Revival Meeting To Start Monday At First Baptist

Bob Perrin, pastor of First Baptist Church in Dublin, will be the evangelist for a revival meeting next week at First Baptist Church.

Kenneth Coates, minister of education at Pioneer Drive Baptist Church in Abilene, will be singing leader and in charge of the music.

The revival will begin next Monday, Oct. 4, with first services at 7:30 p.m.

Weekday services will be at 7 a.m., Tuesday through Friday, and at 7:30 each evening through Saturday, with the exception of Thursday. On Thursday, services will be moved up to 6:30 p.m. because of the football game.

Coffee, hot chocolate and doughnuts will be served after the morning services.

The Rev. Harry Morris, pastor of First Baptist Church, invites everyone to attend any or all of the services. "Everyone will be most welcome and will receive a blessing from these services," he said.

Safety Program Planned by Lions

Twenty thousand accident victims die unnecessarily each year as a direct result of inadequate emergency care and at least another 25,000 are permanently disabled from the same cause. These are the alarming statistics released after a national study. Communities can do something about it, and many are.

John M. Lukert, field consultant with the Division of Civil Defense and Traffic Safety of the Texas State Department of Health will present a program at the meeting of the Bronte Evening Lions Club on Oct. 5 at 7 p.m.

Lukert will encourage community awareness and concern toward the life-death importance of well coordinated Local Emergency Medical Services. A film will be shown which dramatically illustrates how a small town saw the need for better emergency care and worked to fulfill that need.

Some other local groups have been invited to attend the program.

Mr. and Mrs. Kenneth Wilkins and children of Fort Worth spent Monday through Wednesday with his parents, Mr. and Mrs. L. L. Wilkins and Joy Lynn.

Adult Courses Are Set

Adult Basic Education courses will begin here next Tuesday, Oct. 5. Registration will take place in the school lunchroom at 6:30 p.m. Classes are free to anyone who would like to take them. They will meet each Tuesday and Thursday night through Feb. 17, 1972, and may be continued beyond that date if money is available.

The course will be taught at three levels by Mrs. C. B. Barbee, Mrs. Jerry Lawhon and Mrs. James Golsen. Language arts, writing, math, social studies and literature will be taught.

GED tests, when passed, are recognized as the equivalent of a high school diploma, and will be administered upon completion of the schooling.

Coke County Commissioners recently adopted a county budget for 1972. Total estimated expenditures for the county are set up at \$350,576.49, a decrease of \$8,505.15 from the estimated expenditures for 1971.

Along with the decrease in money to be paid out, there is

also an expected decrease in money to be taken in. Estimated receipts for 1972 are \$358,209.39, as compared with \$366,654.96 for 1971.

Assessed valuation for 1972 is estimated at \$21 million, the same as for 1971, but down from the 1970 valuation of \$22,108,080.

The county's entire tax rate of \$1.25 per \$100 valuation is now in operating funds, as Coke County has no bonded indebtedness. The \$1.25 is allocated as follows: jury fund, none; road and bridge fund, 5 cents; road and bridge special funds, 15 cents; general fund, 75 cents; farm to market and flood control fund, 30 cents.

The 1972 budget shows there should be a surplus in all funds at the end of the year of \$276,128.01.

Austin — Gov. Preston Smith and the State Comptroller's office hold different views on timing of a special session of the Legislature to pass the second half of the 1972-73 budget.

Smith apparently wants to wait until next June—when primary elections are over and a longer range look at possible tax revenue is available.

Comptroller's aides voiced concern that a session delayed that long could produce needed new revenue by Sept. 1, start of the state's fiscal year. A sales tax increase, for example, in April would not produce money to the state from merchants until the end of July or early August.

Smith was unimpressed.

"He (Comptroller Robert S. Calvert) is not the governor," Smith noted.

Smith's veto of the second year of the biennial spending bill necessitates a complete rewrite in special session sometime within the next year. A special session would have been required anyway since the 1971 Legislature did not pass a 1973 welfare appropriation.

"The people are not too anxious to have the legislature in special session," Smith said. "The longer we can delay, the better position we will be in for the Comptroller to give an accurate revenue estimate (for the next year) and to determine revenue needs of the state."

The Governor indicated strongly, however, that if a special session is necessary to redistrict the House of Representatives, budgeting and reapportionment will probably be considered at the same time. He controls the timing and subject matter of special sessions.

"If we can get by with one special session, we sure don't want to have two," Smith said.

COURT REVIEWS DISTRICTS TANGLE — The State Supreme Court heard a barrage of conflicting arguments as to what should be done about House of Representatives redistricting.

All of these views went before the High Court:

* That it should order a five member Legislative Redistricting Board to perform "its constitutional duty" and reapportion the House in line with the 1970 census.

* That it should prohibit the Board from reapportioning either House or Senate on the grounds that the new census has not been completely published and that redistricting thus should be delayed until 1973.

* That 150 single member House districts are required.

* That single member districts are not required as long as they

do not cause discrimination against any group.

LAND BIDS TAKEN — Bonus bids totaling nearly \$4.8 million were paid for oil and gas leases on 68,867 acres of University of Texas land at public auction last week.

Bids brought the Permanent

University Fund to a record of \$579.8 million. Average \$69.26 per acre price was the highest the University has received since 1965. Highest bidders for a single tract were Allied Chemical Corporation and Champlin Petroleum Company in a joint offer of \$260,000 for a 320 acre tract in Ward County. If oil or gas production is realized, the permanent University Fund will receive a one-sixth royalty payment in addition to the bonus bid.

The School Land Board will meet Oct. 5 to consider a rule regulating the use of water on state owned land under oil and gas leases.

CARS IMPORTANT TO TEXAS TOWNS — About 2,600 Texas communities have no mode of transportation available other than highways, Texas Highway Commission Chairman DeWitt C. Greer noted in a recent speech.

While the population of the state has increased an average of 162,000 a year for the last decade, Greer pointed out that motor vehicle registrations jumped by 284,000 last year. Unless the highway system is continually expanded and modernized, warned Greer, Texas will face a "crisis in mobility."

Dedication Held For Grave Markers

A program dedicating two historical grave markers was held Sunday in Robert Lee, sponsored by the Coke County Historical Survey Committee. The program was in the Methodist Church.

The markers honored Henry Davis Pearce and James Franklin Byrd, Confederate soldiers and West Texas pioneers. The marker commemorating Mr. Pearce is in the Robert Lee Cemetery and the ribbon cutting was by Mrs. Frank Strom of Menard, his granddaughter.

Ribbon cutting for the Byrd marker was in Hayrick Cemetery by Mrs. Lila Austin Cope of Robert Lee and Mrs. Jack Dixon of Bronte.

Program at the church was conducted by W. W. Thetford, master of ceremonies. Mrs. Wilson Bryan played an organ prelude, and the pastor, the Rev.

Arthur Kendall, gave the invocation. Boy Scouts Carl Bagwell and Douglas Herford presented the colors. Singing was led by Mrs. C. E. Arrott of Bronte, member of the Coke County Historical Survey Committee.

Mrs. George Poe of Winters gave the history of Henry Davis Pearce and Mrs. Bryan Yarbrough gave the history of James Franklin Byrd. Elton T. Mims of Water Valley, West Texas historian and vice chairman of the county committee, gave the afternoon's address, "A Tribute to Soldiers of the Lost Cause."

Following the address, the congregation moved to the cemetery for the ribbon cuttings. Ulmer Bird gave the benediction at the church and Rev. Kendall gave the benediction at the cemetery.

Longhorns Tame Roby Lions, 34-6

The Bronte Longhorns bounced back last Friday night to give Roby a good shellacking, 34-6. The big win helped make up for the stinging defeat the local lads suffered the week before to the Robert Lee Steers.

Bronte's counters came on an end run by Bobby Skelton; a run up the middle by Alan Barbee; a 30 yard touchdown pass from Barbee to Mike Arrott; a 33 yard scamper by Kim Barrett; and a 25 yard runback of an intercepted pass by Gary Skelton.

First Quarter

Louis Martinez took the kickoff and returned to the Bronte 41, to start the ball game. Skelton carried twice for 8 and Arrott added 6 for the 1st. Roby drew a 5 yard fine and Skelton went 5 more for another 1st down. Arrott went for 5, Skelton for 3 and Barbee for 6 for another 1st. A pass from Barbee to Jim Dan Raughton covered 13 yards. After short gains by Skelton and Barrett, the Horns fumbled the ball on the 8 yard line and Roby took over.

The Lions were able to make 8 yards in three plays and then attempted to punt. However, the ball went awry and Bronte recovered on the Roby 4. Skelton and Barrett picked up a yard each, then Skelton took a quick pitch and went around right end for the counter. Try for extra point failed and the score was 6-0.

The Lions returned Skelton's kickoff to their 20. Two big defensive plays by Jerry Graves and Gary Skelton threw the Lions back to their 10. Barrett blocked the punt and Bronte recovered on Roby's 6 yard line. Skelton made 1, Barrett added 2, and then Barbee kept and went through the middle for the remaining 3 yards and the touchdown. Skelton kicked the extra point and the scoreboard said 13-0.

After the kickoff Roby was downed on their 35. Reed Ste-

phens and Matthies moved the ball to the 45 for Roby's first 1st down of the game. A penalty moved it back to the 40 as the 1st quarter ended.

Second Quarter

The Lions made a couple of 5 yard gains with Matthies and Evers carrying and then G. Skelton threw Stephens for a 4 yard loss. On the punt try the punter was swarmed and Lynn Lawhon recovered the ball on the 28.

Skelton and Arrott moved the ball for a 1st on the 18. Skelton lost a yard and Barbee was trapped for an 11 yard loss. On 3rd down, however, it was a different story as Barbee hit Arrott for a 30 yard touchdown pass play. Skelton's kick was good. Score: 20-0.

After returning the kickoff to their 30 and losing 3 yards, the Lions passed and Raughton intercepted it and ran back to the Roby 25. Barrett went for 4 and Barbee made the 1st on the 15. The next series of downs didn't go well at all and Roby took over on downs at their 25. The Lions moved the ball out to the midfield stripe. But they fumbled and Martinez recovered on his 48. Three plays later the half ended.

Third Quarter

After the kickoff Roby moved the ball from their own 30 to the Bronte 30, making three 1st downs in the process, before Andy Eubanks recovered a fumble at Bronte's 35. Skelton went 14 yards for a 1st on the 49. Then the Horns fumbled and Roby took over and punted down to the Bronte 2 yard line. Arrott made 3, then a pass play, Barbee to Barrett, covered 68 yards, but part of the gain was lost when the ball was moved back to the Roby 43 on a clipping penalty. Arrott and Skelton each picked up 5 yards for a 1st. Next play Barrett got loose to go all the way. Barbee passed to Lawhon for the extras. Score: 28-0.

After the kickoff, Roby moved

out to the Bronte 45 before they had to punt. Skelton took the kick and was downed on his 35. Little gain was made in the next three plays which ended the quarter.

Fourth Quarter

Roby returned Arrott's punt to the Bronte 35. They ran three plays, then pass interference was called against the Horns to give Roby the ball on the 1 yard line. On 3rd down Quarterback Evers sneaked through for Roby's only counter. PAT effort was no good and the score was 28-6.

Raughton returned the kickoff to the Bronte 40. A penalty didn't help and the Horns punted. Roby couldn't move and Lawhon recovered a fumble at the Longhorn 39. Barrett gained 6 and Wayne Alexander made 5 for the 1st. Barrett carried twice for 7, then a pass from Barbee to Chapman covered 8 yards, but a motion penalty nullified it. Arrott punted and it was fielded on the Roby 10. Lawhon and Brad Reed pushed the Lions back to the 5, but with the help of a 15 yard fine against Bronte, the Lions moved the ball to their 35. Three incomplete passes came next, and a 4th down passing effort put the ball in the hands of Gary Skelton who ran 25 yards for another TD, with no time showing on the clock. Try for extras failed and the final score was 34-6.

R-Lee Woman Killed in Wreck

Mrs. Bonnie Kaye Walker was killed instantly in a one car accident Tuesday afternoon. The accident occurred about 5:20 p.m. seven miles north of San Angelo on Highway 208 coming to Robert Lee. Her 1966 Dodge automobile left the highway, went down the embankment of a culvert and struck the opposite embankment head on. She was alone in the car. Investigating officers found no skid marks and it is theorized that she went to sleep, losing control of the vehicle.

Contract Signed for Coke Countians To Use Mental Health Center Facilities

Coke County Commissioners have expanded the scope of health services available to county residents through a contract with the Mental Health/Mental Retardation Center for Greater West Texas, County Judge W. W. Thetford announced this week. The contract recently approved by Dr. David Wade, Commissioner of the Texas Department of Mental Health/Mental Retardation, provides that all Coke County residents are now eligible for services of the MH/MR Center in San Angelo.

The contract is the result of several months of planning by the Coke County Commissioners with the MH/MR Center Board of Trustees. "We are pleased to extend the services of the MH/MR Center to Coke County residents," stated W. I. Marschall Jr., chairman of the MH/MR Center. "We recognize that mental health and mental retardation services are difficult to secure, but essential when needed, and we welcome the opportunity to cooperate with the Coke County Commissioners in providing these services."

The contract between Coke County and the MH/MR Center provides that all the services of the Center are available to residents of the county. These services include: out-patient services, day treatment programs, in-patient hospitalization services, emergency service, consultation for community agencies, educational programs, diagnostic and evaluation service, family counseling, and personal-social adjustment training programs for the retarded. All services will be provided at the MH/MR Center offices at 244 North Magdalen in San Angelo. Fees will be charged and based on a person's ability to pay as provided in the contract.

Persons desiring the MH/MR Center's services may apply directly by calling the Center at 655-5674 or going to Center of-

ices in San Angelo. No charge is made for the first interview to discuss the services. People with such problems as unhappy family relationships, difficulties in getting along with other people, excessive worry, anxiety, depressed feelings, difficulty in adjusting to school or job, temper outbursts and difficulty in facing daily problems are seen at the Center.

Services are provided by the Center's treatment team — psychiatrist, clinical psychologist, nurse, social workers, mental health workers, and personal-social adjustment coordinator — who work with the individual to plan his treatment. All information is treated as confidential.

"Referrals to the MH/MR Center by physicians, ministers, schools and community agencies are also welcomed," stated the Center's executive director, James M. Young. "We try to work with the professionals and community agencies in the delivery of services as they are vital links in the success of Center services."

"Availability of these services close to where the person lives makes it possible to remain in the community as a productive individual either at work or keeping a home," indicated Judge Thetford. "Previously, we had to rely on state hospitals and state schools as the source of help for our people, but now we can obtain services early when it will be of the greatest impact."

Further information can be obtained by calling the MH/MR Center at 655-5674 or by writing to 244 North Magdalen, San Angelo, Texas 76901. Brochures on the services may also be picked up at the county judge's office in Robert Lee.

Rev. and Mrs. Harry Morris and Becky attended Parents' Weekend at Baylor University last weekend and visited Phyllis and Keith Morris, both students at Baylor.

Hosiery Scene Is Variety

Leg covering is essential to the total picture presented by all the add-ons in fashion separates. There are knee-highs and over the knee lengths for knickering it in style. And all the way pantyhose and tights in sheers and opaques highlight the hot and warm pants and skirt scenes. The longer Gibson skirt also looks best over prettily sheathed legs, often with ankle interest.

Regardless of the type of hosiery, all are subjected to perspiration and scaling. It's dirt that deteriorates fibers taking a toll on stretch and shape retention qualities. You should wash after each wearing for personal cleanliness and longer lasting stockings. Much school and sportive hosiery is machine washable and dryable.

In kneesies and knee highs, the motif patterns will predominate. Geometrics, Aztecs, Greek inspirations, peasant patterns and embroidery reflect the hosiery interpretation of the fall fabric mood. But there are also those who rely on texture and color to "put it where it's at" fashion-wise.

An almost limitless variety of patterns, colors and effects running the gamut from ribbing to puckering will be seen. A new surface interest is spot nylon multi-color nubs. Then there are such notables as cream colored gladiator pantyhose with pretend calf high lacing in purple, red or brown. Or choose black on off-black for leg lingering looks.

"Leg layering" keeps legs warm as well as stylish in winter wind with kneesies and knee highs being worn over pantyhose. It's a good go-with for the short styles. Doubleknit body suits made to color match with pantyhose in sheer or opaque weights coordinate arms and legs with this season's much patterned clothing. One more new look is an altogether dubbed "bodyboot." Here, stretch nylon semi-opaque panty hose is attached to a nylon and Lycra spandex brief and matching kneesock or soft boot. Bodyboots come in solids and also snappy prints. In the print versions, white polka dots flavor brown briefs and boots and are mated with solid chocolate pantyhose. Another is multicolored paisley teamed with navy pantyhose.

LOOK FOR EASY TO CLEAN OVENS — Besides ovens that clean automatically, there are others with easy to clean features. These include those with foil or Teflon liners, removable door, rack guides, and panels. Watch for these pluses when shopping for a new range. Once an owner, keep the surfaces clean with frequent sudsing and the necessity for hard scrubbing will be minimal.

WIGS NEED GROOMING CARE, TOO — If you have joined the bandwagon and bought a "fun" wig made of synthetic fibers, here are a few tips to keep it in good condition. Brush it frequently as these fabulous fakes collect dust and become dull as easily as your own hair. Wash in warm suds followed by a creme rinse if preferred. Use of a hair dryer or electrical curlers is not generally recommended unless a special lotion is used for setting the wig. So check care instructions of wig manufacturer first.

EXCESS LITTER IS A FIRE HAZARD — Before winter winds start to blow it's a good idea to clean up and clean out any clutter that has been accumulating

in attic, basement, or garage. As part of recycling programs, many communities have designated areas to take stacks of newspapers, magazines, bottles and cans.

Also, get rid of old and unused furniture, clothes, and what-have-you. Old paint, oily rags and scraps should go, too. According to the National Fire Protection Association these kinds of over cluttered conditions are serious fire hazards.

After getting rid of everything possible, wash shelving, suds-scrub basement and garage floors, rinsing them with a hose, if possible. Wipe cans and jars of things worth keeping and label them before returning to shelves.

With things tidied up, take a careful tour of your house. For protection of your family as well as your possessions, have worn cords and plugs repaired without delay. Also have furnace and chimney inspected and cleaned. Defective heating and cooking equipment are the causes of many fires.
