Lions Club Hold Meeting

A splendid luncheon was served the Lions Club by Baptist ladies at the regular meeting Tuesday night. All club members were present as well as quite a few guests. Several numbers were rendered by the Robert Lee Glee Club as well as a few piano selections, which were thoroughly enjoyed.

The Boy Scout movement was discussed pro and con, and it is not known just exactly what is to be done about a Scout Troop for Robert Lee, but the movement has the whole-hearted support of the club and it is almost sure to go over.

Several more projects are to come before the club at future meetings which will add much to civic improvements.

"Gateway," New Dramatic Hit, Friday and Saturday

"Gateway" is a story of the most dramatic spot on earth--Ellis Island, where 20,000,000 immigrants have passed through in the past sixty years.

This new 20th Century-Fox hit tells the story of two who were caught in the human wave beating against Ellis Island! The two who had feared they had met each other too late for one last chance for life and love.

500 extras were used in this picture, sinners and saints, sweethearts and charlatans, and from every part of the world.

The cast includes Don Ameche, Arleen Whalen, Gregory Ratoff, Binnie Barnes, Gilbert Roland, Raymond Walburn, John Carradine, Harry Carey, Marjorie Gateson, Lyle Talbot, and many others.

Also March of Times, Flying G-Men, Cartoon.

Sunday and Monday, "Cafe Society," starring Madeleine Carroll, Fred McMurray, Shirley Ross and others.

This picture is sponsored by the Lions Club and is said to be very fine entertainment.

A bored young society girl has the awakening of her life when she steps off Park Avenue for a new thrill and marries a tough newspaper reporter to get her name in the gossip columns.

"Cafe Society" is one of the smartest, cleverest comedy-dramas on the screen. Bright, witty lines and wise cracks furnish plenty of laughs.

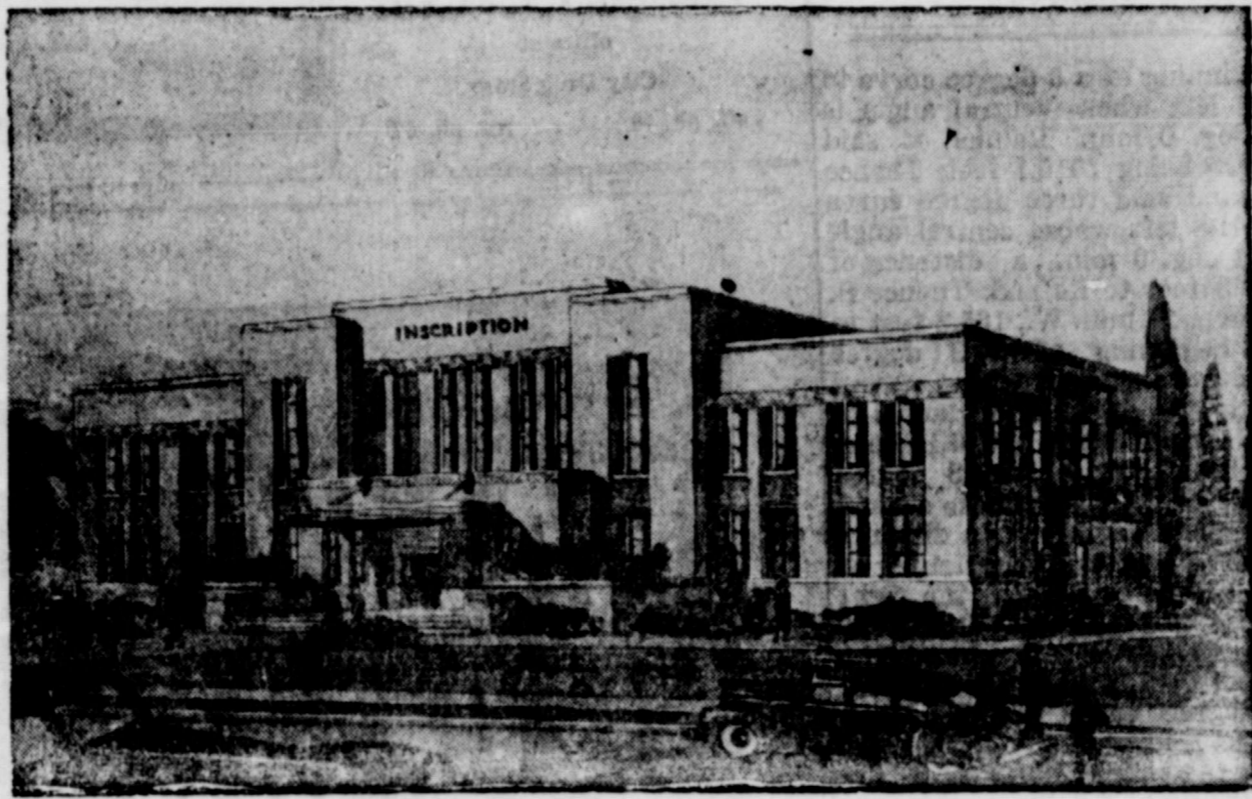

News flashes and a Popeye Cartoon.

Wednesday only, Akim Tamiroff, Frances Farmer, Leif Erikson and Lynne Overman in "Riding a Crooked Mile." Built around the experiences of a wild chieftain of the Russian steppes who carries his career of plunder and bold defiance to the law to America with him, the picture tells what happens when United States law and order comes up against old world daring and shows the dilemma of two young lovers caught between the two.

Exciting, unforgettable, don't miss seeing Tamiroff and Farmer in this smashing picture.

Also Cartoon.

STERLING'S NEW \$91,000 COURT HOUSE

Sterling City formally opened their new court house Friday afternoon of week before last with quite a crowd in attendance.

District attorney O. C. Fisher had charge of ceremonies and made an interesting and fitting

address.

Uncle Bill Kellis commented on the contrast in the opening of this \$91,000 edifice to one day in June in 1891, when the first commissioners court composed of P. D. Coulson, county judge,

Ben Jones, W. L. Foster, W. B. Tollison and Thomas Brennan as commissioners met at the Kildare Kanch in the old live oak grove up by the North Concho river about five miles from Sterling City.

Showery Weather

The past few days several nice showers visited this section, but the precipitation was not sufficient to be of much benefit.

The eastern part of the county the rains were much heavier, one or two good rains being reported in several sections. Fairly good rains have also been reported west of us.

Since the above was put into type more rain has covered the county, many sections reporting good rains Wednesday, enabling farmers to go ahead with their planting. Some sections are still dry.

G. S. Arnold reports 2 1/2 inch rain on his farm north of here Wednesday afternoon.

As we go to press a drizzling rain is falling and chances look good for a general downpour.

The P. T. A. will meet Thursday afternoon, May 11, at four o'clock at the school auditorium for the last meeting of the year. Everyone is urged to attend this meeting as it is the goal of the P. T. A. to have fifty parents and teachers present at this meeting.

Wayne L. Bennett, representative of the Amicable Insurance Company, Waco, and well known here, is now a member of the \$100,000 club of his company, having produced that much business last year, and he expects to double that amount this year.

We call attention to the removal of Dr. R. J. Warren, dentist, San Angelo, from his old location, 811 San Angelo National Bank, to 201 Central National Bank. Dr. Warren has carried a card in the Observer for several years.

Rain, Rain, Rain. It's good for the old county. So is Ratliff's cats.

Blue Bonnet Bridge Club

Mrs. J. C. Snead, Jr., was hostess to the Blue Bonnet Bridge Club Friday afternoon, with twelve members and four guests present. Mrs. Paul Good won high score for members and Miss Louise Roe made high score for guests.

Guests for the afternoon were Mrs. Marvin Simpson, Mrs. John Brown, Mrs. Ivan Puett, and Miss Louise Roe.

A delicious salad plate was served.

Mr. and Mrs. Maggie Hickerman and daughter of Tucumcari, N. M. have been guests in the Coke Austin home the past few days. Mrs. Hickerman is a sister of Mr. Austin. Mrs. Hickerman was formerly Mrs. Maggie Schott and resided here years ago.

Mrs. Scoggins is in San Antonio this week to attend a Social Service Workers convention. She was accompanied by Mrs. N. C. Brown.

W. C. McDonald now belongs to the ranks of good bass fishermen. He went over to Lake Nasworthy and succeeded in landing the limit, the smallest weighing 2 pounds.

It is reported that the fine orchard belonging to Oscar Ivey north of Bronte was destroyed by hail Monday afternoon. A Mr. Scott living nearby suffered a heavy loss among his poultry flocks.

Within an hour after President Roosevelt had approved the \$549,000,000 War Department appropriation bill, army officials awarded a record-breaking contract for 571 bombing and pursuit planes, to cost \$50,000,000. The order will be filled by five manufacturers.

The latest fad in Paris is a white linen handkerchief, embroidered with the black letters, "Vive Roosevelt." It is worn in the breast pocket of women's tailored suits with the letters showing.

Wool prices have advanced the past few days, and also yearling sheep and lambs have made a slight advance.

You are always welcome and we are glad to have you around at Ratliff's.

The most unusual and outstanding in any community, is that fellow who pays cash for everything as he goes along.

The Sterling City school band, composed of mere youngsters, visited Robert Lee school last Friday where they gave a concert, and later they paraded down town, with the Robert Lee school band taking part. The visitors have a splendid band, and the concerts were very much enjoyed, which reminds us that the Robert Lee school band, young as it is, are rapidly taking their place in the musical world, and ere long they will be among the best of school bands.

The water is fine, come in! Ratliff has it.

Mrs. Lizzie Davis has another 5-room dwelling well under way. G. E. Davis has the contract for the present building. The other new dwelling started some time ago, is nearing completion.

THERE IS ONE TRUCK FOR EVERY SEVEN FAMILIES IN THE UNITED STATES!

Motor trucks are contributing much to sustain the high standards of living in the United States which are far above those of any other nation. There is one truck for every seven families in this country. Special additional automotive taxes paid by trucks total more than \$400,000,000 annually. This is about 25 per cent more than all the taxes paid by all Class 1 railroads, which embrace 90 per cent of all rail trackage.

JOURNALIST PREDICTS A SPIRITUAL REVIVAL

GEORGE E. SOKOLSKY, for years, has probed the mass mind and studied public consciousness and comes to the fairly unusual conclusion that the next sweeping mass movement in the United States will be a spiritual revival. He declares that on all sides there are indications that men and women are awakening to the realization that "men shall not live by bread alone."

These conclusions are presented in the May issue of Cosmopolitan magazine in an article entitled: "Faith Interests Me Most in This Cosmopolitan World." The author poses a number of questions. "Is not the world saying there is something wrong? We tried to settle everything by treaty, by law, by edict, by plan. But the world is more unsettled than ever before. What have our wisdom, our science, our statistics, our experience brought us?"

Especially among young people does Sokolsky find a groping for peace of the spirit and faith in something. Youth is demanding satisfaction for its fierce craving for peace, comfort and hope. They have tried to sublimate this craving in other things without success, and in spite of the fact that all they have been taught in schools of higher learning seems to indicate that there is no God, they continue to search for some outlet for their yearning aspirations.

Not only is this phenomenon taking form in America but also in China, Russia, Mexico and Germany and other countries where orthodox religion has been under fire.

Congress hasn't been doing much of late. European troubles have taken most of the lawmakers' energies, and discussions of possible changes in our neutrality law have kept Capitol Hill busy. Any a solon is going gray trying to figure out a way to keep us out of war, and at the same time to help the much beset democracies across the sea. However, the sentiment of Congress toward domestic issues becomes constantly more clear. The trend is strongly to the right. Never was Mr. Roosevelt's influence at so low an ebb. And those White House advisors who use to write most of the major bills and who threw a tremendous weight, are far out of the limelight. The attitude of the White House is in itself proof of this. When the President wants something done now, he makes requests which are moderate in tone, and there have been no "must demands" for a considerable time. And his plea to his party to keep internal peace shows the way the wind is blowing.

Your water bill must be paid by 10th of each month or service will be discontinued. City Commission.

It Costs Too Much

Hardly a day goes by without our seeing something we want to purchase--but don't, because "it costs too much".

It may be a suit of clothes or a household convenience. It may be something special for dinner. Whatever it is, the belief that "it costs too much" blocks the purchase. And we customarily blame the merchant.

The merchant may be at fault in some cases, but not in the majority. He sells as cheaply as he possibly can, knowing better than you do that high prices do more than anything else to build up sales resistance. Believe it or not, legislation, in many instances, is more directly responsible for high prices than the people who make, handle, and sell commodities.

A large number of states, for example, have passed so-called fair trade laws. These laws vary in detail, but all are about the same in principle. They effectively block honest competition by preventing merchants from selling certain articles below a specified minimum. As a result, they place a premium on waste and inefficiency. The high-cost dealer is allowed to be the arbiter of price and value. And the low-cost store isn't allowed to cut the price, even though it wants to and could do so and still make a satisfactory profit.

Various local surveys concerning the economic effects of these laws have been made. And in every instance, the surveys have shown that they raise the cost of living, and reduce sales. The average family spends about all it receives in income--and when prices are forced up it must buy fewer or inferior articles.

So don't blame your merchant when you think prices are too high. Most of the time he, like the costumer, is a victim of price-boosting policies which are beyond his control.

Americans pride themselves upon their Bill of Rights which gives them the privilege of free speech. And there are but few Americans who do not exercise the privilege and many who abuse it. There was a recent meeting in New York and several other large cities, where pro-Nazi Germans gathered to instigate and excite class hatred. The meeting was held without obligation of the public officials and there was slight interference by outside forces. There are many public-minded Americans who object to such a gathering. Of course, we must remember that another Americanism is the right of assembly and to prevent it would be to play into alien hands. One cannot be surprised if citizens do make a demonstration against such a group, with such a purpose. America has been very lenient in allowing utterances against their government, but they will not take too much. They realize that each man has

the right to state his opinions regarding national conditions, but will these Americans remain passive when a meeting tries to destroy a government where free speech is made possible? What to do in the matter of permitting such gatherings is a real problem for public officials to solve.

The Dogwood Legend

The states that advertise to the tourist their added scenic beauty during the month of blossoming dogwood, may be unaware of the lovely legend of the dogwood. A tree expert unearthed this story and we like to recall it.

The dogwood has been known for centuries and the history of it reaches back to Christ's time. Due to the hardness of its wood it was chosen for use in the cross at the crucifixion, the story goes. The dogwood was saddened to be used for such a purpose and the Savior, seeing its distress promised: "Never again shall the

dogwood grow large enough to be used for a cross. It shall be slender and bent and twisted, and its blossoms shall be in the form of a cross with two long and two short petals. In the center of the outer edge of each petal there shall be small prints, brown with rust and stained with blood. The center of the flower will be a crown of thorns. All those who see it will remember it was on the dogwood I was crucified and this tree shall not be mutilated or destroyed, but cherished and protected as a reminder of my agony and death upon the cross."

It is just a legend and history does not back it perhaps, but it is a beautiful way of explaining the markings of the flower and our readers will like it.

More than half of the motorists earn less than \$30 per week and they pay an average of \$50 a year in taxes on their cars. That means that nearly two whole weeks' wages are paid by many motorists for automotive taxes.

Believe It Or Not

Believe it or not, but it is true that John C. Reed had a bunch of young cattle to catch on fire last week.

Mr. Reed had about 70 young cattle in a pen last week and was spraying them with kerosene. Someone struck a match and instantly a yearling was a mass of flames. It ran among other animals and set them on fire. One of the animals ran into the fence and broke its neck. The others suffered a few burns, but escaped with singed hair.--Sterling City News Record.

Plenty of Planting Seed

I have plenty of Red Tag planting seed, and have just received a shipment of Acala cotton seed. Good planting seed is the best investment you can make. Don't take chances with inferior planting seed. Get the best!

I also have plenty of cow feed and chicken feed.

Fred McDonald, Jr.

Get those graduating gifts at Cumbie's, they wrap them free.

The Robert Lee Observer last week published a special golden anniversary edition. Full 16 pages carried many advertisements and a large amount of reading matter. The county was organized in 1889 and many citizens who resided there on that date and still call Robert Lee and Coke county home, were listed in the special.--Ballinger Ledger.
