CAT CALLERS — J. D. Taylor of Blackwell, left, and Roy Kerr of Dallas exhibit one of 31 bobcats called up by Edward Poehls, Bill Morris and

Taylor. This 36-pound tom was called near Blackwell. The men have been getting rid of the predators for the last 18 months in the Blackwell area.

Blackwell Men Specialize in Bobcat Calling, Have Killed 22 in 18 Months

Edward Poehls, Bill Morris and J. D. Taylor, all of Blackwell, have been engaged in calling and killing bobcats for the past 18 months. During this period they have called up 31 cats and killed 22, all around the Blackwell area, except one which

was on the 18 Ranch north of Roscoe.

The trio have been calling together for several years, but 18 months ago they started "specializing" in bobcats, with the above results up to now.

The three men stated that there are many cats in the Bronte and Blackwell area, and bobcats can be at your back door for a life time and you will never know it. For instance, the cat in the picture and three more came from a ranch near Blackwell, where the rancher and a hired man said they had never seen a cat on the ranch.

One bobcat has been known to kill 50 lambs in three nights' time, for when the cat was caught the slaughter stopped.

The Blackwell men said a bobcat is a blood thirsty creature and kills for the sport of it. They will kill lambs and kid goats, cover them up and go kill more.

Roy Kerr, a predator caller of Dallas, who is in the picture, was visiting Taylor, Poehls and Morris when the cat in the picture was called. Burnham Bros. of Marble Falls spent three days here several months ago studying the techniques of the local men.

Many ranchers throughout this area may wonder what's happen-but Poehls, Morris and Taylor of Blackwell can answer the question.

ATTENDANCE A MUST

All students who are required by law to be in school will have to attend this year. Supt. C. B. Barbee has announced that the school board voted recently to enforce school attendance laws more rigidly than heretofore.

Fines will be levied against parents and guardians who have children who are supposed to be in school and are not attending. Final penalty for not seeing that children attend school may be a jail sentence.

Tax Equalization Boards To Meet Next Week

Citizens of the community will have an opportunity to complain about their taxes on two occasions during the next week. Both city and school equalization boards will meet.

Main interest this year is in school taxes since an announcement was made that an across-the-board increase of 46 per cent was to be placed on all property in the school district. Notices of the valuation raise were mailed out this week to all taxpayers.

The school equalization board will convene Monday at 1 p.m. in the school auditorium. Members of the board are Edward Cumbie, chairman; Royce Fancher, secretary; and C. E. Bruton, member.

Supt. C. B. Barbee pointed out last week in the announcement of the increase that the board of equalization meets only to equalize taxes and see that property is valued fairly and equita-

bly when compared with other property in the district. He said the decision to increase values was made by the school board, in order to compensate for a \$35,645 increase in the 1970-71 budget and a decrease of some \$2 million in oil property valuations.

A slight decrease in tax rate was announced along with the valuation increase. Taxes for 1970 will be paid at the rate of \$1.70 per \$100 valuation, compared to \$1.74 last year.

City Board to Meet

Royce Lee, chairman of the board of equalization for the City of Bronte, has announced that the board will meet Tuesday, Sept. 1, at 7:30 p.m. in the city hall. No drastic changes have been announced in the city tax plan for this year.

Any taxpayer who has business with either of these boards of equalization is invited to attend the meetings.

LONGHORN CLUB TO MEET

Bronte Longhorn Club will have its first meeting of the year Tuesday, Sept. 1, at 8 p.m. at the school. Everybody who is interested in the fortunes of the Bronte Longhorns of 1970 is invited to come to the meeting.

Officers will be elected and plans made to assist the Horns during the coming football season. One of the main functions of the booster club is to finance filming of football games.

Granddaughter Is Budding Artist

Gay Vanda Rogers, granddaughter of Mr. and Mrs. Lark Rogers of Bronte, is only a junior at Midland High School, but she has already decided on a future for herself—to become an artist. And she is well on her way to achieving that goal.

Earlier this month, she was among the annual staff of MHS which attended the Texas Tech Publications Workshop where her design was awarded a handsome first place trophy for "Tech Yearbook Best Cover Design 1970." She also attended the Texas Christian University summer art session this year.

Miss Rogers, daughter of Mr. and Mrs. E. M. (Poss) Rogers of Midland, gave her first show in 1969, featuring work in pastels, watercolors, charcoals, oils and sculpture. She also has illustrated a children's story.

Not all her works are hanging in the Rogers household. Last fall, while visiting the Permian Basin Girl Scout Hat "A" Ranch near Bakersfield, Miss Rogers did a charcoal sketch of the old original ranch house built in the late 1890's.

Press Galloway, president of the Wingate Security Bank, saw the drawing and asked to display it in the bank. Also, one of her sculptures has been exhibited in the Museum of the Southwest.

Although Miss Rogers has had offers, the young artist is reluctant to let any of her work go just yet.

Amateur Rodeo Friday, Saturday In Bronte Arena

An open amateur rodeo will be held Friday and Saturday nights at the arena of Coke County Roping Club in Bronte. The rodeo will be sponsored by West Texas Rodeo Association. Starting time each night will be 8 o'clock.

The eight events which will be featured and their prizes are: bareback bronc riding, \$12; bull riding, \$12; calf roping, \$11; dogging, \$12; team roping, \$12; barrels, \$8; flags, \$5; and poles, \$5.

Everyone is invited to attend the rodeo and admission prices will be \$1.50 for adults and 50 cents for children.

Stock for the rodeo will be furnished by C & M Rodeo Company.

Members of Coke County Roping Club will operate a concession standing during each night of the performance. The local club will receive a percentage of the gate receipts.

Performers from a wide area of West Texas are expected to take part in the contests.

Last Rites Held For Mrs. Murray

Funeral services for Mrs. Buna Brasell Murray, 61, were conducted at 10 a.m. Tuesday in First Baptist Church of Bronte. The pastor, the Rev. Harry Morris, conducted the last rites. Burial followed in Teeville Cemetery near Colorado City under direction of Newby Funeral Home.

Mrs. Murray died at 11:45 a.m. Saturday in West Coke Hospital in Robert Lee.

She was born July 18, 1909, in Crystal River, Fla., and had lived in Bronte since June of this year with her daughter, Mrs. J. E. Scott. Prior to that she had lived in California the past three years. She had lived in West Texas most of her life. She was married to Archie Dee Murray July 21, 1925, in Colorado City. He died Oct. 11, 1957.

Survivors include three daughters, Mrs. Charlene Scott of Bronte, Mrs. Virginia Johnson of Salt Lake City, Utah, and Mrs. Ramona Spullock of Midland; two sons, Archie D. Murray Jr. of Imperial Beach, Calif., and John Fulton Murray of Lake Isabella, Calif.; her mother, Mrs. Ida Susan Brasell of Alabama; three sisters, Mrs. Amiel Pearl Mann, Mrs. Mennie Will Hurst and Mrs. Sarah Bishop, all of Alabama; three brothers, Cecil Brasell and James Brasell, both of Alabama, and John Brasell of Louisiana; 11 grandchildren and six great-grandchildren.

Pallbearers were Lawrence Ray Hill, Euster Hill and Jimmy Reid, all of Fort Worth; Bob McGuire and Bill McGuire, both of Colorado City; and Eddie Blair of Abilene.

Austin — A legislative committee is sampling recommendations for sweeping court reforms, including creation of judicial system administrators with authority to send judges wherever they are needed.

Judicial section of the State Bar will detail its proposals at an October meeting in Galveston. Judges and practicing attorneys gave the House judicial sub-committee, at a hearing in the capitol, their ideas for improving and speeding up court machinery.

Sample recommendations include:

* Strong court administration, including authority to ignore present district lines in assigning judges to duty where the action is.

* Giving 14 Courts of Civil Appeals power to handle intermediate appeals of criminal, as well as civil, cases to ease load on overworked Court of Criminal Appeals (which now receives appeals direct from district courts all over the state).

* Creation of a "unified" court system (a variety of plans have been suggested) to insure an even work load on courts, again by shifting judges to areas where dockets are overloaded.

* Automatic judicial redistricting by a five-member board if the Legislature refuses to do the job.

* Removing judges from politics.

* Stiffer fines and jail sentences for contempt of court to help prevent court disruptions like those which have shocked the nation in recent months.

* Simplification of the judicial article of the state constitution so the Legislature can make

changes without having to submit constitutional amendments.

"The climate for judicial reform was never so good," Supreme Court Associate Justice Jack Pope told the committee members. "But if reform is passed up this session of the Legislature, it may be too late."

OIL ALLOWABLE AT RECORD — Texas Railroad Commission boosted the oil allowable for September to 79.9 per cent of potential—highest level since October 1951.

Order is seen as likely to boom production higher than during the Arab-Israeli war in 1967.

Chairman Ben Ramsey noted that the Commission's staff report warned the higher factor could cause pollution, wasting of gas and pipeline bottlenecks in some areas.

A major oil company spokesman said Texas crude oil stocks are down 4.5 million barrels from 1969. A rapid decline in imported oil was noted.

September allowable would provide for a maximum daily production of 4,166,870 barrels, although actual production is estimated at 3,409,000 barrels a day. Latter is just under the written nominations of major purchasers for 3,428,395 barrels of crude daily. Production in August at 70 per cent factor was estimated at 3,310,000.

MERCURY RULES URGED—Texas Water Quality Board has been urged to adopt tougher mercury discharge limits or outlaw discharges outright.

A Federal Water Quality Administration official and a top Texas Parks and Wildlife Administrator recommended even tighter controls on mercury and other heavy metals than proposed by the Board.

Spokesmen for Diamond-Shamrock Chemical and American Smelting and Refining Company, on the other hand, argued that the proposed five parts per billion mercury discharge is beyond their capacity. They called for a delay in adoption of the standards.

Federal officials took exception to the state board's order which said there is no evidence of pub-

lic health hazard from heavy metals contamination in Texas. He pointed to mercury found in industrial discharges, coastal waters and in certain species of salt water fish and shell fish. He noted, in particular, industrial waste along the Houston ship channel and in Lavaca Bay.

CELIA JOBLESS AID PAID—Texas Employment Commission will pay disaster unemployment assistance to persons unemployed as a result of Hurricane Celia in a dozen South Texas counties.

These are Atacosa, Aransas, Live Oak, McMullen, Bee, Jim Wells, Nueces, San Patricio, Refugio, Goliad, Karnes and Wilson Counties.

Those eligible include persons who worked or were scheduled to work in the areas but who no longer have jobs or places to work or could not reach their place of work because of storm damage.

Also eligible are those who lived in areas and could not get out to work elsewhere, those who could not go to work because of injury or illness due to the disaster, those who became heads of households and needed to work due to the death of the family breadwinner during the emergency period, or those who had completed work training and could not find work because of hurricane damage.

WELFARE REGION ESTABLISHED — A new State Department of Public Welfare region serving six South Texas counties will go into operation Sept. 1 with headquarters in Laredo. Counties previously were part of a larger region.

COURTS SPEAK — U. S. Fifth Circuit Court of Appeals denied Texas' appeal on who has jurisdiction in a Padre Island buried treasure case. U. S. District Judge Reynaldo Garza of Brownsville had held on June 12 that he could take jurisdiction in the dispute over ownership of the recovered artifacts. State wants the articles. So does Platoro Ltd., the Gary, Ind., salvage firm which recovered them.

Atty. Gen. Crawford C. Martin filed a triple damage, anti-trust suit against three big drug firms, accusing them of conspiracy in restraint of trade leading to a monopoly in Ampicillin and other synthetic penicillins.

State's request for lifting an injunction against enforcing the private bottle club guest rule has been delayed until Sept. 30 by the Austin District Court.

Meanwhile, the chairman of the Alcoholic Beverage Commission, Tom Gordon of Abilene, said ABC would be in contempt of court if it tries to crackdown with "Rule 56."

Bottle clubs said they will appeal the top state court rule which upholds the U. S. Supreme Court ruling.

Short Snorts
William Steger of Tyler announced his candidacy for reelection as State Republican chairman at the Sept. 15 state convention in Dallas.

Governor Smith has recommended that the federal government take over the entire cost of welfare programs in states.

Duck season, which opens Nov. 4, is the most generous in 25 years, having been extended from 55 to 70 days, with a bag limit of 10.

Stafford State Bank (Fort Bend County) is seeking a charter.

Texans (with 66.1 billion vehicle miles) rank second to Californians (111.7 billion) in total miles traveled last year.

Criminal Justice Council has approved 29 grants totaling \$1.5 million for crime-fighting projects.

State agencies have agreed on formal program for cooperation in civil defense matters.

School officials said this week that the local football field is in top shape and will be ready for the action when it comes home on Sept. 25.

Reserved Seats

Supt. C. B. Barbee announced this week that reserved seat tickets will be on sale again this year, with former holders of particular seats having first choice at the seats they had last year. The reserve seat tickets will be sold only for the entire season (4 games), with no reserve tickets available for individual games. Price of the tickets will be the same as for regular adult admission, \$1.50 per game, or \$6.00 for the season.

Single game admission price for adults has been raised to \$1.50, and students will be admitted for 50 cents, same as last year.

Coke County Farm Bureau President Attending State Meet at Brownwood

Wayne Arrott of Bronte, president of the Coke County Farm Bureau, will represent this county at a statewide Presidents' Conference Aug. 27-29 in Brownwood.

The Brownwood meeting is part of a statewide effort involving county Farm Bureau leaders in developing a plan to upgrade the Farm Bureau program in Texas. Presidents of the 203 organized county units in the state are expected to attend the two-day session.

"Our county organization is taking an active part in helping create a more effective organi-

zation that will better serve the needs of farmers and ranchers in the years ahead," Arrott said.

The Coke County Farm Bureau board of directors held a special meeting June 22 to evaluate the total Farm Bureau program and to make suggestions that will be incorporated in the ideas to be considered at Brownwood.

At the Presidents' Conference, the county leaders will also receive a report from a team of specialists from Texas A&M University on projected changes in market demand, financing agricultural operations, costs of production, numbers of agricultural producers, etc.

The leaders will be separated into group workshops, based on subject matter, to consider both the reports from counties as well as the information supplied by the agricultural experts. They are expected to recommend programs for making the organization more effective on both county and state levels.

County presidents will caucus by districts to make nominations for a statewide committee of county leaders. Primary purpose of the committee will be to draft and recommend to the Texas Farm Bureau ways and means of servicing county Farm Bureaus.

County Farm Bureaus will be asked to designate a small committee within each county to implement county programs given top priority.

HAVING DIFFICULTY WITH SCHOOL PHONES?

Supt. C. B. Barbee said this week that he has been receiving reports of school patrons' having difficulty reaching the school's numbers. He explained that there are times when nobody is in the offices where the phones are located.

Barbee said the high school principal's office does not have a person present quite a bit of the time. He suggested that anyone calling this office and not getting an answer, call the superintendent's office.

School numbers are 473-3871 for the superintendent and elementary school principal, and 473-5591 for the high school principal.

Labor Day Picnic Plans Move Ahead

Plans are going ahead for a community-wide picnic on Labor Day. Churches of the town are working together in making preparations for the affair.

The plans are to have a covered dish picnic, with each family bringing food for its own members and guests, plus enough for one additional person. The meal will be spread and the food enjoyed from 6:30 to 7:30 p.m.

Churches instigated the picnic idea to take the place of the community-wide barbecue which was sponsored for many years by merchants of Bronte.

Ministers of Bronte's churches said they hope everybody in the community will participate in the picnic. They emphasized that the picnic is not limited to church members or to members of any particular denomination, but is open to everyone and everyone will be welcome.

The Rev. Harry Morris, pastor of First Baptist Church, said, "We feel that Bronte needs more things which will bring everybody in the community together."

HOSTS BARBECUE

Conda O. Richards hosted a barbecue Thursday night for members of the Bronte Volunteer Fire Department. The firemen were to meet at their regular time, 7 p.m., and then go to Bronte Park where the barbecue was served. Richards was feting the firemen as a gesture of appreciation for their help in controlling several grass fires on the Wylie Ranch.

Skirts Go Down, Pants Go Up

An a la carte fashion menu emerges for the 70s with many many choices for the back-to-college crowd. There are soft feminine, yet dramatic new looks to add spice and interest, tasty colors of yam, pumpkin and chestnut. The hemline controversy makes for a see-saw clothes contest — full of ups and downs, with pants and tunics filling in. However, the really new line is the LONGUETTE LOOK. Featuring the long and lean silhouette, a whole new set of proportions paces the longuette look. The longuette dress, skirt, coat, cardigan or vest allows a sliding scale of hemlines from mid-knee to two inches below the knee, to midi length.

The emphasis is on soft styling. Wrapped skirts with controlled flare, peplum effects, cousons enrich the gentle lineal longuette. For toppers, team up the dress or skirt with long or short. Choosing a color scheme and working several go-together separates into your wardrobe will show the greatest versatility and mellowness.

The longuette takes on the dinky, just-to-the-waist sweater, cropped battle jacket, short fitted cardigan, or zippy little bolero. The look can easily go the other way with a longer, belted jacket, midi-length cardigan, or tunic and top.

While skirts inch downward pants are going up, with the big ones centered on boot-topping: bucho pants and knickers. Gaucho pants keep the lean look with ple or rib stripes down the leg. To go-with-all, legs will be sheathed in deep colors, interesting patterns and textures. Stripes, cables, jacquards, herringbones, and opaques with side detailing will call attention to low-calf and ankle. Besides knee-caps and pantyhose, knee-caps will add a finishing touch to sportswear longuette. Choose accessories as carefully as basics to get a unified look in a season that calls for many additions.

While the look is LONGUETTE, the fashion feel is SOFTNESS. Besides styling, fabrics, textures, and colors create softness in a variety of ways. Some materials have hair and fur fibers added, less weight and more suppleness is seen; and finishing processes, such as brushing, give lift, lightness, and a velvety touch.

Corduroy proves its texture talent as well as fashion mobility again, turning up on college-gear garments in everything from ribless to jumbo wide and narrow wales, thick and thin combinations, and skip cords. Textures combine in exciting ways, too. For example, a corduroy battle jacket and zip longuette skirt top a knit jumpsuit for a unique costume. Among corduroy's virtues is its wonderful washability. When used in combination with another material, such as crinkle vinyl, care should be taken for best laundering results. Check hang tag instructions.

Knits are everywhere in every possible fiber and blend of fibers. Rich, expensive looking blends and synthetics turn out to be machine washable and dryable—even some of the wool-plus something blends. For long wear and good shape retention, look for quality, follow washing instructions carefully, and launder frequently before dirt becomes embedded. Make a practice of saving how-to-wash hang tags. Mark the tag with some identification of the corresponding garment and refer to it when in doubt.

Texture adds a three-dimensional quality. Most important is the use of ribbing and cables to elongate and define shape. The ribs — spaced, broken placed — control the pencil-slim, gently contoured look. The brushed and nappy knits may be on white or natural grounds. Stripes are big and bold, but often toned down by powdery shades. The biggest trends are in geometric jacquards and prints in small patterns reflecting both an Eastern influence and Americana via American Indian, Inca or Aztec motifs.

Colors to watch run the tawny, gold, orange range. Bittersweet, a persimmony red-orange deep-

ens to rust and terra cotta on one end of the scale and lightens to copper and pumpkin on the other. The dusty tones, called funkies, are still in the picture. The best neutrals appear to be wheat, creamy beige and camel. Brights are clean, clear colors, not glaring.

It's a season unmatched for mixing. So study the styles, make your selections and scramble them up for the long and short of it.

Laundering I: Prerequisite Course for the College-Bound

Boys as well as girls going away to school for the first time need a short course from an expert—mom—on how to do their laundry. Knowledge of sorting, pre-treating, washing and drying everything from blue jeans to sweaters will prove valuable, even if not as interesting as class and campus activities.

Now all your U.S. Savings Bonds pay higher interest.

Now it's official.

Now one of the safest investments in the world brings you new and higher returns.

Now your U.S. Savings Bonds pay the highest interest in history: a full 5 per cent when held to maturity of 5 years and 10 months. (4% the first year; 5.20% thereafter to maturity.) Previously, these Bonds earned you only 4 1/4% if you held them for seven years.

The new interest began June 1, 1969. So all of the Bonds you own, no matter when you bought them, have been collecting higher interest since that time.

Those Bonds are still replaced if lost, stolen or burned.

You can still buy them through Payroll Savings or the Bond-a-Month

plan.

Regardless of your other investments, can you think of any easier, better, or safer way to build a nest egg for yourself?

It's nice to know that you are doing a little something for Uncle Sam, too. The \$52 billion in U.S. Savings Bonds now outstanding in the hands of millions of Americans go a long way toward keeping your country financially strong.

There never was a better time to take stock in America.

There's a man at the place where you work who can start you on the Payroll Savings Plan right now.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

If you've been saving to buy gas heating, here's help:

If you're like most homeowners in this area, sooner or later you'll probably buy gas central heating.

After all, it costs less to operate. It circulates fresh, warm air in every corner of your home. And a simple construction gives it a long trouble-free life.

So, why not buy gas heating now? And get a 15% discount. (We'll give you a 25% discount if you buy yours with a chiller coil that makes gas air conditioning easier to install.)

In short, save a lot of money now at Lone Star Gas or any participating gas heating dealer.
