

THE ROBERT LEE OBSERVER

Est. 1889--Printed Weekly in the Interest of Robert Lee and Coke County.--In its 49th year.

VOLUME 49

ROBERT LEE, COKE COUNTY, TEXAS, FRIDAY, SEPTEMBER 16, 1938

NUMBER 11

THE HIGHWAY SITUATION IN COKE COUNTY

It would be quite interesting if one could recall the highway conditions through Coke County a few years ago and compare them with the present roads. According to figures compiled by County Judge Wylie, the total expenditure on highway work in the county from its organization in 1889 to the beginning of 1935 was \$380,000 and since Jan. 1, 1935, that same amount has been spent on highway work in the county.

Work of the past several months on an NRWR project on the San Angelo road No. 208, has completed the grading and drainage to within three miles of Robert Lee and the job is expected to be finished in about three months. It is then likely that a WPA grant will be obtained to caliche the road from Robert Lee to the Tom Green County line and that later, possibly within eighteen months, the entire strip will be paved.

At the last meeting of the highway commissioners, the Sterling City road No. 158 was redesignated and the redesignation put on the map to include Midland and Bronte routing it now through Kermit, Garden City, Sterling City, Robert Lee, Bronte and Abilene. Highway work is now in operation on the stretch from Kermit to Midland with hopes of work extending from Midland to Sterling at an early date. Everything is in line for highway work of some sort between Sterling and Robert Lee and the Coke County commissioners are now working to that end.

The Robert Lee and Colorado City road No. 208 has been tentatively designated and located with lines varying some from those of the old road. A committee is now working with the highway department to iron out some questions of routing and when the county has accepted or the highway department adjusted the routing, work will begin on 208 to tie into 158, connecting it with work done by a federal job on 208 five miles out of Colorado City toward Robert Lee.

SENIORS

Initiating the high school social activities of the year, the senior class was host to the high school faculty and pupils for a picnic at the city lake, Tuesday night. About fifty enjoyed lunch and played games around the camp fire.

Adding excitement to the occasion, a rattler in the path of the picnickers, sounding a warning. The moon had not risen and the snake and the boys had the battle out in the dark and when the conflict ended there was nothing much left of the snake but some rather sandy mince meat and twelve rattlers.

P.-T. A. FIRST MEETING

The local unit of the P.-T. A. will hold the first regular meeting of this year at eight o'clock next Tuesday evening in the school auditorium. The program arranged by Mrs. Drue Scoggins, program chairman, is:

Group singing Led by Raymond Jay
Reading Maynard Reed
Piano solo Charline Mecutchen
Reading Freddie Bilbo
Number by representative of Second Grade
Talk Mrs. Ruby Pettit
Piano solo Gennell Johnson
Talk Rev. Earl Hoggard
Benediction

The executive board of the organization in call meeting, Saturday, Sept. 10, arranged the following tentative budget: \$50 for shrubs to be planted on the campus; \$15.00 for expenses of a delegate to the state P.-T. A. convention at Lubbock; \$10.00 for expenses of a delegate to district P.-T. A. at Midland; \$10.00 for miscellaneous expenses; \$8.00 for interscholastic league fees; \$7.50 for each grade room to spend as they see fit; \$5.00 as a prize to the room securing the largest paid membership to the P.-T. A.

Mrs. Houston Smith is beginning the second year as head of the Robert Lee P.-T. A. Some of the outstanding accomplishments of the past year under her able leadership are: A P.-T. A. membership of 102, the largest in the history of the organization; the purchase of a curtain for the school auditorium at a cost of approximately \$500.00 a delegate sent to the district convention at Del Rio; a well balanced study course offered with emphasis on special days; art groups purchased for use in the school; books and magazines collected for use in the school library; assistance given the Pep Squad and a \$1.00 prize presented at each meeting to the room represented by the greatest per cent of parents.

To College

In our news story last week on collegians who have gone or are soon to leave for college, we failed to mention that LaRue Millican, daughter of Mr. and Mrs. Ples Millican, is returning to San Angelo where she is taking a business college. LaRue began work in San Angelo Business College last April and has spent a five-weeks vacation at her ranch home in the Green Mountain community. She reports that she is thoroughly in love with her work.

If we have omitted any other young people who are in school away from home or are expecting to go soon, please inform the Observer.

Ratliff's is the Hot Spot now. Cooler next month.

Watch Next Weeks Paper

Many citizens of Coke County have been wanting information as to what would have to be done in order that Coke county can build a new court house, how much it would cost and etc. County Judge Wylie will give you this information by request of many of his friends in next week's issue.

FIFTIETH ANNIVERSARY

To honor their parents on the fiftieth anniversary of their wedding, the children of Mr. and Mrs. N. C. Brown met at the home Tuesday night and gave them a shower of gifts and flowers. A Mexican supper was served buffet style on the lawn and afterward the younger members of the party enjoyed a swim.

Although the Browns had a celebration last June when all their children could be present, those who could come were unwilling to allow the actual anniversary to pass unobserved. Those here for the reunion were Mr. and Mrs. Paul Brown, San Angelo; Mrs. Vera McSpadden and children, Marfa; Mrs. Inez Sullivan, Amarillo; Mr. and Mrs. Chism Brown, Mr. and Mrs. John Brown and children; Mr. and Mrs. Drue Scoggins and children; Fred Smith and children and Miss Chanda Brown, all of Robert Lee and Mrs. Alice Akock of Corsicana were unable to be present.

Mr. N. C. Brown and Miss Inez Isenhower were married in her father's home at Blue Ridge, Collin County, Texas, on September 13, 1888.

Cell Vanadore, son of Mr. and Mrs. Henry Varnadore, is seriously interested in Diesel engineering in which work he is about to complete a correspondence course. In a few weeks he will go to Los Angeles for an examination. At present he is working on an irrigated farm near Greenfield, California and studying engineering at night.

Mrs. L. H. McDorman has been quite ill for several days but was reported Wednesday to be doing very well.

Judge McNeil Wylie has bought the lots west across from the Baptist church and will build a five-room house stucco home on the site. The lots are being cleared and it is expected that building will begin soon.

Mr. and Mrs. W. M. Simpson returned Tuesday from Austin where they had taken John Roger for his final year in State University.

Mr. and Mrs. S. P. Jones are parents of a fine little girl born in Robert Lee Sunday afternoon and named Virginia Lynn. The scales said the young lady weighed 9 1/2 pounds but her grandmother says she weighs every ounce of 10 pounds. Mother and baby are at the home of Mrs. Jones' mother, Mrs. Mable Williams and both are doing well.

STEERS READY TO HOOK

Saturday, Coach Mullins will take his football squad to Sonora and give them a chance to show their mettle in a non-conference game, the initial tilt in the Robt. Lee schedule. With an all-round light team and much of the material green, it is hard to hazard what the outcome may be. One consoling factor is that the Longhorn team, the Steers traditional arch foe, has no better prospects than the Robert Lee squad.

Of last years team, six lettermen remain: Captain Horace Scott, G. P. Lowrey, Lee Roland Latham, M. L. Denman, J. F. Keading, and Frank Tubb.

Ray Jackson is expected to be able to play in the Thanksgiving game.

The Robert Lee football schedule for this season is:

Sept. 17 - Robert Lee at Sonora
Sept. 24 - Open
Oct. 1 - Wingate at R. L. (D)
Oct. 8 - Mertzon at R. L. (D)
Oct. 15 - R. L. at Miles (D)
Oct. 22 - R. L. at Bronte
Oct. 29 - LakeView at R. L. (D)
Nov. 4 - R. L. at Eden
Nov. 11 - R. L. at Norton (D)
Nov. 19 - Open
Nov. 24 - Bronte at R. L. (D)

Sup. G. L. Taylor is chairman of District 4-C and W. W. Mullins, coach at Bronte, is secretary.

GARDEN PARTY

Miss Christine Glenn, assisted by her mother, Mrs. Lamont Scott, and Miss Charline Morrow, entertained with a late summer garden party Friday night at her home. Colorful Japanese lanterns lighted the lawn where a buffet supper was served and nine tables were placed for games of bridge.

Japanese vases presented to Mrs. Houston Smith and Bill Craddock as bridge prizes and ice cream and cake were served tiny Japanese parasols as favors.

Guests included Mr. and Mrs. T. A. Richardson, Mr. and Mrs. Paul Good, Mr. and Mrs. G. L. Taylor, Mr. and Mrs. Fred McDonald, Jr., Mr. and Mrs. D. P. Walling, Mr. and Mrs. G. C. Allen, Mr. and Mrs. J. C. Snead, Mr. and Mrs. A. F. Landers, Mr. and Mrs. Houston Smith, Mr. and Mrs. T. M. Wylie, Jr., Miss Sybil Simpson, Miss Dorothy Downey, Miss Vivian Roane, J. S. Craddock, Jr., Bill Craddock, W. K. Simpson, John Roger Simpson, H. L. Scott, Wilford Gardner, Mrs. S. E. Adams, and Hyman Reagan all of Robert Lee and from Bronte--Mr. and Mrs. D. K. Glenn, Miss Virginia Youngblood, Wink Kiker and Earl Eubanks.

TENNYSON, GREEN MOUNTAIN, SILVER, SANGO SCHOOLS OPENS

With the Robert Lee, Bronte and Tennyson schools now in progress and Green Mountain opening for class work next Monday, the opening dates of the other three schools of the county depend largely on the gathering of the cotton crop.

Tennyson opened last Monday simultaneously with Bronte. P. R. Jones, principal, is beginning his fourth year and Miss Margaret Cleek will be his assistant for the second term.

In preparation for the opening of their school, Monday, teachers and patrons and pupils of the Green Mountain school will meet on the school grounds Friday afternoon to clear the grounds of weeds and sand burs. A social and picnic supper will follow the working and there will probably be a meeting of the P.-T. A. Mrs. Taylor Shelton and Mrs. Sam Powell were re-elected for another year.

Mr. Underwood, former principal of the Silver school, resigned that place to accept the pastorate of a San Angelo church. Although not formerly elected at the time of this write-up, A. B. Harrell of Rotan was being seriously considered as a successor for Mr. Underwood. Mrs. Julian Batton was retained as teacher of the lower grades.

Sanco will begin the school year with an all new faculty--Clyde McCreary, principal; Mrs. Vertna Gartman, teacher of the intermediate grades and Mrs. McCreary, primary. Mrs. Gartman, of course, is not new, but she has taught out of the county for several years and is just "coming back home."

Leslie Woolard of Bronte and Miss Isabel Shaw of Wellington, will return to the Wild Cat school.

Though all the last three, Silver, Sanco and Wildcat, are expected to open by the middle of October, that time will depend on "when the cotton is out" according to reports from those communities.

Visits In Corpus Christi

Mr. and Mrs. G. A. Harmon and Mr. and Mrs. Deibert Harmon and son James, returned Tuesday night from Corpus Christi where they spent several days with the family of Mrs. Georgia McMinn, daughter of the older Harmons.

They reported that it rained almost every hour they were in Corpus Christi.

Mr. and Mrs. Dan Buchanan and Miss Clydine Stickney visited with relatives and friends here Tuesday and Wednesday. Mr. Buchanan is a brother of Jess Buchanan and Mrs. Buchanan and Miss Stickney are sisters of Mrs. J. S. Gardner.

Weekly News Review
France, Britain Turn to U. S.
In Search for War Support
 By Joseph W. LaBine

Domestic

Chief U. S. interest in the current European squabble (see FOREIGN) has been America's chance of staying neutral. If they once felt secure under the state department's isolation policy, under the neutrality act or under the Johnson act forbidding loans to debtor nations, that cozy feeling was dissipated last fall. In his famed Chicago speech, Franklin Roosevelt pointed to the hopelessness of isolation, favored aggressive U. S. action to preserve peace.

Last month, Franklin Roosevelt spoke again at Kingston, Ont., promised American aid against invasion of Canada. Though any U. S. President would favor such a

AMBASSADOR BULLITT
 "No human being could say..."

policy, the Canadian speech came at a time when anxious British and French were seeking allies in their bluff game against Adolf Hitler. Thus, into the international spotlight were thrown U. S. Ambassadors Joseph P. Kennedy to Great Britain, William C. Bullitt to France. To each fell the job of explaining U. S. policy in European foreign offices.

Last week, each spoke, cutting through diplomatic red tape in a blunt manner that made touchy British statesmen quake, that made the folks back home shudder over the realities of Europe's crisis.

At Bordeaux, Ambassador Bullitt uncorked a bombshell, favoring an informal talk on French wines with bouquets about U. S.-French friendship. Said he: "France and the United States are indefinitely united in war as in peace... by our devotion to liberty and democracy."

Next day, dedicating a monument to American World War dead, he spoke again: "If war should break out in Europe no human being could say whether the United States would become involved."

In London, Ambassador Kennedy emerged from a conference with Prime Minister Neville Chamberlain blurring to newsmen that Britain wanted to know whether she could expect U. S. aid. No sooner had he spoken than the London Evening News criticized Joe Kennedy's outspokenness. Obviously proud England was piqued that the world should know she was actively seeking U. S. aid. But that did not stop him from rushing to Aberdeen, Scotland, where he demanded that the world's youth be given a better deal than "a short life carrying a gun."

Foreign

Italy's Benito Mussolini, who could do no better than create mild furore with an anti-Jewish drive, must have envied the headlines being made by his fellow dictator, Adolf Hitler. Since early August, the one-time Austrian housepainter has kept all Europe in a "crisis," until last week the word "crisis" began losing its significance.

To Berchtesgaden, der fuhrer's Alpine chalet, sped Konrad Henlein, Czechoslovakian Sudeten leader whose followers want autonomy and eventual annexation by Germany.

But Europe had a hopeless case of war fever. If Adolf Hitler's 1,000,000 war-gaming soldiers had gone home, tension might have been relieved. Instead, several hundred thousand Nazi warriors massed on the Rhine frontier, visiting new fortifications they would use in a war on France. Paris bristled immediately. Almost overnight, 300,000 reservists were rushed to the Maginot line.

Meanwhile, Great Britain enjoyed another spell of worrying, notifying Ambassador Henderson that he might warn Germany of England's inability to remain out of any conflict der fuhrer might start. Inas-

much as Ambassador Henderson has been alternately warning and pleading with Germany since early August, his ultimatum probably fell on deaf ears.

At Prague, observers watched the result of Konrad Henlein's conversation. England's mediator, Viscount Runciman, scurried around. The Czech cabinet met secretly, finally emerged to offer Sudetens (1) territorial autonomy; (2) recognition of their full equality in the Czechoslovak state; (3) recognition of full equality of the German language.

This, amounting to complete surrender, might have created a sensation had Adolf Hitler not been stealing the show again. At Nuremberg, before 1,000,000 Nazis attending the annual party congress, der fuhrer defied the world, boasted of Germany's power and praised his two lukewarm allies, Japan and Italy.

Politics

Behind Franklin Roosevelt lay two smarting political defeats. South Carolina's Democrats had elected Ellison D. ("Cotton Ed") Smith over his objection. California's Democrats had licked his favorite, Sen. William Gibbs McAdoo. These defeats, plus earlier primary shellackings, plus the prospect of more losses in Maryland and Georgia, made Franklin Roosevelt realize that next winter's congress will be stubborn as an army mule and completely devoid of party lines.

Mulling these thoughts, the President soon offered a solution. At his semi-weekly press conference he announced his support of liberal candidates regardless of their political ancestry. Boasted he: "If there is a good liberal running on the Republican ticket, I would not have the slightest objection to his election. Good of country rises above party."

In effect, Mr. Roosevelt said he could no longer be regarded as an organization Democrat, that he is a liberal—whatever that means—in this fall's primaries, in November's election, and in 1940.

The President's apparent hope was that enough liberals, both Republican and Democratic, will be elected next November to give Roosevelt liberalism a clear majority over conservatives of both parties. If that was his idea, Republican Chairman John D. M. Hamilton found the statement a convenient signal for another of his fanatical tirades against New Dealism.

Explained he: "The true Republicans running for congress this year are liberals. Most of the Democrats seeking re-election are not. True liberals are those making a determined fight against centralization of powers in one man. True liberals would never vote for... New Deal schemes to restrict production... for irresponsible fiscal measures."

Soundest comment came from Illinois' Sen. James Hamilton Lewis, vacationing in California where

CHAIRMAN HAMILTON
 "True Republicans... are liberals."

Sheridan Downey had just won senatorial nomination on a state pension platform. "There are no national political parties left in the nation," he said. "The California election... is an expression of what may now come in every state... of gentlemen running for federal office upon wholly state issues and local remedies."

Three days later, Franklin Roosevelt spoke at Denton, Md., seeking the scalp of Sen. Millard E. Tydings. Again hitting the liberalism tack, he answered "Ham" Lewis' comment: "The Democratic party will live and continue to receive the support of the majority of Americans just so long as it remains a liberal party. If it reverts, it will fail."

How Popular Phrase Affected Willie's Life

Fond Mother—You behave so well, baby dear.
 Infant William Swerington Smith—A-doooo, a-dooooo.

Teacher—Who knows the answer?
 Willie—I do.

Minister—Do you, William, take this woman—?
 William—I do.

Faithful Wife—Will! You have lipstick marks on your bald head!
 Will—I—I do?

Bailiff—Do you solemnly swear to tell the whole truth—?
 W. Swerington Smith (defendant in divorce suit)—I do.

A Costly Road

The Pulaski skyway is probably the most expensive road in the world for its length. The part of it that is raised is three miles long and cost \$21,000,000. The approaches cost an additional \$19,

Large Meteorites

The largest meteorite of which the date of fall is known is the one which fell February 17, 1930, about 14 miles southwest of Paragould, Ark. It split into fragments, one weighing 820 pounds, another 80 pounds, and there were many small pieces. The next largest of which date of fall is known is the one which fell at Knyahinya, Hungary, June 9, 1866. It weighed 647 pounds. An iron meteorite found in the desert of Adrar, in Mauretania, in 1921, is said to be 300 feet long. A meteorite weighing many tons has been found buried in southwest Africa. The Bacubirito meteorite is 13 feet long 6 feet wide and 5 feet high. It was found in 1863 at Bacubirito, Sinaloa, Mexico.

000,000. This roadway is 50 feet in width and can easily accommodate five lanes of traffic. It is estimated that 20,000,000 motor vehicles use it annually. It passes over both the Hackensack and the Passaic rivers and the New Jersey Meadows.

Not What You Learned

Don't be too surprised, upon going abroad, to find that the names of cities are not at all like those you learned in school. You may know all about Rome and Milan, Florence and Genoa, but the trick lies in recognizing them in Italy as Roma, Milano, Firenze and Genova. Also, the native calls it Napoli and Venezia; not Naples and Venice.

If you are entrained for Cologne you may never get there. You will, however, arrive at Koeln. You may speak of Vienna, but it's Wien. Antwerp is Anvers, and The Hague is den Haag.

Culture of Education

How can man be intelligent, happy, or useful without the culture and discipline of education? It is this that unlocks the prison-house of his mind, and releases the captive.—Rev. Dr. Humphrey.

Quality + Economy = Firestone CONVOY

When it is low cost combined with high quality it's always Firestone. Car owners everywhere are buying Firestone Convoy Tires for safe, sure economical service because they want to get a high quality tire at an unusually low price. Only Firestone gives you all of these patented and exclusive extra value features:

1. Gum-Dipping, the Firestone patented process which protects against blowouts.
2. Two extra layers of Gum-Dipped cords under the tread, a patented construction which protects against punctures.
3. Scientifically designed tread which protects against skidding and gives long mileage.

See your nearby Firestone Dealer or Firestone Auto Supply & Service Store and equip your car with Firestone Convoy Tires—the safest tire that money can buy at these low prices.

LOOK AT THESE LOW PRICES

TRUCK OWNERS SAVE MONEY TOO!

The Firestone Convoy Truck Tire is made in all sizes for trucks and buses. It brings you high quality at low cost. Truck owners who have already used this tire are referring to it as the truck tire sensation of 1938. Cut your cost per ton mile and at the same time keep your tire investment low — equip your truck today with a set of Firestone Convoy Truck Tires.

CHANGE OVER TO A Firestone BATTERY

Here is a battery that will take you through the hardest winter without trouble. Built with patented allrubber separators and interlocking grids, it assures quick starting, longer life, greater dependability. Ask for our special "Changeover Price."

Firestone AUTO RADIOS
 With 6 all-metal tubes, 8-inch dynamic speaker sound diffusion system, represents highest quality. \$29.95

Firestone SPARK PLUGS
 Save gasoline, secure quicker starting and improve motor performance by putting in a new set of Firestone Spark Plugs today.

LIFETIME GUARANTEE
 Every tire of our manufacture, bearing our name and serial number, is guaranteed by us to be free from defects in workmanship and material, without limit as to time or mileage, and to give satisfactory service under normal operating conditions. If our examination shows that any tire has failed under the terms of this guarantee, we will either repair the tire or make an allowance on the purchase of a new tire.

WNU Service

SYNOPSIS

Richard Exon, a poor young Englishman, befriends elderly Matthew Gering, who at his death, gives him a statement claiming he Gering, is Rudolph Elbert Virgil, Count of Brief, of ancient Austrian nobility who was betrayed 20 years before by his twin brother, Ferdinand, whose sentence for forgery he himself served. Ferdinand appropriated his title, property and daughter. Before he dies, Gering tells Exon there is a family secret, known only to the head of the house, to be found in the great tower at Brief, by a doorway none can ever find. Exon inherits his uncle's fortune and sets out to right Gering's wrongs. En route he encounters Percy Elbert Virgil, son of the villainous Ferdinand and sees him in conference with Inskip, a diamond merchant. He engages a valet, Winter, who hates Percy and meets by chance at a garage, John Herrick, who is a linguist and who as a youth served as a page at Gering's wedding, and had visited Herrick. Herrick agrees to aid Exon. They establish headquarters at Brenda Kevoke's farm at Raven, a few miles from Brief and make their plans. They find the castle almost inaccessible. They see a closed car occupied by Percy Virgil, the chauffeur and a woman, hearing a dog scream, they see the chauffeur flogging it, just as a horse with a girl astride bounds along the path and is felled by a strong wire. The girl, unconscious, is picked up by the chauffeur and a woman, who then run away, after dropping her. Exon rescues the girl and carries her to his waiting car. He identifies the girl as Elizabeth, daughter of the disowned Gering, tells her of her cousin's plot to abduct her and takes her to Raven, where he tells her the story of her father and promises to go the limit to help her right her father's wrongs. Elizabeth wins faith in her benefactor. Percy Virgil brings the police to Raven, announcing that two strangers are being sought for the kidnaping of Elizabeth Herrick discomfited Virgil, tells of the morning's adventure, names a man called Max and hands the police a sealed envelope with the name of the leader in the abduction—Percy Virgil. Exon and Herrick suspect Percy of having sold the family jewels through Inskip. All realize the only solution is to find the Secret of Brief, which the impostor Ferdinand does not know. They decide to take possession of the tower. Late one night after hard labor they force their way into the tower, with Elizabeth aiding Exon and Herrick. There they begin their search for the secret doorway, working in silence against time. The search for the secret doorway is almost hopeless until they find a sliding panel in a step.

CHAPTER V—Continued

As might have been expected, the bolt was tight in its well, but it was not cemented in, and after another ten minutes I managed to wheedle it out.

I then took the mallet from Herrick and tapped the rise. At once the side I had tapped retreated before the blow, but the other side started forward out of its place.

"Pivoted," breathed Herrick. "It's hung on a spindle, just like a revolving door."

One hand on my shoulder, Elizabeth lowered her torch.

There was now before us a gap, where the rise had been. This gap was split into two by the rise itself, for this had simply been turned and was now presenting its edge, instead of its face. The torch immediately showed that the gap on the right was void—that is to say, on the side on which the rise had retired; but the gap on the left was framing a block of stone. And sunk in the face of this stone was a handle, or rude, iron dog . . .

"Go on," said Herrick. "Pull it. If a genie appears, so much the better. I've quite a lot of orders to give."

I laid hold of the dog and pulled . . .

At once the block slid forward, after the way of a drawer that you pull from a chest. And, as you may pull a drawer clear, so I drew the block out of its housing, over the tread of the step which lay, like an apron to take it, in front of the gap.

The block was immensely heavy, for it must have been 12 inches deep, and, when I had drawn it clear, it was all I could do to lift it out of the way and on to the tread above.

To do this, I had to stand up and lift it between my legs; but the others stayed where they were.

As I laid it down—

"Do you see it, too?" said Herrick.

"I—I don't understand," breathed Elizabeth. "I mean, how can that be there?"

"What is it?" said I, and stepped back to go down on my knees.

"It's time we went home," said Herrick. "That's what it is. When I run into black magic, that's where I get off."

Never had idle words so specious as a fantasy.

The block which I had withdrawn had left behind it no room.

Though I make a fool of myself, at least I will make this clear.

When you pull a drawer from a chest and lay it aside, you leave in the chest a space which is very slightly larger than the drawer

which you have removed. But, though I had drawn out the block, there was no such space left. In fact, the gap was now framing another block of stone which resembled exactly the one I had taken away, except that it had no handle by which it could be withdrawn. And when I presently touched it, the same indefinable tremor told me it was not fixed.

"Can you beat it?" said Herrick, shortly.

"On the face of it, no," said I. "But there must be some simple reason for such a thing. I mean, these doings are ancient: there's no machinery here."

"There can't be a reason," said Herrick. "Unless you're a conjurer. If you pick a brick out of a wall, you've a right to expect a recess. Well, there's the brick you picked out: but where's the recess?"

"There was a recess," said my lady. "There must have been. But now it's been filled."

"That's right," said I. "That's right. And I'll tell you another thing. It's got to be emptied again before we can put that block back in its place."

"Do you mean to suggest," said Herrick, "that a slab of stone of that size, fixed or unfixed, can shift to and fro on its own?"

"I have it," said Brenda's voice. "The thing is a counterpoise. My uncle has one at his farm. It is very old, but its movement is silent and sure as the flight of an owl."

There was an electric silence.

Then—

"The girl's right," said Herrick. "And there's the conjuring trick. Beneath these steps there's a balance; and when you drew out that block you lightened one of its scales—with two results. One was that the scale you had lightened rose in the air, and thus revealed to our eyes the second weight on that scale. That is it, there—in the gap." He got to his feet. "And the other result was this—that the opposite scale sank down—thus revealing somewhere or other the doorway we're trying to find."

That this interpretation was good, there could be no doubt, and we all began to go down the winding stair, surveying the walls, as we went, for some gap in their masonry. We were too much excited, I fear, to use our wits. Had we done so, we should have perceived that there was but one direction in which the balance could hang and that this would bring the scale which we wished to locate very nearly above the doorway by which we had entered the tower. However, as luck would have it, we now had no need of wits, but only of eyes; and as we emerged from the staircase into the small, square hall, we saw directly before us the interspace which we sought.

On the wall which faced us one of the panels had sunk—not very much, but five inches . . . exactly the height of the block which I had pulled out of the stair. The gap thus shown was breast-high and 15 inches in width. Beyond was an open space, and when I put in my hand, I could feel a faint current of air.

The panel hung on a chain, which was, of course, attached to the balance above. And so long as it hung on that chain, the panel could go no further, because the counterweight had no room to rise. So I took the weight of the panel, while Herrick deftly unfastened the heavy chain.

"Then I let the panel sink slowly into some slot in the stone . . ."

At last it came to rest, some six inches still protruding and making a sill to the doorway which we had discovered at last.

This gave to a winding stair, precisely resembling that upon which we had passed so many wearisome hours. In a word, with the hall for landing, the stair of the tower went on down, curling slowly right-handed, into the bowels of the earth.

For the others I cannot answer, but until the way was open, I had never considered to what "the doorway" might lead; but now that we were about to discover the truth, I remembered the late Count's words and, with those for straw, began to make fabulous bricks.

"It may be that you can use it . . ."

I will not set down the pictures

my fancy drew. Enough that they were all false. But I have this consolation—that not one man in a million would have predicted the scene which presently met our eyes.

Herrick declined to go down, but stayed in the hall with Brenda, "unless and until," said he, "my lady decides that she wants me on in this act." So I preceded Elizabeth, torch in hand.

For 36 steps we went down. And then we came to a chamber that had no door.

On the threshold I stopped and lighted a second torch, and my lady looked over my shoulder, to see what I saw.

The chamber was small—some fifteen feet by eight, and some nine feet high. Its walls and floor and ceiling were all of stone, and though there was no window, the air was by no means foul. (This, I afterwards found, was due to two vents—one low down in a wall, and the other high up at the opposite end of the room; but though I sought for their mouths, I never was able to find them, because they were too well hid.) Towards one end of the cell was a great oak stall, plainly very ancient and finely carved, and against one wall was a coffer, also of oak. There was no other furniture.

In the stall was seated a man—or what was left of one. His pose was natural. His head was up and was leaning against the back of the stall, his arms lay along its arms, and his trunk and his feet were well and truly planted on oak and stone. His clothes were those of the fifteenth century. His tunic was of diapered velvet which the passage of many years had brought to shreds and tatters, if not to dust, but a jeweled belt was still girding the crumbling loins and a chain was sunk in the ruin about the neck. Hose still hung upon the legs, which were skin and bone, and a patch, that had been a cap, was still crowning the thick fair hair. This was inviolate. The face and hands were withered, but otherwise well preserved and dead. The eyes, which were wide, had a curious, sightless look and might have belonged to a man who was living, but blind; and the whole was in no way offensive, because, I suppose, there was no sign of corruption, but only of age. Indeed, had the hair been white, the figure would have been full of dignity; but the color of the hair was fatal, suggesting an old man's efforts to seem to be young—one of Time's shabbier jests, for the man had not seen old age.

On the coffer were lying three things. One was a skin of parchment—or part of a skin. Upon this had been written Latin, still to be read. By its side lay the translation, clearly inscribed upon vellum and made at some later date. And between the two lay a massive signet-ring.

As might have been expected, the documents told us the truth.

"Here sits Elbert, Duke of Austria and Carinthia, King of Hungary, slain by his host and liegeman, Rudolf of Brief, because he came upon him defiling his wife."

"With the fear of death upon her, Helen of Brief declared the following facts:

"That the King and she were secretly married, before he wedded the Queen and before she deceitfully wedded Rudolf of Brief. In proof whereof she offered her marriage lines signed by the Cardinal Gaddi, lately dead of the plague, whom God reward."

"That the first and third of her children, whom Rudolf believed to be his, were both the sons of the King."

"Rudolf made haste to apprise the Queen of the truth."

"For the sake of that injured lady, he undertook, on conditions, to hold his peace. Between them it was agreed:

"That he should hold to his witness the corpse of the King, himself providing another to take its place and be interred and entombed as though it were that of the King . . ."

"That since Otto, whom he thought his first-born, was now IN TRUTH Duke of Austria and Carinthia, King of Hungary, he and his heirs should FOR EVER hold the right to call upon the heirs of her body in any stress, whose help they shall have WITHOUT FAIL by showing the King's great ring,

"That her heirs shall be so instructed in perpetuity."

"By Rudolf's order, Gollanx, a chemist of Innsbruck, preserved the corpse of the King. This he did according to a certain prescription which he had of a learned Venetian whose son he had saved. His raiment also he dipped against the corruption of Time."

"Dated the ninth day of March in the year of Our Lord one thousand four hundred and thirty-nine (the King being dead on the seventh, having lain in state till now and to be replaced this night) and written down word for word as my lord Rudolf hath commanded by his unworthy servant and clerk

"GABRIEL of LITTAI."

"Whom I slue whiles his ink was wet for he hath a long tongue and I have need of a bobby as he hath said."

"RUDOLF OF BRIEF."

The original postscript was laboriously written in German and poorly spelt. The translation was done in German from first to last, and to this had been added two lists—one of the Lords of Brief and one of the several Heads of the other House.

Elizabeth was trembling.

"Oh, Richard, d'you know what this means?"

"It means you're a queen," said I. "But then I knew that before."

"No, no." She dabbed at the parchment. "That last name there. Not my grandfather's—the other, Harriet Vincentia Saying, Duchess of Whelp. She's still alive—and she's bigger than any queen. She's always known as 'Old Harry.' Her mother was English—as mine was, and if she'll take up my cause . . ."

"She must," said I. "It's a case of deep calling to deep."

"She's a law to herself," said Elizabeth, thoughtfully. "But if she does—well, next time you come to Brief you won't have to force any bars."

"That's right," said I, feebly enough. With a sudden movement, I set a torch in her hand. "And now I'll go for a pen. You must write your name here at once. Shall Herrick come down?"

"If you please."

I left her there and mounted the un worn stair.

The thing was absurd and childish, but now that I saw what was coming, my heart sank down. The "rough stuff" was over, and so my service was done. From now on, steps would be taken by a lady of high degree. Pressure would be put on the impostor; ways and means would be used which were out of my ken. And when the game had been won, I should be invited to Brief . . . where a servant would hold the door wide and another would take my hat. I should be ushered—I . . . that had broken into the place, to set a queen on her throne. . . . And then I should be presented to Her Grace the Duchess of Whelp, and the Countess of Brief would tell her how good I had been—I that had held a King's daughter against my hammering heart . . .

I suppose that my face was betraying my state of mind, for, as I stepped into the hall, I saw Herrick throw up his head and clap his hands to his eyes.

"Oh, I can't bear it," he groaned. "Don't say that after all this—"

(TO BE CONTINUED)

Meanings Attached to Flowers

Poetry, tradition and popular usage have ascribed different meanings to flowers, though there is no authoritative list or uniform agreement. Here are the names of a few: Anemone, anticipation, frailty; apple blossom, admiration; buttercup, wealth; calla lily, magnificent beauty, pride; white camellia, innate worth; cardinal flower, distinction; cornflower, delicacy; cowslip, youthful beauty; daffodil, unrequited love; daisy, simplicity, innocence; dandelion, coquetry; forget-me-not, sincerity, gentility; golden rod, encouragement; heather, loneliness; heliotrope, devotion; white heather, good fortune; hollyhock, ambition; honeysuckle, friendship; hyacinth, sorrow; narcissus, vanity; orange blossom, marriage; rose, love; shamrock, loyalty, and the violet, modesty.

THE CHEERFUL CHERUB

They told me that fame was a bubble, They loftily scorned worldly pelf, And I grant that their words may be true, but — I'd like to find out for myself!

WNU Service.

HOUSEHOLD QUESTIONS

For Long Sheets.—When buying sheets, always allow at least 10 inches on each side and top and bottom, as the bed will never stay neat with sheets that are too short.

Teaching the Child.—The best way to help a child develop attractive manners and genuine courtesy is to set a good example.

A Tempting Dish.—Mashed sweet potatoes seasoned with powdered cinnamon or nutmeg are a favorite dish in some parts of the country.

Cuts High Floor Gloss.—To reduce the gloss of a too highly polished floor finish, rub the surface with oil and pumice powder. Pumice and water may also be used with success.

HAY FEVER

Doctors use LYCAR to give sure, quick relief to all symptoms. This valuable medicine also helps ward off attacks by supplying the body with needed elements. Stop suffering today. Ask your druggist or send \$1.00 to LYCAR, Fort Worth, Texas.

Unnatural

A miser grows rich by seeming poor; an extravagant man grows poor by seeming rich.—Shenstone.

TO KILL

Screw Worms

Your money back if you don't like Cannon's Liniment. It kills screw worms, heals the wound and keeps flies away. Ask your dealer. (Adv.)

Affliction Purifies

As threshing separates the corn from the chaff, so does affliction purify virtue.—Bacon.

How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 38 to 52), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells. Get more fresh air, 8 hrs. sleep and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and assist calming jittery nerves and disturbing symptoms that often accompany change of life. WELL WORTH TRYING!

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness, etc. These are the warning signals that the kidneys need attention.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

BACK TO SCHOOL

The summer vacation comes to a close with many mother's busy in getting school clothes and school books in order. Days of play will give way to hours of instruction and preparation for the years to come when summer won't merely stand for vacation. There are always extra duties to perform when school opens, shoes that need attention, clothes repaired, supplies for study on hand so there will be no excuse when the bell tolls "Come". Your teacher is busy as well, brushing up on books, plans and schedules to pass on the child during this new school session. The youngsters who depart for colleges are especially active. All seem to have some part in the bustle and ado.

We are proud of the schools in our district and we feel hopeful that every tax payer is also. No community can endure without two things, churches and schools. Let us not neglect either, for the better we make them the more widespread is their interest and influence felt, and the better is the community in which they exist. We can raise no higher than these two, our schools and churches. The community of the future can be no better than the educational advantages offered by these two groups of teaching. Speak a good word for our schools and our teachers at every opportunity. Your cooperation will pay big dividends.

Delinquent Tax Notice

The Delinquent Tax Record of the Robert Lee Independent School District has been completed and approved. Notice has been mailed out to all delinquents. After October 1, I will begin the filing of suits for collection of said taxes. No further notice will be given.

G. S. Arnold
Tax Attorney for Robert Lee Independent School District

Budget Hearing

The board of trustees of the Robert Lee Independent School District will meet Monday, Sept. 19, at 8:00 P. M., at the school building for the purpose of approving the budget of 1938-39. Any taxpayer is welcome at the meeting, and may question any part of the budget or suggest anything that might be helpful.

SIMPSON'S
FUNERAL HOME
 ROBERT LEE, TEXAS
 PHONE - Day 71; Night 24

Mrs. Carl Miller and children of Burknett and Mrs. Luie Campbell of Gatesville were guests of Mrs. Hattie Day last week. Mrs. Miller and Mrs. Day are sisters and Mrs. Campbell is their niece. Miss Edna Lambert of San Angelo is a guest this week of Mrs. Day and her daughter, Mrs. Jimmie Denman.

Mrs. B. E. Davis, Bobby Lee Davis of Robert Lee and Fred McMullen of Bronte returned Friday from a 2500 mile tour of 5 Southern States, including Oklahoma, Mississippi, Missouri, Arkansas and Louisiana. They visited the capitols of Arkansas, Mississippi, and Louisiana, returning by Austin and visiting their own state. An unusual fact is that they had seen the capitols of their own home State Capitol.

Henson Fikes finished the gathering and ginning of his cotton crop, Tuesday, ginning in all, 14 bales. He expects to quit farming and go to school with a view of taking up some form of business career.

Mrs. G. C. Allen, Mrs. A. F. Landers and Miss Ollie Green were among those who went from Robert Lee to attend the funeral of Mrs. Claud Collins at Sterling City Wednesday morning. Mrs. Allen boarded in the Allen home the year she graduated from high school.

Mrs. Hattie Day and her daughter, Mrs. Jimmie Denman, entertained a group of tiny folk on the afternoon of Sept. 6, honoring Mrs. Denman's little daughter, Jimmie Mearl, on the second anniversary of her birth. Gifts were presented, the little honoree and punch and ice cream and cake were served.

Citation By Publication

THE STATE OF TEXAS,

To the Sheriff or any Constable of Coke County, Greeting:

YOU ARE HEREBY COMMANDED to summon Naoma Terrell, Jerry B. Terrell, Ollie Mae White, G. N. White, Verbie H. Burns, W. E. Burns, Joe C. Henderson, Louella Henderson, Richard Grady Henderson, Willie Mae Henderson and B. R. Stephens who are non-residence of the State of Texas; and Larkin Henderson and J. R. Dennis, whose residences are unknown, by making publication of this Citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Coke County, to be holden at the Court House thereof, in Robert Lee, on the second Monday in October A.D. 1938, the same being the 10th day of October A.D. 1938, then and there to answer a petition filed in said Court on the 2nd day of September A. D. 1938, in a suit, numbered on the docket of said Court as No. 1478, wherein Ben F. Henderson and Alexander M. Henderson, and James B. Henderson, are Plaintiffs, and Naoma Terrell, Jerry B. Terrell, Ollie Mae White, G. N. White, Verbie H. Burns, W. E. Burns, Joe C. Henderson, Louella Henderson, Richard Grady Henderson, Willie Mae Henderson and B. R. Stephens; Della Brandon, B. L. Brandon, Arthur T. Henderson, Daisy Henderson, G. B. Henderson, Oscar Lee Henderson, Doris Henderson, Bobbie Henderson, Larkin Henderson, and J. R. Dennis, are Defendants, and said petition alleging,

That Robert N. Henderson is dead; that he died intestate on or about November 6, 1908; that his wife, Sarah C. Henderson is dead; that she died on or about June 12th, 1928; that they left as their sole and only surviving children and heirs the following named persons, to-wit:

Naoma Henderson, who married Jerry B. Terrell; W. P. Henderson; Joe C. Henderson; Alexander M. Henderson; Della Henderson who married B. L. Brandon; Arthur T. Henderson; Oscar Henderson; James B. Henderson; Ollie Mae Henderson, who married G. N. White; Larkin Henderson; Ben F. Henderson and Verbie H. Henderson, who married W. E. Burns.

That W. P. Henderson is dead; that he died intestate during the month of April, A.D. 1927 and left surviving him his wife, Louella Henderson and their two children:

Richard Grady Henderson
Willie Mae Henderson
who are now above the age of twenty-one years.

That Oscar Henderson is dead; that he died intestate during the month of December, A.D. 1932 and left as his sole and only heirs his wife Daisy Henderson and four children, namely:

G. B. Henderson Doris Henderson
Oscar Lee Henderson Bobby Henderson
who are minors without any lawful guardian of their person or estate.

That on September 8, A.D. 1928, Ben F. Henderson was appointed Temporary Administrator of the Estate of Mrs. Sarah C. Henderson, Deceased. That said Administration has terminated; that on the 31st day of December, A.D. 1934, R. H. Reaves was appointed Administrator of the Estate of Robert N. Henderson and Sarah C. Henderson, Deceased. That said Administration proceedings are defective and in no force and effect.

At the time of the death of R. N. Henderson and Sarah C. Henderson they owned section 283, Block 1A, H & T C Ry. Company Surveys in Coke County, Texas.

Plaintiffs further allege that the surface rights on the above said land is now owned jointly by the following parties to this suit in the following portions:

Ben F. Henderson, an undivided 5-48ths interest; Ollie Mae White, an undivided 5-48ths interest; Verbie H. Burns, an undivided 5-48ths interest; Della Brandon, an undivided 4-48ths interest; G. B. Henderson, Oscar Lee Henderson, Doris Henderson and Bobbie Henderson an undivided 5-48ths interest; That Daisy Henderson is entitled to a 1-3rd life estate in said 5-48ths interest. Alexander M. Henderson, an undivided 4-48ths interest; Joe C. Henderson, an undivided 4-48ths interest; James B. Henderson, an undivided 4-48ths in-

terest; Richard Grady Henderson and Willie Mae Henderson, an undivided 4-48ths interest; that Louella Henderson is entitled to a 1-3rd life estate in said 4-48ths interest; Larkin Henderson an undivided 4-48ths interest; and R. B. Stephens, an undivided 4-48ths interest.

That the mineral rights in said section is now owned jointly by the following named parties to this suit in the following portions:

Ben F. Henderson, an undivided 66 2-3 acre interest; Ollie Mae White, an undivided 66 2-3 acre interest; Verbie H. Burns, an undivided 66 2-3 acre interest; Della Brandon, an undivided 53 1-3 acre interest; G. B. Henderson, Oscar Lee Henderson, Doris Henderson and Bobbie Henderson an undivided 66 2-3 acre interest; in which interest Mrs. Daisy Henderson is entitled to a 1-3rd life estate; Alexander M. Henderson, an undivided 53 1-3 acre interest; Joe C. Henderson, an undivided 53 1-3 acre interest; James B. Henderson, an undivided 53 1-3 acre interest; Louella Henderson, an undivided 53 1-3 acre interest; Larkin Henderson, an undivided 53 1-3 acre interest; and R. B. Stephens, an undivided 53 1-3 acre interest.

Plaintiffs further allege that the Defendant, J. R. Dennis is claiming a forty acre mineral interest in said land and that the consideration for the same was never paid and that for said reasons said J. R. Dennis has no right, title, or interest in said mineral rights; that said J. R. Dennis is claiming a forty acre oil and gas lease on said land but that said oil and gas lease has

long since expired and is null and void.

Plaintiffs further allege that Norma Terrell, Joe C. Henderson, James B. Henderson, Alexander M. Henderson; Arthur T. Henderson; Della Brandon and Larkin Henderson are claiming a Vendor's Lien on said land to secure the payment of seven certain Vendor's Lien notes but that said notes have not been paid and the lien securing the same is of no force and effect.

Plaintiffs further allege that many of the owners of said land live in far distant points and that it is impracticable for said land to be handled in a conservative, efficient and satisfactory manner and that said land is being damaged, is depreciating in value and is not being cared for; that there is no one in authority to look after and care for said land and that unless said land is properly looked after and cared for the same will depreciate in value causing both the Plaintiff and the Defendant owners great irreparable damage. That it is impossible to equally partition and divide said land; that it is necessary that steps be taken to adequately manage said property for the purpose of renting and paying the taxes and necessary upkeep. Plaintiffs further allege that a receiver should be appointed with full power and authority for the purpose of handling said land and that R. H. Reaves resides in Coke County, Texas, and is an experienced land man with full knowledge of renting and handling; that he is a responsible person and capable of handling said property to the best interest of parties concerned.

Plaintiffs pray that the Defend-

WOOL, MOHAIR and FURS

ants be cited as required by law that a Guardian-ad-litem and an Attorney-ad-litem be appointed to represent the above said minors; that the notes above described in their petition be canceled together with the liens securing the same; that the mineral rights and the oil and gas leases claimed by J. R. Dennis be canceled and removed as a cloud from the title; that the Court Adjudge and determine the legal heirs of Robert N. Henderson and Sarah C. Henderson, Deceased; that the respective interests in said land of all parties to this suit, both Plaintiffs and Defendants, be adjudged and defined and that immediately upon the filing of this suit a Receiver be appointed with ample power to protect, operate, manage, control, and sell said property and that commissioners

be appointed and that said land be partitioned between the parties as found by the Court to be entitled to the same; but that if it cannot be equally partitioned, then that the Receiver so appointed, sell said land and the proceeds thereof be partitioned according to the respective interest of Plaintiffs and Defendants as defined by this Court.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and Seal of said Court, at office in Robert Lee, Texas this 2nd day of September A.D. 1938:

(Seal) Willis Smith Clerk,
District Court, Coke County.

Issued this 2nd day of September A. D. 1938.

Willis Smith, Clerk.

Floyd Gibbons'

ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

'Stream of Death'

By FLOYD GIBBONS
Famous Headline Hunter

HELLO EVERYBODY:

Maurice Dunford of Chicago is today's distinguished adventurer. He was a volunteer fire fighter and "smoke eater" in the little town of Russelville, Ark., in 1929, when his adventure happened. It was a quiet, warm, summer afternoon in the little town that nestled in a valley at the foot of the Ozarks close to the bank of the Arkansas river. Every one was dozing and taking life easy, but suddenly the fire siren let out a shrieking blast that brought the whole town to life.

Maury made a rush for the station. Firemen from all over the town were running to the same point. They poured into the building and the big truck rolled out even before the sound of the siren had died away.

The burning building was only two blocks from the fire house. It was a small dwelling and the fire was in the attic. Maury says that smoke was pouring from under every shingle. He grabbed a line from a coupling and went around to the back of the house looking for an opening through which to get at the fire. Then, seeing no openings, he went into the house, dragged the hose up through a small trap door in the ceiling, and crawled with it into the attic.

Fighting Fire in the Attic.

"The heat and smoke were terrific," he says. "I started creeping forward so I could get at the seat of the blaze. Water was now belching through the nozzle in my hands, and the boys outside were playing

Maury couldn't even move a muscle. He couldn't even turn around.

another hose. The water from that hose was drenching me, but it was doing little toward putting out the fire."

The little attic was fairly flooded with water now. What's more, that water was hot. "It felt as if it was cooking my knees," says Maury, "for I was kneeling in it, between the sills, with my head bent down to my chest to keep as much smoke out of my lungs as possible."

And then it happened. He felt as if something had grabbed him all at once. He tried to look around—and found that he couldn't. He simply couldn't move a muscle.

His whole body was stiff. It wasn't exactly trembling, but it felt to Maury as if something was trembling inside of him, giving him the shaking up of his life. All at once he realized what it was. An electric shock!

Paralyzed by Electric Current.

Where was the shock coming from? He had stepped on no wires. There wasn't any wiring anywhere within ten feet of him. It took Maury a minute or two to figure that out. The hose! That stream of water had found a bare electric wire somewhere back there in the smoke and flame. The electricity was traveling down the stream to the nozzle, and Maury was gripping that nozzle with both hands. His wet clothes and the water-soaked floor were completing the hook-up that was sending the voltage through his body.

He tried to move the hose—divert the stream of water away from that wire—but he couldn't budge an inch. He tried to drop the nozzle, but for the life of him he couldn't let go of it. He tried to use his voice—and that worked. Somehow his vocal cords weren't paralyzed by the flow of electricity, and he shouted at the top of his lungs. "Shut off the juice," he was yelling. But he didn't think any one could hear him over the bedlam and confusion of sounds that came up to him from below.

"The pain was getting terrible," he says. "Every joint—every muscle—every bone in my body was aching. Smoke was choking—blinding me. I was held there by that shock, as immovable as if I'd been chained there. What was I to do? What was going to happen to me? Was I going to stand there until the fire crept over and burned me alive? Or would I succumb to the shocks of the electricity before the fire reached me?"

Some One Pulled the Switch.

Maury knew that even house current could kill a man under the proper conditions, and he was sure that current would kill him if he held on long enough. The pain was getting worse by the minute. He felt as if he were about to lose consciousness, but he fought that giddy feeling that was making his head spin round and round. Once he let go of himself—well—he knew that would be the end.

And then, all of a sudden, Maury felt his body relax. He tried to move—found that he could—and turned the nozzle upward. Some one downstairs had pulled the main switch, shutting off all the current in the building. And he'd done it just in time to save Maury from collapse—and probably from death.

Says he: "The force of the upturned stream of water battered through the roof. Shingles went flying. Sunshine came pouring in. And I felt like a million dollars!"

Resin Made by Accident

The discovery of a way artificial resins might be made for use in paints and varnishes came about quite by accident. In 1901 an English dyestuff maker produced a tough resinous mass in his laboratory. Experiments made over a number of years perfected the product as we know it today and opened the way to an inexhaustible source of supply, obtainable at will. Natural resins are still used, of course—being largely collected by natives of tropical swamplands where it is found embedded in the mud.

Termites Use Caterpillars

A naturalist describes the occurrence of the larvae of a Tincid moth in the nests of a New Zealand termite. The larvae depend upon the material of the nest for their food, and they may be seen moving along in file, at regular intervals, as if in a procession, each escorted by a few soldier and worker termites. It appears that the larvae exude a strong odor which is attractive to the termites. Just as one may have flowers in his room for the sake of their perfume, so the termites have caterpillars.

What to Eat and Why

C. Houston Goudiss Offers Timely Advice On Avoiding the Menace of Tooth Decay

By C. HOUSTON GOUDISS

ONE of the most serious indictments against our present-day civilization is its failure to preserve the teeth of men, women and children. Countless examinations in all parts of the country reveal that practically 100 per cent of the adult population is afflicted with some form of oral disease. And surveys of the physical condition of school pupils in different localities and under various circumstances disclose that tooth decay affects between 90 and 97 per cent of our school children.

Remarkable and widely heralded advances have been made in our knowledge of how to control and prevent many dangerous and debilitating diseases. Yet we appear to be complacent in the face of the fact that the majority of our population is handicapped by decayed teeth!

Nor does the mere statement of the case convey any idea of the seriousness of the situation. For it is unfortunate that diseased teeth and dental infections which may result from unchecked decay, seldom incapacitate the sufferer. Thus the victim does not become sufficiently alarmed to take the steps necessary to arrest the progress of the diseased condition. Yet a single decayed tooth might be compared to a poison factory, distributing its noxious products to every part of the body, and tooth decay may be indirectly responsible for rheumatic ailments, neuritis, dyspepsia or duodenal ulcers. It may even be a contributing cause of heart trouble.

Possibilities of Prevention

Yet there is little or no excuse for the appalling amount of dental decay that afflicts the American people. For in recent years a vast amount of laboratory and clinical research has been undertaken in this field and there is impressive evidence that dental caries, or decay, may be completely controlled by dietary means. Then, too, our understanding of correct dental hygiene has advanced tremendously, and scientifically designed tooth brushes and skillfully compounded dentifrices are available in every town and hamlet throughout the country.

Diet and Dental Disease

Various investigators have advocated different dietary formulas for the control of dental decay. There is a lack of agreement among them as to which single element is the most important in constructing a diet to prevent caries.

But outstanding authorities hold that each of the five following di-

etary factors has a controlling influence: vitamins A, C and D; an adequate supply, in the correct proportions, of the minerals, calcium and phosphorus; an excess of alkaline or base-forming foods over acid-forming foods; and a generous allowance of raw foods, with emphasis on those that leave an alkaline-ash.

Vitamin A and Tooth Structure

Notable research has demonstrated that vitamin A is a definite factor in controlling tooth development. The development of the enamel is governed by a complex structure which begins to deteriorate as soon as vitamin A is withheld. When experimental animals are placed on a diet lacking in this vitamin, their teeth become brittle, chalky and white. This is due to the loss of the enamel, with its orange colored pigment, and the exposure of the dentine.

An English authority also claims that vitamin A is necessary to help prevent diseases of the gums.

Inasmuch as vitamin A likewise has many other important functions to perform in the body, every homemaker should see to it that her meals contain an abundance of milk and other dairy products, and the green, leafy and yellow vegetables which are a good source of this vitamin.

Vitamin C and Tooth Health

Vitamin C is closely associated with the health of both teeth and gums. There is strong evidence that this vitamin is essential to the dentine, enamel, cementum and the bone of the jaw. And there are on record remarkable experiments which demonstrate that dental decay and gum disorders are both prevented and arrested when extra amounts of foods containing vitamin C are included in a well-balanced diet.

Vitamin C is best obtained from the citrus fruits, tomatoes and raw leafy vegetables such as cabbage.

Vitamin D which we get from the sun, from fish-liver oils and concentrates, and from irradiated foods and those fortified with vitamin D concentrate, is necessary for the proper utilization of the calcium and phosphorus, which must be generously supplied if the teeth are to develop properly.

Importance of Dental Hygiene

Thus a carefully calculated diet, beginning before birth and continuing throughout life, is necessary to build teeth that are structurally sound. But even the most

Sense and Nonsense

Mr. Jones (dictating letter): "Sir, my typist being a lady, cannot take down what I think of you; I, being a gentleman, cannot even think it, but you, being neither, can easily guess my thoughts." The figure a mannequin earns depends upon the figure.

perfect teeth require constant care to maintain their soundness.

Thorough brushing is necessary after every meal to remove all particles of food which remain between the crevices and cling near the necks of the teeth. If not removed, this debris may ferment, giving rise to unpleasant odors and creating acids which may attack the tooth enamel.

It is important, however, that the brushing be done correctly, away from the gums and with a slight rolling stroke, so that the bristles can penetrate between the teeth. Never use a horizontal stroke nor brush toward the gums. This may irritate the tender tissues and may also force food particles under the gums at the necks of the teeth.

A Good Dentifrice Essential

The selection of a dentifrice is most important because an agreeable dentifrice encourages thorough brushing—an efficient dentifrice helps to float away minute bits of food not reached by the toothbrush.

It is also advisable to use a paste or powder which helps to restore luster to teeth which have been surface-stained by foods and beverages.

The use of an antiseptic mouthwash, at least once daily, especially before retiring, is commendable as it leaves the mouth fresh and clean.

It is also important to give the teeth regular systematic cleansing, and to see your dentist periodically for a careful checkup.

Lesson for September 18

**JONATHAN: COURAGEOUS
FRIENDSHIP**

LESSON TEXT—1 Samuel 20:1-17.
GOLDEN TEXT—A friend loveth at all times.—Proverbs 17:17.

Without question, the most precious possession any man or woman has (apart from his fellowship with God if he is a Christian, and the love of his own family) is friendship. It is the flower that blooms by the side of the rugged pathway of life. Like many flowers, some friendships need to be cultivated and encouraged.

It has been said that the love of a woman for another woman is a beautiful thing, the love of a man for a woman an even more devoted and precious thing, but that the bond of love between man and man surpasses all in its strength and glory. Some might question such a statement, and yet it is true that between man and man there is the possibility of the highest type of friendship. David and Jonathan stand at the head of an inspiring list of men who loved each other with their whole souls.

The lesson for today calls for a careful reading of the incidents in the life of Jonathan and David recorded in I Samuel, chapters 14, 18, 19, and 20, as well as the first chapter of II Samuel. It is a story which will richly reward a careful reading. Considering the printed portion in the light of this background we note six things that characterized this great friendship.

I. Cultivated (v. 4).
Friendships must be "kept in repair." Foolish and almost wicked is that man who by boorishly offending his fellowmen, or by neglecting the thoughtful words and acts that cultivate friendship, drives men away from him. "He that hath friends must show himself friendly" (Prov. 18:24). Consider the admonition of our Lord in Luke 16:8, 9, where he urges the righteous use of even our worldly possessions to cultivate eternal friendships. Read what Jonathan did in I Sam. 18:3-5, only one of his many loving and thoughtful acts.

II. Courteous (v. 8).
David asked that Jonathan deal kindly with him, and the entire story reveals that he did just that, always. More friendships are wrecked on the rocks of little discourtesies than in almost any other way.

III. Candid (v. 9).
Friendships that last must be built on absolute candor, not the kind that delights in telling an unpleasant truth, but one which speaks the truth in love. Jonathan told David the truth.

IV. Courageous (vv. 12, 13).
Jonathan was such a faithful son that when the time of parting came he stayed with his wicked father rather than go with David, whom he loved. But he was true to David even though he knew it would incur the wrath of his father if that friendship became known.

Things that cost us nothing are usually "worth it." Real friendship calls for sacrifice, standing by in the night hours, sharing burdens, being loyal even though others may condemn us for it.

V. Covenant Keeping (vv. 16, 17).
Covenants entered into by solemn treaties in our time are soon discarded as "scraps of paper." People make promises to one another that they never intend to fulfill. Jonathan and David made a covenant and kept it.

This matter of trickery and falsehood in life and business is one that deeply troubles the writer of these notes. He sees unmistakable evidence that this perverse spirit has come into the precincts of the church itself. We should have a revival of honesty in office, home, state, and church.

VI. Complete (v. 17).
"He loved him as he loved his own soul"—such a friend was Jonathan. His devotion to David had no qualifying "strings" on it. He was not seeking something for himself. The closest he came to that was to bring his children into the covenant with David (v. 15), and who could question the propriety of such devotion between true friends? He saw that David was to supplant Saul as king, and in the face of his own interest as Saul's son, he put David forward.

Friendship is akin to our relationship to God in that it calls for a complete giving of ourselves, if we are to be true friends. This does not mean that individuality is lost, or special interests and abilities destroyed, but it does mean a whole-souled desire for our friend's welfare, and a complete devotion of our all to his good.

**The Man in the Mirror
Gets a Bit of Advice**

Listen, you in the mirror. Stop scowling! That's no way to start the day. No wonder people give you ugly looks; we get back about what we send out. Try acting cheerful for a change. Smile!

You aren't licked by a long shot! Throw back those shoulders. Tilt up that chin. You look like a new man, like a winner. That's the way to face the world.

Man in the mirror, you must be the kind of an image I want the world to see. You must reflect the positive qualities of love, faith, courage, hope, cheer, energy, ambition. You are the creation of my thinking and living. You are myself!—The Silver Lining.

A Quiz With Answers
Offering Information
on Various Subjects

1. How tall are President Roosevelt and his sons?
2. What is the largest school system in the world?
3. Why is the horse of a dead officer led at his funeral?
4. Which city in the world has the most broadcasting stations?
5. How many divorces were granted in 1900, and what are the latest figures?

The Answers

1. The President is 6 feet 1; James, 6 feet 3; Elliott, 6 feet 2;

Franklin Jr., 6 feet 3; and John, 6 feet 4.

2. It is that of New York, with 1,110,000 students and 38,000 teachers.

3. It is a survival of the ancient custom of sacrificing a horse at the burial of a warrior.

4. Havana, Cuba, heads the list with its thirty-three broadcasting stations.

5. In 1900 there were 81 divorces per 1,000 marriages, and in 1935 there were 164 divorces per 1,000 marriages.

Daughter—Not quite, dad. He won't be here until eight o'clock.

A gold digger is a girl who takes her fund where she finds it.

Earnest Money
"Am I rightly informed that you are offering a reward for the dog you lost?"
"Good gracious, have you found my Fifi?"
"No, but I intend looking for it and came to ask for a little advance."

Horse "Taken for Ride"

A few years ago a gangster became a "big shot" and decided to take up horseback riding. So he hired a horse from a swank riding academy and shortly, through his inexperience, fell off and was killed. His henchmen, agreeing that this horse could not murder their boss and get away with it, rehired the animal the next day and shot it to death on a lonely road, the only case on record of a horse having been "taken for a ride."—Collier's Weekly.

**Pure as a
Thoroughbred**

Scientific selection, years of experience and tender care have made possible the Thoroughbred horse of today. Half a century of research, of strict adherence to highest-quality specifications is behind Quaker State's scientific achievement... motor oil purity.

When you buy Acid-Free Quaker State Motor Oil, you are protecting your motor with the best that modern refining can provide. Your car will run better, last longer. Retail price, 35¢ a quart. Quaker State Oil Refining Corp., Oil City, Pennsylvania.

GLIMPSES INTO THE PAST

Taken from the files of
The Coke County Rustler

July 21, 1894

Mr. Steve Parker has purchased W. L. Clawson's interest in the San Angelo mail line.

Mrs. J. I. Prichard left last week for Lower Penasco, N. M. where Mr. Prichard has been for several months. They will make that their future home.

On last Tuesday night shortly after we had fallen into the arms of Morpheus, we were awakened by sweet strains of music. When we were fully awake we found it was not "only a dream" but in reality the choicest music on our door step. Whereupon, we opened the door to more fully appreciate it. The party was composed of Mr. J. W. Tunnell, J. S. Gardner with the flute and guitar, D. T. Averitt, Ed Mobley, Jas. Tunnell. After a few choice renditions, the party left us, perhaps visiting other homes to make the inmates therein glad with their musical notes.

August 24, 1894

Misses Edith Montgomery, Lula Webb, Pearl and Anna Burroughs were visitors of the Rustler, Wednesday evening. Call again, ladies.

Misses Cora Scarbrough and Lovena Payne of Sanco were in the city visiting friends, Thurs.

Snyder Bros. are soon to move 200 head of cattle to the Menielle pasture.

Rev. John Reed of Edith passed through town Friday morning on his way to Mt. Margarette for the purpose of holding a protracted meeting.

Mr. E. Menielle, who has charge of a portion of a ranch formerly owned by the Snyder Bros. in this country has leased about 2000 acres of the ranch this week for a year's time to E. C. Good of Robert Lee and to F. L. and R. H. Harris. Mr. Good takes the portion known as the China pasture and Harris Bros. takes four or five smaller pastures.

Prof. Jones writing school closed Wednesday and all who attended were pleased with their prospects. Miss Lena Hasey was awarded the prize as making the greatest advancement.

Prof. M. H. Havins will take up a vocal music school of eight days duration in Robert Lee to begin Monday the 25th. Class will meet in the school house.

Rufe Whitesides says he has 100 to 150 summer pigs and his hogs are grown altogether on mast and cost him almost nothing.

Mr. B. N. Tannehill sold a load of good new corn in town this week at 50c a bushel.
