Bennie Carol Oglesby Is Winner Of Homemaker of the Year Award

Bennie Carol Oglesby was named 1969 Betty Crocker Homemaker of Tomorrow for Bronte High School on the basis of her score in a written knowledge and aptitude test on homemaking given senior girls here in December.

She is the daughter of Mr. and Mrs. Ben Oglesby of Bronte.

Miss Oglesby's achievement has made her eligible for state and national scholarships. She also has been awarded a specially designed silver charm from General Mills, sponsor of the Betty Crocker Search for the American Homemaker of Tomorrow.

A state Homemaker of Tomorrow and runner-up will be selected from the winners of the schools in the state. The state winner will receive a \$1,500 college scholarship, and her school will be awarded a complete set of the Encyclopaedia Britannica. The runner-up will earn a \$500 educational grant.

The Betty Crocker Homemaker of Tomorrow from this state, together with those from all other states and the District of Columbia, each accompanied by a school advisor, will join in an ex-

pense paid educational tour of Washington, D. C. and Colonial Williamsburg, Va., next spring.

The national winner — the 1969 All-American Homemaker of Tomorrow — will be announced at an American Table dinner in Williamsburg. The choice will be on the basis of her original test score plus personal observation and interviews during the tour, and her scholarship will be increased to \$5,000. Randy Scott all had 2 each.

Forsan Buffaloes Whip Bronte 61-41, Then Lose to Miles

The Bronte Longhorns took a 61-41 shellacking last Friday night when they met the Forsan Buffaloes at Roscoe in a showdown playoff for the district championship. The loss gave Coach James Raughton's Longhorns a 23-6 season record and left them in second place in district play.

The Buffaloes met the Miles Bulldogs Monday night at Big Spring and went down to defeat to the tune of 61 to 48, giving the Miles lads the right to represent this area at the regional level.

Keith McCutchen was high pointer in the playoff Friday with 16 points. Randy Barbee was next with 7, Randy Caperton had 6, David Denman sank 5, Bobby Culp made 4, and Willie Zuniga had 3 points.

The Bronte girls also wound up second in district play, losing only to Forsan. The girls finished with an 18-5 season record. Gaylon Woodard coached the girls.

Raughton reported that his high school B team finished with a 9-5 season record, while the seventh and eighth grade won 15 and lost only one, and his sixth grade pee wee team was the only Bronte team to complete the season untouched. They had an 8-0 record.

AD-LIB-BEN

The Bronte Enterprise, in cooperation with Public School Week, March 3-7, will carry a number of features next week about Bronte Public Schools.

Stories about accomplishments of the school and its students will be printed, along with plans for future growth and development of the school system.

A cooperative advertisement also will be run, allowing local business firms and individuals to endorse the policies of the school and its program. The ad will convey a message of support for the local school at a time when there is much talk of abolishing many small schools in Texas.

Anyone who would like to have his name on the ad is invited to come by or call The Enterprise office.

Louvenia Rees has taken what first appeared to be an insurmountable mountain and turned it into a treat for a bunch of boys.

The mountain was 250 hamburgers and the bunch of boys to be treated are residents of West Texas Boys Ranch.

Here's the story:

Mrs. Rees, with some other ladies, stopped at a Burger Chef drive-in in San Angelo recently for some refreshments. While there they registered for 250 free hamburgers.

Mrs. Rees received word this week that she was the winner of the 250 burgers and that she would have to accept delivery on all of them at one time. Her first thought was, "My goodness, what will I ever do with 250 hamburgers?" Then she came up with the idea of having them given to Boys Ranch. She figures

Baker's Report for the State Capitol

By George Baker
State Representative

Highlight of the Legislative week came at the Thursday joint session of House and Senate when Gov. Preston Smith delivered his promised budget message and recommendation for tax sources for the needed funds.

Most members with whom I have visited following the talk were pleased with its general tone, and with the emphasis of areas for new spending.

His recommendations for new tax revenues were less painful than most members had expected. Two business areas were hardest hit — tobacco and alcoholic beverages. He suggested an increase in the cigaret tax from 11c to 14c per package and removal of sales tax exemption from beverages — previously exempt from sales taxes because of high excise taxes on the product.

Certain to touch off many protests was the recommendation for selective sales or use taxes on various types of service—including laundry, dry cleaning, repairs, parking and cable television service. Single largest additional source was a proposed \$10 fine for each moving traffic violating, dedicated to general revenue.

A tax-saving measure certain to be hotly debated—the so-called Cavness Plan named for the original proponent, State Auditor C. H. Cavness, would divert current income from state school lands in substantial part to available school fund, softening the impact of the school improvement and teacher pay raise package.

Land Commissioner Jerry Sadler alleges this idea is not constitutional, and threatens a court test if it is tried. At present all income from state lands from sales of lands themselves, sale of mineral leases, royalty and rental payments go into the permanent school fund for investment — with returns from income of investments distributed annually.

The fund contains upward of \$800,000,000—and would be increased by 27 1/2% of annual sales, the remaining 72 1/2% going directly to school support on a current basis.

Some argue that the fund should not be tampered with. Others say it already is a huge amount, and that inflation is nibbling at the eventual value of interest dollars — let's use a major portion of the income of today for paying education costs of today!

The week saw increasing committee activity, but still very little legislation actually cleared for floor debate.

Speaking personally, I spent considerable time in committee rooms hearing debate on two agriculture bills — one dealing with tighter egg-grading laws and another with providing protection to developers of any new kind of any new strain of cotton seed.

Another hearing dealt with water bills — mostly local water improvement districts and a drainage plan for Willacy County.

Many visitors to the Capitol get a poor impression of the processes by which legislation is created. They visit the House Gallery and see the session begin at mid-morning and adjourn probably an hour later. There is little apparent attention to business, except on days when bills are debated on the floor.

But legislation is like an iceberg — little shows on the surface to indicate the total bulk of the object. Many other hours each day members are working in offices on legislation, correspondence, home district problems or in committee hearings.

Committee hearings follow strict procedural rules to assure that maximum results are obtained in allotted time. The gallery visitors would be much more impressed with the procedure and dignity with which hearings are conducted — as a freshman legislator, I certainly have been!

Easter Letters Placed in Mail

Easter Seal Appeal letters are being delivered in Coke County this week, according to Bill Allen of Robert Lee, who is Easter Seal Representative for the Easter Seal Society for Crippled Children and Adults of Texas.

As Representative, Allen serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as treasurer of the Easter Seal Appeal in Coke County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Society also provided for research into the causes and cures of crippling conditions, finances public education programs, and provides scholarships for training of profession personnel to staff rehabilitation centers.

Allen pointed out that all of these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

During 1968, the Texas Easter Seal Society helped to provide treatment services to 11,390 children and 6,232 adults who were in need of rehabilitation services. These services are available to any disabled person who can benefit from help provided by the Easter Seal Society, Allen added.

The Easter Seal campaign will run through Easter Sunday, April 6. Allen urged increased support of the Easter Seal Society and its program of services to crippled children and adults.

LT. TOM BOECKING VISITS ACAPULCO, MEXICO

SAN DIEGO (FHTNC) Feb. 11 — Navy Lieutenant (jg.) Charles T. Boecking, son of Mr. and Mrs. Charlie C. Boecking of Bronte, visited Acapulco while serving aboard the heavy cruiser USS Saint Paul, flagship for Commander First Fleet.

During the ship's five-day stay in the Mexican port and vacation resort, crewmembers enjoyed sightseeing and the many available sports such as deep sea fishing, skin-diving, water-skiing, and even parachute riding behind a power boat.

Some observed two of Acapulco's most famous tourist attractions: the high divers of La Quebrada who plunge from a 135 foot cliff into the sea, and the Flying Indians of Papantla who dance upon a tiny platform high above the crowd before plunging toward the ground at the end of long ropes.

Saint Paul's stop at Acapulco was a welcome break in the ship's preparations for its scheduled deployment to Vietnam this spring.

Who Are We?

America is 202 million people. Included in that figure are about 180 million persons who make up the nation's 49 million families. The remainder either live alone or in the homes of others.

The following Census Bureau figures tell a lot about the American of 1969:

- * 45 per cent of us are married.
- * 60 per cent of us can vote.
- * 4 per cent of us are foreign-born.
- * 12 per cent of us are non-white.
- * 88 per cent of us are white.
- * 3 per cent of us are college students.
- * 62 per cent of us live in cities.
- * 30 per cent of us are in households with \$10,000-a-year incomes or more.
- * 71 per cent of us have some life insurance protection.
- * 83 per cent of us are protected by some form of private health insurance.
- * 17 per cent of us are white collar workers.
- * 14 per cent of us are blue collar workers.

Soaking Laundry—An Old Idea

Consumers are being bombarded with so-called washday miracles—laundry products supercharged with enzymes.

Research proves enzyme products get rid of many stubborn stains, but the housewife may be able to achieve the same results at half the cost.

The idea of soaking clothes before laundering to make your wash significantly cleaner is not new.

Presoaking with detergent does as good a job on most of the stains as does enzyme presoaks, tests have shown.

In the tests there was some very "slight difference" between two enzyme products and a detergent in their performance on blood and gravy stains, with the enzymes doing slightly better. But all three removed egg stains completely in 30 minutes of soaking, and spaghetti sauce overnight. All three removed a good

part of grass, syrup, coffee and tea stains overnight.

None did very well with mustard stains.

I suggest that housewives first try presoaking in a solution made up of whatever laundry detergent they now use. It may perform surprisingly well — and at half the cost of an enzyme presoak.

Promoting the new enzyme products is expected to boost the total budget for laundry products from \$70 million in the last 12 months to \$109 million in the next 12 months.

Easter Outfits for the Little Miss

Easter outfits for little girls this spring are frilly and romantic. They're made of ribbons and laces, embroideries, bows and delicate fabrics.

Most call for ordinary machine washing and drying.

Even the gossamer organdies and sheer voils are practical blends of polyesters and other fibers which yield smooth, crisp wrinkle resistance and laundering ease.

The blend of fibers will stay fresh all summer.

The line for little girls will follow women's fashions with the return to waistlines, full skirts and special collars.

Beef roast is at its best when

cooked just to the degree of doneness you like. The best way to tell when it's done is to use a meat thermometer. Generally, beef is considered rare when roasted to 140 degree F., medium at 160 degrees and well done at 170 degrees.

Hearty soups and chowders get a warm welcome at winter lunches and dinners. These dishes are filling enough for the main course when you add substantial amounts of fish, meat, milk, dry beans or peas.
