WHOPPER STRIPER CAUGHT AT SPENCE

The striped bass population in Spence Reservoir must not be doing too badly, if one specimen caught here recently is any example.

Tom Sawyer of George West caught a six pound striper and then left it for Texas Parks and Wildlife Department officials to study and identify.

The six pounder is the largest recorded caught out of a freshwater lake stocked by the department. The state record for freshwater striped bass is 12 pounds, 12 ounces. However, that fish was one of a group of stripers stocked in the Sabine River by Louisiana officials.

Stripers are anadromous fish—that is, they live in salt water but seek freshwater streams for spawning. It was discovered several years ago that saltwater is not necessary for the fish to survive and grow. They can be successfully stocked in freshwater lakes to provide another game fish for anglers.

Mr. and Mrs. L. L. Wilkins went to Abilene Sunday to attend an open house in honor of the 50th wedding anniversary of his brother and sister-in-law, Mr. and Mrs. Homer Wilkins.

REGIONAL PLANNING GRANT AWARDED CVCOG BY STATE

The Concho Valley Council of Governments (CVCOG) has been awarded a \$28,756 regional planning assistance grant. Governor Preston Smith announced today.

In a letter to Judge W. W. Thetford of Coke County, president of CVCOG, Governor Smith commended the regional council for its work in the West Texas area.

The state grant, for use in 1972, is designed as general assistance support for a variety of CVCOG programs, the Governor's office said. Past projects of the council have included regional water quality planning, rural water and sewer planning, establishment of in-service training schools for law enforcement officers, criminal justice planning, review of federally assisted projects, housing inventories, youth services bureau and technical services to member governments. New programs include activities associated with health planning, transportation planning and manpower development.

Under the leadership of President Thetford and Executive Director James F. Ridge, the Concho Valley Council of Governments has become one of the state's most responsive regional councils. One of 24 such associations in Texas, CVCOG has over 30 member governments including 11 cities, 11 special districts and Coke, Concho, Irion, Kimble, McCulloch, Menard, Reagan, Sterling and Tom Green Counties.

Texas is one of only a few states granting direct general funding to regional planning commissions. At the request of Governor Smith, \$1.6 million was appropriated by the 62nd Legislature.

The CVCOG's 1972 grant of \$28,756 is an increase over the 1971 allocation of \$10,000.

FIRE MARSHALL CAUTIONS OF GRASS FIRE DANGER

Combination of no rain for several weeks, low humidity, strong winds and a luxuriant growth of dry grass make this area especially susceptible to grass fires, said Fire Marshall Billy Joe Luckett this week. The Bronte Fire Department has had several calls this week. Most extensive damage was done about two miles north of town on the place of Mr. and Mrs. Henry Roney. Robert Lee firemen came over Wednesday afternoon to help fight this fire.

Sam Sissom Announces for Constable

M. C. (Sam) Sissom is announcing this week that he is a candidate for election to the post as Constable of Precinct 2. He has been serving as Constable since being elected in November 1970 to fill the place on the ballot vacated by Hiram Brock, who resigned the post in July 1970.

Sissom is a Democrat and his candidacy is subject to action of voters in the May Democratic Primary.

Sissom formerly lived in Coke County at Blackwell and came to Bronte in 1959. He is married to the former Virginia Finley and they have two children, Ray Sissom and Mrs. Ellie Freeman, both of Fort Worth.

In his statement to Precinct 2 voters, Sissom said:

"I want to say, first of all, that it has been a real pleasure for me to serve the people of Precinct 2 the past two years. I greatly appreciate the consideration and courtesies which have been shown to me.

"I have done my best to be a good law enforcement officer and to show no favoritism to anybody. If you feel that I have done a good job this far and that I am worthy of a full term in this office, I will greatly appreciate your vote and support. If you see fit to elect me, I promise to continue to give my very best efforts to doing a good job for you."

Sissom expects to be able to take a four week law enforcement training course in February, which he feels will be useful in his work.

WCS MEETING MONDAY

Ten members were present when the Methodist WCS met Monday in the home of Mrs. J. A. Percifull. Mrs. Olive Hogue gave the program on "Leprosy" and refreshments were served by the hostess.

The Burnham Brothers of Marble Falls recently were visitors in Blackwell. The Burnham Brothers have the world's largest sporting goods store for wild game calling at Marble Falls and travel all over the world as part of their profession. In a recent trip to South Africa they called up and killed a leopard and a lion.

They came to Blackwell to visit Edward Poehls, high school coach, and J. D. Taylor, who have been predator calling together for six years. About three years ago they began to specialize in bob cat calling and have called up about 40 of the big cats, all near Blackwell. The Burnham Brothers said they were well pleased with their trip after getting several close-up pictures of a bob cat on a ranch west of Blackwell. The pictures will be used in "Outdoor Life" in the near future.

Poehls and Taylor are in the process of writing a book, "Bob Cat Calling on a Full Moon." Mrs. Ben Oglesby of The Bronte Enterprise is doing the typing work on their book.

MAC'S MOTORS

For many years, automobile dealers considered "used cars" as a sideline to the business of selling new models. Used cars were taken in on trades, and then sold at the best possible price. The customer had to depend upon the integrity of the dealer as his assurance of getting a sound automobile.

erated by Mr. Charles Honeycup, the manager of MAC'S MOTORS. They believe that the used car buyer is just as important as the new car buyer. They are determined to give each customer the finest quality, the best value, and the lowest price possible. Registering Consumer Complaints
 A key to promoting consumer power is learning how to register an effective complaint about an unsatisfactory purchase or service.

Instigating a complaint against a company is often so frustrating that the consumer abandons her right of retaliation altogether. But retreating only helps to prolong the poor service.

Most businessmen and manufacturers want to learn shoppers' complaints so they can identify and correct their mistakes.

Organizing an effective complaint means gathering all the facts.

The first step is to make sure a complaint is justified. Read the label or instructions for the manufacturer's directions for care and use. Check the guarantee or warranty. Know what is covered and what is not.

If the complaint is justified,

plan your attack carefully, listing all reasons for dissatisfaction with the product or service. The list should also report information of where and when the product was purchased, its model number, brand name, price and a brief description of its faults.

The consumer is now ready to fire her complaint. Begin with the business or service organization with whom the original deal was made. If the complaint cannot be settled on the spot, ask to see someone in higher authority.

If you write the store, address the complaint to the person most likely capable of helping you. In the letter present all facts as you would verbally, and keep a carbon copy.

Shoppers who telephone their complaints should record the name of the person they speak to in case the situation is not cleared up.

If these efforts fail to produce results, it's time to contact the Better Business Bureau or Chamber of Commerce.

Fabric Care Labeling

Care labeling of textile products for home sewers is a great convenience to the homemaker due to the development of numerous new fibers, fabrics and finishes. Proper laundering is important to the appearance and performance of fabrics.

By law, fabric content must be stated on yardage, either on a hangtag or printed on the bol-

end. Many manufacturers also include care information. One fiber maker is taking the guesswork out of caring for fabrics made with the company's fibers. Care and sewing instructions are printed continuously on tape which is then inserted along the fold of the fabric as it is being wound on the bolt. Thus, even a small cut of the material will contain a complete set of instructions. This procedure should certainly make friends among home sewers everywhere.

White Sales Offer Winter Pickup

January with its after the holidays letdown offers a bright note in its White Sales. What better time to spruce up the bathroom linen supply and change the color scheme according to your wildest dreams.

Beautifying the bathroom needn't be an expensive project. Towels can be the key to decor. And how fortunate, since they come in so many colors and designs which make them decorative in addition to being necessary. It's a good way to enrich bath surroundings with color and texture that goes on and on through many launderings.

Teamed up with coordinated shower curtains, bath mats — maybe a hamper if there's room in the bathroom and the budget — and you have a whole new decor. You can choose the gay, the delicate or the bold, and in almost any color or combination of

shades. Some towels are even printed on one side and solid on the other.

For an extra bit of decorative dash and to chase winter doldrums, add a planter, either wall or ceiling hung, filled with trailing ivy. Hardy houseplants that need very little light do well in the moist air of a bathroom.

Carry the delightful new bathroom decor into the bedroom for a total pattern effect. Treat sheets and towels like any other fabric used for decorating, and measure the areas you wish to cover to assure buying the correct number of each linen. Be imaginative — perhaps a patterned headboard, window valence, even tissue box. Don't forget to consider covering a wastebasket or throw pillow. Matching bedspreads and curtains complete the new color and pattern scheme.

Best of all, your new decorating marvels require no special care. Just pop them all into the washer and dryer. Most are permanent press, too!
