Enterprise Boner Stands Corrected

The Enterprise pulled a big boner last week in the story about the school board election. Results were printed only from the Bronte box and did not include the Tennyson box.

The first two winners listed, James Koenig and James Tidwell, were elected, but James Lee should have been listed as a new board member instead of Bill Jackson.

Voting, including both boxes, showed the following results:

James Koenig 157; James Tidwell 145; James Lee 120; Bill Jackson 117; Grady Coulter 109; Susan Cumbie Arrott 105; A. D. McCarty 105; Ernest Aguero 46.

The Enterprise regrets this mistake and sincerely hopes no one was caused any embarrassment.

NEW HEAD COACH — Rudy Phillips, an ex-Bronte Longhorn, has been named head coach at McGregor High School. He had been serving there as line coach and first assistant. He served as coach at Hempstead, Pearland and Cisco before going to McGregor. A routine business meeting followed the presentation.

Mrs. Labenske wrote a letter along with their contribution challenging other Bronte natives who have moved away to help out with this project. She said, "This seems such a little thing to give from all that Bronte gave us while we lived and grew up there. So come on former residents and readers of the paper, let's pitch in and help." The Labenskies live in Houston.

Standing committees were appointed as follows: Budget and Finance, Russell Carlton and Koenig; Building and Maintenance, Lee and Dale Thompson; Personnel, Tidwell and Coalson.

New Wage Law to Increase Med Costs

While a new law has been passed providing a \$2.30 minimum wage, hospital leaders are concerned that the measure will create a financial strain on the operating budget of many hospitals.

"Most people outside the health industry didn't realize it, but 60-

70 per cent of the hospital operating budget is paid out in salaries," said O. Ray Hurst, CAE, president of the Texas Hospital Association. "With the proposed increase in the minimum wage hospitals will be forced to raise charges for services in order to meet the additional expense of a mandatory increase in wages," Hurst said.

Comparable figures for the amount of operating budget spent on wages for industries other than the hospital industry indicates that one-third is paid out in wages. The impact of a wage increase on hospitals is twice as great in the hospital industry as it is in other industries," Hurst said.

"Hospitals cannot absorb salary increases for employees as industry does through increased production, mechanization and automation," Hurst said. "Hospitals sell services to the patient and this person-to-person service is expensive because salaries are the chief ingredient and comprise about two-thirds of a hospital's op-

erating expenses," Hurst said.

For health care workers the May 1 minimum will be \$1.89 an hour and will reach the \$2.30 plateau by Jan. 1, 1977.

Hurst added that the wage increase is confined to lower paid employees, but it will be necessary to increase the scale in the middle and upper ranges, so that comparatively equal incentives will remain.

Regarding Our Country —

It is the direct will of God that we obey the laws of the land. God has ordained it this way and we as citizens are obligated to obey His Word.

"Romans 13:1-2: Let every soul be subject unto the higher powers. For there is no power but of God; the powers that be are ordained of God. Whosoever therefore resisteth the power, resisteth the ordinance of God: and they that resist shall receive to themselves damnation."

Congress has passed a resolution adopting April 30 (Tuesday) as a day of humiliation, prayer and fasting for our country as requested in II Chronicles 7:14. Will you be one of millions who will be obedient to your government in this request? It could, very well, be the most important day in American history.
