in this district, and he still retains that distinction in the admiration and respect of his wide circle of friends. Also his interest in, and the very valuable assistance he has rendered to the many projects of a civic nature, reflects the principles which has always so successfully applied to his business affairs.

We congratulate John Hill on his record, and sincerely hope that his career will be as useful and completely successful in the years ahead as it has been in the past.

Carrie E. Yeager

A city grows and prospers by reason of the public spirited

men and women who take an active interest in its development. San Angelo has its share of these progressive and civic-minded people and one who is deserving of recognition is friendly, likeable Carrie E. Yeager of The Angelo Pottery And Surplus Store, located at 1409 South Chadbourne.

Her business ability coupled with a sense of obligation to the public and a sincere desire to be of service have been major factors in maintaining The Angelo Pottery & Surplus Store in a prominent position in the business life of the city. She has, not only in her business activities, but also in her attention to civic duty, assumed an active part in community affairs.

Mrs. Yeager has always been ready and willing to contribute her time and energy to the promotion of any project promising to benefit the community as a whole. She has often sacrificed her personal interests to be of assistance to the city, and her efforts are deserving of commendation and support.

We congratulate Carrie Yeager on her past successes, and predict that the future will bring her still greater success.

Mrs. Gayle Hammack

To be a consistent and persistent booster of the home community very often takes courage and plenty of optimism. It is because of her unflinching faith in the future of San Angelo and the surrounding country and her untiring efforts to promote its development, that Mrs. Gayle Hammack is selected now for this brief tribute.

Mrs. Hammack has proven very ably that she is a restaurant operator of unusual ability, for it is largely to her ideals of service coupled with a determination to serve only the best of food that The Lamplighter holds its high position in the public's favor.

She is a person of keen business judgment whose ideas have been the inspiration of many who know her. Her personality and energy in directing the operations of the business are important factors in her outstanding success.

We are glad to pay this well deserved tribute to Mrs. Hammack and to point out to our readers that hers is the guiding influence responsible for the splendid service and delicious foods to be had at The Lamplighter in San Angelo.

Mr. and Mrs. Owen Gray

Mr. and Mrs. Owen Gray of The Gray Trailer Co. Inc., members of The Nationwide Trailer Rental Service, are two of those progressive type of citizens upon whom the community depends a great deal for leadership in business and other matters. They are also civic minded and have, in the past, and no doubt will continue in the future, to give more of their time and energy for the welfare of others than themselves.

They are the kind of people who make friends, and friendships once formed by them are

never broken by an unfriendly act on their part, and they spare no efforts in order that their services to the surrounding area shall be more dependable.

The Grays have never been known to inject themselves into a situation for the mere purpose of gaining publicity. However, they proceed in a calm and unostentatious manner, and accomplish their objectives with a quiet dignity. We do not hesitate to recommend Mr. and Mrs. Owen Gray to our friends as good examples of the more progressive type of business people who have aided in the growth and development of San Angelo and the surrounding country.

James F. Grinstead

Logically a man who has earned the reputation of being one of San Angelo's more progressive dealers for tropical fish, Parakeets and a complete line of pet accessories, would in doing so have earned the friendship and good will of a great many people throughout this entire district. And a man who justly deserves that distinction is—modest, efficient, friendly James F. Grinstead of The Angelo Pet Supply, located at 418 North Van Buren.

Mr. Grinstead is the type of man who would be an asset to any community, not only because the successful conduct of his business plays a definite part in the general civic scheme; but because the ultimate measure of his value lies in the fact that he is untiringly zealous and remarkably successful in the promotion of civic progress.

It would be difficult to estimate the actual dollars-and-cents value of men like this to their community. We congratulate the city of San Angelo for numbering among its more progressive citizens such a man as James Grinstead and we also express the wish that he will enjoy many more years of success.

R. B. Austin

One of the more progressive real estate men of San Angelo and one whose success can partly be attributed to a deep insight as to the direction in which the city will develop is R. B. Austin. He also has a sound basic knowledge of real estate values and has turned that knowledge to the advantage of the people with whom he does business. And his aggressive methods coupled with his sound and practical ideas have made the services he has rendered to the people more valuable and materially contributed to his well earned success.

Mr. Austin is also civic minded and has always shown a cheerful willingness to contribute his share of time and energy to the promotion of community projects.

It is because of the activities of such progressive business people that, year after year, San Angelo continues to show a healthy growth and expansion, both as a residential and industrial city. We are glad to pay tribute to R. B. Austin for the part he is playing in the onward progress of his city.

Elvin H. Head

In bestowing credit upon some of those progressive business men of San Angelo who in one way or another, have contributed their bit to improve both business and civic conditions, we wish to say a few words about Elvin H. Head of The Elvin H. Head Texaco Service Station.

Mr. Head has set a standard for himself and the operation of his business that, under existing

conditions, has been very difficult to maintain. However, that he has done so is proved by the large volume of business which his Texaco station continues to handle, much of which is due to his unceasing attention to detail and his ability to cope with new and unexpected problems.

Elvin Head is also civic-minded, and has, when asked, cheerfully cooperated on those civic activities to which he has been able to lend assistance. He more than deserves the respect and good will which he has earned, and we and his friends are confident that he will continue to maintain his usual integrity and high standards.

Maynard Coghill

In singling out some of the more progressive business and professional men of San Angelo, we would be censured should we fail to include Maynard Coghill of The Fireball Service Station and Fireball Wholesale Petroleum Products. He is a man who has never spared himself in his participation in both the business and civic activities of the city.

Mr. Coghill has always been conscious of his civic responsibilities and ever ready and willing to meet in every detail those opportunities which come to his attention to further civic enterprise. He may well be proud of his achievements along these lines.

Maynard Coghill deserves a great deal of credit for the honest and successful manner in which he has conducted his business affairs. He is a friendly and likeable personality whose sincere desire to be of service has gained for him a host of friends and acquaintances in and around San Angelo who would, if given the opportunity, join us in wishing him many more years of continued success.

Mr. and Mrs. R. W. Arnold

Mr. and Mrs. R. W. Arnold of The Sonotone Of San Angelo, have earned reputations for progressiveness because they have consistently forged ahead in their business—never letting up in their efforts to make the service they render to the people more valuable. This invariable policy has made Sonotone Of San Angelo outstanding in its field; a fact that is well known to be hard of hearing in the San Angelo area.

But Mr. and Mrs. Arnold have accomplished much more than just making a success of their business and private affairs and we take this opportunity to pay tribute to them for devoting what time they could spare to the general welfare not only to their own city but this entire district as well.

It is such people as they, who are both successful in business and appreciative of their civic obligations that are deserving of recognition. We take pleasure in publicly giving Mr. and Mrs. Arnold the credit for their accomplishments which their friends and associates have so long accorded them.

W. W. McIntire

W. W. McIntire is one of the more successful restaurant operators of San Angelo who, by maintaining a standard of service and high quality foods, has made McIntire's Cafe & Drive Inn one of the more popular eating places in the community. We are glad to give him credit for his success in a field which is so highly competitive.

It is also a pleasure to give him credit for taking part in

community affairs and lending his assistance to various activities and public drives. When to take a part in such matters he always does so without ostentation, but in a quiet manner which lends dignity to his cheerful acceptance of his share of the civic load. It is a pleasure to be associated in the promotion of community activities with such a man as Mr. McIntire.

This review of progressive and civic-minded people of San Angelo would not be complete were we to fail to include W. W. McIntire. His is the kind of success which deserves recognition and we wish him many more years of the same.

Henry H. Lamb

Henry H. Lamb has proved his progressiveness by constantly adding to and increasing the service which The Henry H. Lamb Service Station has extended to the people. The large volume of business handled by his Conoco station proves that "Service," to him, is "not just a word," but something to be rendered to the motoring public to the fullest extent of his ability. In addition to his close attention to his business affairs, Mr. Lamb was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given.

He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets both business and civic obligations. He is a credit to the community and is thoroughly established in the forefront of the business life of the city.

Henry Lamb has many friends in and around the city and it is a pleasure to bring him before our readers in this review of progressive San Angelo business men.

Jack Moreland

In all business and professional pursuits there are men who have met with success because they have honestly deserved it, and a man in his field is Jack Moreland, one of the area's more popular and reliable livestock hauling contractors, who well deserves the reputation he has earned for being one of San Angelo's more progressive business men. His thorough knowledge of everything pertaining to the livestock hauling business is exemplified by the manner in which he fulfills each and every demand made upon him in line with his business.

Furthermore, with such experience as Mr. Moreland has gained in the successful management and operation of his business has been turned to the advantage of his fellow citizens by applying the same principles to the promotion of those civic projects to which he has been called upon to lend his able assistance. Thus his success in business has further enhanced his value to the city.

We appreciate the opportunity of including Jack Moreland in this group of progressive and civic-minded people who are actively taking part in the evolution of the business and civic life of San Angelo.

Leland C. Rumsey

One of the more progressive business men of San Angelo, and a man who deserves the respect and good will of a great many residents of the city is capable, friendly Leland C. Rumsey of The Rumsey Plumbing Compa-

ny, whose wide knowledge and long experience in the plumbing and heating business has raised him into a position of prominence in his line.

It is because of this that The Rumsey Plumbing Company, has earned a reputation for reliability—second to none.

Mr. Rumsey is also civic-minded and has always been ready to contribute his time and energy to any plan which promises to benefit this entire district. And the people of San Angelo may regard with particular satisfaction the many services which he has performed for the community in the interest of progress and civic betterment.

We urge our readers to look to Leland Rumsey as a progressive business man of whom we may well be proud. His devotion to the city has been constant and his achievements well merited. We wish for him further success.

J. F. Donalson

San Angelo owes much to those progressive citizens who are taking part in the growth and progress of the city and who have helped to make it the business center for this section. In mentioning some of these men, it is only fair to include J. F. Donalson of The J. F. Donalson Sheet Metals Works, whose outstanding knowledge of the sheet metal business, backed up by his many years of experience, has brought him to the forefront in his particular field.

Mr. Donalson is wholly deserving of our sincere praise, and these few words of commendation are but a just recognition for the many activities he has conducted on behalf of the general welfare of the community.

The honest and successful conduct of his business affairs is not only a reflection of his character, but has also been a strong factor in maintaining him in a position of leadership in his field of endeavor.

We trust that J. F. Donalson will continue to serve the people of San Angelo and the surrounding area for many years to come.

C. B. Bland

Having a well earned reputation for honesty, dependable judgment and complete knowledge of the leathercraft business far above the average, C. B. Bland of The C. B. Bland Leathercraft, merits a brief tribute in this San Angelo review.

Without assumption or seeking public acclaim he has filled his place in the community as one of its solid citizens, performing his duties of citizenship quietly, yet efficiently. As a leading and progressive business man Mr. Bland holds a high position in the esteem of the public generally.

It is not only as a practical executive whose sound judgment and farsighted planning have brought such fine things to himself, but it is because of his inspiring optimism and loyal friendship that C. B. Bland is held in such high regards by the people of this district.

We gladly praise the record of this progressive San Angelo business man.

Harry P. Broncy

Successful business and professional men, as a rule, show their appreciation for their success by their often repeated demonstrations of civic pride. This is a fortunate fact. Otherwise a city would be lacking in that progressive element which advocates and develops various pro-

jects of a civic nature that are indicative of a progressive community.

Harry P. Broncy, one of the area's most reliable and completely responsible painting and decorating contractors, is a man who has never failed to lend a hand when it comes his turn to help on some worthy project promoted for the general betterment of San Angelo and the adjacent territory.

Mr. Broncy takes a genuine pleasure in this method of showing his appreciation for his success, and in so doing, recognizes his civic responsibility.

It is such men as Harry Broncy who become acknowledged leaders in both business and community activities, and we compliment him on having attained that position in his city.

Douglas A. Williams

To serve the public honestly, efficient and cheerfully is the basic foundation many progressive business men of San Angelo have found to be the shortest route to success. In making this statement, the man we have in mind is Douglas A. Williams of The Apex Exterminators. The popularity and patronage enjoyed by his termite control services accentuates the ideals of courtesy and efficiency which he has consistently applied in the management of the business and in the servicing of its patrons.

The conduct of such businesses have done much to make San Angelo the business center for many miles around, and it is fitting that we give credit where credit is due to such men as Mr. Williams for his part in the onward progress of the city. In doing so, we are merely putting into words the opinions of those who know him.

Doug Williams has earned his success by the method in which he has accepted both civic and business responsibilities, and we trust that he will continue to prosper.

Mrs. Frances Lindley

Good motels and tourist courts are indispensable to the progress and development of a growing city such as San Angelo. And The Motel Grande, combining the best features of both, has accommodated a great many tourists and business men in a manner that assures them of the continued patronage and good will of the motoring public.

The management of The Motel Grande has maintained an ideal of service which is thoroughly exemplified by the manner in which every need of the traveling motorist has been anticipated and prepared for. Nothing is taken for granted; nothing is forgotten, and hospitality and service is always their first and last consideration.

Much of the credit for the splendid reputation of this modern drive-in motel is due to the executive ability of Mrs. Frances Lindley, whose untiring efforts, foresightedness and careful attention to detail, have maintained a standard of hospitality and service which would be difficult to surpass. It is a pleasure to say these few words of praise about Motel Grande and its friendly manager, Frances Lindley.

O. D. Busby

Because this is a period of growth and expansion for San Angelo, those progressive business men who had the foresight and ability to lay their plans so as to be able to take advantage of these conditions are entitled to more than ordinary acclaim. We are, therefore, glad to pay tribute to O. D. Busby of The Raceway Park, for he has become a well known figure in the busi-

ness and civic life of the city.

Mr. Busby's persistent optimism and steadfast belief in the continued prosperity of the people of San Angelo and vicinity are characteristics which are deserving of our highest praise.

He has always shown a willingness to do his part in civic advancement and has contributed his bit, in one form or another, to projects promoted for the welfare of his city. We believe that men like O. D. Busby are entitled to our sincere praise, both because he has achieved success in his private affairs and because he is willing to contribute to the public good.

Cecil Montgomery

In critical times such as these, it takes business men of more than average ability to carry on their operations successfully. In making this statement the man we have in mind is one of San Angelo's more dependable sand and gravel dealers, Cecil Montgomery, who has holdings in Bronte, San Angelo as well as in Ballinger. He has a wide circle of friends and business associates scattered throughout this entire district, many of whom reside in our own community.

His contagious optimism and freely expressed belief in the assured prosperity of the people of San Angelo and its metropolitan trading area are characteristics which are to be appreciated in a progressive business man. He has always taken an interest in community affairs and has shown a willingness to shoulder his share of the civic load.

It is men like Mr. Montgomery who, because of the successful conduct of their business and private affairs and their willingness to contribute to the public good, who are wholly deserving of a few words of commendation. It is a pleasure to pay him this brief tribute.

J. A. Morgan

In compiling this review of progressive San Angelo business people, we have endeavored to select those citizens who, by the manner in which they have conducted themselves and their businesses, have earned for them positions of leadership in their various fields of activities. Such a man is J. A. Morgan of The Troy Linen Supply, who is well known and has many friends and customers throughout this entire district.

Mr. Morgan's main interests have not been solely confined to his own business and private affairs, but have also included his contributions, one form or another, to those projects of a civic nature which comes within the scope of his activities.

J. A. Morgan is a man of wide experience whose exploits in the business and civic life of San Angelo and vicinity merits more than a passing attention and the writer is privileged to pay this brief tribute to a man who well deserves more credit than is accorded him here.

R. F. Wallace

At the head of one of the district's more prominent wholesale meat companies, and as a leader of recognized ability in community life, R. F. Wallace stands out today as one of the best liked men on the panorama of San Angelo activity. His friends are numbered by the hundreds and all of them are of the lasting fibre which comes of worth-while associations, both in the world of business and in the realms of neighborhood life.

The R. F. Wallace Meat Company has been a strong factor in the growth and progress of San Angelo; and Mr. Wallace's own

efforts, in many instances, have been the stimuli behind the outstanding accomplishments of the company. The case is a fine example of a man weaving his own personal prominence into an executive's life, with lasting benefits to both organization and individual.

We take pleasure in expressing these few words of commendation to a man who has done so much to promote the growth and progress of this entire district.

Mrs. Viola Gee

Generally speaking, civic pride is one of those things that goes hand-in-hand with success, because a person must have been successful to fully appreciate the advantages that were afforded them by the community in which they live.

Mrs. Viola Gee of Viola's Health Center, is one of those progressive business women of San Angelo who has shown her appreciation for her success by her attention to civic matters. Her willingness to become a cog in the wheel of community progress, whenever united effort is needed to put over some movement or project advanced for the good of the city, has always been taken for granted.

Mrs. Gee's quiet assumption of responsibility, not only in connection with her own business, but in regard to other matters as well, has often lent a feeling of confidence in others interested in the same movements.

In complimenting Viola Gee upon her high standing in the community, we do no more than express the admiration and respect of her many friends and associates.

Hubert L. Whitfield

We wish in this edition to pay tribute to Hubert L. Whitfield, one of the area's better known and reliable livestock buyers, for his many services to the city of San Angelo and his splendid record of achievements in the business life of the city.

Mr. Whitfield probably has as wide a circle of friends as any other man we could name, because he is just naturally the kind of man who makes friends with almost everyone, and always conducts himself in such a manner as to deserve the respect and good will of all who know him.

San Angelo is fortunate in being able to number, among its more progressive business people, citizens of this type.

He is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district.

He may be depended upon, and his services to the people are too many in number to be described here. It may be sufficient to say that we consider Hubert Whitfield an asset to the community, and a progressive man of whom his city may be proud.

Kenneth L. Thompson

Kenneth L. Thompson of Thompson's Garage, is one of those progressive business men who has always done his bit to maintain the prestige of the city of San Angelo as the leading metropolis of this section of the state. He has always worked for the development of the city and his many services are worthy of sincere appreciation.

His well earned success as a business man is easily understood, knowing as the people do, his widespread reputation for the honesty which characterizes all of his business dealings. And it

And they bring you the highest compression ratio of any leading low-priced car. That's why they can deliver a big gain in power, acceleration and all-around performance, along with important gasoline savings!

Your test car's ready now... We'll be glad to have you compare the smooth, quiet performance of this new Chevrolet with any other car in its field. Come in and put it through any kind of "proving ground" test you care to, and judge its performance for yourself. Your test car's ready now and we hope you are, too.

is a combination of technical knowledge, mechanical skill and business ability which has elevated Mr. Thompson to the position of leadership in automotive hydromatic service in which he specializes.

He is completely aware of his civic responsibilities and is wide awake to the many opportunities for service, and is always ready and willing to lend his support to any project which promises to benefit the community as a whole.

We compliment Kenneth Thompson on his accomplishments, and wish for him continued success.

Dudley and Glendon Westbrook

Our issue today proposes to call the attention of our readers to some of those progressive and civic-minded people who have contributed their share of time and energy to the building up of San Angelo and the surrounding territory to the position of prominence which it now enjoys.

Two of these men whom we wish to present to our readers are Dudley and Glendon D. Westbrook of The Westbrook TV & Radio Co, and Westbrook Electric Co, whose success can be equally attributed to their business acumen, and their knowledge of electronics, with special emphasis on radio and television. They have never spared themselves in their aggressive march forward in both business and technical fields, and are qualified experts in the service and installation of all types of television sets and antennas.

The Westbrook's are at all times conscious of their civic responsibilities and may be depended upon to meet in every detail the many opportunities which present themselves to be of service to their city.

Glendon and Dudley Westbrook's record's of achievement is one of which they may well be proud. Their value to their city and this district is an established fact, and we are happy to give them the credit which is their just due.

Mr. and Mr. Noel Percifull and Gay of Abilene were in Bronte Saturday visiting his parents, Mr. and Mrs. J. A. Percifull and were dinner guests of Mr. and Mrs. A. F. Ball.

be provided with a cubicle for the storage of his supplies and for a place to keep his unfinished projects. Our present school plant fails to provide this need. In fact, some classes are so crowded there is no room for class room activities of any sort.

The first eight grades of the Elementary school are more over-crowded than is the High School. These grades need an additional 2100 square feet to meet their needs with the present enrollment. They also badly need a library room requiring around 840 square feet.

A larger, better equipped and located cafeteria is badly needed. The music department, both in band and choral, need larger and better equipped departments. This committee finds the needs very great for much needed facilities to meet future requirements.

(Editor's Note: The foregoing is the second of a series written by H. O. Whitt, general chairman of the school study committees. We sincerely hope that these articles will prove interesting and helpful to our readers in determining the course of action for our school.)

June LaMance

June LaMance of The Merle Norman Cosmetic Studio, has won the universal respect and good will of the people of San Angelo and the surrounding country for the progressive manner in which she has kept her studio in the forefront of the business and civic life of this entire district. Also for the efficient and friendly willingness she has displayed in accepting her share of responsibility in aiding civic projects.

She is not the kind of person who makes herself, conspicuous by the manner in which she conducts herself, either in business or other matters. Yet her quiet reserve and air of confidence marks her as a woman of sound judgement whose opinions and advice are sought after and listened to with respect.

We compliment June LaMance for the successful management of the Merle Norman Cosmetic Studio, also for her constructive advice and help on those civic affairs in which she has found time to interest herself. She is a per-
