Bank Deposits Up 11% In Year

Bank deposits at First National Bank in Bronte have grown almost 11½ per cent in the past year. The increase in deposits amounts to over a half million dollars since the bank call was made June 30, 1970.

On June 30, 1971, the local bank had \$3,241,807.97 on deposit. When compared with the \$2,729,303.85 on deposit June 30, 1970, the \$512,504.12 increase is shown.

However, the amount on deposit at the last call on April 20, 1971, shows a deposit figure of \$3,393,517.55, which is a de-

crease of \$151,709.58. Banking officials say however, that a drop in deposits at mid-year is the usual trend and a better index of growth can be had by comparing figures at the same time of the year before.

Loans also show a substantial increase over a year ago. On June 30, 1971, the bank had out on loan \$1,615,948.29 compared to \$1,159,947.74 on June 30, 1970. These figures show an increase of \$456,000.55.

Capital accounts of the Bronte bank at the last of June this year show a total of \$516,500.00 which is an increase of \$55,393.68 over the \$461,106.32 of a year ago.

Total assets of the bank are more than three and three-quarters million dollars (\$3,758,307.97) which, when compared with the assets of June 30, 1970, show an increase of \$567,897.80.

Total deposits in Coke County amounted to \$6,611,255.90 when the \$3,241,807.97 of First National Bank in Bronte is added to the \$3,369,447.93 on deposit in Robert Lee State Bank.

The Enterprise annual subscription sale has reached the halfway point and will be concluded at the end of July.

The special rate allows a 50 cent discount on any subscription, new, renewal or extension.

Regular rate of \$3.50 for Coke and adjoining counties is reduced to \$3.00, while the regular price anywhere else of \$4.50 is reduced to \$4.00.

A large number of subscribers have already taken advantage of the saving, and everyone else is invited to do so.

Community correspondents are authorized to take subscriptions or they may be mailed or brought to The Enterprise office.

Board of directors of the Bronte Housing Authority signed the contract Monday night for \$179,661 with B-F-W Construction Co. of Temple for an addition to the low rent housing project. The contract was sent this week to the state office for final approval, and it is expected back promptly, according to A.

E. Bell, executive director of the authority.

It was just about a year ago when first bids were opened and the construction company is expected to move in as soon as approval is received.

The contract calls for a turn-key job on 12 new living units. Six of them will be single bedroom homes, designed especially for elderly persons, two will be regular single bedroom units and four will be two bedroom units.

The new houses will be located on the west half of the block on which the city hall, post office, car wash and Scott Butane are located. Only building on the site that will have to be torn down is the old Best Service Station, which also housed the office of W. H. Maxwell Jr. local Conoco consignee.

Norman R. Kiker will serve as clerk of the works when the construction begins.

Water Customers Soaking It Up

Bronte residents have really been soaking up the water the past week or so, according to Water Supt. Billy Joe Luckett. He said this week it is impossible to keep water pressure over town at a good level because of the extensive use of water.

Water users are draining about 390,000 gallons a day through their lines, and that's the limit Luckett said. "We have plenty of water," he said, "but the 390,000 gallons a day is just all our pumps and pipeline can carry from Oak Creek Lake."

He also pointed out that he has to keep some water in storage, in case of fire.

Luckett said he believed Bronte water customers would be using 500,000 gallons a day during this hot, dry spell if there was sufficient pressure to get it through the lines.

He said he hoped everybody would understand the problem, as he is working night and day to keep the pressure at a level where all residents will have sufficient water to take care of their household needs and have some to water gardens, lawns, etc., even though it may not be as much as they would like.

Mrs. M. G. Gilreath and Mrs. K. M. Cook and daughter of Odessa were in Bronte Tuesday visiting friends and attending to business.

Rocksprings Rites For Mrs. Croft, 85

Funeral services for Mrs. J. J. Croft, 85, of Rocksprings were held at 4 p.m. Sunday in the First Baptist Church there with burial in the Rocksprings Cemetery. Newby Funeral Home of Bronte was in charge of arrangements.

Mrs. Croft died at 2:30 p.m. last Friday. She had been brought here by ambulance from Rocksprings on the Sunday before her death.

She was born Oct. 31, 1885, in Goliad. She was a resident of Rocksprings for more than 60 years and a member of the Baptist Church there. She was married to J. J. Croft on Dec. 28, 1910, in Rocksprings.

Survivors include her husband; a sister, Mrs. J. W. (Nona) Anderson of Bronte; three brothers, G. H. Brumfield of Ontario, Calif., and R. E. Brumfield and C. E. Brumfield, both of Uvalde. Mrs. Willie B. Millikin of Bronte is a niece of Mrs. Croft.

Wrinkle Resigns; School Improvements Being Made

Bronte School trustees accepted the resignation of Bobby Wrinkle as a member of their board at their regular meeting last Thursday night. Wrinkle has moved to Robert Lee. Appointment of his successor is expected at the next meeting.

They also employed Rev. Wayne Stout as a bus driver on Route 3, east of town and hired County Attorney Roy Ford on a retainer to take care of the legal business of the school.

In other business, the board: * Opened bids on a '63 Chevrolet bus and sold it to J. T. Jones of Weatherford for \$289.

* Certified a representative to the Region XV Educational Service Center Joint Committee.

* Agreed to participate in the Region XV Education Service Center Media Component, from

which films and learning aids, etc., are secured. Supt. C. B. Barbee said the cost is \$1 per ADA, and well worth the money. About 270 films were used during the past school year.

* Reviewed the compulsory immunization program and approved arrangements to give first shots early in September with followups in October and November, in cooperation with the State Health Department. Supt. Barbee said that it is not too early for parents to start getting papers in order, for if they are unable to produce reliable evidence that requirements have been met, the student will be required to take the shots.

* Read a letter from the State Insurance Board to the effect that carbon tetrachloride fire extinguishers are against the

law for public schools. All of those extinguishers in the local school have been replaced.

* Established procedure for assigning football and basketball concessions.

* Ratified selection of a parental advisory committee that works with federal programs.

* Made board member assignments on counting monies at home football games this fall.

* Reviewed the 1971-72 tentative budget, with the intention of approving it at the next regular meeting. Barbee noted that it requires no increase in taxes, although the district lost over \$300,000 in valuations.

Much Work Going at School Maintenance men and others have been busy all summer working over the school facilities. At the football field, all aluminum

work has been repainted and the inside and outside of the field fence. Restrooms have been repainted. The concession stand, press box and ticket office have been repainted and reroofed. The press box has a new front. All rotten board have been replaced in the bleachers and all bleachers have received three coats of paint. The band section has been closed in behind the seats. The football field is in excellent condition. All leaky lines and valves were replaced and the grass has been watered and mowed.

All playground equipment and trash barrels have been repainted, as well as the elementary school rest rooms. In the lawn area between the wings of the school, a sprinkler water system has been installed, sand has been

hauled in, the area graded, seeded and fertilized.

Floors in all the buildings have been refinished and all broken glass replaced.

Improvements have also been made in the band hall, to take in the adjacent hallway area. This extra space will be used for practice rooms and instrument storage. Several new light fixtures have been added and some paneling and painting remain to be done.

Work in the old gym has included repairing and repainting and the visiting boys dressing room has fresh paint.

Shelving has been built in the new storage area of the lunchroom.

School officials hope that refinishing floors of both gyms will be completed before school starts on Aug. 23.

Austin — The 1972 political campaigns already are beginning to shape up—11 months before primary election dates.

William P. Hobby, president and executive editor of the Houston Post, is the first announced candidate for lieutenant governor. State Sen. Ralph Hall of Rockwall is expected to enter the race soon.

Lt. Gov. Ben Barnes is seeking advice of supporters on how he should run his race for governor. Barnes announced last month he will be a candidate, and has been busy traveling most of the time since.

Uvalde rancher-banker Dolph Briscoe moved quietly ahead with plans for a gubernatorial campaign in spite of Barnes' early entry. Briscoe reportedly has a preliminary campaign event (a youth rally) scheduled for Uvalde July 23-24.

Gov. Preston Smith keeps hinting he may seek a third term, and a lot of folks are convinced he means it.

Former Sen. Ralph Yarbrough says frankly he is considering running either for governor or the U. S. Senate. Republican Sen. John Tower has no hope of escaping Democratic opposition in a re-election campaign. Others mentioned as possible Democratic opponents for Tower include Land Commissioner B.B.

Armstrong, State Sen. Joe Christie of El Paso and Houston attorney John L. Hill.

Top Democrats cite the need for a strong united party effort, particularly for the November presidential campaign, convention nominations battles and the U. S. Senate race. That's why they are keeping a close eye on naming a successor to State Democratic Chairman Dr. Elmer C. Baum of Austin.

Baum denied a published report he already has resigned but didn't rule out the possibility he may step aside soon. Two aides to the Governor have been working on selection of a replacement chairman.

COURTS SPEAK — Texas Supreme Court overturned a lower court decision that a Tarrant County charitable institution (YMCA) is not liable for damages to a boy who lost an eye in a camp accident, and ordered a new trial.

In other recent actions, the High Court:

* Directed Austin trial court not to issue any more orders to prevent service by the new Southwest Airlines between San Antonio, Houston and Dallas.

* Held Fort Worth and Waco prosecutors must go ahead with pending suits involving Sunday closing laws before they file any more injunction suits.

* Sent back to intermediate court for further consideration a Zavala County widow's suit against a butane supplier as the result of the accidental death of her husband in an explosion and fire.

*Set a July 21 hearing in Humble Oil and Refining Co.'s appeal from lower court findings that it must pay to the state \$92,788 in taxes on oil taken from lease on Corpus Christi Naval Air Station, federal property.

APPOINTMENT — Governor Smith named Secretary of State Martin Dies Jr. of Lubbock chief justice of the Ninth Court of Civil Appeals in Beaumont. Appointment removed Dies from speculation as a possible candidate for U. S. senator, lieutenant governor or congressman.

BANK DEPOSITS, INTEREST UP — A recent statewide survey showed bank deposits steadily increasing—some to record levels at mid-year.

Mid-year records are considered unusual, and the boom is regarded as proof of the basic economic strength in spite of drought, unemployment and other problems.

At the same time, major Texas banks went along with eastern institutions and raised prime interest rates. Increase was from 5.5 per cent to six per cent for prime loans to quality borrowers.

Eastern banks also raised interest rates on time accounts in the next quarter of 1971.

GAME FISH RULES CHANGED — Ten county commissioners courts have voted to amend 1971-72 game and fish regulations proposed by Texas Parks and Wildlife Commission.

Legislature this year authorized five more counties to reject proclamations passed by PWC. Similar authority has been given 18 counties, subject to vote of commissioners courts.

Ten counties which disapproved portions of proclamations are Edwards, Dimmit, Hays, Kendall, Kimble, Medina, Real, Robertson, Sutton and Uvalde. Bandera, COKE, Crockett, Frio, Kerr, Kinney, Lampasas, Menard, Reagan, San Saba, Schleicher, Val Verde and Zavala counties approved laws as submitted.

BANKING BOARD TO MEET — State Banking Board scheduled a Thursday (July 15) meeting to consider dates for hearings on 56 new state bank charter applications.

Board also will consider new rules and regulations in accord with recent legislation, charter applications which may be ready for vote, and requests by banks for changes in business locations. Meeting will be the first since James Lindsey of College Station was appointed to succeed Dr. Elmer Baum as a member of the board. Lindsey is a former West Texas newspaperman and an alumnus of Texas Tech University.

WASHINGTON
 "As it looks

OMAR BURLESON
 Congressman

Washington — When the lion is wounded, the hyenas gather around. That's the law of the jungle for both man and beast.

About every place in the world where the United States has an interest, whether it be military or economic, our position is eroding. Those nations which have been tied to America for their own self-interest are showing an alienation not evidenced since the end of World War II.

The latest event is occurring in Venezuela. In recent months eyes were turned toward Chile where President Allende, the first Marxist-Leninist to be elected in Latin America, has been moved to nationalize American industry.

The copper industry has largely supported the governments of Chile, Bolivia and Peru for years. The pressures from the leftist are so strong in all these South American countries that it looks as if they can not stop short of total confiscation.

Venezuela has been made the most prosperous nation in Latin America from 80 per cent of the profits of foreign oil companies, mostly American, operating there. But its Congress is about to finalize what is called "Hydrocarbon Reversion Law," which shifts ground rules from concessions granted oil firms in 1943. Under present Venezuelan law, concessions were granted to run 40 years or until 1983. At the expiration of this term no compensation would have to be paid to the companies for their production. The concessions would revert to the Venezuelan government but under the law, which reports indicate is almost certain, all assets of the companies would also be taken over—rigs,

pipelines, real estate, buildings and even bowling alleys. The companies will be required to post a bond on their yearly profits to insure their good behavior.

In the law, the Venezuelan government asserts the right to take over direction of the companies at any time. In other words, they want to be in a position to order the companies when to drill and where, direct the laying of pipelines and force the companies to keep shelling out when they can have no economic motive for investments they no longer will own a few years hence.

Why this new law and why just now? There are no real left-wing pressures on the government of Venezuela. The violent revolutions of a few years ago against the "Yankee imperialists" died down with no present effects. Venezuela, because of foreign oil companies, has the highest standard of living in all Latin America. It has a democratically elected government and things are running more smoothly for them than they ever have. Could it be that they are observing the world situation and conclude that this is the thing to do?

In addition to these big things, Venezuela, Ecuador and Peru, claiming fishing rights 200 miles from shore, arrest and impound United States fishing boats and impose fines on the individual operators. Thus far we have only protested and reimbursed the fishing boat owners for their fines. Shrimp boats out of Corpus Christi and Brownsville have been recent victims. Their operations are important to our Texas economy.

Could it be because the United States has so eroded its own credibility as a major power by its performance in Vietnam that it has become an obvious target for harassment?

Other instances of resistance and a lack of respect for our nation is occurring in parts of the world where our presence has been sought and encouraged.

When the lion is wounded, the hyenas gather around.

Teenage Room Decor

Rooms that turn on teenagers are splashed with hot colors — reds and oranges, blues and greens—and sparked with accessories that move or light up.

Wild color combinations can be achieved with travel posters and graphics, sections of bright mural wallpaper and toss pillows for floors or bed. Teens also like mobiles and bean bags they can shape to their own comfort.

According to the National Association of Furniture Manufacturers, teenagers are true individualists when choosing furniture. But there are furniture groups that appeal to them most.

Studio type furnishings appeal to teens because of the "den" look. In homes where there are recreation rooms designed for them, the young people prefer a bedroom look.

Groups or collections of furniture that teens like most include bunks, trundle beds, open and cabinet hutches, corner desks, mate's chairs and upholstered occasional chairs.

Most boys like the Western look of Early American or a more substantial look of Country English.

Girls with feminine tastes often select canopy beds. These beds, some of which are inexpensively priced, are available in colored or natural finishes. On the other hand, the more tailored girl may choose twin or double beds.

Storage pieces available for boys are also sold for girls, but they are more feminine in color and design.

All teens like to shop for their own accessories. From the great variety available, teens may select wicker baskets from import retailers; brightly colored toss pillows can be made or purchased; or they may choose wall shelves in different sizes from furniture or hardware stores.

Yarns for the Fall Season

No more fashion absolutes! Fall fabrics prove it.

Yarns of all fibers will be made into chiffons, corduroys, denims, challis and silk broadcloths. Cotton, wool, silk and all man made fabrics will span the seasons.

Fall has a variety of moods. You can choose from the ethnics, batik inspired prints, natural looks, all important denims, country looks, tapestries and the quilts—all interpreted into a variety of fabrics for daytime and evening wear.

Cottons make the fall scene in muslins, soft twills, brushed denims, or embroideries. All cotton tapestries will also be available, with a flat weave or a deep pile furry hand.

Fashionable woollens will include the print on texture, softly brushed looks with a blanket feel and challis or classic paisley prints. Adding a new touch to the classic weaves will be metallic yarns. And, solids are still important in a fluffy jacquard weave that is machine washable.

Acrylic fabrics for fall come in tapestries, challis and a kitteny single knit. These fibers will be blended with wool and other synthetics. Keep an eye on the acrylics, as they have great growth potential.

A dimension of mystic beauty in fall fabrics will be created with transparent nylons, sheer velvets and organza and silk chiffons.

As for fall colors, they are clear and bright — blue, plum, pink, burgundy, terra cotta, papaya, green and red. Black, white, cream and gray will be

the great neutrals.

Using Vegetables Daily

Vegetables deserve better treatment.

Often the most neglected part of the menu and complained about by children, vegetables can, and should, be a mealtime treat.

Not only do vegetables contribute important nutrients to the daily diet, but they also offer unique flavor combinations to menus and snacks. So it is important to you and your family that you be a good vegetable cook.

Cooking vegetables is as rare an accomplishment as making the finest angel food cake.

A large portion of the vitamins and minerals needed for health are supplied by vegetables. For example, deep yellow and deep

green vegetables are rich in vitamin A. Major amounts of ascorbic acid are contributed by vegetables such as tomatoes and potatoes. They also supply appreciable amounts of the B vitamins (thiamine, riboflavin and niacin) as well as minerals—calcium, phosphorous and iron.

Protect these nutrients, along with color and texture, by cooking vegetable in a small amount of water for a short time. Cook until just tender.

If overcooked, nutritional value and flavor of vegetables will be lost.
