## Special Election Will Name Bronte Mayor

Citizens of Bronte will elect a mayor at a special election to be held Saturday in the city hall. Only candidate who has filed for a place on the ballot is Norman R. Kiker, owner of Central Drug. The city council had been hop-

ing that the new city hall would be completed in time to hold the election there. However, it is believed that it will not be ready, so the balloting will be at the old office on Main Street.

A new mayor is being elected to take the position held by the late J. A. Stephenson, whose term would have run for about 14 more months. Royce Fancher, city council member, has been serving as mayor pro tempore since Mr. Stephenson's death.

All residents of the city who are qualified voters may cast a ballot in this election. Fancher urged everyone to vote even though only one candidate has filed for the position.

## Last Rites Held For Mrs. Jim Clark

Funeral services were held Monday at 2 p.m. at Newby-Davis Chapel in Ballinger for Mrs. Jim Clark, 83, pioneer of the Brookshire community. Mrs. Clark was born Aug. 16, 1879, in Cameron. She joined the Church of Christ when she was a young girl. When she was 20 years old she moved with her parents, the late Mr. and Mrs. Tom Toombs to Rising Star. She was married Oct. 9, 1901, to Jim Clark and they moved to the Brookshire community in January 1910.

## High School Girls Basketball Team Has 3-0 Record

The Bronte High School girls basketball team has a three wins and no losses record in district competition after Tuesday night's 43-25 win over Christoval. Their other two wins were over Robert Lee and Wall.

The Bronte lassies took their second district game from Robert Lee last Friday night when they downed their hosts by a 48-31 score. Marla Rees was high scorer in that game with 27 points and led her teammates in the tussle with Christoval with 19 counters.

The Bronte Longhorns also took their game Tuesday night when they edged Christoval, with a score of 39-38. The winning tally was dropped through the hoop by Jim Morrow, after Roy Wayne Stout managed to get the ball away from the opponent in the last five seconds of the contest. High pointers were Stout and Weldon Broussard with 10 points each.

The Longhorns lost their second district game to Robert Lee, 47-40, last Friday night at Robert Lee. Royce Lee was high point man with 11.

Friday night both boys and girls teams will host teams from Miles. Tuesday of next week they will go to Roby, and Wall will come here Friday, Feb. 1.

Brown Freeman of Brownwood, former Bronte resident, was here Monday visiting friends.

## 2 Cold Spells in Week Blamed for 3 Accidents

Bitter cold has struck the Bronte area twice in the last week giving residents a real taste of arctic weather, and causing three vehicle accidents.

The first cold spell blew into Bronte a few minutes before midnight Friday. The mercury went down to 8 degrees early Saturday morning, but began a warm-up on Sunday. About 6 p.m. Tuesday another front came through with high winds and blowing dust, and the mercury went to 10 degrees early Wednesday.

The weekend cold snap brought a small amount of moisture, enough to coat the section around Bronte with a layer of slippery ice by Saturday morning. The ice coating caused three accidents nearby. The first one occurred just south of the river bridge, when a truck

load of horses belonging to Joe Lemley of San Angelo turned over on the highway. The truck was driven by James Perry Reed, also of San Angelo.

A few minutes later a truck load of cottonseed hulls came along at the scene of the first accident, swerved to avoid hitting the overturned truck, and

overturned in the east ditch. The second truck was owned by Sweetwater Cotton Oil Mill and was driven by Orvil D. Purvis of Sweetwater.

The accidents occurred between 4:30 and 5 a.m. Saturday. Highway patrolmen investigating estimated damage to Lemley's rig at \$1100 and to the cottonoil company's truck at \$1000.

Another accident occurred about 9:30 a.m. when a car pulling a trailer and driven by Mildred H. Chiles of Kerrville ran into trouble on the ice coated bridge over Kickapoo Creek in north Bronte.

The driver applied her brakes when she hit the icy bridge, according to patrolmen, and the trailer slid into the car and then turned over in the west ditch. Mrs. Chiles was given a ticket for speeding. Estimated damage was \$300. No serious injuries were reported in any of the accidents.

The Tuesday afternoon norther dropped temperatures to 10 early Wednesday morning, and the forecast called for sub-freezing weather to continue at least through Thursday. No moisture for this area was expected with the latest cold front.

## Mothers' March Set for Friday

The Mothers' March for the March of Dimes will be held here Friday beginning at 3:30 p.m., according to Mrs. N. M. Curlee, chairman of the drive for the Bronte area.

Mrs. Curlee said that she still needs more volunteers to help with the drive. Members of Bronte's federated clubs and the PTA are invited to help, along with anyone else who would like to assist in the program.

Mrs. Curlee said the group plans to make a house to house canvass in an effort to raise money for the drive.

Much money is needed for the March of Dimes, even though the incidence of polio has been greatly decreased, due to development of Salk and Sabin vaccines.

The National Foundation still has much expense caring for patients who have had polio, and in addition, it is doing research on arthritis and birth defects.

Mrs. Curlee urged that everyone contribute liberally to the March of Dimes, "for it is still one of the most worthy causes you can help."

The annual January fund drive is being sponsored locally by the Parent Teachers Association with Mrs. Curlee serving as its chairman.

## Tax Collector Here Next Week

County Tax Assessor-Collector O. B. Jacobs announced this week that he will set up an office Jan. 29 and 30 in First National Bank in Bronte. Purpose of the temporary setup is to allow persons in the Bronte area to pay their property and poll taxes without having to go to Robert Lee.

Jacobs pointed out that all property taxes will become delinquent on Feb. 1 and urged everyone who possibly can to pay his taxes by that time. The last day of January is also the deadline for paying poll taxes. He said Wednesday that only 357 poll taxes had been paid. Jacobs emphasized that a poll tax receipt is required to vote in any election in Texas. This includes city, school, county, state, national and special elections.

John Connally. In addition to the local interest in history of Texas counties, it was brought out that the preservation and marking of historical sites, will add to Texas' attraction to tourists.

"The Texas State Historical Survey Committee is happy to have Coke County included in the more than 240 counties actively working toward the goal of historical preservation," said Dr. Rupert N. Richardson of Abilene, president of the State Committee. "The Committee wishes to thank Judge Thetford for appointing a Historical Survey Committee in this county."

Dr. Richardson pointed out that every county has a unique history, and Coke County is no exception. The County Committee will be concerned with historic buildings, museum pieces, markers and records of the county.

The Texas State Historical Survey Committee works to coordinate the historical preservation work accomplished on the local level with programs carried on the state level. Currently County Historical Survey Committees are locating and marking graves of Civil War Veterans and sponsoring Historical Building Medallions to be placed on historic structures.

## County Agents News Column

By STERLING LINDSEY

The 1963 Coke County Stock Show is history now. I do not believe it was the best show we ever had, but it was one of the better ones. I hope that we who are associated with the youths who exhibited in the show can impress upon them the fact that considerable time, effort and money were expended for their benefit by the Show Association directors and the buyers who participated in the auction sale. We are thankful, first, that we live where such an event is possible, and secondly, that so many people are willing to give their support to the move.

The final tallies showed 185 head of livestock being exhibited by 55 4-H and FFA members. Forty-five members participated in the sale, making it the largest we have ever had. In the show, 11 champions were crowned, three top showmen selected and six trophies awarded to champions and breeders of champions.

Not every club member was a winner, but I believe they are all wiser. And most of them will have fond memories of the show we had back in 1963.

This week several club members will be competing in the Abilene Fat Stock Show. Coke County 4-H clubbers will have six calves and ten lambs on exhibit there.

Gaylon, Darrel and Sheri Pitcock will exhibit their four hereford steers in the Abilene show as will Jo Alice Evans and James Bird Pentecost one hereford steer each.

The lambs will be shown by James and Albert Dale Fields, one lamb; Wesley Ash, two lambs; Ronnie and Donnie Devoll, three lambs; and Nicky Arrott, four lambs. We hope that we will have something to report next week besides the cold weather we encountered.

The screwworm control program in the Southwest is shaping up for the coming of spring and the migration northward of the screwworm and at the same time is having financial difficulties. Now that the program has gained the position that it holds, we sincerely hope that it can continue as the leaders have it plan-

ned. They still do not make promises of no screwworms in 1963, but they do believe they are in a commanding position as we begin the second year of warfare. If all goes well they will have their buffer zone established along the border and be in position to send sterile flies to trouble spots wherever they may exist above the buffer zone.

This means that two things will be vitally important to our well being if screwworms occur here — and we expect some. First, we must report any cases that develop and we must do all we can to eliminate these cases before they complete their cycle.

Secondly, in reporting we must give exact locations of infestations in order that the sterile flies may be dropped where maximum returns can be gained. If they miss with their drop, then you may not benefit and the to other operators. Stopping that first case will be extremely important this year. Without your cooperation the program will take much longer to accomplish and could cause many losses before the control desired is accomplished.

**UNCLE HUIE from HOG CREEK says**

DEAR MISTER EDITOR:

I see by the papers where the Defense Department is getting more and more complaints from young men about being drafted for the armed forces. The officials is blaming this on the easy life folks is living nowadays, claims our young generation is spoiled.

Personal, I don't think human nature is no different now in this matter than it was 40 year ago. I recollect back during the first World War a feller telling me he was in the Army for three reasons. He wanted to fight for his country, he was shore the Army would build him up good and stout, and they had come and got him.

**Health Hints**

By Dr. Charles E. Spears

A little more than sixty-seven years ago one man advanced a new idea in healing, a philosophy and art of health restoration that was a radical departure from the older methods that employ drugs and surgery. This new principle, later called Chiropractic, was drugless and taught that health is a natural thing, that it is God-given and that, like other virtues, it comes from within.

Chiropractic was, and is based upon the principle that all function is directed and controlled through the nervous system and that the power of resistance also rests upon a clear right of way for the nervous system.

A study of anatomy reveals that the spine is the line shaft of the body. Most bones and muscles are attached to it directly or indirectly, making it a tower of strength. The spine also supports the head and brain, encases the spinal cord, and is the distributing center for all trunk nerves which emit between the vertebrae. A fall or strain, chiropractors teach, may subluxate a vertebra and cause pressure upon nerve trunks. This disturbs function, lowers resistance, and ill health of some nature follows.

Chiropractors are trained to find and to correct this spinal cause of disease so that normal health may be restored from within.

Chiropractic adjustments ... restore and maintain health.

pers, it looks like things is running about even on the plus and minus side with them Government agencies in Washington. This means 1963 is getting started with a slight improvement over last year.

For instant, the Pentagon has quit ordering soda crackers made to "special military specifications" for the armed forces. They has decided that the kind of soda crackers me and you eat is good enough for the boys in service. Last week they bought 2 million pounds of soda crackers regular style and saved \$124,000 for the tax payers.

And it was announced they come up with another wonderful idea in the Pentagon. Up to now, the fellers in the armed services has been using the same kind of laundry soap my old lady uses, but they been gitting it in a wrapper "made to military specifications." It was decided to buy this soap in the regular wrapper and save the tax payers another \$232,246 a year.

But over on the minus side, the Pentagon is still buying a 10-cent soap dish made to special order. A manufacturer in Chicago says he gits a pamphlet of specifications and requirements 16 pages long on this 10-cent soap dish. He figgers it costs the taxpayers more to git out the pamphlet than the dish costs. I have wrote to my Congressman about this item, hope you will do likewise.

But the biggest minus sign we got for 1963 comes from the Civil Defense Department. Them fellers has up and bought 70 million "survival biscuits" for fallout shelters at a cost of \$8 million. These is special biscuits, they explain in case of nuclear attack. Now we got \$8 million worth of special biscuits and no fallout shelters to put 'em in. That's a heap of wasted dough, Mister Editor, if you'll pardon this oldtimer for a slight pun.

And I see where one of them Washington column writers announces that the \$100 million we loaned to the United Nations comes to 55c per adult in the nation. We ain't going to git it back, so I mailed my 55 cent to Washington this morning.

Yours truly,  
Uncle Huie

The Home Demonstration Council and Club members did a fine job in preparing and serving the barbecue lunch during the stock show. All the food was donated and prepared by the H.D. members except the barbecue. J. O. Rudd and two helpers did the barbecuing of goats and mutton.

Donors of the animals were: Charlie Davis, W. E. Burns, David Key, Floyd Harmon, Nolan Pentecost, C. E. Arrott, Jack Corley, Bert Blaylock and Glenn Waldrop.

Money realized from the concessions and barbecue lunch will be used to support and further Home Demonstration club and 4-H work in the county.

Each Home Demonstration Club is expected to have two Foods Leaders attend a training meeting Friday, Jan. 25. The program, "Care and Use of Eggs," will be given in my office and will begin at 1:30 p.m. The leader will present the program in each of the Home Demonstration clubs during February.

**TICKETS BEING GIVEN FOR PARKING WRONG WAY**

Justice of the Peace J. T. Liles said this week that Texas Highway Patrolmen have given some tickets the last few days to persons who have parked on the left side of the street in front of the post office.

He said that pulling across the street from the right lane through the left lane and parking is against the law, and warned local motorists not to be guilty of the offense. The judge said that quite a number of auto drivers are guilty of pulling across Main Street and parking on the "wrong" side.
