Prospects Good For A Bus Line Through Dimmitt Hereford-Plainview

Following preliminary arrangements through the efforts of local citizens, with the cooperation of the Dimmitt Lions Club, representatives of Dimmitt, Hereford and Plainview held a meeting at Plainview Tuesday morning to make plans for an application for a bus route through Dimmitt from Plainview to Hereford.

A delegation headed by T. A. Singer and Bill Simon of Dimmitt with E. B. Posey, secretary of the Hereford Chamber of Commerce, E. S. Blair, Mayor of Hereford, and Robert Singer, Hereford Druggist, met with the Board of City Development Tuesday to encourage the establishment of the proposed bus route. Mr. Joe Quinn, Plainview manager of the Texas-New Mexico Bus Lines, and individual operator, was present at the meeting and offered full cooperation of his company, and at his suggestion the proposed route was covered Tuesday afternoon on an inspection run by a delegation from the three cities accompanied by Mr. Quinn. Plans were made for the application to the office of Defense Transportation and the Railroad Commission for a temporary permit to operate a bus line over the proposed route. It is believed that operation of the new bus line will begin in the very near future, serving a territory that is in dire need of passenger transportation facilities. With the opening of the new bus line Dimmitt will, for the first time, have a daily transportation service.

The telegram was followed Monday by a letter from Brigadier General Samuel E. Anderson of the IX Bomber Command, giving some details of the action in which Sgt. White was missing. The letter follows:

"I deeply regret that your son, Sgt. Lonnie E. White, is missing in action from the operation of 7 May 1944. While five parachutes were seen to open from his plane and there is a possibility that your son escaped, I can offer no real assurance of this fact. I regret that no further information is available. If additional information should become available, you will be notified directly by the War Department or the International Red Cross.

Please accept my sincere sympathy. Lonnie was a splendid airplane armorer and gunner, highly respected by the members of his comrades. His devotion to duty and to our country, was unswerving and merited the highest praise.

Again please accept my deepest sympathy."

When you apply for extra sugar for home canning, make certain it is Spare Stamp 37 from Book Four instead of Sugar Stamp 37 as was stated in the paper last week. Take your book to the Rationing Office when you apply so it won't be lost. According to information received by Miss Petty, C. H. D. A., you must have something to can before applying for the sugar.

The pineapple ordered by the Marketing Committee of the Home Demonstration Council is expected during the first days of June but may possibly be sooner. Those who have ordered should ask about their orders frequently.

Mr. H. H. Cox arrived here recently from Amarillo for an extended visit in the home of his daughter, Mrs. E. L. Carpenter and family.

NEW UTILITY MANAGER ASSUMES DUTIES HERE

Mr. and Mrs. O. K. Pollock and daughter left Wednesday for Borger where he has employment with the Southwestern Public Service Co. Mr. and Mrs. Pollock had resided in Dimmitt the past year where he served as local manager of the Southwestern Public Service Co. Hot Suds, Clean Towels, Banish Dishwater Bacteria

The easy way with dishes is the systematic way. Scrape, rinse and stack dishes in an orderly arrangement. Use 2 dishpans or 1 dishpan and drain basket unless you have a divided sink with stoppers. In one pan have hot, sudsy water. Keep boiling water at hand for rinsing.

Wash glasses first; a dish mop is handy for cleaning inside them.

Silver should be thoroughly washed, rinsed and placed on a folded towel, or pad to avoid scratching. Kitchens silver may be placed in the drain basket or rinse pan.

"YOU can't do business with dishwater bacteria. They don't understand polite hints. Banish them!" That's the advice to housewives given by Marjorie Griffin, Home Editor of Capper's Farmer, a publication of national circulation.

"Sprinkling china and gleaming silver may be beautiful homes to many families, even unto the millennial generation—of bad little bacteria," writes Miss Griffin. "The gentle hints of half-way dishwashing just encourage the squatters. They thrive and multiply in lukewarm water, on dishcloths and dish towels.

"They'll go on making themselves at home, spreading colds and other contagious diseases until their unwilling hostess puts an end to them.

"If she's wise, she'll use plenty of hot, sudsy water, the cleanest of clean dishcloths and towels and scalding water. She will change the water before it gets cold and gray."

Students at Washburn University who studied supposedly clean dishes under a microscope found colonies of bacteria—all descendants from early settlers left living on a cup washed by ordinary methods.

I was some pest.

I bothered the life out of auto service men after the curtain went down on new cars. I knew I'd be in *some pickle* if this car wouldn't last, so I kept quizzing the fellows. Every man-jack of them had a good motor oil or some other life-saver, if I could judge. By good luck I paid real attention to one chap who had his reasons why to OIL-FLATE this engine with Conoco Nth oil. He said every explosion in your engine makes acids, which corrode bare metal. Sounds straight, eh? But with something synthetic in Conoco Nth oil keeping the metal OIL-FLATED, you'd say the fine finish receives special protection to fight the acids off. When you see you're not needing a trade-in nearly as soon as usual, you can give real credit to OIL-FLATING. New cars will be going some if they're half as far ahead as you can be right now by switching to Conoco Nth oil.

RECIPE OF THE WEEK

Every week Texas homemakers make thousands of cookies for service men stationed in this state and elsewhere. One kind that is simple to make and easy on the sugar bowl is butterscotch refrigerator cookies. These make good party treats and are good in packed lunches.

Butterscotch Refrigerator Cookies
1/2 c butter, 1 egg, 1/2 tsp. cream of tartar, 1 c sugar, 2 c flour, 1/2 tsp. salt, 1/2 tsp. vanilla, 1/2 tsp.

soda, 1/2 cup nut meats. Cream butter, add sugar and mix well. Add beaten egg and vanilla. Mix and sift flour, soda, salt, and cream of tartar and add to the first mixture with nuts. Put on slightly floured board and make into a roll. Wrap in waxed paper, put in refrigerator for at least 12 hours. Then slice in thin slices and bake in a moderate oven until a delicate brown. This recipe makes about 60 cookies.

To Our Friends and Customers

In the series of advertisements published in recent weeks, we have acquainted you with the service record and public policy of the Southwestern Public Service Company. We have stated that the Company was originally organized in New Mexico in 1925 and, until acquiring the facilities in Dimmitt, it served principally the Pecos Valley area of New Mexico and the Central Panhandle area of Texas. We have stated that, through the long period of years following the founding of the Company, our Policy has been to furnish the best possible service to the public at rates which were voluntarily and repeatedly reduced.

Our efforts have merited the approval of those we serve. The public response has been generous, as evidence of which, during the past twelve months every incorporated city and town in the Pecos Valley of New Mexico, six in all, granted the Company new long term franchises under which it can continue to plan on a long term basis and preserve its service policies. In the Central Panhandle area also, franchise renewals have been granted in each city where expiration dates were near. In not a single case, has a renewal ever been refused.

The extension of our permits to serve all of these cities and towns was based upon the public acceptance of the Company and its policy of operation. We now bring this policy to the people of Dimmitt, and we are confident that you will find it genuinely in the public interest in the years to come.
