Tour Shows Progress Made on Kickapoo Flood Control Dams

A tour last Thursday of two of the dams being constructed on the Kickapoo watershed gave local residents a good view of the project. Although six dams will be in the project when work is completed, the two sites toured, one completed and the other under construction, showed the magnitude of the project of slowing down the flood waters of three creeks like the Kickapoos.

The tour followed a Lions Club luncheon at the Methodist Church where Soil Conservation Service water shed district and county officials were special guests. C. N.

About 40 men and a number of Bronte FFA boys made the tour, which left from Bronte and went

to the dam on property of W. D. (Pete) McDonald, known as Site No. 4. Construction on this structure is complete and work began this week on mulching hay into the dam and seeding it to prevent erosion.

The tour was conducted by W. E. Jacoby, work unit conservationist of Robert Lee; J. L. (Cy) Richmond, area conservationist of San Angelo; John Curtis, project engineer of Coleman; and L. F. Stewart, member of the state board of supervisors of Temple.

The dams are designed to prevent flooding and the accompanying loss of soil in the rural area, and to prevent flooding in the city of Bronte. Richmond explained that extra benefits of the local structures will be to aid in control of flood water on down the Colorado River.

After examining the McDonald dam, the group moved on to the Site No. 5, on land owned by Edward Rawlings. It is under construction and will be the largest of the six structures. While at this site, Jim Haralson conducted a demonstration showing penetration of water on bare ground and that covered with grass. The uncovered ground absorbed water to about two inches, while it penetrated to about six inches where the grass stood.

Dams which have been completed include the one on the McDon-

Each Water User Pays Minimum, Says City Ruling

Mayor Norman R. Kiker said this week that some question has come up on the matter of more than one customer using water through a single meter and paying only one minimum charge.

The mayor said that ruling by former city councils clearly state that if more than one residence or business or combination of the two is using water through one meter, each shall pay the minimum water charge.

Referring back to minutes of a city council meeting on June 18, 1946, Mayor Kiker said that the matter was clarified at that time. He also referred to minutes of a meeting Oct. 7, 1953, when the council referred to the ruling made in 1946, and re-affirmed the policy of each user paying the minimum charge.

In addition to decisions by the city council, Kiker pointed out that agreements with holders of city water bonds make it mandatory that each user of water taken from city mains must pay the monthly charge.

"I hope this report to The Bronte Enterprise will clear up this matter for all residents of Bronte," the mayor said.

Clarence Webb Presented Plaque For SCD Service

Clarence N. Webb, formerly of Tennyson and now of San Angelo, was a guest of honor last Thursday at the Lions Club luncheon when he was presented an engraved plaque in recognition of his many years of service to district, area and state Soil Conservation organizations.

Webb, who owns ranches at Tennyson and Nolan, was one of the organizers of the Coke County Conservation District. He was a supervisor of the district for 16 years and served as president for 12 years. He was area chairman for 12 years and on the state board for four years.

L. F. Stewart of Temple, a member of the State Board of Supervisors, made the presentation, on behalf of the local district as well as the state.

Pet Vaccination Set for Friday

By STERLING LINDSEY

A vaccination program to immunize pets against rabies will be held in the County Friday afternoon, March 29. Dr. P. R. Turner, D.V.M. from Water Valley and the Coke County 4-H Clubs will sponsor the event.

Immunization will be done at three stops in the county. Dr. Turner will be at the Robert Lee Park from 1 — 2:30 p.m.; at the Bronte Park from 3 until 4:30 p.m. and at the Tennyson Community Center from 5 until 5:30 p.m.

Anyone desiring dogs or cats vaccinated is requested to take the animals to one of the three places Friday afternoon.

PLAY NIGHT POSTPONED

The play night for adults at the Bronte School gym, scheduled for Thursday night, has been postponed until Friday night. Reason for putting off the event is the fact that one act plays will be held in Robert Lee Thursday night.

Type III Vaccine Will Be Given Here Friday

The third kind of Sabin polio vaccine, Type III, will be given Friday at the Bronte Elementary School. Types I and II have been administered during the past few months. Those who have taken them and take Type III tomorrow will be completely immunized against polio, said Dr. John R. Harris, city health officer, who

is in charge of the program.

The same procedure will be followed as has been used for the other types. No charge will be made, but everyone is asked to make a 25 cent contribution to help defray the cost of the serum.

Mrs. Joy Bagwell, office nurse at the John Harris Clinic, will supervise the administering of the medicine. It will be given on a sugar cube.

Dr. Harris urged everyone in this area to take the vaccine as part of a large scale program to wipe out polio.

Band Takes 1 First And 3 Second Spots

Four ensembles from the Bronte High School Band took high honors last Saturday at an Inter-scholastic League contest at McMurry College in Abilene. The trip was made under sponsorship of Band Director Bobby Bingham. The local musicians took one first place honor and three second places.

A flute trio composed of Dorothy Ruth Martin, Kreta Kiker and Janie Collins won first place. The girls were accompanied by Jan Wilkins.

Winning second place honors were the following:

Clarinet trio composed of Ida Lee, Parker, Weldon Broussard and LaJan Kiker, accompanied by Cathy Lawson.

Saxophone quartet made up of Jan Wilkins, Vic Glenn, Lynda Taylor and Marla Rees.

Trumpet quartet composed of Joy Kay Moore, Sharon Mackey, Edward Broussard and Lisa Morrow.

Bingham said he was well pleased with the fine showing made by the band students.

Track Team Wins Fourth at Bangs

Bronte High School track team outdid all the Class B schools in the Dragon Relays Friday. They were outscored only by Bangs, Merkel and Rising Star, who took first second and third places respectively. The local lads scored 48 points to take fourth place.

The Longhorns took two first places in the meet. Jim Morrow sailed straight up 6 feet 1½ inches to set a new record for the Bangs meet and take first place in the high jump event. Tommy Glenn Sims also won a first for his team in the 100 yard dash. Time was 10.6.

Other winners included: Broad jump: Royce Lee, 5th, 18-9½.

High jump: Weldon Broussard, tied for 3rd, 5-6.

Two mile relay: 6th place, team composed of Wesley Murphy, Kenneth Wilkins, Bernardo Fuentes and Ronnie Johns.

120 yard high hurdles: Jimmy Wells, 6th.

Mixed mile relay: Team made up of Lee Ray Revell, Ronnie Lee, Jim Morrow and Russell Brown took 4th place.

100 yard dash: Roy Stout, 3rd; Ronnie Lee, 6th.

Saturday, the team went to Rochelle, but were a little worn out from the previous day's activities. Their showing didn't come up to the results of the day before.

Ann Harris is home from Waynesboro, Virginia for a spring vacation in the home of her parents, Dr. and Mrs. John R. Harris.

Subscription Rates Going Up April 1

Subscriptions to the Bronte Enterprise will be increased 50 cents on April 1. The increase was necessary due to recent increases in postage rates and other costs of production.

The increase will mean that subscriptions in Coke and adjoining counties will be \$3.00 per year and elsewhere the paper will be \$3.50 per year. State sales tax must be added to all subscriptions purchased by residents of Texas.

Single copy price of The Enterprise will remain at 10 cents.

Golf Course Work Now Underway

Work is well underway on the new golf course in the Bronte park. Much of the dirt moving work has been done, grass seed has been ordered and will be planted in the next few days. A spokesman for the golf group said that the public is welcome to come by and inspect the work being done.

A membership drive is underway. Regular dues are \$2.50 per month for one person, provided they sign up now. Additional members of the family may join by paying dues of \$1.50 per month. It has been decided, however, that after June 1 dues will be increased to \$5.00 and \$3.00 for the first month's membership, and then revert back to the \$2.50 and \$1.50 monthly charges.

Purpose of the increased dues after June 1 is to enroll as many members as possible now when money is needed to purchase the equipment. Cost of operating the course will be met with dues collected from members of the association.

Officers of the new association are Clint Low, president; John Boyles, secretary; and Aubrey Denman, treasurer. Dues should be paid to Denman.

The four hole course is expected to be ready for play the last of June or early in July.

BOYS BASEBALL WORKOUT TUESDAY

First workout of the season will be held for Little Leaguers and Pee Wees at 5 p.m. next Tuesday at the diamond near the park. All boys who are interested in playing with either of these groups are invited to be present and bring the fathers and baseball gloves.

A spokesman for the baseball organizations said it is very important that everybody who wishes to play be present, inasmuch as they need to decide how many teams will be formed.

UNCLE HUIE from HOG CREEK says

DEAR MISTER EDITOR:

Ole Patrick Henry told some of our ancestors if he couldn't git liberty to give him death. I was just setting here reading the papers and studying my latest literature from the Department of Agriculture and wondering if ole Patrick could stand the kind of liberty we got now.

Fer instant, this Washington column writer says national, state and local taxes will take 34 cent of ever dollar earned by the American people in 1963. In 1929, he says, these taxes was taking 11 cent.

This column writer claims taxes has got so high they has give rise to a brand new perfession in this country, the "tax avoidance" experts. He allows as how a field of experts as big as the legal perfession has sprung up that don't do nothing but specialize in

finding legal loop holes for avoiding taxes. He told about one big manufacturer that hires six of these tax avoidance boys full time. The manufacturer explained that it pays better, after you reach a certain point, to find ways of getting out of taxes than it does to earn more income fer the company.

And I ain't got much faith in this campaign they got going now to cut taxes. What they take off here they'll put on there, and by 1964 the tax take will be up another 2 cents on the dollar. I agree 100 per cent with that new car bumper sticker they say is going around the country: "A Vote Fer Anybody Is A Vote Fer More Taxes."

And they was a couple of disturbing items in my dosage from the Department of Agriculture this week. First off, they was a small item announcing that the price of elephants has doubled since 1952 and was climbing all the time. When that item gits in the newspapers and folks starts hoarding elephants things will git pritty crowded.

But the most serious item was about them science fellers at the University of Wisconsin hitting on a discovery in wheat culture that might produce 100 to 150 bushels to the acre. About the best you can git now is 40 to 50 bushel. We already got Government wheat stored from Alcatraz to the Statue of Liberty and if the yield gits up to 150 bushel a acre it could cause a national panic. It looks like them fellers would spend their time working on the necessary items, something like gasoline that'll give 150 mile to the gallon, or a woman's hat that would last from Christmas plum through Easter. Bu like Franklin Roosevelt said, abundance is our biggest asset, and I reckon that includes taxes and wheat!

Yours truly,
 Uncle Huie

The reupholstery workshop is being continued this week — Monday, Tuesday and Wednesday. We hope these three days will give each group time to complete their chairs. We will be working in the Recreation Center in Bronte each day. Miss Offie Chenoweth of Ballinger will be with us throughout the workshop. We hope to have some of the chairs on display in the future.

Now that spring has come if you are interested in information on Gardening, yards, housecleaning, insect control, and many many other pertinent subjects you are welcome to drop by the office. We are proud of our offices and of the bulletins available to everyone on so many subjects. We hope you will visit us soon.

The 4-H Club Pancake Supper was held Friday night in the Robert Lee lunchroom. I appreciated the assistance given us by the many merchants, individuals, and

to the Silver Lions, "4-H papas" and others who worked so hard. The pancakes were wonderful!

TOUR OF DAMS —

ald property, another on B. W. Waldorp, one on Mrs. Edna Butner and one on Rawlings. The sixth dam will be located on the Frank Keeney estate.

Construction and operation of the dams is operated by the Coke County Kickapoo Water Control and Improvement District No. 1 which was created by an act of the legislature in 1961. The district is governed by a board of directors which includes F. S. Higginbotham, chairman; D. K. Glenn, vice chairman; J. A. Percell, secretary-treasurer; and Preston Davis and Austin Sandusky, members.

The question of building dams on the creeks started in 1953, after a flood did hundreds of thousands of dollars damage to the rural area in the city of Bronte. The project was fostered by the Bronte Lions Club. After many years of work by a large number of persons, the water district was created and money to build the dams was appropriated by congress. Actual construction began in 1961, and presently the work is well ahead of schedule.

The six dams range from 20 to 33 feet in height and when completed will contain a total of 1,178,530 cubic yards of dirt fill. The watershed area is composed of 40,732 acres. Total storage capacity, including reserve for sedimentation, is 8,727 acre feet, and total surface area is 332 acres. Total estimated cost is \$786,487.00; however, it is believed the cost will run somewhat under this figure.

One Act Plays Tonight at R. Lee

District one act play contest will be staged Thursday night in Robert Lee, with curtain time at 7 o'clock. Casts from Robert Lee, Bronte, Christoval and Miles will enter the contest.

Bronte play, "Wait for Morning Child," is being directed by John Hartsell. Players are Johnnie Sims, Vic Glenn and Jerry Don Holcombe. Helpers, who will assist in staging the production, are LaJan Kiker, Barry Curlee and Charles Coppock.

Hartsell said Wednesday that the cast has worked hard on the production and "learned a lot, win, lose or dray."

Admission prices to the plays will be 50 and 25 cents.

PERSONALS

Mr. and Mrs. R. B. Springer and four daughters of Wichita, Kans., are here for a visit with her parents, Mr. and Mrs. R. S. Walton. They expect to be here until Easter. Mr. and Mrs. S. P. Brown and Fran of LaVerne, Okla., are expected for a visit this weekend. Mrs. Brown is also the Waltons' daughter.

James David Luttrell of Lubbock was a weekend guest in the home of his parents, Mr. and Mrs. J. D. Luttrell.

Visitors over the weekend in the home of Mr. and Mrs. C. L. Kiker were Mr. and Mrs. Harold Rohde, Charlene and Johnny, and Chester Henderson, all of Euless.

Mr. and Mrs. M. Russell returned the first of the week from a trip to Tuscon, Arizona.

TSgt James D. Sanker left Monday for a 2½ year tour of Air Force duty on Okinawa. Mrs. Sanker, the former Montie Alexander, and children remained here.

Postmaster Noah Pruitt was admitted to Shannon Hospital in San Angelo Sunday for medical observation and treatment. He expected to be released the middle of the week.

SHOP BRONTE FIRST

Bronte Wins 3 in District Volleyball Competition

Volleyball teams of Bronte High School took three first places in the District 74-B tournament held here Tuesday. Six schools in the district, including Wall, Miles, Christoval, Robert Lee, Silver and Bronte, participated in the tourney.

Bronte senior boys, senior girls and junior girls took first place honors. Silver won the elementary boys contest, and Wall was tops in the junior boys and elementary girls divisions.

Regional volleyball playoffs will be held April 19 and 20 at Odessa for senior girls. Bronte will play on Friday, April 19, at 10 a.m. They will play the winner of District 79-B.

The nsenior girls volleyball is the only one to go on to regional competition.

Bronte's Tennis Players Selected for District Meet

Tennis players to represent the Bronte schools in district Inter-scholastic competition have been selected.

Tennis competition will begin Friday when senior girls singles, and junior boys doubles games will be played here with Robert Lee at 2:30 p.m. Elementary boys and girls singles and doubles, will be played Friday at Robert Lee.

More district games will be played in San Angelo next Tuesday.

The divisions will be represented as follows:

Senior boys singles: Glenn Sims.

Senior boys doubles: Jimmy Wells and Barry Curlee.

Junior boys singles: Royce Lee

Junior boys doubles: Wayne Hester and Ronald Hooper.

Senior girls singles: Marla Rees

Johnnie Sims, alternate.

Senior girls doubles: Jeanna Denman and Jan Wilkins.

Junior girls doubles: Joy Kay Moore and Pat Robinson.

Junior girls singles: Elaine Collins.

Mr. and Mrs. Donald Hester and son of Dallas were here recently visiting relatives.

Career Program Today at Robt. Lee

A Career Exploration program will be held at the Robert Lee School auditorium on Thursday, March 28 (today). High school students from the Silver, Bronte and Robert Lee schools will be given information on career planning and selection. Parents and the general public are invited to participate in the program, also.

The program, sponsored by the schools of Coke County and the Texas Extension Service, will begin at 9 a.m. Five speakers will appear during the morning, covering the various phases of Career planning. Following lunch, a two hour consultation period will be held.

Approximately 25 consultants will be present to give information and answer questions regarding the various vocational fields.

HAVE BIRTHDAY DINNER

The children of Mr. and Mrs. E. L. Caperton and their families were all at home last weekend. They are: R. T. and Leslie Dean Caperton of Coleman; Mrs. Jack Belcher of Andrews and Matthew Caperton of Bronte. A birthday dinner in the Caperton home Sunday honored three members of the family with birthdays this month, R. T., Matthew and Mark Caperton.

Sandusky Rites in San Angelo

Funeral services for Ben F. Sandusky, 83, were held Tuesday at 2 p.m. from Johnson's Funeral Chapel in San Angelo. Dr. James B. Leavell, pastor of First Baptist Church of San Angelo, officiated. Burial was in the Fairmount cemetery there.

Mr. Sandusky died Friday afternoon at Shannon Hospital in San Angelo. He had been a resident of San Angelo since 1929.

He was born Oct. 11, 1879, in Rio Vista and was married to Lillie Emily Goen April 11, 1906

in Hillsboro. He worked as a contractor and was employed in the hardware business until his health failed several years ago. He had been a deacon in the Baptist Church since 1907.

Survivors include his wife; a daughter, Mrs. William B. Tyler of San Angelo; a son, Ben F. Sandusky, Jr. of Twin Falls, Idaho; two sisters, Mrs. E. Y. King of San Angelo and Mrs. J. C. Hart of Lamesa; four grandchildren and two great grandchildren.

Cousins attending the funeral were Dewey and Bill Sandusky of Merkel; Mrs. Austin Sandusky, Mrs. A. M. Wynne and Mrs. L. W. Beauty of Bronte.

YOUR FAIR SHARE . . .

Most Texans, we believe, are fair-minded folks.

They believe in fair play, square dealing, and mutual respect for personal and property rights. Those who want to take advantage of their neighbors are the exception.

Sometimes it may be hard to define "a fair share." This can occur in dividing oil or gas production, when two or more landowners are involved.

As we all know, oil and gas don't pay any attention to fence lines.

Here in Texas many wells have been allowed to produce more oil or gas than they should have because they were drilled on very small tracts. That extra oil or gas came from under the neighbor's land.

Some oilmen made a regular practice of this type of operation. Obviously, one owner got more than his fair share others, less.

People in 26 out of 29 oil-producing states have found a way to divide their oil and gas so that each owner gets what is rightfully his. They simply put their small acreage together and share the costs and income. This system is known as POOLING.

Such a system is needed in Texas. It is proposed in a bill now before the Legislature, HOUSE BILL 510. When the neighbors cannot agree, the Railroad Commission would set up a drilling block and see to it that the rights of all owners are protected... all costs and proceeds equitably divided.

Oilmen who have made fortunes at the expense of others could not be expected to support House Bill No. 510. They are bitterly opposing it. But the responsible oilmen of Texas are overwhelmingly for it. So are the informed citizens who want to see justice done.

Ask your Senator and Representative at Austin to support House Bill 510—so Texas, too, will have a reasonable and legal way to assure to each landowner his FAIR SHARE.

(This ad paid for by Committee for Equitable Development of Texas Oil & Gas Resources, 341 Mellie Esperson Building, Houston 2.)

County Agents News Column

By STERLING LINDSEY

The number of screwworm cases in the state jumped to 15 last week. One of these was from Uvalde County. Uvalde County joins Kinney County where one case was reported the week before. The authorities of the program again took immediate, positive action to keep an outbreak from occurring.

They asked that we emphasize in taking a sample, be sure to get the larvae from the bottom of the wound. Also, if more than one size larvae are present, include some of both.

They reported that several calls have been received regarding cases where no sample was collected. A sample must be sent in to confirm the case even though you report a case by phone. Collect a sample before you call them.

The importance of spraying animals to control insects was noted. This practice can aid an individual operator as well as help in the screwworm control program.

As we go into the warm season of the year, the Extension Veterinarian has alerted us regard-

ing leptospirosis, or as we commonly call it, "lepto." This disease of cattle and other livestock has been confused with brucellosis because it can cause abortion. In many ways it can be more dangerous than brucellosis because it is more easily spread.

Lepto unlike brucellosis can cause up to 10 per cent death losses among cattle and as much as 25 per cent among calves.

Some of the symptoms are abortion, sharp drop in milk production and changes in the milk produced. Among calves the signs are loss of appetite, diarrhea and depressed attitude.

Since lepto can be easily confused with other complications, Dr. Patterson suggests a veterinarian be contacted if symptoms appear. A laboratory analysis is sometimes necessary to make positive identification of the disease.

Farm families lose about 800 lives and \$163 million worth of property annually through fires. About 11,300 farm residents are killed in accidents and another 950,000 injured. A general clean-up of homes and farms will remove many fire and accident hazards.

More than 22 per cent of all farm accidents occur in the home; 19.5 per cent in barns and other buildings; 19.2 per cent in traffic and 18 per cent in fields, and even though the farm population is declining, the rate of fatal accidents per 100,000 persons is increasing, according to the Texas Farm and Ranch Safety Council. They are strong in their belief that accidents can be prevented and that good housekeeping around the farmstead and in the home and the practicing of good safety habits at work and in traffic can reduce the number of deaths and crippling injuries.

NEW BOOK RELEASED ON TOURING TEXAS

The Texas Highway Department has issued a publication to supplement its new road map which was designed to encourage tourists to visit the state. The 32 page booklet is entitled "Texas, Today's Fun-Tier." Like the road map, the booklet is beautifully illustrated and shows many scenes from over the state.

Both the map and booklet are primarily intended to be sent out of state, but will be of interest to Texas residents, also. They may be obtained for the asking from Texas Highway Department, Travel Division, Austin.

The NEW Santa Fe Trail

A report on some of Santa Fe's newest milestones

BY THE PRESIDENT OF THE SANTA FE

In 1963, Santa Fe is investing some 90 million dollars on new equipment and improvements.

All this money is being used to keep the Santa Fe up-to-date in every way.

As a matter of fact, so many new and exciting things are happening on the Santa Fe today that some people are calling it "The New Santa Fe Trail."

Here are just a few highlights of the many improvements.

- 2548 new boxcars.
- 500 Mechanical Temperature Control cars.
- 550 covered hopper cars.
- 194 double and triple deck autoveyors.
- 181 flat cars.
- 58 new diesel locomotives.
- 24 hi-level passenger cars.
- 31 semi-lightweight mail and baggage cars.
- Increasing our microwave communication system to 2064 route miles.
- Experimenting with new and more efficient freight cars such as compartmentalized cars for automobile parts.
- Advancing our piggy-back operations to include joint rail-truck rates.

And we haven't been standing still up until now. We've invested over a billion dollars in progress since World War II. For example:

- The new cut-off line into Dallas.
- Major line relocations in Arizona.

- Equipped 3560 new freight cars with "Shock Control" devices for damage-free shipment of fragile freight. (More of these cars are on order.)
- Equipped 7745 freight cars with roller bearings.
- Designed and built the first multi-level automobile transport cars—the autoveyors—which are now used by all the major railroads.

To keep pace with changing times and with the rapid growth of the areas we serve, we keep constantly on the move toward a better way to serve you and to strengthen a vital part of our national defense.

It is our aim to keep the Santa Fe Trail always new.
