NUMBER 3

A Word With the Voters

While serving you as Sheriff and Tax Collector I have at all times endeavored to perform the duties of the office in a fair and business-like manner, serving the public courteously and efficiently, and ready at all times to help you.

We thank the people for their many favors in the past, and in asking for re-election, should you return me, you may expect the same good service, and anything done in my behalf will be highly appreciated.

Thank you,
Frank Percifull,
Sheriff and Tax Collector.
(Pol. advt.)

James M. Simpson, Jr. of Concho County

For Representative 92nd
District.

This is my third time to try to win the office of Representative. I am 27 years old and ably qualified for this office. I am interested in this line of work, interested in helping the common people, and will appreciate a trial.

Coke county and Concho county ought to stand together. My two opponents are from Ballinger, and Ballinger will not support a candidate from either county.

If Coke county will give me a good vote, I will work day and night to help Coke county.

Your support will be appreciated.

Mr. and Mrs. Robert Walker of Silver brought their baby, Tommie, from San Angelo Saturday, after having had him in the hospital there for several weeks. The baby seems to be doing well.

Last Word to Voters of Coke County

In my last word to the voters of Coke County I want to express thanks for the courtesies shown me while I have been in office and during my campaign. If you see fit to elect me again for your County Treasurer I will, as in the past, tend to my official duties conscientiously, with the county's best welfare always in mind. I hope I have conducted the duties of my office in a manner to be worthy of your support at this time.

Sincerely,
Mrs. Daisy McCutchen,
County Treasurer, Coke County.
(Pol. advt.)

Mrs. A. K. Landers is ill at the home of her daughter, Mrs. Jess Greer.

To the Citizens of Coke County

Just a word of greetings to you before the Primary of the 25th. Although I am unopposed, I will appreciate and hold in the highest esteem your vote and good will, the same as though I was opposed for re-election.

I have tried to carry out the duties of the office of County Judge and County School Superintendent in such a manner as to be worthy of your confidence. In the two years constituting my term of re-election I pledge you that same service as I have rendered in the past, disregarding personal gain, and giving no personal favors, but giving to you the best that I have, with the interest of Coke County always in mind.

Sincerely,
McNeil Wylie, County Judge.
(Pol. advt.)

Picked Up at Random

By Me and U

You little fellows who are afraid of wildcats and bears don't feel ashamed. Just remember Raymond Jay is afraid of mice.

Some of you husbands take notice. A bunch of men the other day saw a man get out of his car and go around and open the door for his wife. They kept waiting to see if she was crippled—she wasn't. Some men still do that. Believe it or not.

We extend our deepest sympathies to the croquet widows of Robert Lee.

When asked by her mother if she pulled the peaches the little daughter replied, "no mother we just smeled of them and they fell off of them and they fell off."

Ask Enoch Sparks anything you want know. If he doesn't know it he knows somebody that does.

Thought we were rid of Gilbert Wallace but see he is back in town.

Tommy Williams is now conducting a ten day meeting at Thorndale, Texas. He will go from there to La Salle, Texas. It is fine that some people can decide what they want to do while they are still young. Most of us wait until we are grey and then say we intended to do so and so.

Miss Aline Payne of Clovis, N. M. is visiting relatives in Robert Lee this week.

Judge Wylie was in Cochran county several days last week in interest of county school land there. He contacted and interviewed those who have recently bought land from the county and whose notes the county holds. Mr. Wylie found crop and oil conditions good and he feels sure the notes will be paid when due or be taken care of through federal loans.

To the Voters of Coke County

I desire to take this occasion to express my sincere thanks and gratitude for the many courtesies extended to me by the voters of this county. I shall endeavor to continue to extend to you the best possible service as your County and District Clerk.

Again thanking you for your vote on July 25.

Sincerely,
Willis Smith,
County and District Clerk.
(Pol. advt.)

Making Improvements

In keeping with modernization ideas of druggists throughout the United States, the City Drug Store has had installed the newest thing in open prescription case. The old custom of filling prescriptions behind a screen has given place to the more advanced theory that the customer has the right to see how his medicines are weighed and mixed. This case has been highly commended by some who make drug stores all over West Texas and who know good arrangement and marks of beauty in drug store interiors.

Kalsomining the walls, painting the ceiling and other interior improvements of the store are also in progress.

Banquet

The members of the school board and Supt. Taylor were given a chicken dinner at the Sunnyside Cafe Wednesday evening, with a Mr. Miller, salesman for the Superior Bus Body corporation, as host. Mr. Miller gave a talk and demonstration of busses he is trying to sell. One of the busses has been on display at Coke Motor for several days.

The board took no definite action regarding the purchase of busses but appointed J. S. Craddock and Raymond Jay to investigate the advisability of recon-ditioning the old busses.

Runnels County Singing

The Runnels County Singing Convention will meet in a call session at Winters July 26, from 2 to 4:30 in the First Baptist Church.

The public is cordially invited to attend.

Tomorrow citizens have another privilege of casting their ballot for the candidate of their choice. Local politics this year has been rather tame. Very little enthusiasm has developed, just a nice quiet race with no mud interspersed to cause any unpleasantness. Go to the polls early and vote your sentiments.

The Town Where I Live—It's My Town

A woman reader of this paper tells us that the most enthusiastic praise she can for her cooking is to have friend husband pass his plate back for a second or third helping. This beats anything that words can express when it comes to showing approval. When it comes to compliments that husband of mine is the most cheerful liar in the world, but when he passes his plate back for more or asks for another cup of coffee, I know he likes it.

The reason why so many do not care to work and would rather remain idle is often due to the fact in many instances that they were not trained to work when they were young. Work is a habit with the human race. Naturally man does not care to do hard work. The boy who is raised to young man without ever having had the incomparable discipline of hard work faces life at a distinct disadvantage, he has been deprived of the most valuable part of his youthful training.

The Observer is running six extra pages this week displaying advertising of San Angelo, Ballinger and Sweetwater business firms. This advertising is put out by reliable specialists in this line, and every ad carried represents old established firms and any dealings you may have with them you can rest assured of fair treatment. The Observer is the medium through which this advertising is distributed in this section and has nothing to do with the printing etc.--just the distribution through the mails.

Prizes won by contestants in the Junior Business Builders contest will be awarded at the City Drug Store Saturday at 8 p. m. The contest, under the direction of the City Drug Store, has been waging for some time. The closing date was last Saturday but the youngsters were given another week in which to round up scattered tickets.

What government competition plus punitive regulation, can do to an industry is well examined by the electric utilities.

The average utility is finding its market for power greatly increased, and the industry as a whole recently attained an all-time record in output. Yet, in the face of this gratifying improvement in the business done by the utilities, the business experts constantly reiterate that the outlook for the industry is uncertain, if not actually dark.

There is but one reason for that anomaly--and the reason can be expressed in a single word! Politics. No other private business has ever been subjected to such attack as has the utility in recent years. No other has been so misrepresented. No other has been submitted to such unfair and unnecessary legislation.

MOTHER! Here are Facts!

To Guide Your Purchase
of a Refrigerator!
**DON'T
CHOOSE BLINDLY**

FOR HEALTH -- Your refrigerator must maintain safety food temperatures below 50° all the time. Before you buy, be sure it will do this in the hot hours of the summer time, too.

FOR CONVENIENCE -- Your refrigerator must be able to freeze ice quickly -- must have a high degree of usefulness. Before you buy, be sure it will produce fresh ice during the hot hours of the day.

FOR ECONOMY -- Your refrigerator must maintain the above performance at low over-all cost. Before you buy, be sure.

BUY AN ELECTRIC REFRIGERATOR

• If you buy a refrigerator that cannot provide satisfactory, economical performance, *all the time*, you are wasting your money. It is inconvenient to own a refrigerator that cannot freeze desserts or plenty of fresh ice quickly during the hot hours of the day. It is wasteful to own one that has a high initial cost, though little to operate, if it cannot provide satisfactory performance, *all the time* under all conditions.

Remember this when you buy. All refrigerators cannot provide all three of these basic requirements. Tests prove this to be true by actual use in the home. So don't buy on claims alone. Ask for and be sure you get convincing evidence of value. Only then can you be certain you are getting your money's worth. Choose carefully and you will choose a modern electric refrigerator.

★ MODERNIZE--CHOOSE AN ELECTRIC REFRIGERATOR ★

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule ... and adds only a small amount to your total bill?

In the complexity of modern society there is no one business that has come into more prominence in the past few years than the floral house. In this community there is no florist who enjoys a wider reputation for offering the public the most complete service than this well known concern.

For centuries flowers have been symbolical of the more delicate phases of human nature and the recent development of the flower as a token of esteem and remembrance has placed it in the front rank for all social, mourning and joyful occasions. Its varied uses have made the modern florist a deep student of social etiquette and there is no one more versed in this phase of the business than the manager of this house. Place your order with them either in person, by phone or letter and they will see that your flowers arrive at the right time.

SCOTT WRECKING CO.

Located On W. Broadway, Sweetwater, Feature A Large Stock Of Good Used Parts For All Makes And Models Of Cars Which They Offer At Prices That Represent A Great Saving—Will Buy Old Cars And Late Model Wrecks For Dismantling And Pay The Best Prices—Also Offer An Excellent Service In Auto Glass And Humble Gas And Oil—Tel. 2371.

The general trend of modern business and industrialism is for the conservation policy and also a wise and careful expansion. This popular firm satisfies these conditions, as here they buy old cars and wreck them, saving the valuable parts for further use as replacements, and at the same time remove the old car from the highway where they are a menace and thus assist the automobile trade in general. They are dealers in used automobiles in any condition.

A car does not grow old at the same rate all over, and frequently engine parts are as good as new or even better from being broken in by use. These used parts, carefully inspected to make sure that they are perfect and usable in all respects, are good replacements and offered at materially lower prices than new parts. It is also often true that they may have here parts for very old or unusual models, for which new parts would be very hard or often impossible to get. It will pay ev-

erybody to come here before trying elsewhere or ordering new parts.

The very able management buys used cars, ridding the roads of slow and unsafe vehicles which jam up traffic and occasionally cause serious accidents. If you have an old car and want to get rid of it, come here; you will be surprised at the good cash price which they will offer you. Not only does this buying of used cars make driving safer, but it also stimulates the general automobile trade.

The Scott Wrecking Company at Sweetwater perform a useful public service; not only are they aiding in conservation by their sale of used parts, but they are also greatly encouraging auto sales and making the highway safer by buying old cars. We are glad to compliment them as a worthy member of our business world, and we recommend this yard to those wanting to get their parts cheaper.

The Planters Gin are an important factor in the agricultural development and progress of this section of Texas as they are a great aid in the marketing and ginning of cotton.

They offer all growers an excellent market for their cotton and pay the highest market prices of the day. Their location here is a great convenience to many cotton growers as they can sell their cotton to them and not have to bother about shipping it to some more distant center.

Their service is in accord with our modern age of transportation and exchange and were it not for a service of this kind much of the cotton might never find its way to the market. It is necessary to have houses of this kind as every grower cannot keep in touch with the buyers of the world and sell his products direct. Were one to do this all the profit would be taken up in the exchange. The Planters Gin however, keep in touch with all the markets and buyers are ready to take cotton at the ruling price of the day.

Their gin is modern and up-to-date and they are prepared to promptly gin all cotton brought to them and when cotton is ginned here it is always done so that all of the seeds and other extraneous matter is removed.

In making this review we are pleased to call the attention of our readers to the great service that The Planters Gin are rendering the people and would say that they are a stabilizing influence in our prosperity.

In the upbuilding of the modern American city of the twentieth century the services of the modern plumbing and heating engineer are of the utmost value, for by the modern standards of living the length of the average human life has been greatly increased. This is partly due to the work of the plumbing and heating engineers. This condition compels the modern heating and plumbing engineer to be a man of advanced ideas with a thorough knowledge of the laws of plumbing and circulation.

Whether yours is a job calling for new construction or just minor repairs, get his figure before you let the work. Putting them on the job is an assurance that the work will be properly done and the charge reasonable.

SAN ANGELO

ELECTRO-COAGULATION OFFERS A MODERN, SCIENTIFIC METHOD OF REMOVING TONSILS

Dr. E. D. Thompson With Offices In Suite 311, San Angelo National Bank Bldg., San Angelo, Is Now Featuring This New And Modern Method Of Removing Tonsils—Examination And Consultation Free—Call At His Offices Or Phone 4255.

Of all the causes that lead to illness and ill health diseased tonsils are among the most common. To quote but a couple of world-renowned authorities: "The tonsils are a menace to the organism." "Most diseases of the human being are produced by a primary infection of the tonsils." Consequently everyone should have their tonsils examined at regular intervals and if your tonsils are found to be infected or diseased they should never be left in the throat a day longer than is necessary to get them out.

Dr. Thompson has of late years devoted his entire time to the study of Electro-Coagulation. This new method of removing tonsils is applicable to persons of all ages and because of his universally good results is becoming popular with leading physicians who desire to give their patients a good tonsillectomy without production of a mass of scar tissue in the throat. If for no other reason, the absence of scar tissue production by the Electro-

Coagulation method certainly places this work in a respectable and high place in the practice of medicine and surgery. Also by this method there is no risk, no bleeding, no pain, and the patient is not disabled in any way. In the surgical method or removal there is always the possibility of fatal hemorrhage, either pneumonia, lung abscess or other prostrating sickness following the operation.

By Electro-Coagulation all these risks are avoided and the expense is less than the surgical removal, and by Electro-Coagulation the results are complete, perfect and permanent, whereas by the surgical method, there is often injury to other throat tissues and the tonsils may grow in again, which they cannot do if properly removed by Electro-Coagulation.

In consequence of these facts we wish to advise our readers in this review that if they are not feeling in the best of health an early examination of their tonsils by Dr. E. D. Thompson would not be amiss.

Considering how fine this railroad transportation is nowadays, you can't travel any cheaper. Fares lowest in history—substantial savings on round trip tickets. So why not take the train? It's safer. It's more dependable.

You can't beat the improved travel comfort in coaches and sleeping cars. It's a good thing movies don't have such restful seats—most folks would sure fall asleep.

Ever hear about the new Free pick-up-and-delivery of less than carload freight? It's a great convenience to shippers and receivers alike. Western railroads pick up at the door, ship by fast freight, and deliver to door at no extra charge.

Railroad trains are running on faster schedules these days. Seems like the iron horse wants to show these new streamlined diesels that he can step out, too. Both passenger and freight schedules have been speeded up.

What's more, the railroads believe in "safety first." Last year not one passenger was killed in a train accident on western railroads.

Talk to your local railroad agent. He's full of information about traveling and shipping.

We are proud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.
