Bronte's volunteer fire department has a problem and needs help from the people of this area, particularly from the young men of the community.

The problem is one of attendance at meetings of the department. Rules which determine such things as fire insurance rates for the town require that a minimum of 17 men attend each of the meetings, which are held the second and fourth Thursday nights of each month. The department has about 30 members, but has a hard time digging up 17 for each meeting.

In addition to the instruction and practice firemen receive at these meetings and the corresponding benefits they bring to the community as a whole, property owners enjoy a lower fire insurance rate than they would if the attendance requirements were not met.

There is a definite possibility that insurance rate credits will be lost if attendance does not pick up. Those who buy fire insurance stand to lose from \$5,000 to \$8,000 per year, should this credit be lost.

It's impossible to value the ser-

Safety Rules Given for Cyclists

(Editor's note: The following article was submitted by Sheriff Melvin Childress with the hope that its publication will bring about safer driving habits among the readers of this newspaper.)

Vacation time is here, and to be considered also is the fact that the Robert Lee Dam is nearing completion. These two factors will create more traffic in this area, most of which will be coming from other areas. Our local citizens should be aware of this and observe every safety precaution while operating any type of vehicle upon our streets and highways. To observe these safety rules and precautions will help in keeping accidents to a

minimum.

On behalf of parents of children who have, or will be interested in obtaining a restricted license to operate a motorcycle, we feel the responsibility of being licensed to operate a motorcycle is not as fully understood by the parents (as well as the operators of these vehicles) as it should be.

The purpose of this type newsletter is to impress upon the parents with children who are interested in a vehicle of this type, the necessary requirements and precautions emphasized for safe operation of these vehicles.

Rep. George Baker called The Enterprise this week and reported that the Texas Senate had passed House Bill 1408 which allows the voters of precincts 2 and 4 of Coke County to form a hospital district if they wish.

Baker introduced the bill in the House of Representatives last week and it was passed and sent

Master Charge Signs Local Firms

Six Bronte businesses signed up last Thursday night to participate in the Master Charge credit card plan which is being sponsored locally by First National Bank.

Included among the firms who will honor Master Charge cards are Cumbie & Mackey, Caperton Chevrolet Co., Sims Food Store, Hurley Pharmacy, Bronte Hospital and Motel Victor.

Earl F. Glenn, executive vice president of the bank, said applications are available at the bank for any business man who wishes to take part in the plan and provide the service for his customers.

Applications will also be available at participating stores for those who wish to apply for a Master Charge card.

Bank Installs New Burglar Alarms

First National Bank in Bronte has just spent over \$3,000 for alarm devices which the bank's officers hope will prevent burglaries and robberies.

In addition to burglar alarms in each of the two vaults, two cameras which take pictures of everyone who enters the bank were installed.

Alarm switches have been installed at a number of strategic locations throughout the bank. These alarms can be easily activated by personnel and they, in turn, will activate an automatic telephone dialing system which will call three different numbers to report a holdup.

Earl F. Glenn, executive vice president of the bank, said the equipment is the most modern and efficient available. He said bank officials feel the added protection is an asset to the bank and an additional service to its customers.

to the Senate for approval. No opposition to the bill was heard in either house.

Baker said the bill is now in the hands of Gov. Preston Smith and he knew of no reason why the Governor would not sign the bill into law.

Baker said he greatly appreciated the efforts and smooth handling of the matter by Sen. David Ratliff of Stamford, who managed to get the bill through the Senate during a period of heavy filibustering.

"The senator did a good job in putting this bill through," Baker said, "and I would like to go on record as deeply appreciating the fine way it was handled in the upper house."

Passage of the bill does not create the East Coke County Hospital District, but it does permit voters of the two east precincts to vote on the matter and create a district if a majority is in favor.

Summerize Your Home

We're a great believer in easy living in the summertime. That's what the warm weather is for, especially after surviving this year's rugged winter. So now's the time to cut housekeeping, and housecleaning, to the barest possible minimum. And keep it that way!

A clean, uncluttered look makes a house more comfortable when the thermometer soars. This means putting away as many wintry furnishings as possible, and replacing them with cool summertime things. Take down heavy figurines, bric-a-brac, and other dust-catchers (you'll be amazed to find out how badly they are in need of a good suds-scrubbing) and replace them with a bowl or two of fresh flowers from your garden. Remove massive andirons and screen from the fireplace and fill it with broad-leaved foliage. A feeling of cool comfort will fill the room.

Another way to give a room the "summer look" is to take down draperies, and Venetian blinds, replacing them with simple wood shutters finished with washable paint. You'll get the full benefit of wide open windows, and the louvers can be adjusted to catch and direct the breeze. These shutters can be kept fresh and immaculate with the greatest of ease — just go over them occasionally with a well-sudged sponge, then wiping with a rinsed sponge. When autumn rolls around, and you remove the shutters, you'll find that the hinges are very inconspicuous and can be concealed by curtains or draperies.

Sheer or net no-iron curtains or bamboo shades will give a light airy look to a room. If curtains are needed for privacy or decoration, buy some of the inexpensive and attractive plastic or plastic-coated paper draperies.

These can be wiped clean with a sudsy cloth, will last all summer, and can be discarded at the end of the season.

You can cover a sofa and chairs with tight-fitting slipcovers made of a washable stain-resistant material. These fabrics come in a wide range of lively colors or cool-as-lemonade prints, and can be zipped off and laundered as often as necessary. A good trick is to put them back on while they're still damp — they'll dry without a wrinkle.

Accent or area rugs, placed on a scrubbed and polished floor in place of a thick, room-sized rug, will perk up a room beyond your expectations. Bath shop departments stock these in such sophisticated colors, shapes, and designs that no one will know they weren't originally intended for other rooms in the house. These are less expensive than "real" rugs, and are a breeze to machine wash and dry.

You'll find that a summer do-over for bedrooms may be accomplished by simply changing bedspreads and curtains. Remove heavy spreads and draperies, and try bringing summer atmosphere indoors with crisp chintz, soft nylon, or durable press cotton in

cool shades of avocado, blue, gold, or perhaps shell pink.

Durable press sheets and pillow cases, fitted sheets that "iron" themselves smooth over the mattress, lightweight acrylic blanket, and polyester filled summer comforters help to make life a dream — both for sleeping and for easy care.

The beauty of all these summertime changes lies partially in their easy washability. Curtains, slipcovers, area rugs and bedspreads can all go into your washer and most into your automatic dryer, as well.

4-H Round-Up Scheduled June 2-4

Some 1800 4-H Club members will be in College Station June 2 through 4 attending the Texas 4-H Roundup. 4-H members will come from every section of the state to participate in judging and demonstration contests.

Those who come to Roundup have already been named county and district winners in their respective judging and demonstration contest.

In addition to the 4-Hers approximately 250 County and Assistant Extension Agents and 4-H Adult Leaders, 200 friends of 4-H and contest donors and 30 members of the board of directors of the Texas 4-H Youth Development Foundation will participate in planned activities for Roundup.

Coke County will have 4-H club members in three contests. Deone Derrick and Sheri Pitcock, members of Robert Lee Future Leaders Club, will be participants in the Food Show to be held Tuesday afternoon, June 4.

On Wednesday, June 4, Janey Kiker and Donna Sowell, Bronte, will present a musical skit in the Share the Fun Contest.

Boys participating in the Soil Evaluation Contest are Lane Beaty, A. J. Roe III, Edwin Lindsey and Mark Matlock.

The young people will be accompanied to College Station by Mrs. Fay C. Roe and Sterling Lindsey, local County Extension agent, and Miss Suzanne McBurnett, Extension Assistant.

Summer Camp Offered Retarded

Camp Roadrunner is a summer camp for mentally retarded boys and girls of Region III, Texas Association for mentally retarded boys and girls of Region III, Texas Association for Retarded Children, Inc. This area includes the counties between Snyder and Breckenridge on the north and San Angelo and Brownwood on the south, and includes Coke County.

Roadrunner campsite will be provided by the Presbyterian Church Encampment, ten miles from Abilene, near Abilene State Park and Lake Abilene. There will be one session this summer, June 28 to July 5. Accommodations are available for approximately 100 campers, with applications taken on a "first come, first served" basis.

Eligible to attend are mentally retarded children between ages 12 and 25 of any race. The majority of these children will fall within the trainable or educable categories as devised by the Texas Education Agency. Campers must be toilet trained, ambulatory, capable of feeding and dressing themselves and able to communicate their basic needs.

Parents of the children are requested to provide the camp fee of \$40.00 per child. However, it is hoped that no child is refused admission because of inability to pay a fee. Civic groups, auxiliary organizations, individuals, and businesses are asked to sponsor a child as an investment in the child's happiness and development. \$15.00 is requested as a deposit, made with the application. The deposit will be applied

to camp cost and will be refunded if the child is not accepted. Other cost in connection with the camp is a suggested 25c per day for snacks and cold drinks.

The program is designed to offer the campers opportunities for development of natural talents and skills and will include a complete program of camping and outdoor exploration.

Further information and admission forms may be obtained from Mrs. Betty Emerson, Camp Director, Roadrunner 1969, 1820 Coleman, San Angelo, Phone 655-1709.

For these safety rules and law to be ignored is a serious matter and could easily cause death or serious injury to the operator or passenger of this type of vehicle. Another matter involved here is respect for the simplest rules of law on the part of parents and children alike. These basic laws are written for the purpose of protecting lives, property and preventing injuries. Other things for consideration are the responsibility associated with the privilege of being licensed to operate any type of vehicle; cost and maintenance is a major factor and this involves teaching by parents, and learning on the part of the children, where values are concerned.

To discipline oneself to be a defensive driver is of most importance. This simply means that to drive defensively is to closely observe at all times while driving, so that another driver will not set up an accident which may involve you, and with utmost care be careful not to drive in a manner to cause another vehicle to be involved in an accident. The fact that an operator may have the right-of-way is to be respected by keeping in

mind many have been killed and injured because another failed to observe he did not have the right-of-way.

Those of us charged with the responsibility of investigating these accidents feel that the primary factor and answer to holding this type accident to a minimum, is an educational program designed to assist operators of all types of vehicles, adults and youth alike. We are equipped to present this type of program when requested to do so.

We especially need the cooperation of parents in seeing that these rules are observed. We feel this effort is more effective than an accident where a death, injuries or property damage are concerned.

We trust that the information presented in this article will better acquaint the general public with the importance of traffic laws and safety precautions of the state and let them become as real and necessary as the vehicles which may be operated.

Respectfully submitted,
 Coke County Sheriff's Dept.
