Reinforcing the Blood

An interesting operation to remove a large tumor from the lower jaw of a young man was performed recently at the St. Vincent Infirmary in Chicago. The operation was performed by Dr. John Smith, Surgeon-in-Chief of the Infirmary, and was attended by a large number of medical students and members of the medical profession.

The tumor was a large, hard, painless swelling that had been present for several years. It had caused discomfort and difficulty in eating and speaking. The patient had been operated on several times before, but the tumor had recurred each time.

Dr. Smith made the operation under general anesthesia, and the patient was allowed to return to his normal activities within a few days. The wound healed rapidly, and the patient was discharged from the hospital in good health.

The operation was a success, and the patient is now able to eat and speak normally. The tumor was removed in its entirety, and there is no sign of recurrence.

The surgical procedure involved the removal of the lower jawbone and the adjacent tissue, followed by the insertion of a prosthesis to replace the lost jaw.

The success of the operation is attributed to the careful preparation and skillful execution of the procedure by Dr. Smith and his team of assistants.

The patient, who is now recovering at home, expressed his gratitude to Dr. Smith and the members of his staff for their kind and skilful care.

The operation is considered an important advance in the field of surgery, and the patient is expected to make a complete recovery.

HOLMES' MIRRORS ON THE TONGUES OF ALL.

Attorney Cappe Returns to Fort Worth.

Mr. Holmes, the lawyer from the district, returned to Fort Worth yesterday.

W. W. Williams Marries.

A prosperous merchant in this city, W. W. Williams, took his sweethearts home last evening, where they were married. A costly reception took place at the house, and all the leading citizens of the city were present.

You Worth, Tex., Aug. 5.-The interesting sensation here is the Holman's [name] from Mississippi. The man is one of the most remarkable in physical and mental development. He is said to have a memory for dates that is unequaled, and his knowledge of geography is astonishing.

Just back from the state of Mississippi.

Mr. Holmes, the lawyer, returned to Fort Worth yesterday after a visit to the state of Mississippi. He says that the condition of the state is desperate, and that the people are suffering greatly.

Mr. Holmes seems to be in good health, and he is said to have gained in weight and strength since his return.

The visit to Mississippi was a business trip for Mr. Holmes, who is a lawyer by profession.

Mr. Holmes has been a lawyer in this city for many years, and he is considered one of the ablest and most respected members of the bar.

He is a man of great ability and possesses a fine mind.

The state of Mississippi is in a state of great distress, and the people are suffering greatly.

Mr. Holmes seems to be in good health, and he is said to have gained in weight and strength since his return.

STATE OF INDIANA

PREPARING FOR A CENTENNIAL CELEBRATION.

One Hundred Years of Almost Exposed Progress in the Conquering of a Great Exposition by the North Atlantic Region.

(Indianapolis Correspondence.)

Our city will be in the forefront of the world this month. Indiana is a leading State in the country, and it has been shown that the State is the leading State in the country. The celebration of the event will be the most prominent feature of the expositions.

The first step in this end was taken at the recent session of the general assembly of the State of Indiana, and it has been decided that the celebration should be the full and complete one of the State and the country.

The House of Representatives has charged the city very respectfully for the appropriation of a sum of money for the celebration of the event, and it has been accepted that the celebration should be the full and complete one of the State and the country. The State and the country, too, have agreed that the celebration should be the full and complete one of the State and the country.

The plan for commemorating the hundredth anniversary of the State of Indiana has been decreed that the celebration should be the full and complete one of the State and the country.

THE MILL MYSTERY.

By My Father.

Long ago, before your father was able to go to school, we lived in a small village near the village of Mill. I was the youngest of the family, and therefore I was the one who had to her. I remember the day when the watermill was turned on for the first time. It was four years ago, and we all went down to the mill to see it work.

It was the first time I had ever seen a watermill, and I was very excited. But as soon as the water began to turn the wheel, I was afraid. I had heard that the wheel would go round and round, and I was afraid it would catch my hand. But my father reassured me, and I went back to the house.

I remember how we all sat by the window, watching the wheel go round and round. It was the most beautiful thing I had ever seen. I never forgot that day. And I never forgot how my father comforted me when I was afraid.

We were not afraid of the watermill, but we were afraid of the stern man. He was a strange man, with a dark, drooping mouth and ahorror in his eyes. He never smiled, and we did not like him.

Once, one of the millers was working on the machine. I remember how he stammered when he saw me, and how he ran away. I have never forgotten that day. It was a terrible day, and I have never been able to go to the mill again.

My father was a stern man, but he was kind to us. He always protected us, and he always stood up for us when we were afraid. I will never forget how he taught me to be brave.

I hope you will never be afraid, my dear. And I hope you will never forget how your father protected you.

Your loving father,
