

(By Boyce House)

After a boy has grown out of baby dresses and diapers and has required pants, freckles, and so much dirt that no one would kiss him between meals, he then becomes a boy.

A boy is nature's answer to that false belief that there is no such thing as perpetual motion. A boy can swim like a fish, run like a deer, climb like a squirrel, balk like a mule, eat like a pig, or act like a wild buck, according to climatic conditions.

He is a peice of skin streched over an appetite. A noise covered with smudges. He is called a tornado because he comes in at the most unexpected time, hits at the most enexpected places, and leaves a wreck behind him. He is a growing animal of superlative promise, to be fed, watered and kept warm, a joy forever, a periodic nuisance, the problem of our times, and yet the very hope of our nation. Every new boy is evidence that God is not yet discouraged by man.

Were it not for our boys, a thousand picture shows would go bankrupt. Boys are useful in running errands with the aid of five or six adults. The zest and enthusiasm with which a boy does an errand is equalled only by a turtle on a July day .The boy is a natural spectator. He watches parades, fires, fights, ball games, automobiles, boats, and airplanes with equal fervor, but not the clock. The man who invents a clock that will stand on its head and sing a song while it strikes will win the undying gratitude of millions of families whose boys are forever coming home to

dinner about suppertime.

Boys faithfully imitate their dads in spite of all efforts to teach them manners. A boy, if not washed too often and if kept in a cool quiet place after each accident, will survive broken bones, hornets, swimming holes, fights and nine helpings of pie.

It is hoped that the voters will give an ovehwhelming approval Nazareth 4-H on August 25 to the constitutional amendment giving Texans who are now in the armed forces the right to vote without the payment of a Texas" man urged that a citizen of Texas serving his nation in the Army, Navy or Marines in time of war is still a citizen and should be permitted to vote in any primary or election and without the payment of a poll tax.

Claude, Texas

I bought an F-30 Farmall Tractor three years ago in May. Used Amalie in it from the start. Have never repaired it, not even ground the valves and I am going ahead with the fourth year's work without any expense.

Also use Amalie Motor Oil in my cars. I wouldn't want to operate my farm equipment without Route 2

R. R. No. 1 Petersburg, Texas Gentlemen:

In answer to your inquiry about my experience with Amalie Motor Oil, I have used it exclusively for three years-this is the fourth year.

Bought a new Model B John Deere Tractor three years ago, put in one set of rings. Tractor is now working and this is its fourth year for this ma-

I also use Amalie in my Ford. Light repair bills make Amalie an economical oil to buy.
