Bronte, Blackwell Lions to Tangle In Cage Game

What may prove to be one of the outstanding cage events of the current season will be unreeled Saturday night when teams from the Bronte and Blackwell Lions Clubs tangle in the Blackwell gym.

R. E. Patton, Blackwell Lion Boss, who is ramrodding the event, said that "old man's rules" will be used in the contest. He declined to elaborate on just what this means, however, saying "Come and see what the rules are!"

Among the potential players for Bronte are Joe Simpson, John Boyles, T. F. Sims, Jr., N. M. Curlee, D. K. Glenn, W. W. (Bud) Thetford, Royce Lee, James Golsen, C. B. Barbee, Marvin Bryant, J. T. Henry, Matthew Caperton, Joe Rawlings, Norman Kiker, Clyde Lee, Rev. Murrell Johns, Rev. Austin Masterson, W. E. Jacoby, Rev. Dempsey Salter, J. B. Mackey, Ben Oglesby, C. E. Bruton, Sam Williams and Davey Crockett. Others may have to be drafted.

Name of the coach has not been announced, but one fan remarked to The Enterprise that "if he can get a team out of this roster, he ought to be coaching for some pro team."

Bronte PTA will have a regular meeting Tuesday at 6 p.m. in the audio-visual room at school.

EVENING SERVICE TIME CHANGED FOR METHODISTS

The Rev. Austin Masterson, pastor of First Methodist Church, announced this week that, beginning Sunday, time of evening services will be changed back to 7 p.m. For the past few months they were held at 6 p.m.

Mr. and Mrs. J. B. Glenn and family of Abilene visited relatives here Tuesday.

ing the meeting will be conducted through the exhibit rooms.

The fair will then be opened to students on Friday, Feb. 14 and to the public on Saturday, Feb. 15.

Clint Low, school science teacher, said that all grades of the school are participating in the show. Both individual and group displays will be on exhibition.

Low said that some of the projects include surveys on smoking and the effect of rattlesnake bites; a display on contact lenses and a study of the effect of loss of sleep on the body.

The science teacher said, "We are expecting to have another good Science Fair this year, and feel that everyone will be interested in it and have something to gain from a visit to the fair."

Science students will act as guides to explain various exhibits to the visitors.

49 Coke Firms Listed by D&B

A. J. Hemphill, district manager of the Fort Worth office of Dun & Bradstreet, Inc., has announced that statement requests were mailed to 49 businesses in Coke County. Figures were obtained from a physical count of the Dun & Bradstreet Reference Book for January, 1964.

Business concerns in all parts of the United States are asked by Dun & Bradstreet for copies of their financial statements each January.

This year requests were sent to nearly three million business concerns — to the corner grocery store worth a few thousand dollars as well as to businesses worth millions.

The Dun & Bradstreet Reference Book lists those manufacturers, wholesalers, and retailers who seek or grant commercial credit but it does not include some of the service and professional businesses such as beauty and barber shops, security dealers and real estate brokers. Therefore, the figures for total businesses in the United States would be higher than the three million quoted above.

During the past year, 33 changes were made in the Dun & Bradstreet Reference Book listings of Coke County businesses, including 10 names added, nine names deleted and 14 changes in the ratings of continuing businesses. The changes occurring in Coke County are about even with the rest of the country where a change of business significance is counted about every five seconds.

1,073 Poll Taxes Paid in Coke

A total of 1,073 poll taxes were sold in Coke County for 1964, according to a report from the office of O. B. Jacobs, tax assessor-collector.

This figure exceeds the 770 poll taxes in 1963 by 303. However '63 was an "off" year with no county, state or national elections on the docket. It also is slightly above the 1,060 paid in 1962, when there were state and county elections,

RONNIE LEE GETS FIRST HOLE IN ONE

Ronnie Lee is the hero of the Coke County Golf Association, having made the first hole in one at the local course. The feat was accomplished Sunday with a seven iron on the No. 1 hole, for a distance of 130 yards.

The Bronte High School Junior is the son of Mr. and Mrs. Clyde Lee.

The course at Bronte County Park was opened July 4, 1963, and Ronnie's shot came after hundreds of golf balls had been hit by golfers taking aim at the little can which he hit.

Ronnie was participating in a Scotch Threesome match Sunday when he sank his golf ball with one stroke. In spite of the lucky swing, his group won only third place in the match.

First place winners were John Boyles, Jim Pitts and Charles Masterson. Second were Norman Jones, Charlie Brown and Bob Bell, while Ronnie, Mrs. C. O. Richards and Martin Lee were third.

Plans are materializing toward getting an additional five holes at the golf course, making it a nine hole course. Details of acquiring the necessary land and laying out the course are being worked out, and it is expected that dirt moving will begin soon.

LOW'S SISTER DIES

Word was received Wednesday that Mrs. Marie Peel of Brownwood died some time Tuesday night, following a long illness. She was a sister of Clint Low, teacher in the Bronte Schools. Funeral services will be held at 2 p.m. today (Thursday).

Up to 3 Inches Rain Fall Here

From two to three inches of life giving rains have fallen in the Bronte area in the past week. Ranchmen and farmers are delighted with the moisture, as it has already brightened up small grain crops and is bringing out winter weeds.

A slow drizzle most of last Wednesday turned into a good rain during the night to total an inch to one and a half inches.

Basketball Notes

Bronte High School basketball teams went to Forsan Tuesday night and had a long trip home, as they lost both the boys and girls games. The girls lost by the considerable margin of 76-52, but the boys' loss was a heart-breaker with a 45-44 score.

Forsan girls led all the way for their victory. Score by quarters: Forsan 29 18 20 9-76 Bronte 13 11 10 18-52

Marla Rees was high pointer for her team with 19, while Forsan's Betty Conger sank 32 for game honors. Bronte boys were out ahead of Forsan at the end of the first quarter and the half, but fell behind in the third quarter. They had it all tied up, however, just before the final gong sounded, but Forsan managed to sink a free shot for the one point margin.

Score by quarters: Bronte 19 17 4 4-44 Forsan 15 16 11 3-45

Ron Johns was high pointer for the Longhorns with 11, while Weldon Broussard followed closely with 10. Donnie Gooch of Forsan took game scoring honors with 14. Upcoming games include contests Friday night at Sterling City, and next Tuesday night Robert Lee will play here.

In district play the girls have a two won, four lost record while the boys have broken even with three games won and three lost.

HISTORICAL ESSAY AND POSTER CONTEST STARTS

Coke County Historical Committee, along with the state organization appointed by Gov. John Connally, is sponsoring a contest among high school students for the best essay and best poster on Civil War history.

Rules of the contest are in the hands of school officials and interested students may obtain information from them. Students in grades 9-12 are eligible to enter.

Tom Boecking, student at Texas Tech in Lubbock, spent the weekend with his parents, Mr. and Mrs. Charlie Boecking.

After a warm, sunny weekend, another moisture-laden front moved in Monday. It followed the same pattern as the previous one, misting slowly all day and turning into heavier rain during the early night. Total for this rain also ran from one to one and a half inches.

Some representative measurements for the past week:

A. N. Rawlings, southwest of Bronte, 2.25 inches.

Roy Baker, south of Tennyson, 2.5 inches.

Don Edmiaston, east of Bronte, 2.8 inches.

Clifford Clark, east of Bronte, 3.3 inches.

R. C. Lasswell, north of Bronte, 3.2 inches.

Brookshire community, 3 to 3.5 inches.

Dr. James Fjerstad Opens New Dental Office in Robt. Lee

Dr. James Fjerstad, a doctor of dental surgery, has opened an office in Robert Lee in the Rice building, between the post office and bank.

The new dentist is a native of Minnesota and obtained his Bachelor of Science and Doctor of Dental Surgery degrees from the University of Minnesota. For a time, he did undergraduate work at Texas Western in El Paso.

All new equipment of the latest design has been installed in the new dental office, and Dr. Fjerstad has already begun practice.

RATTLESNAKE ROUND-UP IS SET FOR FEB. 29

Bronte Jaycees are going ahead with their plans to sponsor a rattlesnake round-up in Coke County. The hunt has been set for Feb. 29 and March 1. The Jaycees are being assisted by a committee from the Coke County Game Management Association composed of Otis Smith, C. E. Arrott, Curtis Walker, and possibly others who will be added later. Also assisting with the hunt are employees of the County Agent's department and area game wardens.

Smith told The Enterprise that Coke County's mountainous terrain is ideal for a snake hunt, and that most residents of the area know there is no shortage of reptiles.

Plans now are to have a show at Ribert Lee on Sunday following the hunt. All snakes are to be brought alive to the show where they will be judged and prizes awarded the winners. Details and judging and prizes are being worked out and will be announced soon.

Jaycees plan to get out letters to all known professional snake hunters of the area, inviting them to participate. Places to register for land owners who wish to participate and for hunters will be announced.

NO PRESBYTERIAN SERVICES

It has been announced that Presbyterian church services will not be held Sunday, Feb. 9. Announcement will be run when next services are scheduled.

but no balloting for a president or vice president.

The last year in which a president was elected, 1960, Coke County had 1,414 paid poll taxes, 341 more than this year.

Number of persons of voting age in Coke County is probably down some from 1960, but local politicians feel that the shortage of local contests has cut down on interest and caused fewer persons to pay the \$1.75 tax. Another

factor, they say, which might have lowered the number of poll tax payments is the fact that an amendment to the U. S. Constitution which abolishes the poll tax requirement in all national elections was recently ratified. This latest development will allow anyone who is otherwise eligible to vote for president, vice president, senator and congressman without a poll tax.

Frank Dickey Jr. Announces for First Full Term As 51st District Attorney

District Attorney Frank C. Dickey, Jr. who was appointed by Governor John Connally last February to complete the unexpired term of Justin Keever, has officially declared his candidacy for the position of Democratic nominee for District Attorney of the 51st Judicial District of Texas, which is composed of the Counties of Coke, Irion, Schleicher, Sterling and Tom Green.

In 1953 the candidate was appointed County Attorney of Coke County. After the completion of that term he was elected twice by the voters and served in that office until he was employed as staff attorney for the State Highway Department.

The 38-year old District Attorney is one of two sons of Frank C. and Myrtle Dickey, long-time residents of this area. His father has practiced law in Runnels and Coke Counties for many years and is currently County Attorney of Coke County.

The District Attorney received his early education in Ballinger Texas, and graduated from high school there in 1943. He then volunteered as a Marine and served in the Marine Corps until 1946. He attended Yale University for two years as a member of the Marine Corps Officer Program and during this time was a member of the Yale University swimming team.

After war service, he completed pre-law at Yale and worked part time while attending Baylor University, where he received his law degree in 1952. While at Baylor, in addition to studying and working in the law library, on construction jobs and in the oil fields, Dickey was co-captain of the Baylor swimming team and a member of Phi Delta Phi, a legal fraternity.

Dickey presently is a member of the State Bar of Texas and the Tom Green County Bar. He and his wife, the former Sheila Ryan, reside at 421 S. Adams, San Angelo. The couple has two sons and three daughters.

His statement follows:

"To the people of Coke County: I am grateful for the favors you have shown me. I shall try to justify your continued support.

Please vote for me.

Public-service patents on two methods of producing all-cotton stretch socks have been applied for by the United States Department of Agriculture.

In one process now being adopted by industry, oversized, loosely knitted socks are made from untreated yarn, then treated in sodium hydroxide to twist and crimp the fibers. This compound causes the socks to shrink to about half of their original size.

Stretch properties are put into

the yarn before knitting in the second process. Treatment is in sodium hydroxide as in the first process.

The USDA reports that both methods produce socks in the standard range of stretch sizes 11 to 14, leaving about four inches of stretch in reserve. Knitting may be done on standard machines. Developers of the processes are with the USDA's Southern Utilization Research Laboratory, New Orleans.
