Mr. Ivey served with the Los Angeles police department for 17 years, but had retired from that position because of ill health.

First Baptists Plan Special Services

First Baptist Church will participate next week in a Sunday School Enlargement Campaign. The special program will be held by churches of the Runnels Baptist Association.

Pastors of the association will meet each morning from 9 to 11:30 at Seventh Street Baptist Church in Ballinger. The morning meetings will be directed by Irby Cox of Dallas.

Local pastor, the Rev. Harry Morris, will lead the meetings each evening at the Bronte First Baptist Church. Starting time will be 7 p.m.

This campaign, Morris said, is part of the Crusade of the Americas being conducted in 1969 by Baptists in North, Central and South America.

She was selected as this year's best model in district Make-It-Yourself With Wool competition, and was Lions Club Sweetheart in 1967.

Miss Lee has received many honors during her high school career, including the title of Miss Bronte for 1969. She was 1968 Football Sweetheart, is a cheerleader and captain of the basketball team. She has served four years as a class officer and is an officer in the Future Homemakers of America Chapter. She is also a member of the Science and Spanish Clubs.

In addition to her school work, she is an active member of First Baptist Church and is a member of a popular vocal group in Bronte.

Miss Lee plans to attend Baylor University next year.

1425 Coke Voters Registered for '69

A total of 1425 Coke County citizens registered to vote in elections which will be held during the coming year. County Tax Assessor-Collector O. B. Jacobs reported this number after the deadline last Friday.

The number is only 266 below the 1691 registered last year, which was a "big" election year, with balloting coming for most all elective offices from the presidency down to precinct offices.

Jacobs said he considered the registration "good" since 1969 is an "off" year. However, there will be city and school elections plus any special elections which may be called.

Mrs. B. F. Bridges spent the weekend at Eden with her son and family, Mr. and Mrs. Louis Bridges.

RL Lake Near Completion

BIG SPRING — The vast expansion project launched in 1966 by the Colorado River Municipal Water District is in the final stages.

Bids opened in Big Spring Tuesday left only one 24-mile section of pipeline plus the structures for six pump stations to be awarded for completion of the Robert Lee project involving a 488,000 acre lake and 120 miles of pipeline.

The district will need to borrow some additional money, and steps in this direction may be taken at a March meeting date yet to be set.

Based on low bids of \$3,270,600 for six items of the project Tuesday, it appears that the district may need to raise more than \$3 million to finish the job.

The original bond issue in 1966

was for \$30 million.

O. H. Ivie, general manager, told directors Tuesday that exact figures will be available in March. The time element is bearing down because the project is due to be complete in time to begin delivery Jan. 1, 1970, of water to Midland under a sales contract negotiated nearly three years ago.

The first 24 mile section of 42-inch inside diameter pipe from Moss Creek Lake east of Big Spring toward the new lake at Robert Lee will require about seven months to build.

To complete the line in time will mean a bid letting must be done no later than April. By the first of April, the dam across the Colorado River above Robert Lee should be completed together with all other items connected

Representatives of General Telephone Co. of the Southwest will be in Bronte Thursday night to meet with the city council for discussion of a rate increase. Mayor Royce Lee said the public is invited to attend the meeting, hear the presentation of the phone company's story, and participate in the talks.

General Telephone submitted a request early in January for a

rate increase for all customers served by the Bronte exchange. The meeting has been set up to consider the matter.

The largest rate increase requested is for a business phone which would be raised \$3.50 per month, and the smallest raise would be 25 cents per month for an extension phone.

Below are listed the present rates (first figure) and the proposed new rates, as were presented in a brochure prepared by the phone company:

Business phone, one party: \$10.50 to \$14.00.

Business extension: \$1.50 to \$1.75.

Residence, one party: \$5.25 to \$6.50.

Residence, two party: \$4.50 to \$5.50.

Residence extension: \$1.00 to \$1.25.

Rural business: \$8.00 to \$11.50.

Rural residence: \$5.00 to \$6.25.

The brochure of the phone company claims that they netted \$5,863.83 in 1968 which gave them a 3.93 per cent return on their \$146,178.83 investment. The brochure says the rate increase will give them a return of \$8,899.26 for a return of 5.96 per cent.

The mayor said the meeting will begin at 7 p.m.

City Dump Users Requested to Burn All Trash Possible

Users of Bronte's city dump are not burning the material they take to the dump, it was reported this week by city officials.

Mayor Royce Lee said that all combustible material should be burned when it is dumped in the pit at the dump grounds.

The city is running into serious space problems at the dump ground, the mayor said, and every effort should be made to conserve the room left in the pit presently in use.

City officials pointed out that there is some doubt if there is enough space left in the available area to dig another trench.

"We would like to continue using this trench just as long as possible," Mayor Lee said, "so we are asking the cooperation of everyone in burning everything that will burn."

New Car Licenses On Sale in R-Lee

New 1969 automobile and other vehicle license plates went on sale Monday in the office of O. B. Jacobs, Coke County tax assessor-collector. Sale of the new tags will continue through April 1.

The 1969 plates will have a new reflectorizing background with black letters and numbers.

Jacobs has about 3,000 tags on hand for sale to operators of the various vehicles which travel public highways.

Persons wanting to purchase plates are required to bring four items with them to the assessor's office: 1. certificate of title; 2. 1968 license receipt; 3. current residence address; 4. zip code.

State law requires that each owner register his vehicles in the county where he resides and that he present his certificate of title as evidence of ownership.

Jacobs urged Coke County residents to be sure their vehicles are registered correctly and legally so as to avoid penalty under laws of the state.

County Agents News Column

By STERLING LINDSEY

We made an error in last week's column that needs correcting. I reported seeing a picture of a cow weighing 649 pounds that produced a calf that weighed 279 pounds at 210 days of age, 681 pounds at 10 months age. The error was in the calf weight at 6 months of age. The calf weighed 479 pounds instead of 279 pounds.

Three Coke County 4-H Club members will scramble in the San Antonio Stock Show calf scramble this weekend. Wibby Millican, Harvey Wink and Troy Millican will compete in the Sunday matinee performance. The winners will receive purchase certificates to be used on some project.

I received some interesting information from the Texas Crop and Livestock Reporting Service last week. The information was listings of the state's leading in production of 36 farm or ranch commodities. Texas' rank in production of some of the commodities is as follows:

- All production—4th
- All livestock—3rd
- All crops—3rd
- Government payments—1st
- Cattle and calves—2nd
- Sheep and lambs—2nd
- Mohair—1st
- Wool—1st
- Cottonseed—1st
- Cotton lint—1st
- Sorghum grain—1st
- Peanuts—3rd
- Oranges—4th
- Grapefruit—3rd
- Carrots—2nd
- Onions—1st
- Pecans—3rd

Texas is a leading state in agricultural production (\$2,522,000,000 cash receipts). A move is on to familiarize people with Texas Agricultural Products. No doubt you have seen the TAP branding iron on one or more highway billboards. Shortly, these same signs or tags will be appearing in grocery stores where certain Texas commodities are being offered. The TAP branding iron insignia is the designation of a Texas Agricultural Product.

The sheep "tick" or ked and cattle louse can cause significant losses in lambs and calves at this season of the year and on into spring.

If you see sheep commonly rubbing, biting or scratching, chances are the sheep tick is present. When shearing takes place in the spring, they tend to migrate from ewes to lambs. Their presence can cause a lamb to be unthrifty and not gain properly.

The presence of lice on cattle and calves causes them to take on a rough, coarse appearance. And, like the tick infested sheep, they do not gain normally.

Several insecticides are available that will control both insects. Co-Ral, Korlan, Toxaphene and Malathion are recommended for one or the other of the two common pests.

If you would like a copy of the Extension Service guide for controlling external parasites of livestock give us a ring. It lists the products recommended, a dilution chart for figuring the amount needed and the limitations if any in the use of the various insecticides.

Accessories Emphasize Shoes

The undisputable age of accessories emphasizes the shoe which is truly individual this spring. It is smooth and textured, plain and patent, embossed and printed, neutral and colorful—to fit any mood or need.

The heel steals part of the limelight as it continues to climb. It is chunky and most often between 1½ and 2 inches high. Toelines are softer, concentrating on wide rounded shapes with an occasional clear-cut square look for tailored wear.

The spectator is spring and found in all-black patent leather with cold scallops and combinations of colors and leathers.

Slings, two-piece strap pumps, flats and backless mule shoes show the spectator influence.

A variety of leather sandals are springing up.

This spring, color comes clean—and clear—in footwear. Soft pastels such as apricot whip, yellow, aqua and dawn pink have no haziness in them. In the light of summery neutrals, look for champagne, wicker beige, mushroom and straw-colored leg-horn.

Grey in the paler tones will be important, also lime, mauve and brown in a full span of shades. Also sure to show up in volume are navy and bright blue, clear red, lots of white and black.

Mr. and Mrs. Sam Seay and daughter of San Angelo and Mr. and Mrs. E. C. Seay went to Graham Sunday to visit Mr. and Mrs. Frank D. Jones. The Jones recently moved there from Iowa Park and have a new home.

New Road Maps Now Available

A field of bluebonnets beside a Central Texas stream enhances the cover of the 1969 official state highway map released this week by the Texas Highway Department.

The map is a perennial favorite of Texas motorists. Approximately 1.2 million maps were distributed last year and projections for 1969 call for distribution as high as 1.5 million.

Added to this year's map are 127 miles on the interstate highway system. Almost 2.1 thousand miles of Interstate highway in Texas are now open to traffic.

Texas' new chief executive, Gov. Preston Smith, adds words of welcome to travelers using Texas highways. In his message, he stresses the diversity of the state and invites motorists to use the map in tours on the unexcelled Texas highway network.

The new map is one of the most popular of more than 7.3 million pieces of travel-oriented literature distributed each year by the Texas Highway Department. Copies may be secured at Highway Department Tourist Bureaus and at department district offices.

The map also may be ordered directly by sending name, address and ZIP code to Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78703.

Barnes Can't See Consolidation Law

Austin — Lt. Gov. Ben Barnes predicted defeat of the proposed compulsory consolidation of school districts in Texas.

"The Governor's Committee on Public School Education has made many constructive recommendations. I feel that the Texas Senate will pass many of them," Barnes said in a statement released last week.

"However, I feel that the Texas Senate will not pass compulsory consolidation," the new lieutenant governor said.

"The Texas Senate and this Legislature will probably write an attractive financial incentive program to encourage voluntary consolidation but will not adopt laws making consolidation compulsory in Texas this year," Barnes said.

Compulsory consolidation and other recommendations of the Governor's Committee on Public School Education are included in Senate Bill No. 2 which was introduced last week by Senator A. R. Schwartz of Galveston and Senator Oscar Mauzy of Dallas. The bill has been referred to the Senate Education Committee.
