Austin — State Welfare costs may go up sharply next year if Congress passes a new Medicaid bill.

State Senate Committee on Welfare Reform heard estimates that Medicaid amendments alone will require at least \$25.9 million in additional state outlays during the coming biennium.

Burton G. Hackney, State Welfare Commissioner, predicts President Nixon's Family Assistance Plan of legislation might cost Texas a minimum of \$22 million more each year and double the number of children on state aid rolls.

Senate committee heard estimates that Medicaid changes will add more than \$6.2 million to the state's obligations for the present biennium.

While welfare officials are now optimistic over being able to continue present program levels until the next legislative sessions, they will, at best, be

in debt \$13.5 million come January. That's the amount Gov. Preston Smith transferred to welfare from medical school construction funds to head off the scheduled April 1 cut in payments to the needy.

If rough estimates presented the committee are correct, the legislature will be looking at an increase of \$70 million for new programs during the next fiscal period—not to mention another \$20 million "catch-up" money carrying over from the current biennium.

If Congress places mental retardation under new limitations for inpatient services, the state could end up with another \$9 million a year in new obligations, plus \$8.2 million in unexpected expenses for the present fiscal period.

SCHOOL FUND — Largest single piece of income for the Texas permanent school fund, \$139 million, has been assured. After 11 months of discussion, School Land Board accepted a unitization agreement on the huge new sulphur deposit found in Culberson County by the Duval Corporation of Houston. Deposit is the second largest in the world. It contains 81 million long tons of sulphur. Agreement involves the drilling of 6,000 wells.

High bids on public school land oil and gas leases totaled \$3.1 million, representing an average of \$36.84 an acre. Twenty-two per cent of the acreage sold was in El Paso and Hudspeth counties. Land lying in Loving and Ward counties brought a bid of \$120,006, topping all others.

Second highest bid of \$113,040 was on a 1,440-acre tract of submerged coastal lands in Jefferson County.

Third highest was \$110,053 for 411 acres in Reeves County.

Receipts from the sale boosted the permanent school fund to \$839.6 million, for total increase of nearly 86 per cent in last decade.

COURTS SPEAK — Third Court of Civil Appeals held the 1969 law giving tobacco distributors 15 days to pay for cigarette tax stamps is constitutional, but State Treasurer Jesse James said he will appeal.

State Supreme Court refused the request of Fred Williams, Houston, to force Land Commissioner Jerry Sadler to make public veterans' land loan applicants.

In other actions the Supreme Court:

* Set May 6 arguments on liability of an insecticide firm for damages in the death of a Colorado County child who swallowed bug spray.

* Held there was no conspiracy in an alleged breach contract involving a fishing fleet and an Ecuadorian seafood pack plant.

* Refused to review a Dallas furniture company's challenge of the Sunday closing law.

AG RULINGS — Atty. Gen. Crawford Martin says, in an opinion requested by Wiley L. Cheatham of Cuero, that a Justice of the Peace may conduct court on criminal cases on Sundays. He added that he also could enter judgments and sentences and collect fines on Sundays.

In another opinion, Martin ruled that Commissioner Courts may enter into contract with the U. S. to administer job training programs under a concentrated employment project.

FEDERAL - STATE GRANTS MADE — Office of Child Development grant of \$208,594 in new federal funds went to Bee County Community Council for Head Start school programs in Beeville, Goliad and Pettus.

A federal recreation grant of \$126,800 has been approved for acquisition of 15.5 acres of land to enlarge Pasadena's Memorial Park.

Governor approved an \$11,250 regional planning assistance state grant to Ark-Tex Council of Governments, Texarkana, and a \$22,190 planning grant to El Paso C.O.G.

Short Snorts

Highway Commission has told the U. S. Department of Transportation it will not make any more studies about possible routes for the North Expressway in San Antonio and asked for 50 per cent aid to help build the road.

Victoria, Harris, LaSalle and San Patricio counties have been added to the list of those with brucellosis control programs by the U. S. Department of Agriculture and the State Animal Health Commission.

Aeronautics Commission staff has recommended that 28 cities in the state be provided intrastate cargo-only air service and approved four companies to serve them.

Governor Smith has accepted the resignation of District Judge Sterling Williams of Snyder, but is not expected to appoint anyone to the post until after the district Democratic committee has selected its nominee for the May 2 primary.

Tax revenue from smoking increased more than \$4.5 million last month, over March 1969, due to the increase from 11 cents to 15 1/2 cents a pack on cigarettes.

Governor Smith has called an April 16-18 conference of college student presidents.

Parks & Wildlife Department is asking cities and counties along the Gulf Coast to submit applications for participation in the beach cleaning and maintenance assistance program enacted by the last Legislature.

Nobody likes a sloppy range. Especially if it's a result of hangover heat. After all, heat that hangs on after your range is turned off isn't your fault. But you have to clean up after it.

However, gas ranges turn on and off instantly. No heat's left over to scorch your food, burn your pans or cause food to boil over.

Buy a new gas range, sure-cure for hangover heat.

Washington—The 14th Amendment to our constitution has been the launching pad for many controversial Supreme Court decisions in recent years.

Just a few days ago it entered another dimension unheard of or imagined. It embraced the extraordinary idea that an individual can claim welfare payments as a "property" right even when his eligibility to receive payments from the government is under question.

The 14th Amendment provides that no entity of government can deprive persons of life, liberty and property without due process of law. The court by a 5-3 vote decided that welfare payments were a part of the individual's "property" and they can not be removed from the welfare rolls without a court hearing. There is little doubt that a government attorney will be furnished to represent the individual, although in other instances it is illegal for those in government to represent a client having a claim against the government.

The ruling strikes at the heart of the concept that welfare programs are an instrument of charitable support. Instead, the decision portrays the collection of welfare benefits as an established property right.

In a dissent, Justice Hugo Black said "Government's promise of charity expressed in our welfare program considered to be a property right, strains credulity."

An immediate consequence of the ruling will not only add to the already staggering cost of welfare but will lead to endless hearings before courts already burdened with overloaded dockets. In the meantime, those found ineligible by those responsible for such a determination will continue to be paid.

The elevation of public welfare into an obligation of the government to support every citizen is in danger of being written even more explicit into our laws when the Nixon administration's "Family Assistance Plan" is enacted by the congress.

The administration's proposal

assures every family that its income, for whatever reason, will not fall below a specified level.

Once people are on the welfare rolls, under the court's ruling it will be extremely difficult for them to be removed, even though it is determined by local welfare administrators that their eligibility has ceased to exist. It will discourage efforts to remove those found to disqualify for whatever reason.

It is not a matter of not being responsive to the genuine needs of unfortunate people. The American people have always responded in helping those who can not help themselves. Cities, counties, states, the federal government—plus countless private agencies, groups and organizations, provide aid to genuinely needy people. True charity is one thing but a court's decision which says it is guaranteed under the constitution removes the moral concept of charity and places those who are unwilling to work in a position to claim public money as a property right. It gives the lazy and shiftless a right alongside those in genuine need and who are unable to support themselves.

The court's decision is a violation of the property rights of the American taxpayer who is required to contribute a goodly portion of his earnings to those who have no inclination to better themselves. The decision denies property rights to men and women who get up every morning and go to their jobs. The Court's action has the effect of confiscating property through taxation to be handed out in the name of charity which brings us to the point there is no charitable duty or obligation except that of the government—where there is no moral concept except that which is set by the government—no conscience but state conscience. Perhaps the latter is even more serious to us as a people.
