## Hail Damages Roofs, Windows In Bronte

### Sunrise Easter Service Planned At Tennyson

A special sunrise service will be held Easter Sunday at Tennyson. A service will be conducted by the pastor of Tennyson Baptist Church, the Rev. David Kimberly, atop Mount Margaret. A

### Methodists Plan Special Services On Good Friday

First Methodist Church will observe Good Friday of this Holy Week in a service of Holy Communion at 7 p.m. The pastor, the Rev. Austin Masterson, will give a meditation bearing on this event in the life and ministry of Jesus the Christ.

Masterson said "the people who come to the table of the Lord are invited, as is the custom among Christians, to give for the needy. In this instance, the money will be given to the church-wide and nation-wide 'One Great Hour of Sharing'."

Mrs. I. M. Cumbie, at the piano, and Mrs. Martin Lee, organist, will provide music for the worship service.

### CORLEY, RICHARDS PLACE AT ELDORADO

Davis Corley took second place in the high jump and Brian Richards got fifth in shot put at the Eldorado track meet last Saturday.

The Eldorado meet is a tough one, according to Coach Cecil Toliver, with such teams as Ozona, Sonora, and Eldorado entering their top track and field men.

The Bronte lads will participate in the San Angelo Relays which will be held Friday and Saturday.

### AD-LIB-BEN

Many who are now working on their income tax returns, at times wish the Indians had fought harder. — Copied.

We have great admiration for the courage and patience of President Lyndon B. Johnson. He is taking a lot of abuse for our involvement in Vietnam, a situation which has grown during his administration, but which is not of his making.

The dye was cast for us to defend this tiny country long before Mr. Johnson had any hope of reaching the White House.

Still, this is an unpopular war in many quarters, and probably the President is suffering more abuse because of it than has been heaped upon a chief executive since Abraham Lincoln backed the unpopular cause of fighting to preserve the union.

Mr. Johnson puts up with aggravation from such characters as Bobby Kennedy, who has shown a little too much of himself lately. This ambitious politician appears to be a little over-exposed.

simultaneous service will be held in the church for those who do not wish to make the climb to the top of the mountain.

Following the services, breakfast will be served at the church. Everyone is invited to attend the special services.

Tennyson Baptist Church will be holding a weekend revival service, beginning Friday and continuing through Sunday night. The pastor will conduct the services.

He was the son of Mrs. Mary Rutherford and the brother of Mrs. J. I. Adair, both of Bronte. The local relatives were unable to attend the funeral services which had been tentatively scheduled for today (Thursday) in St. James.

**New Officers Elected**  
In other business last Thursday, new officers were elected with the Rev. A. S. Masterson, Methodist pastor, being named president of the organization.

Other officers elected for the coming year include: Clyde Lee, first vice president; Marvin Bryant, second vice president; E. F. Glenn, third vice president; H. O. Whitt, secretary treasurer; tail twister, Noah Pruitt Jr., and Cecil Cox, Lion Tamer.

Cecil Cox is retiring president.

Considerable damage was done in Bronte Tuesday night when a hail storm struck about 7:45 p.m. A dark cloud came in from the northwest bringing wind and dumping hail as large as golf balls along with rain which measured from .5 to .9 inch.

A plate glass window was broken in Frances' Beauty Shop, and

### Sunday Night Rain Is First In Many Months

The first measurable rainfall since last fall fell Sunday night and early Monday morning in the Bronte area, giving rise to at least a smattering of optimism in the farm and ranch picture of the vicinity.

Nobody thought the fall was enough, but some cautiously said it might bring up some grass and weeds, and help a little with the feed bill.

Heaviest amount reported was at the Renza Lee place east of town where 2.30 inches were recorded. C. E. Arrott, southwest of town had 1.7 inches. The amount reported in Bronte was .7 inch.

### Hail at Tennyson

Mrs. W. H. Thomas of Tennyson said Monday morning that lots of hail fell along with 1.36 inches of rain at their place. She added, however, that the hail was small and did little damage. Some damage was done to screens in the Tennyson area by strong winds which accompanied the rain.

Dolan Mackey said that the place owned by his father, Marlin Mackey, received 1 1/2 inches. It is located east of Bronte.

The rain got lighter as it went north. Edward Cumbie had .8 inch, while the Wylie Ranch, on farther to the north and east, received only .3 inch. The Blackwell area got .40 to .50 inch.

Robert Lee measured an even inch, while Sanco had .4 inch. The Counts Ranch, 10 miles north of Water Valley had 1.40 inches.

The clear sky Monday was not exactly what most residents of the Bronte area wanted to see.

other exposed areas were damaged. First Baptist Church had about 20 window panes broken, and First Methodist Church lost 13 window glasses.

Earl F. Glenn, local insurance man, said that although the hail was not as severe as some which has fallen here in recent years, he felt that a number of roofs in town were damaged by it. Glasses in some automobiles were also reported broken.

Insurance adjustors were in town Wednesday checking reports of damage.

Glenn said roofs which were inspected Wednesday morning indicated that new roofs which were of good construction showed little evidence of damage, while older roofs or those of light construction were damaged heavily.

He said that damage to automobiles was light and was confined mainly to chrome trim.

Young leaves were stripped from trees and gardens were damaged by the falling ice.

### George & Margo's Open House Set

George and Margo's will have a formal opening Saturday. Mr. and Mrs. George Latimer announced this week that a special invitation is extended to everyone in this area to come by that day for free coffee and cookies and for an inspection of their place of business. Two door prizes, a woman's blouse and a man's shirt, will be given away to two lucky persons who register during the day.

The store, which is located on Main Street between Central Drug and Charles Ragsdale's Barber Shop, was opened in February and the Latimers have been adding to their stock since that time.

The new shop handles casual wear for men and women. All their men's wear and most of the women's wear is made of new materials which require no ironing.

Mrs. Latimer said this week everyone has an invitation to visit their store Saturday, and register for the drawing for door prizes. No purchase is necessary and the persons whose names are drawn do not have to be present to win, she added.

### School's Out Today For Easter Holiday

Bronte School kids will be turned loose at 2:35 p.m. today (Thursday) for a five-day holiday. Classes will be resumed at 8:10 a.m., Wednesday, March 29.

The unusually long Easter vacation was brought about because classes have not been dismissed for any reason during the year. No epidemics, nor inclement weather, nor participation in extra-curricular activities have caused classes to be dismissed, as the school calendar is ahead of schedule, and allows more time off for Easter, Supt. C. B. Barbee explained.

### VISIT SANTA ANNA

Bronte Lions Elmer Hurley, A. S. Masterson and Cecil Cox visited the Lions Club of Santa Anna Tuesday at noon. Lion Hurley is zone chairman of this area.

## Audit Shows Financial Condition Of County; Officials Urge Study

A summary of the annual audit of Coke County's books is being published in this issue of the Enterprise. Prepared by County Auditor Weldon Fikes, the audit shows the financial condition of the various funds operated by the county.

Operating funds included in the report are jury, general, road and bridge, lateral road, farm to market, officers salary, social security, county park bond account and precinct 1 road bond account.

Interest and sinking funds reported on are road bonds for precincts 1, 2 and 3, courthouse bonds and county park bonds.

Shown for each account are: balance Jan. 1, 1966; receipts and transfers; total amount available for expenditure; disbursements and transfers, and balance on Dec. 31, 1966.

County officials are publishing

the report so that taxpayers and other citizens may know how the county money is spent.

Also included in the report is a list of bonded and warranted debts owed by the county. Coke County residents will be particularly interested in this report, since considerable interest has been expressed regarding a bond issue for construction of a new jail and some recreational facilities.

The bonded indebtedness of the county, the report shows, now amounts to \$195,000. This is the balance owed on all county bonds from a total of over \$1,000,000 which have been issued since 1954.

Three accounts have been paid off completely during the past year, including some old road and bridge warrants issued in 1941, the precinct 2 road bond of 1955

and the precinct 3 road bond of 1955.

These payoffs leave only the courthouse, county park and precinct 1 road bonds outstanding. Another point reflected by the audit shows that of the \$195,000 outstanding on bond issues, the interest and sinking funds being held for payment on them totals \$144,649.82. This leaves only slightly over \$50,000 which the county owes and does not yet have on hand.

Fikes said he would like for every citizen of the county to inspect the audit thoroughly. The county pays to have the audit published so citizens may know how their county tax money is spent.

He added that anyone who would like to see a complete breakdown of receipts and expenses

Farmer SS Credits May Be Raised

By STERLING LINDSEY

A recent change in Social Security regulations makes increased social security credits possible for certain qualifying farm and ranch operators.

According to information found in Social Security Administration leaflet OASI-852, increased credits are made available to some operators. The publication states that any farm or ranch operator, even if he had a net operating loss, may report two-thirds of his gross income up to \$2400.00 for social security purposes, provided he made \$600 or more in gross income. The previous upper limit was \$1800.00 for optional reporting.

As an example of optional reporting, an operator with a gross income of \$2391.90 and expenses totaling \$1420.00 would have a net profit of \$971.00. He may report and pay Social Security taxes on the net profit of \$971.00, or, if he chooses he may use the option to claim credit on \$1594.00, two-thirds of his gross income of \$2391.00.

The Social Security Administration publication OASI-852 gives information on social security credits as well as information on how to report social security taxes. Anyone who would like a copy of the leaflet is asked to contact the County Extension Service office, in the courthouse in Robert Lee or the Social Security office at 3000 West Harris Street in San Angelo.

Elaine Collins Marries Larry Lynn McNeely In Kerens Ceremony

From Kerens Tribune

Miss Sandra Elaine Collins and Larry Lynn McNeely were married Friday evening in a ceremony held in the First Baptist Church in Kerens. The Rev. Charles Pringle, pastor of the church, officiated for the double ring ceremony.

The bride is the daughter of Mr. and Mrs. F. R. Collins of Kerens. Mr. and Mrs. R. L. McNeely of Kerens are parents of the bridegroom.

A basket of white gladioli, flanked by arch candelabra holding white wedding tapers against a background of greenery formed the setting for the exchange of vows.

Mrs. J. E. Quinn of Athens was at the organ to play the traditional processional and recessional marches and to provide accompaniment for the soloist, Frank O'Banion, who sang "Because," and "The Lord's Prayer."

Miss Janie Collins was her sister's maid of honor. Bridesmaids were Miss Donnah Holcombe of Bronte and Miss Delores Scott of Kerens.

Best man, was Ronnie Westbrook of Kerens. Groomsmen were Bobby McNeely, brother of the bridegroom, and his cousin, Buck Yates.

The bride, who was given in marriage by her father, wore a floor-length gown of white Bridal Satin trimmed in Gallon lace. Styled with a midriff jacket with long pointed sleeves, the gown featured a large flat pleat lined with the lace on the skirt, which fell to a v-pointed train.

Her fingertip veil of imported silk illusion fell from a beaded crown, and she carried a bouquet of white carnations centered with a white phalenopsis orchid.

The bride's attendants wore full length dresses of emerald green brocaded satin featuring A-line skirts and bell sleeves. Their headpieces were matching green fabric roses, and they carried cascade bouquets of white carnations.

A reception in Fellowship Hall of the church followed the ceremony. The couple was assisted in receiving guests by their parents and the bridal attendants.

Gold candelabra adorned the bride's table which was laid in white satin with a net over-skirt. Mrs. Brenda Atwood and Miss Gloria Bateman served the tiered and decorated wedding cake, and Miss Michelle Rawlins presided at the punch service.

Miss Sue Stokes was in charge of the bride's book, registering guests from Corsicana, Dallas, Canton, Temple, Austin, Mesquite Overton, Bronte, and Kerens.

For wearing away, the bride chose a Magenta suit with multi-colored cowl collar and black patent accessories.

Following a wedding trip to Galveston, the couple will reside in Trinidad, where the bridegroom is employed by the Texas Power & Light Co. He is also a student at Arlington State College.

Mrs. J. C. (Marjorie) Harwell of Robert Lee is in St. David's Hospital, Room 239, Austin, Texas.

She would enjoy hearing from her friends in Bronte and Robert Lee.

## County Agents News Column

By STERLING LINDSEY

A total of 17 4-H club members exhibited 25 lambs, four pigs, two steers and one heifer in the big Houston show recently. The next week 29 members showed six pigs, 13 registered Rambouillet breeding sheep, two steers and 35 lambs in the San Angelo show. The results were not what we hoped for, but we did have a few good placings considering the competition.

In the Houston show, Linda, Jean, Gary and Eddie McDaniel placed three lambs, Sharon McCutchen placed one steer and Edwin Lindsey placed one market hog. Also Steve Rives placed his heifer in both the Junior and scramble heifer shows.

Marshall Wayne Millican participated in the Houston Calf Scramble. He caught one of the 12 calves and was awarded a certificate valued at \$150 to be used in purchasing a registered beef heifer.

Our biggest noise in the San Angelo show was made by Marvin Ensor in the Registered Rambouillet show. Marvin had three second places and one fourth place in the junior show. Connie Blaylock and Andy Eubanks also placed animals in the breeding sheep show.

In the market swine show the Walker sisters, Audrey, Rebecca and Sharon had 7th, 8th and 9th place pigs. Sharon McCutchen placed 17th and 25th with her two steers and Walter Tinkler showed a 22nd place finewool lamb.

Other club members exhibiting animals in one or both shows, Houston and San Angelo, were as follows: Riley Waldrop, Edwin, Sue and Lesa Lindsey; Jay, Konny and Kathy Service; Danny Percifull; Jeania Tinkler; Lane Beaty, Dwayne and Russell Davis; Jan Magness; David, Richard, Eugene and Randy Scott; Diane and Susan Arrott; and Rosanna Boykin.

This past Saturday six Coke County 4-H'ers participated in the County and/or Area Swine Shows at the show grounds in San Angelo.

The county gilt show produced the following placings: Danny Percifull, first; Audrey Walker, second; Lesa Lindsey, third; Mike Percifull, fourth; Rosanna Boykin, fifth.

The six county area show ended with Coke County 4-H Club members exhibiting the champion gilt and boar. Danny Percifull's gilt was named area champion and Edwin Lindsey's boar the area champion boar.

Many pests of ornamental trees and shrubs will soon be active. Prevention is the best method for holding plant damage to a minimum. This is particu-

larly true in controlling shade tree borers.

The most important borer species includes the roundheaded and flatheaded borers. The adults of the roundheaded borers are called long-horned beetles because they generally have antennae as long or longer than their body. The larvae (borers) make galleries beneath the bark and also tunnel into the heartwood.

The adults of the flatheaded borers are generally beautifully colored or metallic, boat-shaped beetles. The typical injury caused by the larvae (borers) consists of rather shallow, long, winding, oval galleries beneath the bark.

A few species of wood borers will attack healthy trees, but most attack trees and shrubs already weakened or injured by transplant shock, drought, poor soil fertility, mechanical damage or other means. Keeping the plants in a vigorous growing condition is important in preventing damage to established plants.

There is a wide variation in the stages of wood borers. Some life cycle or developmental species emerge as adults in the early spring and begin egg laying. Others emerge and deposit eggs during the summer or early fall. All species deposit their eggs in cracks and crevices in the bark. Upon hatching, the young borers begin their tunneling.

To prevent newly-hatched borers from becoming established in a tree, it is necessary to apply an insecticide to the trunks and lower branches prior to egg hatch. The first application should be made in early spring soon after leaves appear. An effective spray treatment is a mixture of DDT-malathion.

To prepare one gallon of the mixture, mix 8 tablespoons of 50% malathion emulsion concentrate with 4 tablespoons of 25% DDT emulsion concentrate plus the amount of water needed to make one gallon of spray mix.

Spray the trunk and lower limbs to the run-off point. Make the first application shortly after the leaves come out. Make two or three more applications at three week intervals.

The above treatment is a preventive measure and will not control borers that are already in a tree when an application is made.

One control method you may want to use if you have a tree with just a few holes is to put carbon disulfide (hi-life) or one of the commercial borer chemicals in the holes then fill behind the chemical with putty or mud.

Following the insecticide application, trunks of young or transplanted trees should be wrapped with nursery wrapping paper, burlap, aluminum foil or newspaper to prevent egg laying by the adult borers. Be sure to use these insecticides in wettable powder form on young trees to avoid injury to the bark when wrapped. Keep the wrapping on all year and replace when it becomes torn.

One very seldom sees a tree in good growing condition bothered with borers. Good watering and fertilizing practices will go a long way in preventing borers.

Mr. and Mrs. J. F. Hughes visited her parents, Mr. and Mrs. E. A. Baugh, Sunday in Stanton. On their way home they stopped in Colorado City where they visited their son and family, Mr. and Mrs. Ronald Hughes and Guy. Visiting Mr. and Mrs. Hughes last Friday were Mr. and Mrs. James Wylie of Monahans.

Appearing on the program will be Vaughan Davis, W. D. McAdams and Mrs. Fay C. Roe, home demonstration agent.

The program "How to be a Better Shopper" is the fourth in a series being conducted under the leadership of Mrs. Roe. The public is invited to attend.

In a letter renewing his subscription, J. C. (Jim) Dear of Springlake said: "Old Bronte will always seem like home to me. We left there in 1918. Hello to everyone."

### I need the Answers to some SERIOUS QUESTIONS

Why am I here? What shall I do with my life? Where am I going? This young man is at the threshold of his adult life and needs the answer to some serious questions. Perhaps you find yourself pausing to take stock of your life and groping for direction.

The Church of the Living God tells the truth about man's life, death, and destiny. The truths learned there will set you free to live a more abundant, meaningful, and creative life. "And ye shall know the truth and the truth shall make you free."  
John 8:32.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

**8 DAYS LEFT TO BUY TAGS**

Time is growing short for motorists to buy license tags for their vehicles. The rest of this week and through Friday of next week will end the sale for vehicles which can operate on public highways. New 1967 plates have to be displayed on all vehicles Saturday, April 1.

County Tax Assessor-Collector O. B. Jacobs said Wednesday morning that his office has sold 730 passenger car plates, which leaves an estimated 1300 yet to be sold during the seven days which the office will be open before the deadline.

Jacobs said he is expecting a last minute rush by Coke County citizens to get their cars registered. "We always have had a lot of cars to register the last few days," he said, "and I don't know any reason why this year should be different."

Several strings were caught with 3 to 5 fish to 5 lbs., by Odessa, Midland, Abilene and Sweetwater fishermen.

John Milstead of Abilene took the top yellow cat of the week

with a 28 pound yellow. Paul Rice of Andrews got a 4 lb. channel. Crappie fishermen should get ready to start fishing the rocky points and gravel shoals with minnows or jigs. This is where the big ones spawn and conditions are about right.
