It Takes This . . .

. . . To Grow This

. . . The Grass, That Is . . .

TALL GRAZING — A little bit of water can do wonders in dry Coke County as witnessed by this Haygrazer, which is approximately nine feet tall. The lush growth is on the farm of Mrs. Imogene Griffin, located south of the river, about four miles

from Bronte. Mrs. Griffin, on the right, stands with Mrs. Ben Oglesby to show how tall the grass is. Dewey Luckett has the place leased and ran 50 mother cows and calves on 7 acres of the Haygrazer for over three weeks before he felt like they needed to be moved.

Board Employs 3 New Teachers

Bronte School has employed three new teachers in the past several days. They complete the faculty for the 1974-75 school. Only vacancy on the school staff is a bus driver for the Tennyson route, Supt. C. B. Barboe said Wednesday.

No Noon Whistle Starting Monday

Beginning Monday, July 29, the sounding of the fire siren at 12 noon each day will be discontinued. The Bronte Fire Department has received a number of complaints about the noise made by the whistle each day at noon and decided to forego the noon sounding.

The whistle will be blown only for fire drills, fires and other disasters.

Firemen cautioned Bronte area residents to be extremely careful about grass fires. They are a particular hazard now because of extremely dry weather.

The firemen helped fight a grass fire on the Shubert ranch near Orient late last Thursday. The range fire broke out again Friday and firefighters were called back. It was theorized the blaze was started by lightning.

SUBSCRIPTION SPECIAL ENDS WEDNESDAY

Time is about to run out on The Enterprise's annual subscription special. Next Wednesday, July 31, will be the last day the paper will be offered at a 50 cent reduction in price.

The regular price of \$4.00 in Coke County and the immediate Bronte trade territory is reduced to \$3.50. The regular price for a subscription anywhere else in Texas is regular \$5.00 and is reduced to \$4.50. Subscriptions outside the state, which regularly sell for \$6.00 are now \$5.50.

Subscribers may bring or send their orders to The Enterprise office, or residents of outlying communities may subscribe through their local representatives: Mrs. Rocky Thompson at Blackwell; Mrs. Herbert Holland at Brookshire; or Mrs. Tom Green at Tennyson.

Everyone is urged to take advantage of the saving before the deadline next Wednesday.

Briscoe Proclaims Farm Safety Week

Gov. Dolph Briscoe has proclaimed the week of July 25-31 Farm and Ranch Safety Week in Texas.

"Although the farm and ranch environment contains many hazards," the governor said in his proclamation, "experience has shown that caution, common sense, skill and protective equipment can counter these hazards and keep accidents and injuries to a minimum. Texas farmers and ranchers, their families and employees need to dedicate themselves to the task of safety production."

Farm Bureau Asks Emergency Help

The Texas Farm Bureau board of directors has asked President Nixon to sign into law an emergency livestock credit bill just passed by Congress.

The legislation provides up to \$250,000 credit for individual livestock producers. Eligibility would be limited to bona fide farmers and ranchers, as determined by the Secretary of Agriculture.

Here is the text of the telegram which was signed by TFB President J. T. (Red) Woodson of Gober:

"The Texas Farm Bureau board of directors, representing 152,380 family members, urgently requests that you sign H. R. 15560 (livestock credit legislation).

"The current cost-price squeeze and severe drought conditions have created serious circumstances for livestock producers. This extra credit assistance is needed to prevent excessive liquidation of production units."

The proclamation is part of a statewide farm and ranch accident prevention campaign being conducted by the Texas Safety Association, Texas Farm Bureau, Texas Agricultural Extension Service, Future Farmers and Future Homemakers of American and Young Farmers of Texas. The week also concurs with National Farm Safety Week under the sponsorship of the National Safety Council and the U. S. Department of Agriculture.

State Health Department figures show that there were 214 fatal accidents on Texas farms during 1973. That number is up 16.9 per cent over 1972. The highest ranking fatal farm accidents in 1973 were those involving firearms (42 deaths), drownings (41 deaths), tractors (26 deaths), fires and burns (24 deaths) and falls (20 deaths).

This year's national campaign is focusing on the fall with the theme, "ABC's of Avoiding Falls —Alertness, Balance, Care."

Joe Smetana, TSA vice president for farm and ranch safety, offered some basic suggestions for preventing falls:

- * Watch your step. Survey your path to spot slipping and tripping hazards.

- * Wear shoes and boots with slip resistant soles and heels. Clean them before climbing, mounting farm equipment, or

walking on hard, smooth surfaces.

- * Keep walking surfaces free of ice, snow, manure, loose grain, etc.

- * Never permit children to ride on farm equipment. Establish a "no riders" rule—no one should be on farm equipment other than those necessary for work operation or for instructional purposes.

- * Use hand holds or rails when climbing off and on machinery. Use handrails on stairs.

- * Inspect ladders before each use. Repair or replace if unsafe or faulty. Set ladders on firm footing. Set straight ladder base out one foot for each four feet up. Don't overreach. Stay off tall ladders on gusty days.

- * Keep buildings maintained. Fix broken flooring, steps, etc.

- * Have a storage place for everything; put things away when finished. Good housekeeping is a falls prevention "must."

- * Don't block your view when carrying large items.

- * Look for hidden hazards when walking in weeds, tall grass, etc.

- * Provide plenty of light so you can see where you're going and what you're doing.

- * Fatigue, illness, excessive alcohol, worry, poor vision, anger, medicants which make you drowsy, etc., make you less alert, more prone to fall.

- * Take time to be safe.

The cost of not saving keeps going up.

If you need cash and you haven't saved it, you have to borrow. And that means paying through the nose to use someone else's money.

So it makes sense to put away a few dollars of your own. One great way to do just that is by purchasing U. S. Savings Bonds through the Payroll Savings Plan where you work. It's an easy way to build a nest egg.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with comparable improvement for all older Bonds.

Buy U. S. Savings Bonds. It's a lot better to be receiving interest on your own money than paying it out on someone else's.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.

NICE YELLOW CAT — Kenneth Kiker of Robert Lee took this big 30 pound yellow catfish from Lake Spence recently. Kiker caught the beauty on a minnow baited line.

FISHING REPORT from Lake Spence

Big yellow catfish, hefty striped bass and limit stringers of black bass have been the order of the day at Lake Spence lately.

The large yellow catfish have been taken by trotline fishermen, who set their lines in the deep holes of the Colorado River channel.

Trotliners have talked more about the big yellow catfish which they have taken recently, but some very respectable hauls of channel catfish are also being noted.

Big stripers are going for trotlines, and bait casters are also coming home with some nice stripers. Black bass are in 15 to 20 feet of water and plastic worms fished off points have been good lure selections.

Catches reported by local weighing in stations include:

Y. J.'s Marina
Kenneth Kiker, Robert Lee, 2 stripers at 11 lbs. and 9 3/4 lbs. and 19 channel cat to 4 lbs.

Retirement.

The end of work, or the beginning of worry?

Most people look toward retirement as a time of relaxation and enjoyment. And it can be if you prepare for it. But if you don't, it can be a time of worry and discontentment. A time when you can look back and think of a million ways that you could have saved, but didn't.

Well, there's no better time to think about retirement than now, while you're working.

One easy way to save on a regular basis is by purchasing U.S. Savings Bonds through the Payroll Savings Plan where you work.

Now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds; 5 1/2% when held to maturity of 5 years, 10 months

(4% the first year). That extra 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Buy U.S. Savings Bonds. They'll help make your retirement just what you want it to be.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.
