

SOD BUSTIN' — Frank Wise, tall board chairman of Dimmitt Wheat Growers, Inc., bends 'way over to break the first shovelful of ground Saturday afternoon for the cooperative's new \$10 million corn milling plant in East Dimmitt, while his fellow directors await their turns with the short, chrome-plated shovel. From left are Jerome Brockman, James Welch, George Bagwell, Robert Benton, Houston Lust, Anthony Acker, Calvin Petty, Morgan Dennis and Philip Haberer. Actual construction of the mill will begin in January, and production is scheduled to start in 1970.

New Corporation to Run Corn Mill

Dimmitt Wheat Growers, Inc., has formed a new management corporation to operate its corn milling plant, market the plant's products, and oversee the cooperative's elevator and farm-store operations.

THE NEW firm is the Dimmitt Management Co., Inc., and uses the contracted name of DIMACO.

Formation of the new management company was approved by members of the cooperative Saturday at their annual business meeting in Dimmitt High School auditorium.

President of DIMACO is Aaron Isaacs, who's been general manager of the cooperative for the last 11 years and was one of the guiding hands in the \$10 million corn mill project.

Executive vice-president of the new corporation is Jim Harsh, former board member of Union Starch & Refining Co. of Columbus, Ind., who has been an executive in the wet-milling industry 22 years.

The name of a third officer of the new firm cannot be made

public until later this month.

DIMACO's main mission will be to hire the employees of the corn milling plant, supervise the plant operation, and organize the sales force to market the locally produced corn syrup, starches, corn oil and cattle feeds through retail outlets in the South and Southwest.

THE ELEVATORS and farm store will be supervised by department managers hired by the new corporation, with board approval.

DIMACO was formed mainly to assure the financial backers of the \$10 million corn mill that the plant will be operated over a long term by a fixed management, instead of being under the sole management of a fluctuating board of directors.

However, most actions of DIMACO — as well as the hiring and firing of its executives — will be subject to the board's approval.

THE NEW firm is under a 12-year contract to operate the corn mill and market its products for a fee of 12½ cents per bushel plus

5 percent of the mill's net profits. Thus the company will have a budget of more than \$400,000 a year to operate the plant at full capacity, then will receive 5 percent of the net profits after the owners of first preferred stock have received their dividends.

Jimmy Ross, attorney for the cooperative, told members at Saturday's annual meeting, "You're hiring a corporation as your general managers for the different operations of the Dimmitt Wheat Growers. They're paid a set fee . . . and from this they are to provide the plant management, marketing, research, hiring of plant personnel, and all other duties of processing and marketing your corn products.

"They have the obligation to produce," Ross continued, "and if they don't, their contract can be terminated. The terms of the contract not only puts the obligation upon the management company to operate the plant, but also to make Dimmitt Wheat Growers a net profit."

Merle Rogers, vice-president of

the Houston Bank for Cooperatives, the major financier of the new mill, told DWG members, "You're entering into a field here that's a highly specialized field. We were quite concerned that the operation of this plant be a continuing one with top people during the term of our loan.

"So this was the contract set-up that the board of directors and the bank arrived at," he said, "to assure that we know who's going to operate it before we lend the money, and also to assure that membership retain the ultimate control of the plant and the cooperative."

HARSH, THE new executive vice-president of DIMACO, complimented DWG members on "the way you went forward" on the mill project, and added, "I'm certain that this is going to be the first start of a tremendous new industry for this area."

Jay Olneck of Mexico City, chief engineer of the project, who has been in on the construction of six wet-milling plants in the US and Canada, told members that the

new Dimmitt plant "will be as modern as we know how to build."

Olneck added: "This plant will produce on the most competitive cost basis, and it will yield starch products of a whiteness superior to that of your competitors. This will be quite important . . . I'm personally supremely confident that this plant will exceed even your most optimistic predictions."

The annual audit report by Bill Sims of the Edwin D. Merriman Co. showed that the cooperative lost money last year — mainly because of the severe drop in government storage that has hit all elevator companies.

"But this loss situation was anticipated several years ago," Sims said, "and this is one of the reasons we're building the starch plant."

IN their annual election, DWG members favored Carl King and incumbent Philip Haberer for the senior board, and elected George Sides, Robert Huseman and Elbert Summers to the associate board.

Ground Broken Saturday On \$10 Million Project

"This is a first in the nation and we're proud of it," said Frank Wise, chairman of the Dimmitt Wheat Growers board, just before he turned the first shovel of earth Saturday afternoon in the ground-breaking ceremony for the cooperative's \$10 million corn milling plant.

WISE WAS referring to the fact that the local mill will be the first in the nation to be built and owned by a cooperative.

The mill will be one of the most modern in the world, processing some 10,000 bushels of corn per day into syrup, starch, oil and high-protein cattle feed. Because of its automation, it will employ only 70 people — about one-fourth the number needed for present-day plants with the same capacity.

Stockholders in the new plant will be those members who own

corn contracts. In addition to growing corn and selling it to the mill at market price, they will share in the profits of its products.

THE ground-breaking ceremony timed to tie in with the cooperative's annual business meeting, actually jumped the gun. Construction won't begin until January.

The mill is expected to be completed in January 1970, in time to process the 1969 corn crop. Plans call for doubling its capacity with a second unit in 1973, and eventually quadrupling its initial capacity during the next 20 years, giving it an eventual grind of 40,000 bushels of corn and grain sorghum per day.

MAIN SPEAKER at Saturday's ceremony was Rev. Jim Pickens of the First United Methodist Church, who said the ground breaking symbolized "the turning

of something new and constructive and hopeful" in the county.

Rev. Pickens said that as the world becomes more complex through technology and science, "it falls the responsibility of us to see that this progress is utilized for the benefit of mankind."

"We must still think through the question of why we produce food and fiber," he said. "Our final accountability on earth will not be how much money we made, but how we lived up to our responsibilities as tillers of the soil."

Also speaking at the ground-breaking ceremony were Mayor George Bradford and Dr. J. D. Blackburn, Chamber of Commerce president, who commended the members of the cooperative on their mill project and pledged the support of the city and chamber to the new industry.

Fire Inspection To Get Tougher

City fire inspections will be much tougher for Dimmitt businesses from now on, Fire Marshal Guy Waldrop said this week.

NEW STATE fire ordinances call for more detailed inspections and a "hard-nosed" attitude toward fire hazards on the part of city fire inspectors, Waldrop explained.

Using a new inspection form, Waldrop will now make a close check on each business building's floor, walls, ceiling, wiring, fuse box, number and location of trash receptacles, fire extinguishers, exits, furnishings, flammable materials, and other potential fire factors.

The business owner will be given a duplicate copy of the inspection report, with an official request to correct any hazards noted, and must sign the report to certify that he has received it.

"WE'RE HAVING to make our inspections more thorough and our reports more specific because of

a new order from the State Fire Marshal's office," Waldrop said. "We must conform to the new ruling or the city could lose its 'key rate' (fire insurance) reduction."

The new state ruling also provides for punishment of fire marshals not following the new, tougher code, Waldrop said.

Each business in the city must be inspected at least once a year, and preferably more often than that, the fire marshal said.

HOMEOWNERS also can have their homes inspected for fire hazards — although they don't have to.

"Anyone wanting his home inspected may call the fire department and we'll be glad to provide the service," Waldrop said. "Inspection of a home is voluntary on the part of the owner, and no tickets can be issued for fire hazards. We will only point out the hazards so you can correct them for your own safety."

Stockmen to Hear 'How To' Tuesday

Dr. Lowell Schake, area livestock specialist with the extension service, will be the featured speaker at a livestock management program Tuesday night in the community room of the First State Bank, Charles Hottel, county agent, announced this week.

THE PROGRAM begins at 8:15 p.m.

Dr. Schake will discuss all phases of management of stocker cattle, including proper handling, health, feeding, nutrition and marketing.

Local individuals who are recognized as being successful in the livestock industry will also be on a special panel for the program. On the panel to answer questions will be G. L. Willis, Floyd Cole, D. H. Shottenkirk and David Bachtel.

"As many as 100,000 head of cattle will be coming into the county this fall to graze wheat, beet tops and stalk fields," Hottel said. "This represents a sizeable investment, and a stocker operation is a high risk operation requiring a high level of management."

New Bank In Offing?

A group of Dimmitt, Muleshoe and Amarillo businessmen are seeking to charter a new bank in Dimmitt.

PLANS FOR the proposed new bank were revealed to the News this week by a spokesman who said that more than half the stock for it has already been subscribed.

If a charter is granted, the bank's capital structure would be \$600,000, including \$250,000 capital, \$250,000 surplus and \$100,000 undivided profits, the spokesman said.

He added that the group plans to restrict its stock sales to residents of Dimmitt and its immediate trade area.

ELECTED TO A temporary board of directors last week were Weldon Bradley, F. J. Mears Jr., Jack Gregory and Dr. Charles Vandiver, all of Dimmitt; Verney Towns and J. P. Shelton of Muleshoe; and J. D. Brown of Amarillo.

Bradley is a Sunnyside farm operator and petroleum products distributor, Mears is a Dimmitt Farm operator, Gregory is the owner of Castro County Grain Co., and Dr. Vandiver is a Dimmitt dentist. Towns is a Muleshoe farm operator and businessman, and is also on the board of the Muleshoe State Bank. Shelton is executive vice-president and director of the Muleshoe State

Bank. Brown is with an Amarillo advertising firm and has been in banking 15 years.

CONRAD Werkentin, Austin attorney, has been named correspondent for the group.

"Quite a bit of work has already been done in connection with the project, and interest in the bank is picking up daily," the spokesman added.

The group has opened an office in the Rawlings Hotel building.

THE COUNTY is presently served by two banks — the First State Bank of Dimmitt, with a capital structure of \$1,233,663.98, and Farmers State Bank of Hart, with a capital structure of \$227,357.34.

APHIDS are invading fields in Castro County, and 50 planes are fighting back.

A phenomenal invasion by summer aphids is bugging Castro County growers.

THE GREENBUG — as it is commonly known — is "in every maize field in the county and is now invading the vegetable patches," according to Mrs. M. A. Tidwell of Tidwell Spraying Service.

Carl Bruegel called in sprayers because "the bugs are standing in the rows waiting to eat the lettuce that is coming up," according to Mrs. Tidwell.

Mrs. Aural Davis of D&D Aerial Spraying reported that one of several pilots brought in from other areas was given a special leave from his station with the US Army in El Paso to help with the spraying job. Harley Wilke sprayed with D&D during a special two-week leave. Three other pilots came in from Perryton to help D&D pilots, who are dusting "from dawn to dusk," according to Mrs. Davis.

"THEY ARE using their landing lights to land after they finish spraying because they are spraying until so late," Mrs. Davis added.

Although the greenbug is the biggest problem to plague young wheat in the winter, no one can remember anything like a summer infestation, Gary Herzog, entomologist at Dimmitt Wheat Growers, said.

Area farmers in most cases have brought the greenbug back under control from the extensive air attacks, but the bug is still around in tremendously high numbers, Herzog added.

"WE JUST don't know what is causing it," Herzog said.

The aphid sucks the plant juices, and also injects a toxin attacking most grassy plants, including Sudan and Johnson grasses.

"But the sucking is the worst action by the aphid since that causes the most damage," Herzog said.

ALTHOUGH the aphid has been reported in most areas of the county, Herzog and sprayers said they noticed a trend of infestation from west to east in Castro County.

"Many farmers in the eastern part of the county are now beginning to report an increasing number of the aphid," Herzog said. "The north and the west seem to be the hardest hit for a while,"

"We have had up to five planes spraying steadily for two weeks," Mrs. Davis said.

D&D has been using three planes at a time to spray individual patches to speed up the at- (See "Aphids Invade" Page 6)

Pageant Field Climbs to 22

Six beauties eyeing increased scholarship awards Wednesday rushed to meet today's deadline and joined 15 other girls who had filed earlier to participate in the Miss Grain Sorghum of the Nation Pageant in Dimmitt Aug. 10.

ENTRY blanks must be postmarked no later than midnight tonight (Thursday), Robert Benton, pageant chairman, said. The Castro County Chamber of Commerce has conducted a multi-state recruiting campaign in its effort to attract entries to the annual Dimmitt pageant.

The pageant is open to all unmarried girls 17 and over who

live in any grain sorghum-producing state.

Scholarships have been doubled for the 1968 pageant. The new Miss Grain Sorghum of the Nation will pocket a \$1,000 college scholarship. First and second runners-up will get \$500 and \$250. "Miss Congeniality" will receive a \$50 bond.

GIRLS WILL compete in talent, swim suits, formal wear and interviews. They will begin their briefing and rehearsals at 1 p.m. Friday, Aug. 9, and the pageant will be staged at 7:30 p.m. Aug. 10, in Dimmitt High School auditorium.

Master of ceremonies will be Loyd Call of Eastern New Mexico University in Portales, and one of the pageant judges will be Miss Texas of 1967, Molly Grubb of Fort Worth.

THE new "Miss Grain Sorghum of the Nation" will attend field days, grainmen's conventions and special events during the year as a good-will ambassador of the nation's grain sorghum industry.

The reigning "Miss Grain Sorghum" is Diane Bryant of Muleshoe, a freshman at Texas Tech. Other past winners have been Bonita Hone of Dimmitt in 1960, Donna Beyers of Dimmitt in 1961, Sandra Stargel of Pampa in 1962, Ruth Guthrie of Memphis in 1963, Cheryl Poteet of Olton in 1964, LaNelle LaFont of Muleshoe in 1965, and Linda Morris of Ulysses, Kan., in 1966.

Pony All-Stars Are Eliminated

Castro County's junior baseball season officially ended last Thursday night when the Pony League All-Stars were eliminated from the district tourney in Hereford with a second loss to Littlefield.

FINAL SCORE in the survival game was 12-6. Littlefield finished second in the district tourney, behind Borger.

Earlier, the Dimmitt and Castro County Little League All-Stars and the Tri-City Colt All-Stars were eliminated in their respective tournaments.

Aphids Invade Fields; 50 Planes Fight Back

Mrs. Tidwell said, "But our planes have now been moving into Nazareth and Hart."

THE INTENSIFIED spraying action began about two weeks ago, local spraying services reported.

Donny Stokes receives medal near Danang. Now the most-decorated man in his battalion.

Donny Stokes, son of Mr. and Mrs. N. B. Stokes of Dimmitt, received the Bronze Star with Combat "V" and two other medals after sustaining wounds near Danang, Vietnam, June 2.

THE 25-YEAR-OLD Navy Medical Corpsman was hospitalized after he was wounded while rescuing and rendering first aid to two buddies under heavy fire.

Stokes described the presentation of the three medals in a letter to his parents.

"I was the only one to get any medals during the (battalion) formation," Stokes explained, "and I got the Bronze Star with Combat V, the Navy Commendation Medal with Combat V, and the Purple Heart."

"THE COLONEL gave a long speech about me and needless to say, I was very proud. That makes me the most decorated corpsman in our battalion."

As the most decorated man in the battalion, he will not see field action again, Stokes explained. He added he will probably return to his camp in Phi Boi.

Stokes joined the Navy in July 1966, after one year at Texas Tech. He graduated from Dimmitt High School in 1965.

HE HAS been stationed in Vietnam since Dec. 11, and is due to return next December.

Grain Sorghum CHAFF Have A Pickle

By WES ANTHONY

Well now that we have figured out our meat and bread, each of us can have, let's have some cucumber pickles to go with our meals.

THERE were 600 acres of cucumbers planted in the county this year or an estimated yield of eight million pounds, almost a pound of pickles for each person in Texas.

It takes one and one-half persons per acre to take care of these cucumbers. That means 900 people (for pickles only) and most of these people are living in town and spending their money here, thanks to our housing project east of town.

IF ALL the peoples of the world would obey one commandment given in the good book we would have most of our problems taken care of.

This commandment is "That we love one another."

Perez Finishes Basic Training

Army Private Juan J. Perez, son of Mr. and Mrs. Joe Perez of Dimmitt, completed nine weeks of advanced infantry training July 5 at Fort Gordon, Ga.

His last week of training was spent in guerrilla warfare exercises.

DURING HIS guerrilla training, he lived under simulated Vietnam conditions for five days, fighting off night attacks and conducting raids on "enemy" villages. He was taught methods of removing body traps, setting ambushes and avoiding enemy ambushes.

Other specialized training included small unit tactics, map reading, land mine warfare, communications, and firing the M-14 rifle, M-60 machine gun and the 3.5-inch rocket launcher.

SS Field Man Sets Schedule

Gerald Millard of the Amarillo Social Security office will be in Dimmitt to assist Castro County residents Aug. 14 and 28 at the courthouse.

Social Security Affects Clergy

Clergymen are asking how recent changes in the social security law will affect them, according to Travis C. Briggs, manager of the Amarillo social security office.

"THE INCOME from a clergyman's ministry is covered by social security beginning with 1968," Briggs says, "unless the minister signs a statement that he is opposed to being covered by reason of religious principle or conscience."

"Clergymen who elected coverage under the previous law will not be affected by the new amendments and will continue to be covered. Members of religious orders who have taken a vow of poverty will not be affected by the new provisions."

"Clergymen who may be opposed to this coverage must file an application for exemption and a special statement with the Internal Revenue Service by April 15, 1970. If he enters the ministry in 1969 or later, he will have until April 15 of the second year after the year in which he became a clergyman to request exemption."

"A CLERGYMAN will report his income and make his tax contributions as if he were self-employed, even though he may be working as an employee."

Bible Thoughts

KNOW YOUR BIBLE

By Ronnie Parker

If the Bible does not contain God's revelation to man, then there is no divine revelation of truth. If God has not made known His will in the Bible, then we know not the will of God. If God has not spoken here, then no man has ever heard His voice. We do not know who we are, where we came from, why we are here or where we are going.

But the Bible claims to be inspired. "But men moved by the Holy Spirit spoke from God" (2 Pet. 1:21). It is a revelation from God to man. It is the supernatural communication of things that man could never learn by natural means. It reveals man's origin, God's character, how man can be saved, and the immortality of the soul.

The Bible is God's book. His new covenant, revealed in the New Testament is the "everlasting covenant." We must study it, follow it, and obey it. For there we learn of God, man, sin, Christ, salvation, condemnation, and eternal life.

We offer a free eight lesson Bible correspondence course that will help in your Bible study. Send us your name and address and we will send the first lesson.

IN
MOTHER'S
FOOTSTEPS

What joy in life is seen in those eyes. That smile is given freely to everyone. Now look at them both. Which one am I talking about? Aren't they both the same? No, she's not an exact, carbon copy, of her mother — for when you look again, you see that there is a generation between them. She wears the bright colors in her dress with the cute designs. Her dreams are different than her mothers. She is more outgoing. Yet in the mother you can see a quiet humor and in her closeness to her daughter, a gentle protectiveness. Her mother's dreams are sometimes too ambitious, but in the "Encouragement Department" she works just fine.

There is one dream and ambition they both have, however; and that is to be like our Lord and Saviour Jesus Christ, and to be of service to the church. Their goodness is of God.

"For the eyes of the Lord are over the righteous, and his ears are open unto their prayers; but the face of the Lord is against them that do evil." 1 Peter 3:12.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

4-H'ers Attend Electricity Camp

By IRENE KEATING

Last week at 4-H electric leadership camp we had a real good time. We went on hikes, participated in sports tournaments and night recreation. We did folk games and square dances each night then had a devotional. Each day we attended group sessions. They were taught by representatives from Southwestern Public Service.

convenience outlets, lighting and circuits. In a large group we were shown a miniature power plant and each of us made a trouble light. After the lights were completed each member of the camp received a certificate from Southwestern Public Service. Friday we came home — tired and happy.

TODAY is the District 4-H Dress Revue. Marilyn McLeroy is competing for the trip to state. Sue Smith and Patty Hochstein are modeling their garments. Diana Adams is there also.

★
JUST A reminder to those of you who want to re-seed or plant your lawns: This is the month to plant lawns. Also some spring flowering bulbs need to be planted now.

★
MANY OF you are busy canning now. Last weekend I made a batch of grape jelly. Why not use some extra fruit you have for jelly, jam, or preserves. There are two good bulletins available, "Sweets for the Family Table" and "How to Make Jellies, Jams and Preserves at Home."

If you want them, call or come by. Much freezing is done now that so many of you have home freezers. We have a revised publication "Frozen Foods. How to Freeze, How to Cook" which is excellent for a freezing reference. For those of you who can, we have the USDA bulletin "Home Canning Fruits and Vegetables." If any of you need any help, feel free to call on me. I haven't done any canning this year but I have made pickles, jelly, and frozen quite a variety of foods. If any of you have any helpful hints that would save the rest of us time in food preservation let me know so I can share the information with you.

LONE STAR FARMER — Bobby Schulte, son of Mr. and Mrs. Ray Schulte of Nazareth, received the Lone Star Farmer Degree last week, at the state convention in Lubbock. Schulte is a member of the Future Farmers of America Chapter, attended Boys' State this summer and is active in football and baseball. Schulte is a junior at Nazareth High School.

The View from Your Library

By VIRGINIA NEWSOM

This is a reminder to all boys and girls who have signed up for the summer reading program. Our 10 weeks will end on Aug. 15. At this time, all of the names of those who have completed the 12 book requirement will be sent to Texas State Library. Please don't lose out on receiving your certificate, because you didn't read the final book or two that it takes to finish the program.

THE CERTIFICATES will be presented at the library on a date to be given later in this column. The library has checked out nearly 800 books in July up to

the 25th, so perhaps it will reach the 1,000 mark before the month is finished.

It is hard to realize that school will be in session once again in a few short weeks. The summer has been a busy one and a happy time for us. We have had many young visitors this summer and have enjoyed each familiar face and gotten a special pleasure from seeing many new ones.

WE ARE finding it necessary to start once again sending out overdue notices and making phone calls on overdue books. If you have a book that needs to be brought in please take the time to bring it down. If you keep a book too long, this deprives another person of the pleasure of reading the book you have. We understand vacations etc. interrupt normal activities but try to get your books in on time whenever possible.

Quite a few people have been taking advantage of the paperback shelf and many new books have been added. If you would like to use this shelf or add to it please feel free to do so.

Some very good books have been given to the library recently. Mrs. Lynett Riels, Mrs. Shirley Wise, Mrs. Francis Perkins, Mrs. Mary Acker and Mrs. Margaret Womack have given us some very good adult fiction recently and we appreciate these gifts so much. One of our junior friends, John Brooks made us a gift of a junior fiction book this past week. We thank John very much. He's one of our faithful young readers as well as his sister Patricia who have both worked hard on finishing the reading program.

A PASSING thought for the week:
Read at least one book this week.
Store up facts to treasure.
You may find the things you seek
I know you'll find pleasure.

6-Year-Olds Stage Mass Snooze-In

About 100 6-year-olds are sleeping late today for the first time on a weekday since the Summer-Head Start program began in Dimmitt June 6.

THE PRE-SCHOOL 40 - day orientation ended Wednesday after prospective first-graders got a taste of what life will be like beginning Aug. 29 when regular fall classes begin here - catching the bus sometimes as early as 6:30 a.m., washing and putting up with teachers.

But for some, the academic life isn't so bad - and a few are even looking forward to fall enrollment. After all, there is plenty of time for sleep during the bus ride into town.

At Water Conference West Texan Represents Texas Need

State Representative Bill Clayton of Springlake is representing Texas at the Southern Water Resources Conference, in Miami Beach, Fla., Wednesday through Friday.

CLAYTON, who is chairman of the Interim Water Committee of the House of Representatives, and Representative Menton Murray of Harlingen, chairman of the House Committee on Conservation and Reclamation, were designated to attend the conference by House Speaker Ben Barnes. Clayton is also chairman of the House Committee on Counties.

The Southern Water Resources Conference is affiliated with the Council of State Governments and Interstate Conference on Water Problems.

Barnes said the conference is especially important to Texas because much of its business will be devoted to assessing and meeting water needs of the future and maintaining water quality, both of which are becoming of major concern to the state.

"I KNOW of no one better qualified to represent Texas at this conference than Bill Clayton," Barnes said. "He has worked long and hard to help the state solve its water problems and I know he will gather additional information to aid the state at the Florida meeting."

Clayton is serving his third term as the representative of Legislative District 78, which includes Castro, Deaf Smith, Lamb, Oldham, Parmer and Bailey Counties.

Tech Plans 'UFO Show'

One of the most unusual sights observed by stargazers is a complete mystery to astronomers. They have been called unidentified flying objects, or UFO's.

VISITORS to Texas Tech's Planetarium during August will have a chance to observe several UFO's as reported by observers and hear something of the present state of affairs on the UFO mystery from Project Bluebook to serious reviews by popular authors. Are they natural phenomena, unexplained astronomical events,

or do they perhaps represent artificial objects. "Flying saucers," visitors from beyond the earth, or even from beyond our vast solar system?

The public is invited to explore the UFO mystery each Sunday at 3 p.m. at the Planetarium at West Texas Museum. Admission is 50 cents for adults and 25 cents for students. Parking is available in the museum parking area on the Texas Tech campus.

EVEN ancient people observed UFO's as they are reported in many early sources, including the

Bible. In recent years many men have spent long hours trying to find out just what the strange things are that whiz unexpectedly through the sky on some nights.

Most people think that a UFO is a "flying saucer," and, in fact, some people have reported going aboard space ships from outer space. On the other hand, many UFO's have been confirmed as hoaxes and optical illusions, but there has been entirely too much reliable information about these strange objects to discount them entirely.

Thursday and Friday will be a two-day get-acquainted party during the formal opening of the Village Shop in Dimmitt under the new management of Mr. and Mrs. C. B. Hickey.

PUNCH, coffee and cookies will be served and guests will be registered as the staff of the Village Shop greets visitors. Mrs. Juanita Fuller and Mrs. Rose Acker of Dimmitt will continue with The Village. The reigning Miss Dimmitt, Sharron Flynn, is also a summer employee. Mrs. Acker also does alterations

on store merchandise for the convenience of shoppers.

The Village opens at 9 each morning catering to fashion-minded women in sizes from 3 petites to 24 and a half. The store will continue its many popular lines and Mrs. Hickey is constantly planning to add other favorites.

In time for the grand opening, she has added Jon-McCawley, the junior line of College Town, Eva-Lo-Cog and a new line of Marco Polo suits. Fall fashions are arriving daily in time for college wardrobe needs.

What Are Odds Your Tax Return Will Be Checked?

There is one chance out of 124 your place of business will be field audited, if you file a 1040 income tax form, according to Mrs. Doris Myers of the Extension Service.

THE Commissioner of Internal Revenue reported to the treasury secretary on its 1967 activities, saying his number compares with one out of 121 chances in 1966.

For the Internal Revenue Service to audit your tax form in its office, the chances are one out of 30 compared with the previous rate of one out of 26.

Mrs. Myers noted that more individual returns showed mathematical errors than in fiscal 1966. Errors in favor of the taxpayer averaged \$87, compared with \$63 in favor of Uncle Sam. The previous year was \$91 to \$58.

FIGURES also show more taxpayers are refusing to accept examining agents' claims for additional taxes and are appealing their disputes to the Appellate Division of the Treasury. The settlements averaged about 31 percent of deficiencies claimed by the treasury.

But it doesn't seem to pay to go to court, says Mrs. Myers. In the tax court's decisions during fiscal '67, the treasury won 230 cases, while taxpayers were victorious in only 77. The won-lost ratio in the court of claims was about even, but in the district court, taxpayers won only half as many cases as the treasury.

Mrs. Myers says it is considerably less difficult now to appeal to successively higher authorities with a tax disagreement with Revenue agents.

THE FIRST step is an informal hearing before a district conferee, and then, if there is no agreement, a hearing before the appellate division. If the dispute involves less than \$2,500, no formal written protest is required at either level. This is much simpler than the past system of requiring a formal protest to get a hearing at the appellate division level.

Mrs. Myers says that of course, this new procedure is not necessary, even in cases involving under \$2,500, if the person feels filing a formal protest will help this case.

BESIDES business meetings, the couples' activities included a day-long tour of NK's research and experimental farm at Eden Prairie, a Bar-B-Que and sweet corn dinner at the farm, attendance at a Minnesota Twins' double-header baseball game and touring and shopping in the Twin Cities.

Hunt is a territory manager for Northrup, King & Co., the nation's largest general seed firm.

Bar Association Appoints Moran

Dimmitt attorney Russell A. Moran has been appointed to a State Bar of Texas grievance committee for the 18th District. Bar president Ralph W. Britz of San Antonio announced this week.

THE COMMITTEE has jurisdiction over 28 counties. State Bar director Floyd H. Richards of Dalhart is an ex-officio member of the group.

Liquor Dealers Meet With LCB

Liquor Control Board officials met last Thursday with Castro County retailers and wholesalers to discuss existing liquor laws and needed reforms.

ABOUT 15 liquor dealers met with Acting Director O. N. Humphrey Jr. and James Strong of the Marketing and Practice Division in Austin in a special explanatory meeting held at the Castro County Courthouse.

Also on hand for the meeting was Leon Bowman of Lubbock, district supervisor, and Claude Holmes of Plainview, inspector.

Humphrey discussed an educational program to curb liquor consumption by minors. He said warning signs and other advertising of illegal practices with liquor will be part of the educational effort.

THE EDUCATIONAL program will affect parents, also, Humphrey said. He blamed lack of parental discipline for much of the delinquency and minor consumption of alcoholic beverages. The new warning system will include notice to parents of minors consuming alcoholic beverages, he said.

He added that liquor dealers could have the most powerful lobby in the state since the group contributes \$50 million to the state treasury in taxes.

"You have a right to ask for rules and regulations," Humphrey said.

"**SOME OF** the rules and regulations date to 1935 and the industry should make their needs known to state legislators," Humphrey urged.

PLANS OUTLINED FOR NEW BANK IN DIMMITT

To the People of Dimmitt and Its Trade Territory:

A new bank is now being planned for Dimmitt and its trade territory. Quite a bit of work has already been done in connection with the project, and interest in the bank is picking up daily.

If a charter is granted, the capital structure of the bank will be \$600,000, broken down in the following manner: \$250,000 Capital, \$250,000 Surplus and \$100,000 Undivided Profits. Of this amount, over half of the stock has already been subscribed.

A temporary board of directors was elected this past week, consisting of Weldon Bradley, F. J. Mears Jr., Jack Gregory and Dr. Charles Vandiver, all of whom are from Dimmitt and the immediate area, Verney Townsend and J. P. Shelton of Muleshoe and J. D. Brown of Amarillo.

Bradley is a lifelong resident of Castro County, living in the Sunny-side Community where he is engaged in the butane and farming business. Mears is in the farming business and has made Dimmitt his home since the mid-1940's.

Gregory is the owner of Castro County Grain Company, and has lived in Dimmitt since the 1920's. Dr. Vandiver has a dental practice in Dimmitt and has made his home here for the past 14 years.

Townsend is a farmer and businessman in Muleshoe, and is also on the board of directors of the Muleshoe State Bank. Shelton is executive vice-president of the Muleshoe State Bank and also a member of the board of directors.

Brown is with an advertising firm working out of Amarillo, but has had some 15 years' previous banking experience. Conrad Werkenthin, an Austin attorney, has been named correspondent for the group.

A temporary office is now located at the east office of the Rawlings Hotel Building. The telephone number of this office is 647-3143.

Deadline Near for Certification

By CHARLEY E. HILL

August 15 is the final date to certify acreages under the cotton and feed grain programs.

The first checks will be released Sept. 2.

MEASURE, don't guess — An error in excess of more than the larger of two acres or 5 percent of the allotment or feed grain base, not to exceed 15 acres, or a shortage in diverted acres, will result in loss of all program payments on all commodities on the farm. Errors found by spot checks after Aug. 15 within the allowable tolerance stated above, will require a reduction in payment equal to three times the diverted acreage payment for the commodity in error. Remember — it is more important to have enough diverted acres than it is to have all your permitted planted.

COTTON LOANS MATURE JULY 31. You may sell your equity or pay off your loan any time before 5 p.m. on July 31. The money for the loan repayment must be in the county office on July 31. Be sure to check with your cotton merchant if you still have any cotton under loan.

USE OF DIVERTED ACREAGE: Windrowing cover crops planted on

FFA Boys Plan Swim Party

Future Farmers of America and boys who plan to join the FFA club at Dimmitt High School will have a swimming party at 5 p.m. Thursday at the school swimming pool.

Watermelon will be served.

diverted acreage will be considered as harvesting, you may mow or shred the acreage and it will not be considered as harvested. If you have any type of feed grain on diverted acreage it must be turned under before you certify. Noxious weeds must be controlled on diverted acres. Approved cover crops to be grazed beginning Oct. 1.

CROSS COMPLIANCE: In order to be eligible for a feed grain payment on one farm you cannot exceed your total feed grain base on any other farm in which you have an interest.

1968 WHEAT PROGRAM: 1968 wheat allotments were mailed July 22. Farm allotments will be reduced 13 percent from 1968.

Key factors in the 1968 program are: (1) Minimum diversion — 15 percent of the 1968 farm allotment. No diversion payment is available for the minimum diversion. Diverting only the minimum requirement will not reduce the wheat permitted acreage below the 1968 farm allotment. Example: 1968 allotment — 87 acres; (2) Additional Diversion — 50 percent of the 1968 allotment. (3) Diversion payment will be made on the additional diversion. The rate will be about 63 cents per bushel times the farm yield. (4) Wheat certificates will be paid on 43 percent of the 1968 farm allotment. (5) Farm allotments of 21.7 acres or less may divert total allotment for payment. (6) You can substitute between wheat and feed grains on a farm if you sign up in both programs. (7) If your farm has a barley base you can, upon request at sign-up, substitute wheat for barley by diverting 15 percent of the barley base. No diversion payment or price support payments are available for barley.

Red Barn Chemicals Revamped; Hardison Heads New District

The complete reorganization of Red Barn Chemicals, Inc., a subsidiary of Sunray DX Oil Co., was announced in Tulsa this week by H. T. Snider, Red Barn's president.

SNIDER SAID a detailed analysis of the Red Barn setup pointed out two things, "Our market-the branch and satellite station concept, was not the most efficient and our existing supply system was not taking full advantage of our opportunities.

"Red Barn has set the goal of being the best marketer in the agricultural chemicals business," he said. "To be the best we must also be the most efficient. This is why we reorganized the company, and this is why I'm convinced we can meet our goal."

To modernize and streamline the marketing operation, eight men were moved from old branch manager positions and promoted to new and expanded district manager jobs. They include David Hardison of Dimmitt, High Plains District; and Alton Pettit of Plainview, South Plains District.

Shelley's Chatter

By MYRTLE SHEFFY

A good way to know your town is take a walk — we walked up Seventh St. to the hospital road and back down Eighth and saw Brad and Juanita Fuller who have built a new fence in the backyard.

They have set out some new roses and Brad was out hoeing weeds. Earlene and Bob West across the street were worrying because the grass does not grow. And Claude Millsap was mowing his grass so fast he did not see us. Claude is managing Ben's Store while Ben and Bernice Hill pick cherries in Montana. On down the street, the Carliles watered plants and painters had just completed a paint job. I went pop calling on Lee Street Thursday but everyone was gone so I went downtown and saw Genita Dunn. She and husband, Jacky, who live in Greenville this summer, are here to visit the Fred Dunns and Jim Aldridges. The Jacky Dunns will be students at East Texas State University in Commerce this fall.

This has been a week in July for ice cream parties — quite a crowd of young married folks, two Sunday school classes, met in the Methodist Church fellowship hall last Thursday evening for han-

burgers and ice cream; Tuesday a big bunch of the older crowd did the same thing; Friday evening, the friends of the Russel Nelsons took ice cream and cake out to the James Bradfords home where Josie fixed a money tree. Alice has taught school for several years and is an artist of some note using oils for her pictures. She helps with the back stage direction of the Lions Follies. She said Para Render, wife of Glen Render, is also in WTSU working for a masters degree. Mrs. Render is a school teacher here also. I saw Glen Render mowing his grass. He says he is sick and tired of being retired. He owned City Drug Store, so I guess even golf gets tiresome.

Elizabeth Huckabay returned to her home here after a visit with daughter, Harriet and her husband, Johnny Goodwin in El Paso. Harriet brought her home and stopped in Deming to visit Mrs. Huckabay's granddaughter, Connie and her husband, Stanley Nelson. Stanley is the son of H. C. and Gail Nelson.

Sis and I and son, Ted and Dorothy, went to the Palo Duro Canyon Sunday evening to see the "Texas" pageant. The sound effects and lighting against that 600-foot canyon wall is great. The ballet dancers in red chiffon and sequins doing the prairie fandance and the wornout cowboys fighting fire were reminiscent of the early days when this land was grass — grass was food for the cows and horses. Do go see "Texas."

Don and June Gladman of Plainview were there with friends, the Fords of Plainview. Also at the pageant were some people from Honolulu, Hawaii. Mr. and Mrs. Cecil Dennis went to Dallas on business and on over to Greenville to visit some friends there.

M. S. Carl King and children are visiting her mother near Los Angeles, Calif. They plan to see Disneyland and all the fun spots. Carl told me that he is going by himself to Red River fishing when they return.

The sermon's introduction, body, conclusion and even the invitation are one chain of Bible quotations from both Old and New Testament passages. First Baptist News

MAN ALIVE!

Who said teenagers are bad? Wash out his mouth with soap! He just didn't know the kids who are meeting at First Baptist this week. Teen time has been a real smasher thus far . . . and more to come.

For example, look at the picture. Dennis Bennett is the name, and the preacher for the Youth Revival is the game. Dennis arrives Friday for the Youth Revival . . . Friday and Saturday nights at 8:00 p.m. in the fellowship hall. You have to be young to be in it — no oldsters allowed.

However, adults CAN catch a glimpse of the scene on Sunday. The teenagers are moving their Youth Revival to the auditorium of the church at 11:00 a.m. and 7:00 p.m.

Many others are a part of it all. Garland Martin who has been helping all week in Teen Time is the Music Director for the Youth Revival. Teenagers will fill the choir Sunday, make the announcements, be ushers, and all the rest. Committee chairmen who have worked on the program for Teen-Time — Youth Revival are:

Sharon Barker, Marsha Baldrige, Karen Lytle, Beverly Newman, Debbie Underwood, and Janice Mooney. Countless others have helped on these committees far beyond the call of duty. To each of them I wish we were able to present a Medal of Honor!

Aren't you glad you know kids like these? See you Sunday.
