INSUR-MATION

WALDON MILLICAN

FARM BUREAU INSURANCE, 453-2812 I know I need life insurance but don't really feel I can afford it at this time. When does the big difference in the cost of premiums occur?

There is no set period of time when the cost of life insurance automatically jumps. However, you do run the risk of becoming uninsurable at the standard rates if you wait to obtain coverage. Furthermore, the premium increases gradually each year. If you live to age 60 or 70, which many will since the length of life expectancy is continually increasing, you will probably pay more total premium if you wait a few years and then buy your insurance. If you really feel you can't afford to buy insurance right now . . . why not "rent"? This is buying Term insurance at a very small premium, written for a limited number of years. Later, you can convert it to Permanent insurance which last as long as you want it to and accumulates

If you're hiding your money in a cookie jar, it's not working for you. And that doesn't pay.

One way to get a nice payoff from your money is to buy United States Savings Bonds through the Payroll Savings Plan.

When you do that, a little is set aside from each paycheck to buy Bonds. And that little will grow into substantial savings for you.

So buy United States Savings Bonds. And put your money where it pays.

Series E Bonds pay 6% interest when held to maturity of 5 years (4½% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

School Evaluation **Program Planned** By Community

By Ann Hamilton

The community school concept is returning. "The school belongs to the commuity. Local control is to be honored," Supt. C. B. Barbee said at the recent Public School each division. Week sponsored by the Masonic Lodge. "We hope to prove that education in Bronte Schools is points. The 440 team finished 4th in education in Bronte Schools quality education."

The Bronte Public Schools have been selected to participate in the Self-Evaluation School Accredita_ tion Planning Process Project during the 1976-77 school year.

In a meeting March 2, Ann Jones, consultant for the Region XV Education Service Center, presented an overview of the project and procedures to the steering committee. The committee, composed of school administrators and representatives from the school board, faculty, student body, and community citizens, will establish goals for education in the Bronte School District, lead the district in self_study, and develop a plan for meeting the established goals.

Prin. James L. Golson expressed his enthusiasm about the program-"This is an opportunity for the local community to reinforce control in what goes on in the school system. It is also an opportunity for those who have opinions and would like to become involved in shaping the educational program." He added that this may be our last opportunity for local control and that if we do not exercise our responsibility here we might lose the opportunity forever.

Some time in April a large num_ ber of community, faculty, and students will be given a questionnaire in which they may rank goals in order of their importance. Results will be tabulated and used in school planning. As a result of these samplings, the school's staff will learn of ideas that Bronte citizens have regarding young people should know or be able to do when they finish school. Based on these goals, the steering committee will determine how the schools are performing in relation to the goals. If there is a gap between "what is" and "what should be," a need area has been identi. fied. The school board and faculty will then determine ways to solve the problem. These ways may involve some changes in materials, teaching strategies, or course offerings.

The projects success depends on the cooperation and participation of Bronte residents This is an excellent opportunity for each person to view his opinions about what the goals of our school should

IN 1ST NAT'L BANK BUILDING

United States Savings Bonds vs. the Piggy Bank. 1. If the Piggy Bank is stolen, you lose what's in it. That's the way it is with cash. If a Bond is stolen, you get a new one.

2. A Piggy Bank is easy for even its owner to rob. But Bonds can be bought through your Payroll Savings Plan at work, and a little is taken out of each check before you can get your hands on it. 3. The Piggy Bank may look kind and generous, but it won't give you any interest. A U.S. Savings Bond yields 6% when held to a 5-year maturity. 4. The Piggy Bank money just sits there. A Bond helps your country.

In summary, you might wonder why grown folks would even use Piggy Banks. It's so much smarter

Avoid that empty feeling. Buy U.S. Savings Bonds.

Now E Bonds pay 6% interest when held to maturity of 5 years (45% the first year).

Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
