AD-LIB-BEN

Everyone is elated and thankful about the news that the Salk polio vaccine has proved such an overwhelming success. So far as we can determine this is the first time in the history of science that such a great number of people have had a part in developing something that will relieve much human suffering and anxiety. Certainly, we here in Coke County, have done our part and deserve to be congratulated for our generosity to the March of Dimes each year.

All this just shows what can be done when the people and somebody with the "know-how" get together. Now what we would like to see is that same kind of backing be given the American Cancer Society as has been afforded the March of Dimes in the past few years.

We can see the necessity for developing a cure for cancer just as surely as we could for polio. Numerous families right here in the Bronte community have been visited by this killer and authorities tell us that one person in every four will have cancer.

Right now we have the opportunity to help with the fight against cancer, for the Cancer Crusade is now on. You will be asked to contribute to this cause and we'd like to see you be as generous with it as you have been in the past with the Dimes March.

Seems that the March of Dimes has always held first place of all the drives in the hearts of Americans; and we'd like to nominate the Cancer Crusade as its successor; now that polio apparently has been licked.

This is not to say that the National foundation will not still need money. There are still thousands of patients needing care, more research will continue, but it seems that the end is now in sight.

Council Turns Down Phone Company's Proposal of Rate Increase and Dial in 1957

Bronte's city council had another session with representatives of the General Telephone Company Monday night. At that meeting the company offered to install a dial telephone system in Bronte in the first quarter of 1957, or possibly sooner, if the council would grant the rate increase which they asked.

Again the council turned their proposal down. And again the council made a counter proposal which those present from the phone company said they felt sure would be rejected.

Representing General were John E. Robbins and Paul LeBlanc of San Angelo and Ted Maxwell of Sonora. They told council members that they could not schedule dial equipment for Bronte until the exchange is making them a fair return on their investment.

The council proposed that the company charge the following rates, providing Bronte would be scheduled for dial service in the first quarter of 1957:

One party business, \$7.00
Two party business, \$5.00

Gospelaire to Be Here Tonight

The Gospelaire will appear here tonight at 7:30 p. m. in a program of music. The quartet has become very popular in this area, appearing weekly over KRBC-TV. This is also said to be the last public appearance of the group since one of the members is moving from this area.

The program is sponsored by the Bronte sophomore class and will begin at 7:30 p. m. Admission is to be 30 and 60 cents and members of the class are putting on an advance ticket sale. They are urging everyone to buy tickets in advance since the class will receive a larger percentage on tickets sold before the program starts.

One party residence, \$4.50
Two party residence, \$3.50

Mayor Ernest Ivey said he expects to hear a report from the phone company in the next few days as to their decision on the rates proposed by the council.

Mrs. Helen Kirkland, city secretary, has prepared a financial statement covering the city's business during the fiscal year ending March 31, 1955. This statement will be run in next week's Enterprise.

ACCUSED OF CAR THEFT

Frank Baker of Honey Grove is in the Coke County jail at Robert Lee and will be charged with car theft. Baker had lived with the Leslie Lammers family for the past month and was employed on the school building project. It is reported that on Tuesday morning he asked for the Lammers car to go after the mail and failed to return. He was apprehended in Sweetwater Tuesday night and the Lammers went after the car.

Officials then returned Baker to the Coke County jail to await trial.

Polio Shots to Be Given Here Soon

Dr. John R. Harris announced Wednesday that he will give polio vaccine to all children in the first and second grades if their parents request it.

This announcement came as a result of the news made public

this week that the Salk vaccine has proved tremendously successful. The news was released Tuesday that the vaccine was successful approximately 90 percent of the time. The announcement also stated that ill effects from the vaccine were practically negligible, with only minor reactions in a very few cases.

Dr. Harris said that request blanks will be distributed in the near future and that parents who wish that their children be given the shots should sign them. Exact date for giving the shots has not been decided, as the vaccine has not yet been received.

Any Questions?

The local physician also said that he would like to answer questions which local residents may have in regard to the new serum. Anyone who has a question in regard to any phase of this program, may turn his question in to the Bronte Hospital or to The Bronte Enterprise or questions may be telephoned in to Mrs. Marvin Landers or Mrs. E. G. Collins at the Harris Clinic. It is planned to publish the questions and answers in next week's papers.

Development of the Salk vaccine has come about after years of research and study by some of the nation's foremost scientists. Most of the funds for the study which led to the serum development have been contributed by the people of the United States through the March of Dimes.

GIRL SCOUT TROOPS BEING ORGANIZED

Miss Margaret McAdams, Girl Scout District Supervisor of Abilene, was here Wednesday, April 6 to meet with a group of leaders for Girl Scout troops in Bronte. According to a report by Mrs. H. A. Springer, Miss McAdams was well pleased with the progress so far. She described the organization of a scout troop, composed of the girls, their leader and the troop committee, composed of both men and women.

Next Tuesday, April 19, Miss McAdams will return to Bronte to begin a leadership training course. The course will continue for three meetings of about three hours each. The course will be conducted in the study hall at the local high school.

All those who will be willing to serve as a leader, an assistant, are on a troop committee are asked to be present at this meeting.

Loans were up some \$50,000. The loans and discounts column in the April 11 statement totaled \$598,663.30 and last December read \$546,423.00.

Capital structure of the banking firm increased \$180,000 last December to \$189,274.00 now. The gain was in the undivided profits account. Capital stock remains at \$50,000 and surplus account still is \$100,000.

English Minister To Lead Revival

Dr. W. Myrddin Lewis of Birmingham, England, will lead the Spring Revival at First Baptist Church, Bronte, April 25- May 6. Dr. Lewis has been pastor for some 16 years of the Ward End Baptist Church in Birmingham, England. He is a regular conference speaker at Winona Lake Bible Conference, which is the world's largest Bible Conference.

He has held meetings in some of the outstanding churches both in Europe and the United States, having held three successive meetings in the People's Church in Toronto.

He will come to Bronte from a Revival Crusade with the First Baptist Church of Galveston, Texas, where Rev. John W. Salzman is pastor. From Bronte, Dr. Lewis will go to the First Baptist Church of Fort Smith, Arkansas. "But just because he is a humble servant of God's Holy Word, do we consider ourselves fortunate to have him as our Revival preacher," stated Maynard R. Rogers, pastor of the church.

Services this year are planned for 10 a. m. and 8 p. m. daily.

Podnah, This Cow Business Gets My Goat

Think you've got troubles? Pick up the following letter from an Oregon cattle magazine, which we understand, got it by way of a Texas newspaper. Might be that this is just the chuckle teaser that you need, because it shows how everybody's ear can get chewed on now and again.

"Dear Sir After reading this letter, you can see what my banker thinks about my cattle business.

"Livestock are animals that are bred and raised in the western states to keep the producer broke and the buyer crazy.

"Livestock are born in the spring, mortgaged in the summer,

The Bronte Enterprise

pastured in the fall and given away in the winter. They vary in size, color and weight, and the man who can guess the nearest the weight and market grade is called a livestock buyer by the public, a robber by the rancher and a poor businessman by his banker.

"The price of livestock is determined in Chicago and goes up after you have sold and down after you have bought.

"When you have light cattle the buyers want heavy ones; when you feed heifers you find they want steers, or vice versa. When they're thin they should be fat; and when your steers are fat, the buyer tells you the market on tallow is shot to hell; you've got them too fat.

"A buyer for a Montana packer was sent to Chicago to watch the livestock market. After a few days deliberation, he wired his firm: 'Some say the market will go up, some say it will go down; I say the same. Whatever you do will be wrong. Act at once—'

CANCER STRIKES ONE IN FOUR

WHO COULD HAVE BEEN SAVED BY EARLIER DIAGNOSIS

TWO DIE

OF TYPES OF CANCER THAT FUTURE RESEARCH MUST CONTROL

GIVE TO THE AMERICAN CANCER SOCIETY

According to A. J. Kirkpatrick, American Cancer Society campaign chairman, an important development has just been announced concerning a change in ACS's statement "Cancer Strikes One in Five — Strike Back."

He said that the former statement was based on computations made by the ACS's statistical research section in 1949, which showed that if the then current cancer incidence rates and the over-all death rates continued, cancer would develop sometime in approximately 20 percent of all Americans alive.

Kirkpatrick stated, "Since the former computation, the age composition of Americans has changed. Over-all death rates in most age groups are lower than they were, but the reported rates for the development of cancer are now higher.

"Using the same methods as they did in 1949, but with the later date our statisticians conclude that cancer will, if these rates continue, develop in roughly 25 percent of Americans now living. Hence our statement becomes "Cancer Strikes One in Four — Strike Back."

"This change emphasizes the necessity of striking back against a threat to all of us. The new figures mean that more than 40,000,000 Americans now living will at some time develop cancer.

"Many of them will be saved from cancer. Others will die of other causes with cancer present. However, if the present death rates continue, 24,000,000 now alive will die of this disease.

"We have a challenge and a great opportunity that if we strike back, if we use all the medical knowledge at hand, about one-third of those now slated to die of cancer can be saved.

"Physicians can save them if their disease is diagnosed while still local, and treated promptly and properly. In other words, 8,000,000 of this 24,000,000 can be saved with what we now know.

"Our hope, naturally, is that research will enable physicians to save many millions more. Happily the increase in incidence, expressed in the change to 'Cancer Strikes One in Four,' is not reflected in a like increase in death rates.

"Actually the cancer death rate in women is dropping. This, we think, is due in large measure to public and professional education — a conference recently on Cancer of the Uterus points the way to a still greater drop.

"However, cancer mortality is still increasing. Most of the increase, he said, is due to cancer of the lung. If the climbing incidence and mortality of cancer in this site can be controlled, then we should be able to alter the mortality trend in cancer in men.

"Let us remember 'Cancer Strikes One in Four' and act on the challenge 'Strike Back' " Kirkpatrick concluded.

what's what by whatley

Easter Sunday was a beautiful day for all those who had a pretty new hat and dress to wear but I think we would all have preferred a nice big rain. In looking thru some last years files, I was told that April 12, last year, we had 1½ inches of rain and the very next day we had another inch. I guess that was in the good old days as it has been so long ago that most everyone has forgotten it.

Easter was also a lovely day for the opening of the new Kickapoo church. I thoroughly enjoyed their afternoon services and their building is very pretty on the inside and out. It is a credit to a town the size of Bronte to have four nice churches.

My new clothes for Easter was limited to a new purse and I didn't even carry it. The husband said it looked like a "lunch bucket." That gave me a wonderful idea as I could pack myself a neat little lunch to carry along on Sunday morning. Then if Preacher Craig ever went over the 12 mark on the clock dial, I could take my lunch out and start eating. But since I have been giving the husband so many lectures here of late, on the overeating habit, that I guess I'll refrain from the packed lunch.

This dry dusty weather has been causing the cattle man so many headaches as there seems to be no let up in the feeding. I read in the Big D column the other day about a little boy 3, had spent most of his life in Germany and wasn't very well acquainted with ranch life. Recently he had been visiting at the ranch of his grandparents and had taken a great interest in caring for all the live-

stock. He was out with his grandfather and was watching closely as he put out salt for the cows. The little boy said, "Now, Grandfather, where is the pepper?" A few weeks ago Mrs. Bob Coleman was hostess to our club in San Angelo and served this filled angel cake, which was out of this world. Before leaving I got around to asking for the recipe. I know all of you will enjoy having it in your files.

This is how it goes:

Filled Angel Cake

Take one angel cake and slice off a one inch layer across the top. Hollow a large portion out of the lower part:

Make the filling in the following manner:

4 egg yolks, beaten well.
1 cup orange juice.
¼ cup sugar
Cook until it thickens. When slightly cooled dissolve 1 pkg. gelatin in ½-cup water. Add this to the above mixture and also add:
1 cup chopped maraschino cherries
1 cup pecans
1 cup cocoanut.

Then add 4 stiffly beaten egg whites.

Fill the hollow of the cake and on top with this filling and place the 1-inch layer back on the cake and ice with your favorite icing.

157 Grocers Sue Safeway, Asking \$166,000 Damages

ABILENE, April 4 — A \$166,000 damage suit was filed in federal district court here Monday against Safeway Stores, Inc.

It was filed by an attorney representing 157 independent grocers operating in Taylor, Jones, Haskell, Nolan, Scurry, Eastland, Fisher and other near-by counties.

In addition to damages, the grocers are seeking a permanent injunction against Safeway to prevent the defendant company from "further engaging in a price war and from cutting the price of merchandises below the wholesale cost and the cost of distribution."

Highest damages sought is \$10,000 asked by Raymond F. Day, Abilene, who claims his business was destroyed as a result of the alleged price cutting. Damages of \$1,000 each are sought by the other 156 grocers.

The aluminum tray making school was an interesting and profitable one. Mrs. Lillian Eastland, 2nd grade teacher in the Robert Lee school was leader. Trays were made by these ladies: Mrs. Walter King, Olga club; Mrs. Walter Moore, Olga; Mrs. W. E. Stevens, Silver; Mrs. Tom E. Rives, Jr., Friendship; Mrs. Pat Rives, Friendship; Mrs. Glenn Waldrop, Green Mountain; Mrs. O. R. McQueen, Mrs. I. C. Oden and Mrs. C. E. Arrott, all of Bronte; Mrs. Jack Allard, Sanco and the following 4-H leaders, Mrs. W. J. Humphries, Robert Lee and Mrs. M. D. Dixon, Bronte.

Joyce and I also made trays. We used a homemade tool made from an icepick to put our design on the aluminum circle. The trays are beautiful and will certainly come in handy for salad trays and serving outdoor meals these warm days.

I gave my last demonstration in this series on pies, pastry, and meringues when I met with the Silver Club Friday afternoon in the Sun Recreation Hall. These members were in attendance, Mrs. George Conner, Mrs. Charlie Arnold, Mrs. R. B. Allen, Mrs. W. E. Stevens and Mrs. Mulligan, who was hostess.

Some 4-H club planning has been done since my last visit with you readers. Mrs. M. D. Dixon, Mrs. James Allen and Mrs. T. M. Wylie met with me and made plans for the county team demonstra-

tion and "Share the Fun" eliminations. Prizes will be given all who enter.

Leslie Nell Wink, Annice Gartman, Mary Frances Wylie, Mary Beth Schooler, have planned their demonstration and will give them at their next club meeting. Danell Dixon and Brenda Corley from Bronte have also done some planning.

My family and I leave Wednesday night to spend the Easter holidays with my parents, Mr. and Mrs. C. B. Croslin, Paris, my sisters, Mrs. Jim West, Honey Grove Mrs. A. Gibbon, Dallas. A. J. Jr. plans to spend some time fishing on Lake Texhoma with his brother, Don, who lives in Denison.

Anyone who has a good recipe and would like to have it in the cook book the W. H. D. Council is putting out, should mail it to my office soon. We would like to have recipes from non club members as well as club members.

April is a nice month to do some gardening if you haven't done any, or if your first planting was killed, beans, sweet corn, beets, or any vegetable can be planted now. You might even transplant a few of your tomato plants and keep some in case we
