Boys Second In District Play

District 11-B basketball is nearing the end with Bronte boys in second place with a 6-2 record. Sterling City leads the loop with 7-1 and the decision maker could come here next Tuesday night in the final district game when Sterling City comes to Bronte to play.

Between now and then, however, Bronte teams will meet Water

Valley here for three games tonight (Friday). If the Longhorns could defeat both Water Valley and Sterling City, they would be tied for the district lead—that is also providing Sterling City beats Blackwell Friday night. The Sterling City games, scheduled earlier in the season, were postponed because of bad weather and will be played at the end of the regular district schedule.

Bronte boys took two district matches during the past week. Garden City came here last Friday night and the visitors were soundly whipped by Bronte 60-37. Leading the scoring was Gary Skelton with 14; Lynn Lawhon had 13; Bobby Skelton and Alan Barbee made 11 each.

Tied last week with Blackwell for second place, the Longhorns defeated the Hornets there Tuesday night 44-40, to give Blackwell a 5-3 season record and third place in the district. High pointer for Bronte was Alan Barbee with 9 and Joe Tubb of Blackwell was high pointer for the game with 15.

Girls Third in District

Bronte girls are currently third in district play with two games remaining on the schedule. They have won one and lost one during

The junior high boys team lost out in the first round 40-35 to Winters. Wayne Coalson was high pointer with 10. In the second round it was Robert Lee 30 and Bronte 22, with Tim Scott high for the locals with 7 points.

Dr. Coalson Doing Research with Pigs

Dr. J. A. Coalson, research associate in the animal science department at North Carolina State University, recently had an article published in the "Research and Farming" magazine, summer-autumn 1971 edition. The magazine is a progress report published by the Agricultural Experiment Station, at Raleigh.

A 1961 graduate of Meadow High School, Dr. Coalson is the son of Mr. and Mrs. John Coalson of Meadow. They are former residents of Bronte. Coalson received his doctor's degree from Oklahoma State University at Stillwater. He is married to the former Clara Duncan of Meadow. They have a daughter, Michelle, 8, and a son, James Dee, 1. They reside in Raleigh, N. C.

The article concerns an automatic feeding device called "Autosow," and is entitled "36 Pigs Per Sow Per Year." The Autosow was developed in 1962 by Dr. James Lecce, biochemist at NCSU.

The article states that present day knowledge of baby pig nutrition, coupled with hourly feeding with the Autosow enables pigs to be reared artificially with growth

Deadline for filing as a candidate in the May 6 primary election is next Monday, Feb. 7. Prospective candidates are reminded that they must file by that time in order to be on the ballot in the Democratic Primary Election.

D. K. Glenn, county Democratic chairman, said the Coke County Democratic Executive Committee will meet next week to discuss the way the elections will be financed, since the long standing practice of apportioning election costs among the candidates has been declared unconstitutional.

Not Much Talk On Bond Election

Discussion of the \$200,000 bond election set for Feb. 26 seems to be rather quiet this first week after it was called by the Coke County Commissioners' Court.

The election was called Monday of last week after petitions were presented to the court. The petitions asked that the bond election be called to provide funds to sealcoat, repair and otherwise improve paving owned by the county in Robert Lee, Bronte and rural areas of the county. Also, some new paving and bridge construction are planned.

Absentee voting will start Monday in the office of County Clerk Mrs. Winnie Waldrop.

According to figures submitted this week by County Auditor Weldon Fikes, there are approximately 165 blocks of paving in Bronte and 204 in Robert Lee which are in need of sealcoating.

The Feb. 26 balloting will be held in all seven of Coke County's voting boxes.

Notice of the election is being published in this newspaper.

LOCAL STUDENTS ATTENDING SEMINARS

Michelle Golson and Stephen Patterson are attending a series of seminars, hosted by Angelo State University. The seminars are for outstanding junior students in area high schools. Both juniors in Bronte High School, they have attended two of the meetings and will attend three more.

Bronte Girls Enter District Food Contest

Entries for the 4-H Food Show of District 7 are due Saturday at 10:30 a.m. at the Sweetwater Coliseum Annex.

Each of the 20 counties participating can bring two senior and two junior winners to the district show.

The show will be open to the public from 2 to 2:30 p.m. Entrants will be on hand to explain their recipes to visitors.

Judging will be done on menus, recipes, record books and nutrition knowledge. Contestants will prepare their dishes and take them to the show.

Twenty-four judges will be supplied by the counties entering. Judges from Coke County will be Mrs. Larry Jameson and Mrs. Kenneth Lackey.

Four winners in the senior division will advance to the state 4-H show June 6 in College Station.

A winner will be named in each of the four food groups—meat, fruit and vegetables, bread and cereal, and milk.

Four winners will also be named in the junior division, but they will not advance to state.

Senior 4-H Club Girls representing Coke County will be Karen Blair in the fruit and vegetable food group and Donna Scott in the bread and cereal food group.

Junior participants from Coke County will be Mary E. Lackey whose entry is in the meat group, and Karen Rasco with an entry in the bread and cereal group.

Primary expenses will start building up after the filing deadline Monday.

County Politics

A new candidate, Larry Jameson, announced this week as a candidate for commissioner of Precinct 1, bringing the total in this race to four. Previously announced were Albert N. (Bob) Fields, Wilson Bryan and Roy Casey. Incumbent Fern Havins is not seeking reelection.

Two have announced as candidates for commissioner of Precinct 3, Jett Hood and Elmo Bell. Floyd Harmon presently holds the position and is not running for reelection.

Unopposed so far for county offices are Melvin Childress for sheriff and O. B. Jacobs for tax assessor-collector. Sam Sissam also is unopposed for reelection as constable in Precinct 2.

Renal B. Rosson of Snyder, Scurry County, has announced his candidacy for state representative from this district.

Cold Weather Engulfs County

More cold temperatures have been on the weather menu the past weekend. After a cold weekend, snow started falling Monday morning and fell intermittently throughout the day, covering the ground by Monday night. Temperatures rose to the mid-50's on Tuesday and melted all the snow.

But a second blast of cold air hit the area about 6 a.m. Wednesday and a cold wind sent temperatures plummeting again. A low of 18 was recorded Thursday. The sun was shining brightly, giving promise of a warming trend during the day.

Many Residents Sick with Flu

"The flu epidemic is still with us," Dr. John R. Harris said Thursday morning. He reported that Bronte Hospital is full and he is treating a large number of out patients who have the flu.

Dr. Harris said he estimated the number of flu victims was about the same as this time last week. He suggested that everyone drink lots of fruit juices and receive plenty of sleep as the best way to avoid the flu.

Prin. James M. Raughton said that school attendance is still below normal, but is improved over last week, running about 90 per cent. Average is about 96 per cent.

Austin — One adverse federal court decision after another fuels the feud between Gov. Preston Smith and Lt. Gov. Ben Barnes.

Smith was quick to blame on Barnes the failure of a 1971 filing fee statute which threatens to force a special legislative session.

While that issue was still raging, another Dallas three judge court struck down the legislature's congressional redistricting plan. Once more, Smith accused the lieutenant governor of "reluctance" and "inaction" on redistricting.

When a third court frowned on House of Representatives redistricting in major counties as done by a board Barnes served on, Smith once more leveled at the lieutenant governor charges of "immature action" and lack of leadership. Single member districts were ordered for Bexar and Dallas counties.

Sen. J. P. Word of Meridian,

speaking in Barnes' defense, said Smith offered the legislature no leadership himself and reminded that the governor could have vetoed the congressional redistricting measure if he didn't like it.

Meanwhile, Atty. Gen. Crawford Martin succeeded in getting a temporary postponement of the congressional redistricting order. The U. S. Supreme Court agreed to delay the new plan pending appeal.

U. S. Sen. Lloyd Bentsen, who intervened as a friend of the court in support of the stay, said congressional candidates for this year, at least, can run in the districts given them by the Legislature.

That would be a relief for Congressmen Graham Purcell of Wichita Falls and Omar Burleson of Anson; Jim Wright of Fort Worth and Ray Roberts of McKinney and O. C. Fisher of San Angelo and Abraham

Kazan of Laredo who had been pitted against each other in the federal district court plan.

If he has to call a special session on primary election financing, said Smith, he will expect "those responsible for creating this problem" to come up with "workable alternatives."

GOVERNOR'S POLL TAKEN—Dolph Briscoe won another editor's poll last week at the Mid-winter meeting of the Texas Press Association. Editors were asked first who they thought would carry their county—if the vote were taken on that date (Jan. 24). Forty-eight editors responded to the poll with this vote: Briscoe, 18; Preston Smith, 13, Ben Barnes, 12; Barnes-Briscoe tie, 2; and three undecided.

They were asked: "How will you vote in the 1972 Governor's race?" This was the result: Briscoe, 28; Smith, 6; Barnes, 5; Governor, 1; and undecided, 8.

CRIME FIGHT PROPOSED — The governor's Criminal Justice Council promises a legislative drive for laws to help stamp out organized crime in the state.

Mafi-type operations have been noted in Texas by the President's Commission on Law Enforcement and Administration of Justice and other investigators, the Council's new 1972 plan points out.

Further, states the Council, many bets on sports events are being taken by bookie shops with national "confederation" affiliation.

This legislation was recommended:

- * Power for the attorney general to bring suit in criminal cases.

- * Subpoena power in a statewide grand jury or crime prevention council.

- * Permission for electronic surveillance (including wiretapping).

The Council proposes to spend about \$1 million of its \$25 million 1972 allocations for action against organized crime.

COURTS SPEAK — A candidate for state senator must live in his district only one year before the date of the general election, the State Supreme Court held.

Overruling the Austin Court of Civil Appeals, the High Court found legal the University of Texas' acquiring 280 acres of its UT-Permian Basin campus site at Odessa through donation of park land acquired with county bond funds.

The Court of Criminal Appeals relaxed rules on admissibility of gory pictures in murder trials, holding, in effect, that use of the photographs is largely up to the trial judge's discretion where it is "competent, material and relevant to the issue on trial."

Short Snorts

Ralph Yarborough designated Clifton L. Holmes of Kilgore as his assistant statewide campaign manager and director of organization.

Texas building — 24 per cent over 1970 — set an all time record last year.

Governor Smith told the Senate finance committee the federal government must assume 100 per cent of welfare and medical aid costs.

Nolan Robnett of Austin is a Democratic candidate for state treasurer.

Tom McElroy of Dallas entered the Republican governor's primary. GOP leaders say they want a wide-open gubernatorial race.

Texas Industrial Commission plans foreign trade missions to Bucharest and Moscow.

Federal disaster aid has been approved for flood hit Bowie, Delta, Fannin, Lamar, Rains and Red River counties.

Planning offices for the 1972 national governors' conference in Houston opened at the headquarters Shamrock Hilton Hotel in Houston last week.

Grocery Shopping Etiquette

Most consumers probably don't give much thought to shopping courtesy, but it's just as important as any other form of courtesy. Bad shopping manners can even cause accidents. For example, if children race all over the store, they may knock glass containers off the shelves and cut themselves. Or they may trip and fall.

Of course, shopping etiquette isn't always that serious. It's just a case of applying the golden rule when buying groceries.

Be careful when shopping. If you accidentally bump your car into someone, stop and apologize.

Another suggested rule, be gentle. Avoid unnecessary handling of fresh fruits and vegetables. Also, be neat. If you knock something off a shelf, put it back. If you accidentally break something, ask a clerk to clean it up.

If you change your mind about buying something, put it back where you found it. And complete your shopping before moving to the check out line. Don't ask someone else to push your cart forward while you pick up forgotten items.

Have your money ready so you don't delay the check out line while you write a check or fumble for your money.

Shopping courtesy is just a matter of common sense. If you show consideration for others, you'll find that your shopping can be an enjoyable experience instead of a drudgery.

Home Economics Tips

Arm chuck, sold as steak in some stores, is best used as Swiss steak or braised. It's a less tender cut, but has a well developed flavor. Arm chuck may be identified by the round arm bone.

Large stackable pillows can provide easily stored, extra seating places. They may even be used as part of the room decor.

To prolong life of stainless steel cookware, use medium to low heat for top of range use. Never use high heat.

To aid the blind or visually impaired, cookbooks are available in Braille and large type editions. They contain sections on soups, main dishes, casseroles, stews, gravies and sandwiches. To obtain a copy of the "Easy Ways to Delicious Meals" cookbook, write to Volunteers Service for the Blind, 332 South 13th Street, Philadelphia, Pa. 19107.

When cooking vegetables, cook only until tender. Overcooking causes them to lose color, shape and much of the food value.

Eggs cooked too long in boiling water will taste tough and rubbery. For tender, hard cooked eggs, try cooking them a shorter time in water that is simmering. As soon as the eggs have finished cooking, pour off the hot water and cover them with cold water. This keeps a green film from forming around the yolk. (The green is harmless, but looks unappetizing.)

When using a double boiler, start with warm, not hot, water in the lower pan so the food won't stick.

For a drink that's different, serve "cafe-au-lait." Simply mix equal portions of strong coffee and milk. Or try "Vienna coffee." That's just coffee served with whipped cream.

To reduce your food bill, try using molasses instead of sugar in such foods as baked beans, cookies, puddings, and bread. Children like it and it adds flavor to food value.

Washington — Throughout our history the waters which wash our shores have been friendly. They have given us geographical protection making it practically impossible for another nation to attack us. In our history they have given us time to build up our strength when danger seriously threatened. The tempo of modern technology has changed all this, as it has changed so many other things. It has stripped this country of our friendly protecting oceans.

The bearer of bad news is always punished. In ancient times one who bore adverse reports to the ruler, even though the truth might be put to death. Today he simply becomes an "alarmist" but if there is one subject about which the American people must have a conscious concern it is our military position compared to that of the Soviet Union.

"Peace in our time" became a slogan after declared by Neville Chamberlain. What followed was

The icebreaker has been cutting sea lanes in the six to eight foot thick ice in order to aid supply ships bringing vital stores and equipment to the American forces and civilian teams at the pole.

Morgan is scheduled to return to Seattle in April after stops in Tasmania, New Zealand, the Fiji Islands and Honolulu.

six years of bloody conflict, which came near wrecking western civilization. We must hope that lessons of appeasement and unpreparedness have not receded into the dimness of shadows of past history.

If history teaches us anything, it surely must be that weakness invites attack; that it takes only one aggressor to plunge the world into war against the wishes of peace loving countries.

Some of our weaknesses and vulnerability have been pointed out in this space from time to time. Another one has recently been proved. A defecting Cuban pilot flew a Russian MIG fighter plane to a Florida air base in 1969 and more lately a Russian built transport flew from Havana to New Orleans carrying some uninvited delegates to a sugar conference. The question is how were the unannounced flights made without triggering an air alert.

The chairman of the Armed Services Committee of the House of Representatives gives the answer. There is virtually no air defense system along our southern border and the Gulf Coast.

A Defense Department statement attempts some reassurances. It says that the Soviet Union could not launch a major manned bomber attack without the United States knowing it. Besides, it is reasoned, strategic manned bombers are not worth worrying about in this age of far more formidable nuclear missiles.

True, perhaps. But it is hardly "alarmist" to recall that most of the American people and their leaders were convinced in 1941 that the Japanese either would not or could not carry out an attack on Pearl Harbor.

The glaring gap in our defenses to our southern approaches has gone virtually unnoticed during the long period of sustained hostility towards the United States by Castro's communist Cuba. During the same time there has been established a Soviet Union presence in the Caribbean. There are visible efforts by both the Russians and Chinese communists to gain a foothold in Latin American governments.

Even if our country was not vulnerable to manned bomber attack, the Soviet submarine presence off our shores, capable of launching missiles half way across our nation, should be enough to bring us out of apathy to the possibility.

If this is not enough, there is reason to believe that the Russians will soon have bombers capable of flying over the United States at the speed of sound and back without refueling.

If some of the strategists believe that manned bombers are obsolete, it is obvious that those running the business of military preparedness in the Soviet Union do not.

Under the influence of those both in and out of government who think the manned plane is obsolete and unnecessary, the B-1 bomber has not been put into production. Those who believe that it is safe to let down our defenses gamble with the very future of our nation.

The Russian bear may not be yet 10 feet tall and fully matured but he is exercising and growing rapidly. The future of our country is too dear to take chances on only living for the moment.
