I ride to work with a fellow worker. If an accident occurred, how could we both best be protected against liability?

From the driver's viewpoint... if an accident occurred and you were injured only the court could decide if the driver was liable. If found liable and he was properly insured, both would be protected by his insurance. It is advisable to carry Medical Payments coverage which can be added to an Automobile Liability Policy for a minimum fee. This will pay medical payments, up to designated limits, of passengers who may be injured, regardless of liability. Payments Coverage would pay your medical costs regardless of As a passenger your standard Automobile Policy with Medical Payments Coverage would pay your medical costs regardless of other coverage. As in all cases coverage falls first with the automobile being used and your primary protection would come from the policy covering the vehicle.

 FOR SCHOOL TRUSTEE**

I, Mrs. Edwin (Pat) Forehand, wish to place my name on the ballot for School Board Member.

Before we can have changes, someone in the community must get involved. As of today I would like to get involved and help secure an Advanced Education System, not only for my family, but for the community as a whole.

Let me say that being a woman I feel that I could bring a different viewpoint to the all-male board. I'm not saying I'm better or have better ideas, but I do feel a woman can bring fresh usable ideas. I have a daughter who will be enrolled for the next six years, and I would like to do all I can for her next six years and for the entire community.

**"What are those brown spots on my hands?"**

You may think they're just big freckles, or sun spots. Maybe somebody told you they were "liver spots." But they're most likely age spots.  
Do you have to put up with age spots?  
The answer is no. You can fade age spots with Esoterica Medicated Cream.  
Esoterica works because it goes below the skin surface. Esoterica stops excess pigmentation, so the spot fades.  
If you use Esoterica daily as directed, you should see a clearer, more youthful-looking skin tone in six weeks.
