

THE ROBERT LEE OBSERVER

VOLUME 36.

ROBERT LEE, COKE COUNTY, TEXAS FRIDAY JAN 29 1926

NUMBER 38

For Cotton Weigher.

The attention of the Observer readers are directed to the name of E. T. Sparks who announces himself as a candidate for Public Weigher, Precinct No. 1 for re-election. Mr Sparks does not come as a stranger, in this business. He asks the people for their support on his merits and qualification. Mr. Sparks is as we all know well qualified to hold the office which he seeks.

When all this snow melts and the hot days of July arrive, we will hear more from Enoch on the stump.

Get Buisy

Unless motorists proceed immediately to the headlight test stations and to tax collectors' offices to attend to their 1926 registrations, there will inevitably occur the greatest last minute rush and jam which has ever been experienced at registration time in Texas. Registration is being delayed to the point where motorists will cause themselves great inconvenience in waiting in the long lines at the test stations and the tax collectors' offices.

January 31st is the last day for payment of registration fees during the regular registration period, and after that date delinquent registrants will be required to pay a penalty of 25 per cent on the total fee.

Motorists can help the test stations and tax collectors tremendously, and save time and inconvenience to themselves, if they will proceed immediately to the test stations and then to the tax collectors for registration.

A Real Fight.

On the war path, yep, sure enough a good fight, you have heard about the fellow going home with his hand on his head and a knot under it, well that's how most of the young folks of Robert Lee and Bronte went home Sunday night. Twenty-two of the young folks of Robert Lee motored to Bronte; was met on the ball park by the young folks of Bronte. They mixed the crowd, then chose up fifty fifty and had a real friendly snow ball fight, which was greatly enjoyed by all.

Some Snow.

All day Saturday and Saturday night it snowed and snowed until it was about seven inches deep all over the county, and some places much heavier. It is thawing out just right, only about four hours a day it melts the rest of the twenty four hour it is too cold to thaw. Resulting in every drop of it going into the ground which gives the farmers a first class season to begin with. And HONEY, oh boy.

Two Accidentally Shot.

The big snow brought two accidents to two of our citizens, Mr. B. F. Hart who lives on the Conner ranch near Silver picked up his twenty two rifle and went out to the barn to kill some birds, the birds flew away just as he cocked his gun, and in the meantime he got some snow on the end of the barrel and reseed the gun to blow it off and had forgotten that the gun was still cocked. It went off catching him in the upper lip coming out by the side of his nose and going in again in his eye-ow between the skull and the skin coming out again about two inches above the eye, and went through his cap. No injure was done to his eye. Mr. Hart is doing well, and not seriously injured, but we call it a mighty close call.

Last Monday morning Ned Thompson of Edith, while out hunting accidentally shot his foot with a shot gun, the shot entering the top of his foot near the middle and going completely through. Mr. Thompson will get over it, while he will likely always have a crippled foot.

Radio Contest.

"What Radio Means in Our Farm Home" is the subject of a contest among farm radio listeners which has just been announced by the Sears-Roebuck Agricultural Fountain, Dallas. Ten prizes totaling \$100 are offered for the best farm radio letters, to be divided as follows: first, \$25; second, \$15; third, fourth, fifth and sixth, \$10 each; and seventh, eighth ninth and tenth, \$5 each. The letters are limited to 500 words.

Judges who will select the winning letters in the competition are: Frank Briggs, editor of Farm and Ranch; Eugene Butler, Editor of Progressive Farmer; and O. M. Lowry, editor of the Texas Farm Bureau News. All letters must be post-marked not later than midnight, February 14, the closing date of the contest. They may be addressed to Contest Editor, R. F. D. Club, Station WFAA, Dallas.

"Letters submitted in the contest should give concise reasons, based on personal experience, on what radio means in the farm home," stated A. K. Short, chief of the foundation, in announcing the contest. "What is wanted are plain statements of facts on the farm radio that anyone on the farm knows who has had experience with the invention."

Rev. Robert Milam of Brownwood will preach at the Second Baptist church next Sunday at 11 a. m. Bro Milam is the son of the present pastor here. He is working in the interest of the indowment fund of the Howard Payne College. Hear him.

Mistakes.

When a Plumber makes a mistake he charge twice for it.
When a Lawyer makes a mistake he has a chance to try the case again.
When a Carpenter makes a mistake it is just what he expected.
When a Judge makes a mistake it becomes the law of the land.
When a Preacher makes a mistake not many knows the difference.
When a Doctor makes a mistake he buries it.
But when the Editor makes a mistake—good night.

An Important Letter

Below is a letter which we received Wednesday from W. F. Robinson of Lamesa, Texas. Mr. Robinson's letter is so interesting that we pass it on to our readers, needless to say we cheerfully put the check in an envelope and sent it back to him, and marked him up on the Honor Roll. The Editor gets ten times as much real joy out of the Honor Roll as some might think. And when one writes a letter like the one below it makes us feel still more proud of the old timers that has stayed by the paper through thick and thin, read it.

January 25, 1926,
Editor of the Observer
Robert Lee, Texas.

Dear Sir:

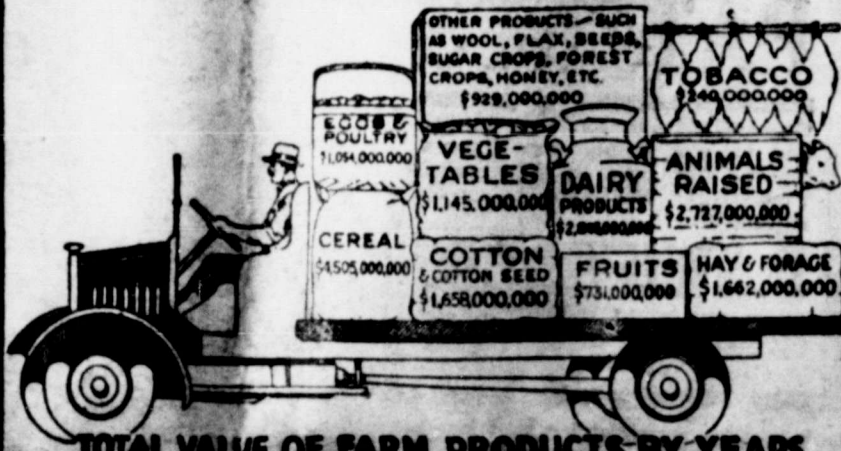

My paper failed to make its appearance during the new year which indicates that my subscription might have expired. I therefore, enclose my check for \$1.50, as an inducement to get it started again. I have read the paper, with the exception of a few short intervals, since it first made its appearance, at old Hayrick. As the Coke County News. Have seen it change hands many times, as well as names a couple of times, and have always regarded it as a letter from home.

My father settled in the Fort Chadbourne country during the year 1879, when I was a small kid, and having made that my home until the year 1906, and having lived in the first house made of pine lumber, which my father built, that was erected in the territory embraced in Coke County; and my sister, Mrs. G. W. Hannaford, who lives on our old home place, being the oldest native born continuous resident in Coke County having first seen the light of day February 1, 1890, I naturally feel an interest in old Coke. Romance and tragedy is weaved in her early history. De Baca's expedition from the Santa Fe to the Matagorda bay passed through that territory during the year 1809; the old Butterfield trail traversed the country from the north-east corner to the south west. Mt. Margaret stands as a monument which will ever keep fresh in the minds of the coming generations the most pathetic and tragic event in frontier history. He, who has seen the country pass from the open range, when her prairies were covered with antelopes; her valleys alive with deer and wild turkeys and the country abounding with the old long horn cattle that made Texas famous, would naturally have found recollections of the past, and rejoice if the curtain of time could be rolled back that he could again see the country as God made it.

Respectfully,
W. F. Robinson

Show 1925 Best in Five Years
for Prices to the Farmer

WHAT THE FARMER PRODUCED IN 1925

TOTAL VALUE OF FARM PRODUCTS BY YEARS

1916	\$1,167,000,000	1921	13,369,000,000
1917	20,816,000,000	1922	15,042,000,000
1918	22,894,000,000	1923	16,694,000,000
1919	24,854,000,000	1924	17,355,000,000
1920	19,110,000,000	1925	17,454,000,000*

THE farmer produced just about as much stuff in 1925 as in 1924, and it was worth a hundred million dollars more, according to the annual year-end survey of the Sears-Roebuck Agricultural Foundation. The average of all farm prices is now 154 per cent of the pre-war average, as compared with 149 per cent last year at this time. The real significance of this is indicated more clearly by the relation of returns from the sale of farm products to wholesale prices of commodities which the farmer buys and consumes. This means, states the Foundation, that the purchasing power of the farmer's dollar has risen from 68, the lowest point following the war, to 90 for 1925 and indicates that agriculture is recovering.

The low peak, prior to the war, of values of farm products came in 1914 with a valuation of \$11,517,000,000. The high peak values for farm products came during the war with a gross total of \$24,854,000,000 for 1919. Then came the four critical years in which farm prices fell below cost of production and values became correspondingly low.

In 1924 the total value of all the farm products raised in the United States was estimated at \$17,865,000,000. This year the production is estimated at \$17,454,000,000. The cash income to the farmer for his 1925 work will be right around \$10,000,000,000.

Scientific Farming.

Some folks will tell us that scientific farming is all right in a book, but it won't work out in the field. That a County Agent is not needed, and they don't know very much down around the Texas A. & M. College. But they just keep on demonstrating before our eyes that they do know several things that we don't, about farming.

The \$1,000 "more cotton on fewer acres" contest, conducted by the Dallas News in 1925 has just been awarded to G. Mont Adams, a Smith County farmer, near Tyler. Mr. Adams, a former plumber takes land that has been in cultivation over forty years, and farmed according to instructions of the County agent and A. & M. College high collars, that don't know anything, but show us how to raise sixteen bales of cotton on five acres of unirrigated land, sold it for \$2,484.45 or about \$497 per acre. Terracing, levying and scientific farming done it.

We have a petition out now asking the Commissioners Court of Coke County to appoint another County agent in C. H. Clarks place, as we need one here. For your convenience we have a form for you to fill in this issue of the Observer, and mail to the Commissioners Court if you feel like we ought to have an agent here. If we are correctly informed the State pays one half of his salary and the county the other half.

Notice

I have bought Mr. McDorman's part of the Robert Lee Hdw. Co and will continue to do business at the same old stand. I appreciate very much the business sent my way during 1925. I have tried mighty hard to please you and hope to number you as a friend and customer in the years to come. So here is a hearty thank you for your good will in the past and the best of wishes for your prosperity health and happiness in 1926.

J. A. Knight

The Atlanta, Ga., Clearing House gives the boll weevil no rest. In an effort to effect a concerted and state-wide poison war on the boll weevil, this institution sent letters recently to all the bankers in the state asking that they assist in emphasizing the need for a wholesale war on the pest. According to a recent survey poisoning is being done on the larger farms, but not to any appreciable extent on the small farms. According to reports by the Department of Agriculture, the boll weevil infestation is heavier this year than ever before, and if allowed to go unchallenged the crop will be destroyed. Immediate and extensive action is urged.

Caravan of Death 660 Miles Long Is Nation's Auto Story

A CARAVAN of death and suffering 660 miles long is what the annual automobile casualties of the United States would form if placed in one continuous line. From New York to Detroit, painful mile on painful mile, this ghastly and pathetic human chain would reach. This graphic picture, prepared by the Stewart-Warner Safety Council for the prevention of automobile accidents, tells its own story. Twenty-two thousand killed annually by automobiles and 600,000 injured is the present toll caused by thoughtless drivers and careless pedestrians. Only a small per cent of the accidents are due to defects in the cars or can rightly be called unavoidable.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.
 One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your head has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.
 Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

Hall's Catarrh Medicine

will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

Hair Cuts

A trial in business for your whiskers. Ladies hair cuts a specialty.

Otis Wiginton

Over two hundred bankers in Iowa recently made an arrangement to attend the Iowa State University for a two-day period and study farming and farm problems. The bankers will sit as students under the professors in the agricultural department, and will dig right down to the bottom of many subjects which are of mutual concern to themselves and the farmers. This action on the part of the bankers of Iowa shows a real sense of interest and a determined intention to understand.

So Weak Couldn't Stand
 "My wife's health broke down and for years she was just a physical wreck," says Mr. Thomas Glynn, of Gibson, La. "We did everything we knew, yet she seemed to get worse and worse. She was so weak till she couldn't stand, and had to be carried like a baby. It looked like nothing would save her that had been done."
CARDUI
For Female Troubles
 "I began looking around. I knew that Cardui was for women. I decided to try it for her as all else had failed. She couldn't eat, she couldn't sleep, and I was desperate. "After taking a few doses of Cardui, we were so glad to note that she wanted something to eat, and with each day's doses of Cardui, she grew stronger and got up out of bed. She is now able to cook, and stronger than in a long time."
 Cardui has been in successful use for nearly 50 years in the treatment of many common female troubles.

Bronte News
 Bronte, Jan. 23—The light rains that have fallen in this section within the past few weeks have been sufficient to make the moisture meet, so say many of the farmers. The land is in fine condition for breaking and plows are running every day the weather permits. Small grain is doing well, with the acreage is not large.
 Among the social events of the week none was pleasanter or more enjoyable than the Sunday School class party given by Mrs. Homer Wilkins at her home last Tuesday evening. Tablet were arranged for different games, such as threading needles, lifting potatoes of large size with a small spoon using only the left hand, arranging cut up pictures and others along the same line. After that came the five senses contests; seeing, smelling, hearing, tasting and feeling which created much amusement. The rooms were tastefully decorated for the occasion. A delightful refreshment plate was served by the hostess at the beginning of the evening. Mrs. Wilkins is teacher of the young married ladies' class of the Baptist church.
 Mr. and Mrs. Fatha Higginbotham entertained a number of friends with an elaborate midday dinner last Sunday at their home two miles north of town. Those enjoying the hospitality motored out after church services and spent the remainder of the day.
 Mrs. Loula Hines was hostess to the Woman's Progressive Club Thursday afternoon at three o'clock the regular time of meeting. The inclemency of the weather kept most of the members at home, but the few present gathered around the cheery wood fire on the hearth and greatly enjoyed the lesson study which was an article on the Trans-Continental Air Mail Line. A lovely salad course was served by the hostess.
 A dearth of news from the Baptist Church of this place does not signify any letting up of church activities; it is only the fault of the reporter not getting out the copy. The Budget Plan of financing the local expenses has been installed with a fine showing for the beginning of a system which is entirely new for this congregation.
 One department which deserves much praise and special mention is that of the Sunbeams whose leader is Mrs. Lula Hines. The little folks love her dearly and under her capable leadership do fine work. Mrs. Hines has made special preparation for this kind of work and her programs are always interesting and helpful to the children. They meet at four o'clock on
