## Consolidation To Be Talked

### Subscription Special Still Going Strong

The Bronte Enterprise's annual subscription sale is now in its second week and a large number of subscribers already have taken advantage of the July special.

Subscribers can save 50 cents on any subscription — new, renewal or extension.

The regular price of \$3.50 in Coke and adjoining counties is reduced to \$3.00, while subscriptions anywhere else in the United

States are reduced from \$4.50 to \$4.00.

Orders for the paper may be brought to the Enterprise office or mailed in. Customers with regular accounts here may order the newspaper by telephone.

Residents of outlying communities may pay for their subscriptions by contacting their Enterprise representatives. In the Brookshire community, they should see Mrs. Herbert Holland; Tennyson residents may contact Mrs. Tom Green or Dana Cunningham; persons living in the Blackwell area should see Mrs. Rocky Thompson.

A large percentage of Enterprise subscriptions are sold each year during the July bargain period, and everyone is invited to take advantage of the savings, said Ben Oglesby, publisher.

"We invite everyone in the area to take advantage of the special offer this month," he said.

The \$3.00 price is good in Coke, Runnels, Nolan, Tom Green, Sterling, Mitchell and Taylor counties.

### AD-LIB-BEN

We were provided with a copy of a speech made by David R. Braden, outgoing president of the Oak Cliff Lions Club in Dallas. It was delivered June 12 shortly after the assassination of Sen. Robert F. Kennedy.

Undoubtedly, this tragedy and the subsequent publicity on our "sick" society prompted Mr. Braden's speech.

We are reprinting part of it below:

All America has been told this past week — over and over again — that we are a sick society.

Gentlemen, I propose to you that I am sick — and maybe you are sick too.

I AM SICK to death of being told I am sick: by government officials who will not enforce the law...by politicians who dance to the tune of minority groups...by those in the pulpit and on the college lecture platform who use their office to project the socialistic creed of radicals...

I AM SICK to death of being told I am sick...by idealistic aggressive news reporters and evaluators (of whatever media), who have the audacity to tell me I should believe whatever they believe — knowing I have no vehicle to publically voice my disagreement.

I AM SICK of being told I am sick...by foppish entertainers draped in Nehru jackets, feminine necklaces, and a cloak of pseudo intellectualism.

I am sick of cynical attitudes toward patriotism and our American institutions...

I am sick of sacrificing the cream of American manhood in political wars we are not fighting to win...

I am sick of the decline in integrity and personal honor in this nation...

I am sick of the permissive attitude, laxity, and tolerance to pressure groups and the criminal element that is bringing this nation to its knees in lawlessness...

A public meeting for residents of Norton and Bronte School Districts will be held Saturday at 8:30 p.m. in Bronte School auditorium. Purpose of the meeting is to acquaint patrons of both districts with information concerning the consolidation election which will be held July 27.

A letter has been mailed to residents of the Norton district, especially asking them to be present.

Supt. C. B. Barbee said it is equally important that Bronte School patrons also be present.

Tentative order of business is as follows:

Pledge to the flag, opening prayer, general presentation of information, question and answer

### Bob Sanders New Bronte Patrolman

Robert D. Sanders and his family have moved to Bronte where he has opened the first Texas Highway Patrol substation ever authorized for Coke County. The family has rented a house from Hurlin Lee. It is located across the highway from Bronte Hospital.

Sanders has worked for the Highway Patrol for 4½ years, coming here from Hereford. He is a 1960 graduate of Central High School in San Angelo.

Sanders will work the Bronte area five days a week, with days off varying from week to week. Justice of the Peace Earl D. Nutter said his records show that the new patrolman has been working.

### RAINS HELP CROP OUTLOOK

Soaking rains fell over most of the Bronte area Monday and came none too soon to make crop prospects look brighter than they had for some time.

Reports of measurements in Bronte indicated that the amount of rainfall totaled two inches. Measurements in the surrounding area were both above and below that amount.

Albert and Joe Rawlings, who ranch across the river southwest of town, reported a high of 2.7 and a low of 1.7, with an estimated average of two inches.

Conda Richards reported only .6 inch on the Wylie Ranch northeast of Bronte. Aubrey Denman said he had .7 inch northwest of town.

Up to 2.5 inches was reported north of Blackwell.

The heaviest part of the rain in Bronte fell shortly after noon, with an unexpected cloud coming up and dropping about 1.5 inches in less than an hour. Additional rain fell later Monday afternoon.

### CUMBIE & MACKAY JULY CLEARANCE STARTS TODAY

Cumbie & Mackey's annual July clearance sale will start Thursday morning. The sale is held each year early in July to offer summer merchandise at drastically reduced prices.

A page ad in this week's Enterprise lists some of the bargains which will be included in the sale. Many items not listed are also on sale.

The Bronte store holds two clearance sales each year, in January and July.

### MEETING CALLED FOR GOLFERS, PARK BOARD

A meeting of Coke County Golf Association and the Bronte County Park Board has been called for 7:30 Thursday night. All members of the association and the park board are urged to be present, said Clint Low, club president. The meeting will be held at the City Hall.

a break for refreshments and it will be continued later.

All persons who would like are invited to come before the meeting to look over the school's facilities. "All facilities will be open prior to the meeting time," he said.

The Bronte superintendent said he could not over-emphasize the importance of the meeting and urged that both Norton and Bronte School patrons avail themselves of the opportunity to explore all sides of questions on the proposed consolidation.

He promised that information presented would be "pertinent, accurate and legal."

Bronte School officials said that the question and answer period will be extended as long as anybody has a question to ask, adding, "you will find the presentation to be unbiased, very considerate and definitely true, within the limits of knowledge."

Trustees of both Norton and Bronte School District will be asked to participate in the meeting, and to share their knowledge of both schools with all those present.

### Church of Christ Having Meeting

A gospel meeting started Monday night at Bronte Church of Christ. Lloyd E. Ash of Abilene is serving as evangelist for the series of special services which will continue through Sunday. Cecil Cox, local minister, is leading the singing.

Ash is already well known to many Bronte residents, as he conducted a meeting here in 1966.

Services will be held at 7:30 a.m. and 7:30 p.m. through Saturday and at the regular worship hours on Sunday.

Cox and Ash said this week that good crowds have been attending so far, and they issued an invitation to everyone to attend the remaining services.

### FB Queen, Talent Contests July 27

Coke County Farm Bureau's annual Queen and Talent Find contests are scheduled for Saturday night, July 27, in Bronte School auditorium.

Farm Bureau officials are seeking entrants for both contests. Already four girls, Kaye Roberts, Diane Baker, Joy Cervenka and Sharon McCutchen, have indicated they will enter the Queen contest.

Candidates for Queen must be from families which are members of Farm Bureau.

Entries of all kinds are needed for the Talent Find. There is no age limit and entrants do not have to come from Farm Bureau families. However, in order to advance to district competition, the winner of the local contest must be between 17 and 30 years old and come from a Farm Bureau family.

Anyone interested in entering either of the contests is invited to contact Mrs. C. E. Arrott, Farm Bureau secretary.

### Brush Cleared For New Highway

Brush has been cleared on new parts of the right-of-way on Highway 158 between Robert Lee and Bronte. Work on rebuilding the 12 mile stretch was started last week by M. E. Ruby Jr., Inc. of Austin.

A press release from District Engineer J. A. Snell this week said the work will consist of grading, structures, base and surfacing. Sections of the existing road will be relocated, hills will be cut down for greater sight distance, and structures widened to meet present design standards.

H. L. Bailey of Sterling City,

supervising resident engineer for the project, said that traffic will be carried through the construction on temporary detours treated with emulsion. Barricades and warning signs will be placed throughout the project but motorists should use extreme caution while passing through construction areas. The project is zoned for a maximum speed of 45 miles per hour, but certain construction areas will necessitate much slower speeds.

Bailey requested the cooperation of the public in obeying instructions from flagmen, warn-

ing signs and speed zones.

Work on this project is expected to be completed by August 1969.

Progress is also being made on the new section of highway from Robert Lee to Sterling City. The new road is being built to carry traffic which normally went on the road out through the construction area of the dam. The old highway has been cut and temporary detours have been built across a section of the dam. In order to allow workmen to begin work on the core of the section in the highway's area.

By STERLING LINDSEY

The screwworm control program is without a doubt in greater danger of having to give ground than at any time in the past five years. We need to be aware of the situation and need to do all we can to help prevent any outbreaks in this area.

Tom Green, Sterling and Concho counties have had screwworm cases during the past two weeks. We hope the sterile fly drops, spray programs and local wound treatments were able to wipe out the flies in those cases.

As for the situation, the Foundation is extended to its fullest to cover the present area being served. They are producing twice as many sterile flies as they were in 1963, but the area served has quadrupled. So, we must be prepared to help hold the line, should this become necessary.

The areas in which cases have been reported have become very wide spread. Should serious outbreaks occur in several places over the area the present sterile fly production could not stop the screwworms. Throw in some good weather conditions, increased wildlife numbers, and fewer ranch laborers and we have a situation that does not look good at all. Should the present program territory become too large to administer under the existing conditions, a "retreat" may become necessary. We hope this can be avoided. We hope, also,

that every Coke County operator will take the necessary steps to safeguard his or her operation.

### New Cotton Strains Promising

Earlier cotton planting and root rot "escape" could be combined to give root rot control plus higher yields.

Work has shown that cotton can be planted two to three weeks earlier than usual and the damage by the root rot fungus can be lowered. By moving the planting date up to about the middle of March instead of early April, we have had good results at picking time, according to tests conducted at College Station.

By early planting the cotton can reach the stage where there is about three to four weeks free of disease during July. The cotton can set and mature bolls before it begins to die and the yield is not affected.

One particular strain tested here has withstood freezing temperatures and progress is being made to breed this cold-tolerance into other cotton strains.

"Escape" from cotton root rot is an inherited factor of certain plants and although the process is complicated, progress is being made in breeding the cold-tolerant cotton with the cotton which has this "escape" factor.

Not only can earlier planting lower the incidence of root rot, but the earlier maturing process can take advantage of the moisture which comes earlier in the season.

### Fertilizer Improves Hay Quality

Hay crops receiving adequate amounts of plant nutrients usually are of higher quality and higher digestibility. That is, if crops are harvested before they begin to mature.

Fertilized crops grow faster. If hay is cut before plants mature and become coarse, the stems and leaves dry faster than when plants have coarse stems. Using a hay conditioner also speeds up drying.

What happens when hay is rained on? The main loss is in color, says Neal Pratt, Extension Service Agronomist, if the quality was high when the crop was cut. Coarse stem plants lost more leaves than young, fine stem plants. Mold and mildew deteriorate quality — and are more likely to occur when plants have grown a coarse stem.

To grow good quality hay crops, farmers should start with a soil test to determine fertilizer needs. Although nitrogen improves growth and color, other nutrients such as phosphorus and potassium are needed for optimum growth and quality. Yield and quality both can be increased by using the recommended plant foods.

### Summer "Turkeytime"

"Roses are red. Violets are blue. Summer's the time for a good turkey stew."

Or anything else made with turkey, for that matter. Turkeys are in plentiful supply this summer. "Gobblers" no longer are reserved for special holidays like Thanksgiving and Christmas, but can be used throughout the year—even in the summer!

Turkeys can be used in such a variety of ways that it would take more than a page just to list different recipes in which turkey is included.

So let's not waste space writing about how good these birds can be, but instead, list some of the delicious ways to "talk turkey":

### Turkey Bunwiches

- 1/2 cup mayonnaise
- 2 cups coarsely diced cooked turkey
- 1/2 cup diced celery
- 2 tablespoons chopped chives or onion
- 1/2 cup diced Cheddar cheese
- 1 teaspoon chopped pimiento
- 2 hard-cooked eggs, chopped
- Salt and pepper to taste.
- Butter or margarine
- 6 hamburger buns

Combine turkey, celery, chives, cheese, pimiento and eggs. Add mayonnaise and season with salt and pepper. Slice top off each bun and scoop out center. Butter hollows and tops. Fill hollows with turkey mixture. Replace bun tops and wrap each sandwich in foil. Heat at 400° F. for 15 to 20 minutes. Garnish top of each bun with olive, pickle, and carrot curl, speared with a toothpick. Makes 6 buns.

Here are some ideas on how to use creamed turkey. Try them all.

### Creamed Turkey

- 1 pint milk
  - 1 pint turkey stock
  - 3 or more cups of cooked turkey, diced or cut into chunks
- Prepare 1 quart medium thick white sauce using the milk and turkey stock. Season to taste with salt, pepper and grated onion, and then add the diced turkey. Serves 12.

Serve over hot biscuits, buttered toast slices, squares or sticks, atop parsley buttered noodles, steamed rice, crispy crackers, spaghetti, macaroni or other pastas... on waffles, pancakes and in patty shells.... baked or mashed potatoes, steamed asparagus or broccoli.

From this basic creamed turkey recipe you can change it to suit your whims by adding ingredients.

**Turkey a la Queen** — add 8 chopped hard-cooked eggs and 1/2 cup each diced ripe olives and pimientos.

**Turkey a la King** — just like turkey a la queen, but with a richer sauce. Prepare white sauce using equal parts milk, turkey stock and evaporated milk, season to taste, then add 2 or 3 egg yolks. Add the turkey and a la queen ingredients.

**Turkey Curry** — add curry powder to taste and 1 cup shredded coconut.

**Turkey Curry Hawaiian Style** — it's turkey curry served in coconut shells! Saw coconuts in half and remove meat. Wash and dry shells and grease interiors well. Line with steaming fluffy white rice, add turkey curry and sprinkle generously with more rice. Bake in hot oven about 20 minutes, or until invitingly browned.

**Turkey and Noodles Au Gratin** — prepare basic creamed turkey. Place a layer of cooked drained noodles in casserole, add some creamed turkey, and then a scattering of grated cheese, repeat,

until dish is almost full. Top generously with buttered bread crumbs. Bake 15 to 20 minutes in moderate oven.

From these recipes you can see that you can make up your own dishes—just use turkey like it was chicken.

### Consumer Clips

To check the ripeness of a whole watermelon, look at the underside of the rind where the fruit rested on the ground. As the melon ripens this spot will change from white to a pale yellow tinge.

Be careful about chilling tomatoes picked in a mature pink colored stage—they must not be chilled until fully ripened. Chilling interrupts the ripening process and the tomato may never ripen properly. Choose tomatoes that are well formed, firm, plump, free from bruises and showing some pink or red color.

Remember that the grade on poultry is not a guide to tenderness. That depends on the age of the bird. Words like "Young,"

"Broiler," or "Fryer" indicate a young, tender bird. "Stewing Hen" means the bird is older and will have to be cooked with moist heat to make it tender.

### BOBBY BINGHAM WEDS MISS MARY EDNA JONES

 value of discipline in the char-  
 acter of a man...

I am sick of a Congress which  
 legislates out of emotionalism  
 rather than reason, thereby tak-  
 ing away the rights of all...

I am sick of being told I am  
 sick with violence because of  
 assassinations by mentally de-  
 ranged men, fed on a steady diet  
 of violence and perversion by the  
 nations periodicals, press, tele-  
 vision and movies — all condoned  
 — even aided — by courts which  
 permit license in the name of  
 freedom...

I am sick of riots, of marches,  
 and those who force themselves

and their ideologies down my  
 throat without qualification...

I am sick of those who say I  
 owe them everything, because of  
 the sins of my forefathers, when  
 I have looked down both ends  
 of a machine gun barrel to defend  
 them and their right to be here...

Take note, gentlemen in high  
 places — you will not see me in  
 the streets with a placard or a  
 gun — you will hear the thunder  
 of the common man at the polling  
 place — casting a vote for — Li-  
 berty, Intelligence — our Na-  
 tion's safety.

We have a news item this week  
 about the wedding of Bobby  
 Bingham to Mary Edna Jones.

There is a sequel to the story,  
 however.

The young couple had just re-  
 cited their wedding vows last  
 Saturday and left on their honey-  
 moon, coming through Bronte.  
 They got south of town just be-  
 yond the Tom Williams place and  
 a deer darted in front of their  
 car and they hit it.

The impact ruined the auto's  
 radiator, making it impossible  
 for them to proceed. Bobby  
 caught a ride back into Bronte  
 and called his new in-laws of the  
 predicament.

Finally, officers completed their  
 investigation of the accident, Mr.  
 and Mrs. Jones arrived with an-  
 other car and the newlyweds  
 were able to continue on their  
 way, about 1:30 a.m.
