DEFECTIVE, MISUSED WIRING CAUSES MANY FIRES IN HOMES

Electricity powers many of the necessities and conveniences in the modern home, but it can also cause trouble unless given a reasonable amount of attention and care.

Failure of many householders to treat electricity properly is emphasized by National Fire Protection Association figures which show that about one of every seven dwelling fires is caused by misused or defective electrical wiring and equipment.

To see if there might be uncorrected electrical hazards in your home, try answering "Yes" or "No" to these questions:

1. Is the right size fuse (15 amps for lighting circuits) in each socket in the fuse box? Do you use a new fuse—never a substitute—after each blow?

2. Do you use extension cords within safe limits of their capacities (500 watts for the most commonly used type)? If you must use an extension cord to feed an appliance more power than this, is it of the heavy duty type?

3. Are extension and appliance cords replaced immediately at the first sign of frayed or cracked insulation? Do you make sure that cords are never under rugs or hooked over nails?

4. Are electrical appliances checked periodically to make sure they are in good operating condition, and are they repaired or replaced at the first sign of trouble?

5. Is your television antenna in-

stalled where it cannot fall across power lines, and is it equipped with a properly grounded lightning arrester?

If there are any "No" answers on your list, take corrective measures immediately.

THAT'S REAL CORN — Hamp Thomas of Tennyson poses beside some corn he has been growing this summer at his place. The big corn looks like it came from the Midwest instead of West Texas. The stalks shown here measured 13 feet tall.

Homecoming Set At Tennyson

The annual Tennyson Homecoming will be held Saturday, Sept. 1, at the Tennyson Community Center.

Activities will begin at 2 p.m. with plenty of time for everyone to visit. A business meeting is scheduled at 7 p.m., after which a pot luck supper will be served. Everyone is asked to bring enough food for his family and guests.

Shorthorns to Open 1973 Football

The Bronte Shorthorns will officially start the 1973 football of Bronte School next Thursday night, Sept. 6, when they go to Roby for a contest. Kickoff time is 7 p.m.

The junior high lads have been working hard and a good game is expected.

Longhorns Play Next Friday

The Bronte Longhorns will open their 1973 season next Friday, Sept. 7, when Newcastle comes here. The game will begin at 8 p.m.

The Horns went to Bangs last night for a scrimmage with the Dragons.

Fire Damages Roy Ball Home

A fire which was discovered at 4:50 p.m. Sunday did extensive damage to two upstairs rooms at the home of Mr. and Mrs. Roy Ball. The family was at home at the time and discovered the fire.

Fire damage was confined to the second floor of the house but there was some water damage to the lower floor and its contents.

Fire Marshall Billy Joe Luckett said a large group of firemen were on hand to fight the blaze and did a good job, holding the damage to a minimum.

BAND BOOSTERS TO MEET

The Band Booster Club will meet Monday at 7 p.m. in the Band Hall.

The meeting was called by Louis Thornton, Longhorn Band director. Everyone who is interested in the school band program is urged to be present.

The big item on the agenda at the Aug. 9 meeting of the Bronte School board of trustees was amending the 1972-73 budget and approval of the 1973-74 budget.

The school wound up the 1972-73 school year spending approximately \$14,000 more than was in the original budget. However, the

actual revenue received during the period was some \$16,000 more than was anticipated, so they finished the year with \$2403 which had not been expected.

Most of the unbudgeted expense was \$6881 spent on construction of the new track, tennis courts and other facilities across the creek west of the campus.

Other items which were not in the original budget or had to be increased included: \$3950 for salary of the migrant education teacher; \$500 for cheerleader and twirler school; \$1200 for new band uniforms; \$300 for increase in cost of a school bus; \$1778 for transition of tax office; \$1200 for plumbing; \$900 for band hall improvement; \$500 for new service areas in the elementary school; \$1200 for new heaters.

Budgeted expenditures were \$347,515, compared to \$361,452 which was spent. Estimated revenue was \$338,405, compared to \$354,745 which was actually received.

The 1973-74 budget which was approved includes \$364,219 income and the same amount to be expended.

In other business the board:

- Postponed a joint meeting with the school's board of equalization.

- Shared a letter from Lone Star Gas Co. which stated the firm's program of providing replacement ranges for the home-making department has been discontinued.

- Agreed to leave substitute teacher pay at \$15 per day.

- Assigned board members to

Patty Rawlings

Patty Rawlings Honored at TWU

Miss Patty Rawlings, daughter of Mr. and Mrs. Joe Rawlings of Bronte, has been notified by President John A. Guinn of Texas Woman's University that she has been awarded the Borden Company Foundation Scholarship.

This \$300 scholarship is awarded annually to the highest ranking senior majoring in home economics who has had at least two courses in nutrition. Patty is majoring in Foods and Nutrition-Dietetics and Institution Administration.

She is currently the president of the university chapter nutrition club, third vice president of the Student Section of the American Home Economics Association at TWU, historian of Phi Upsilon Omicron, and a member of Round Table, an organization for campus presidents of all clubs.

LONGHORN CLUB TO MEET

The Bronte Longhorn Club will have a meeting Tuesday, Sept. 4, at 7:30 p.m. in the school cafeteria. Purpose of the meeting is to organize the club for the coming athletic season. Everyone who is a Longhorn fan is invited to attend.

Plans Being Made For Coke County Fair

Plans are moving ahead for the annual Coke County Fair which will be held Sept. 21 and 22 in the old gymnasium at Robert Lee School.

Last year's fair was a big success and this year's is expected to be bigger and better.

Mr. and Mrs. T. K. Whiteside have been named general chairmen of the fair, with Mr. and Mrs. Earl Bradley named to

serve as co-chairmen.

In the adult department, the divisions and their chairmen are as follows: Foods Division, Mrs. Bert Blaylock; Clothing and Needlework Division, Mrs. Fred McCabe Jr.; Art Division, Mrs. Roy Walker; Crafts Division, Mrs. Bob Gulley; Floriculture - Agriculture Division, Bob Gulley.

In the Antique and Historical Department, there will be only a

show, no judging. Mr. and Mrs. Ulmer Birl are chairmen of this department.

The Youth Department will be for exhibits by young people in sub-junior ages 6 to 10, junior ages 10 to 14, and youth ages 14 to 19. Mrs. Terry F. Bryan is chairman. Divisions of the Youth Department are Hand or Needlework, Clothing, Foods, Art, Crafts, Hobby, Floriculture-Agri-

culture and Pet Show-Youth Parade.

Booths to be set up by business firms are invited and encouraged. A charge of \$1.00 per front foot will be charged for exhibits by business firms. Reservations with check are due by Sept. 10.

Fair catalogues will be mailed in the next few days to all boxholders in the county.

General rules and regulations

have been announced as follows:

1. All Coke County residents are eligible to enter the fair in any or all departments.

2. No entry fee will be charged except to firms or individuals engaged in business.

3. Business firms desiring to have booths or exhibits will be charged \$1.00 per frontage foot payable the day of setting up.

Austin — The Texas Constitutional Revision Commission made key decisions last week on finance and legislative sections of the state's basic laws.

It will formulate recommendations Sept. 6-8 on judiciary and education provisions. Sections on local government and general provisions will be reviewed Sept. 13-15.

Final action of the 37 member body, which is studying changes needed in the state's basic laws, is scheduled Sept. 27-29.

Meanwhile, a legislative planning committee for the January-May 1974 constitutional convention of lawmakers is moving ahead with preparations for the historic gathering.

The planners have voted to spend \$33,938 on new chairs and desks to place in the House of Representatives chamber during the convention. Chairs, costing \$165 apiece, will be replicas of those used by the delegates to the 1876 constitutional convention. The desks, considerably more economical, will be made by state prison system inmates at a cost of \$22.50 each.

The revision commission practiced some economies (of language) in shortening the recommended general legislative tax power section of the constitution from the present lengthy statement of limits and exemptions to the following:

"Taxes shall be levied and collected by general law for public purposes only, and shall be equal and uniform."

The 181 legislators who will be delegates to the convention will convene here Dec. 6-8 for a briefing on details of the commission's recommendations. The convention will open Jan. 8.

CHILD CARE RULES TIGHTENED — The State Board of Welfare is toughening requirements for licensing child care institutions and has named former State Rep. Randy Pendleton of Andrews as temporary head of a licensing division.

Pendleton said the new division will shift role of the Welfare Department from urging facilities to comply with the law to active enforcement of the law and policing of facilities.

FARM PRODUCTION HIGHS SET—Texas farmers and livestock raisers are setting new production levels this year, Agriculture Commissioner John White reported.

Records, according to White, are being broken or tied for wheat, cotton, grain sorghum, corn, peanuts, soybeans, oats, barley, rye and rice. Texas is first in the nation in cotton and grain sorghum and fourth in wheat production.

Texas cattle on feed total 2.3 million, said White, about 700,000 more than the second ranking state, Iowa, and an increase of nine per cent over last year. White said cattle producers marketed more cattle during June and July than they did a year ago, proving that they are not holding back because of the price freeze on beef.

White predicted that removal of the beef ceiling will not cause skyrocketing of meat prices and may even help bring them down.

He said there are warning signs consumer resistance to the rising price of food products is stiffening.

GUARD STRENGTHENED — Texas for the first time in six years will field a full Army National Guard division Nov. 1.

New Guard troop allocations will raise the state's authorized Army Guard strength to 17,700 from the present level of 16,000 (with 17,377 now authorized).

Reactivation of the 49th Armored Division of the Texas ANG was announced at Camp Mabry headquarters here recently. The "Lone Star" armored division will have three brigades strategically located over the state—the First in Dallas, the Second in Fort Worth and the Third in San Antonio. In addition, the 36th Airborne Brigade at Houston will become a part of an active Army airborne division in event of mobilization.

The 49th will contain 21 battalions. Summer training will be at Fort Hood, largest armor training camp.

INSURANCE DEALS TARGETED — New Insurance Board rules aim to halt rate discrimination and unfair competition in property and casualty insurance.

Board Chairman Joe Christie said some non-rate regulated companies, including Lloyds and reciprocals, offer unrealistically low rates to prime risks with the intention of having ultimate liability assume by a rate regulated company.

Christie said the "brother-in-law" deals can result only in higher rates for the majority of policyholders.

"A farce has slowly but surely been perpetrated when a large company either forms a Lloyds, or evens rents one by one scheme or another, for the purpose of evading this state's regulatory laws," Christie said.

DOCUMENTS DEMANDED — House Speaker Price Daniel Jr. called on the Department of Public Safety to release to him and the public documents on a House committee vending machine industry probe, held confidential for six years.

Daniel directed Department of

Public Safety Director Wilson E. Speir to deliver the tapes and other records Monday (Aug. 27), and called a news conference at the same time.

He said the open meetings law, House rules and the new public access to information act require free public access to government documents except in most extraordinary circumstances.

Food Storage Rules—Can Help Save You Money

Where do you store your food until you use it?

Proper storage of food can save money on your grocery bill because proper storage maintains quality and prevents waste by spoilage or off condition.

Meat and poultry foods which represent the largest share of food dollars in most homes, are perishable items requiring proper care. You can feel assured that these products come to you safe and wholesome when they are produced under federal or state meat and poultry inspection services.

To be sure you keep this food in that desirable condition, the first rule to observe is to follow the storage instructions on the label.

If the labels carry storage instructions such as "Keep Under Refrigeration" or "Keep Frozen," it is important to follow these directions.

Buy products marked "Keep Refrigerated" only if they are refrigerated in the store. Make sure frozen products are solidly frozen when you buy them. Shop for frozen products last and rush them home to your frozen storage.

The second important storage rule—store products that are not refrigerated, such as canned products, in a cool, dry place — not in a cabinet over the stove or where excessive heat collects.

And the third rule—rotate your stored foods by using those in storage before using the replacement stocks.

Safe Meat Tenderizers, Safe MSG
 Just because tenderizers make meat tender, they won't tenderize people's stomachs.

Although many consumers worry about the question of safety in meat tenderizers, they can go ahead and tenderize those less tender, less expensive cuts of meat.

The actual tenderizer is a natural plant enzyme called papain.

It's obtained from the papaya fruit and is generally recognized as safe to use on foods that will be cooked.

Papain is readily destroyed by the heat needed to cook meat. Even if all the papain weren't destroyed by heat, the stomach's gastric juices would finish the job easily.

Many people are confused about usage and safety of another chemical used in food—monosodium glutamate (MSG).

It simply improves natural flavors—it's neither a tenderizer nor a preservative.

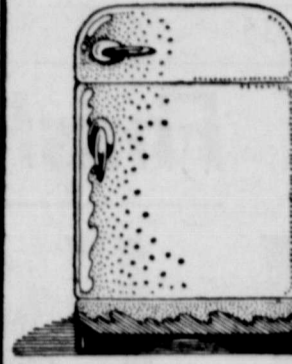

It's also safe.

Made from an amino acid — which is one of the "building blocks" of proteins, MSG usually comes from the vegetable proteins in soybeans, wheat and corn.

Some canned vegetable and canned tuna are processed with MSG, as are mayonnaise, French dressing and salad dressing if the label lists it as an ingredient. Also, consumers can buy it to add to foods at home.

An Enterprise Want Ad will sell it!

The cost of not saving keeps going up.

If you need cash and you haven't saved it, you have to borrow. And that means paying through the nose to use someone else's money.

So it makes sense to put away a few dollars of your own. One great way to do just that is by purchasing U. S. Savings Bonds through the Payroll Savings Plan where you work. It's an easy way to build a nest egg.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/4% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/4% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with comparable improvement for all older Bonds.

Buy U. S. Savings Bonds. It's a lot better to be receiving interest on your own money than paying it out on someone else's.

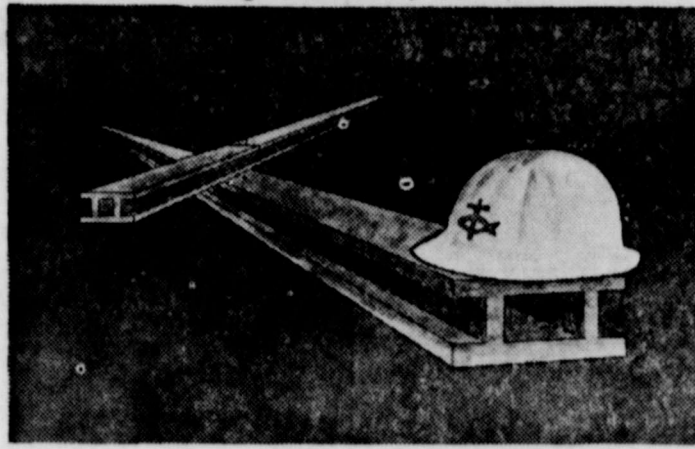

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America. Now Bonds pay a bonus at maturity.

The U. S. Government does not pay for this advertisement. The interest on U. S. Savings Bonds is guaranteed by the Department of the Treasury and the Advertising Council.

Labor Day
September 3, 1973

Labor Day is a unique holiday, observed as a national holiday only in the United States. The day was established by national law as a salute to the working person, and to Americans the holiday heralds a change in life style as it usually marks the end of vacation season, the start of another school year, and a seasonal change. These words from The Living Bible refer to work.

"What does one really get from hard work? I have thought about this in connection with all the various kinds of work God has given to mankind. Everything is appropriate in its own time. But though God has planted eternity in the hearts of men, even so, man cannot see the whole scope of God's work from beginning to end. So I conclude that, first, there is nothing better for a man than to be happy and to enjoy himself as long as he can; and second, that he should eat and drink and enjoy the fruits of his labors, for these are gifts from God. . . .

The man who works hard sleeps well whether he eats little or much, but the rich must worry and suffer insomnia. . . .

A lazy man is brother to the saboteur. . . .

Remember to observe the Sabbath as a holy day. Six days a week are for your daily duties and your regular work, but the seventh day is a day of Sabbath rest before the Lord your God."

* Approved bus service schedule for 1973-74.

* Approved final application for foundation funds.

* Reviewed new school laws, and emphasized ones pertaining to operating school buses.

* Delayed action on a tractor agreement for the school district.

* Reviewed placement of students on various bus routes and formulated routing and pickups.

* Accepted the resignation of A. V. Andrews as a school custodian. He plans to move to Junction where he will be employed in the courthouse.

* Officially employed Janet Azbell, Betty Griffin and Lavon Sims as teachers.

* Approved participation in the migrant education program for 1973-74.

* Approved July bills for payment.

Special Meeting Aug. 27

A special called meeting of the board was held Aug. 27 to discuss new regulations for bus drivers. House Bill 1387, passed by the last session of the Texas Legislature provides that all bus drivers must have an annual physical examination; they must have a valid chauffeur's license; and must complete a training course set up by the Texas Education Agency and the Department of Public Safety.

The board voted for the school to pay \$10 for the annual physical examination of each driver, as well as to pay the fee for license renewal.

Supt. C. B. Barbee said the new law was designed to prevent school bus accidents and injury to children riding them.

NUTRITION A LA CARTE

• Here are tips for taking care of food. Keep fresh milk covered in the coldest part of your refrigerator. The dairy took special pains to bring it to you in good condition. The rest is up to you. Leftovers, except bread and baked goods, should be refrigerated promptly, covered, and used as soon as possible.

• Why do we need water? All of the body's chemical processes take place in solution. Thus, water is essential. Some of the water our bodies use each day must be replaced because of water excreted. Several pints a day are used up by our kidneys, bowels, perspiration, and exhaled breath.

• Farming good eating habits is one of the foundations for good health that parents can pass along to their children. To help your preschooler eat well, serve small portions of food. Serve his food at medium temperature, neither too hot nor too cold. Finger foods, easy to handle, work well. Season food moderately.

• Unless the food you eat gives you all the nutrients you need you could suffer deficiency diseases. These are not always easy to spot until they become obvious, such as scurvy, rickets or certain types of anemia. This is why it is so important to eat properly every day. Choose your foods from a wide variety of food stuffs.

• An effective way to interest young children in eating good lunches is to have them participate in preparing food. Your older children may prefer to make their own lunches. The younger children can help you prepare some of the food. Whatever, with a little guidance from you, their interest in good nutrition should increase.

• Foods from animal sources contain high quality protein because they generally contain more essential amino acids. Plant foods, as a class, offer protein that is incomplete in some essential amino acids. That's one reason nutritionists recommend that you combine both animal and vegetable foods in your meals. Research shows your body needs to have all the essential amino acids at one time.

• To properly use carbohydrates and obtain energy from them, you need vitamin B1. It's real name is thiamin. Good sources of this vitamin include pork, liver, heart, kidney, whole grain or enriched breads and cereals, peas and beans, nuts and eggs. Some thiamin is available in other meats, and in vegetables.

LABOR DAY SUPPER SET AT METHODIST CHURCH

A Labor Day watermelon and sandwich supper is planned for Monday at 6 p.m. in First United Methodist Church.

Everyone is invited to attend and bring a watermelon and sandwiches.

Defensive Driving Course Planned

A course in defensive driving will be held Sept. 10, 11 and 12 at Robert Lee School. Students who successfully complete the course will be allowed a 10 per cent discount on their auto insurance premiums.

Cost of the course is \$8.00 per student. Those who are interested should pre-register at the office of County Extension Agent Mrs. Fay C. Roe or call 453-2461.

Only the principal driver of an automobile is required to take the course in order to be eligible for the discount. However, in families who have more than one car, the principal driver of each vehicle will have to take the course in order to be eligible.

The course will be taught by a representative from the San Angelo Safety Council.

Thoughts

From The Living Bible
Stay always within the boundaries where God's love can reach and bless you. Wait patiently for the eternal life that our Lord Jesus Christ in his mercy is going to give you. Try to help those who argue against you. Be merciful to those who doubt. Save some by snatching them as from the very flames of hell itself. And as for others, help them to find the Lord by being kind to them, but be careful that you yourselves are not pulled along into their sins. Hate every trace of their sin while being merciful to them.

Add Another Three Million... It's One Hundred Million Above 1972... Fifty-four Per Cent More.

Crop production records in Texas continue to climb. For example, you can add another 3,000,000 bushels or so to the 1973 Texas wheat crop; add 100,000,000 bushels more to the grain sorghum crop; the corn crop in Texas is up 54 per cent this year from a year ago.

Latest estimate now on the wheat crop in Texas is 98,600,000 bushels. This is the second highest ever. Back in 1947 — 26 years ago — the Texas wheat crop totaled 116,960,000 bushels. Yield this year will be a new all time record high of 29 bushels per acre.

Texas, the leader in the nation in grain sorghum, is outdoing itself this year in that commodity. Expected production now is forecast at 414,800,000 bushels. This compared with 319,780,000 bushels in 1972.

This year's estimate (it could go even higher) is the largest ever. Yield this year will average 61 bushels per acre, another record high. That means an average of 3,416 pounds per acre. Several reports indicate 5,000 to 6,000 pounds grain sorghum on dryland in Texas this year.

ADD 54 per cent on to the 1973 corn crop compared to 1972, says the Texas Crop and Live-

stock Reporting Service. Corn production in the state this year is forecast at 60,800,000 bushels. A record per acre average of 95 bushels per acre is expected for Texas this year, the highest ever.

COTTON crop for Texas this year is expected to reach 4,500,000 bales, which would be the largest crop since 1965. Acres for harvest are estimated at 5,500,000 compared with 5,000,000 acres in 1972. Yield is expected to average 400 pounds per acre, which is only the third time in history when Texas produced that much on a per acre basis.

Texas also continues to be ahead of the rest of the nation in cattle on feed. The latest report shows that there are 2,302,000 head of cattle and calves on feed in Texas. This is nine per cent above a year ago but one per cent below the number on feed a month ago.

Marketing of fat cattle during July totaled 389,000 head, which is five per cent above July of last year and three per cent above June, which again proves that Texas cattle producers are not holding cattle in spite of the price freeze.

Texas had almost 700,000 more cattle on feed as of Aug. 1 than the record ranking state, Iowa.

Nationwide, the number of cattle and calves on feed in the sev-

FISHING REPORT from Lake Spence

Lubbock Bass Club held a bass tournament last weekend at Lake Spence, with 25 to 30 fishermen entered.

First place honors went to Don Hardman who had five bass that weighed 7 lbs., 13 ozs.; Edward Duetec, four for 7 lbs., 2 ozs.; third, Fred Salmon, two for 4 lbs., 13 ozs.; Howard Bunch, one fish for 4 lbs., 10 ozs.; Jack Duetec, fifth, two for 3 lbs., 14 ozs. Bunch took top honors for the largest single fish with his catch weighing 4 lbs., 10 oz.

Other catches were reported as follows:

en major cattle feeding states totaled 9,122,000 head. This is four per cent less than a month ago but two per cent more than a year ago at this time.

JULY milk production in Texas is up by only one per cent from a year ago, and is one per cent below the previous month, which continues to bear out predictions of lower milk production.

Nationwide, milk production during July is 3.3 per cent less than a year ago. The number of milk cows is also down 2.5 per cent from a year ago.

Pasture and range conditions over most of Texas are rated good to excellent. However, a large portion of West Texas is rated poor to fair.

NEW regulations regarding brucellosis control are now being studied throughout the state. A public hearing on them will be held in Austin Sept. 18 by the Texas Animal Health Commission
