## Swofford To Open Dry Goods Store

J. W. Swofford, former Robert Lee resident, will return to his old home town and open up a dry goods store. He has leased the Masonic building which was vacated by the U. S. post office last week.

This is one of the best business locations in town. Swofford will occupy the front 50 feet of the building which has a width of 25 feet. A new floor will be laid and other extensive improvements made.

Swofford grew up in Robert Lee and for the past 12 years has held a sales position with Higginbotham-Bailey wholesale house in Dallas. His wife has also been employed by the same firm. They will purchase a brand new stock of merchandise and fixtures and hope to open up about August 1.

He previously had planned to open his store a block north of the theatre where he was getting a building in readiness, but he changed his plans when the Masonic building became available.

Mr. Swofford is a nephew of Mrs. Ollie Green. The latter has returned from Dallas where she resided the past year and is again occupying her home in Robert Lee which has been vacated by W. T. Roach and family.

## Pair Arrested After Attempting Robbery Here

Two men who entered the Ivey Electric home appliance store here early last week are now in jail at Balinger. They were apprehended after pulling a robbery at Rowena, and were later identified by Vic Simpson, Robert Lee night watchman.

Simpson discovered the men in the appliance store about 11 p. m. on Monday night of last week. They had gained entrance by raising a back window, and the back door was open and lights were on when the night watchman arrived. The men said they had been doing repair work and were just ready to leave. They locked the door as they departed, but Vic wasn't sure about the matter and called the owner, Cumbie Ivey, and Sheriff Paul Good.

Ivey said they were not workmen and the sheriff immediately contracted officers in surrounding counties, giving Simpson's description of the pair. They pulled a couple of robberies in other towns later that night.

The men gave their names as Walter F. Tuck, 34, and J. R. Lee, 16, both of Longview. They are being held for trial in Runnells county.

### Post Office Moved

Robert Lee's post office was moved Saturday to the new J. C. Snead building on the east side of the street. While the building is small it is expected to prove adequate for the present. Also effective July 1 Sam Williams succeeded E. O. Higgins as star route carrier on the run to Sanco and Silver, and Williams also took over the star route from San Angelo to Robert Lee. His sister, Mrs. Raymond Jay, is driving the route from Angelo.

### RECENT BIRDE

Mrs. Bunyan Millican was the former Evie Jo Johnson of Waldron, Ark., before her marriage last month.

## Jaycees Re-Elect All Old Officers

At a meeting of the Junior Chamber of Commerce Monday all officers were re-elected for another year. The organization was formed only a few months ago when officers were chosen for the remainder of the Jaycee year which ends June 30. Bob L. Davis is president and Willis Smith, secretary, of the club which serves as Robert Lee's only business and civic organization.

A pleasing feature of the evening was an address by Rep. W. H. Rampsy of Ballinger, who spoke briefly of results achieved by the recent state legislature. Mr. Rampsy seems to have served his district in a very capable manner.

The matter of securing housing for the new fire truck was disposed of for the present by an offer from the school board to permit the truck to be kept at the school bus garage building. The new truck is expected to be delivered within a few days.

A report by the treasurer showed that donations of \$3,143.40 had been received, and the new truck and equipment is expected to cost nearly that much. No collections have come in during the past three weeks, hence it is apparent that everybody has contributed who intends to do so.

The American Legion will sponsor organization of a volunteer fire department, but it was pointed out that the volunteers do not have to be members of the Legion. A proposal to move the old school bell down town for use as a fire alarm was brought up for consideration.

The Jaycees voted to set dues at \$6 to cover the period from April 1 to Oct. 1, and this will pay for any meals served during the period. One meeting a month was agreed upon for the remainder of the summer.

### Study Range Management

County Agent T. B. Hicks left the first of the week for Sonora where he joined a group of other West Texas county agents in a 10 day study course on range management sponsored by A & M college experts. He will not return to his office until July 16.

Ivey Electric Home Appliance store this week sold new air conditioners for the homes of Otis Campbell and Calvin Wallace.

## Miles Giants Will Play Here Sunday

A redhot base ball game is in prospect for the home diamond Sunday afternoon when the Miles Giants come here for a Concho Basin league encounter. Miles stands fourth in the circuit standing with five wins and 3 losses, while Robert Lee is now in fifth place with 5 victories and 4 defeats.

Chilly Tinkler advised The Observer yesterday that a new catcher has been signed with Robert Lee. He is C. W. (Red) Balkum, who plans to move his family here soon. The Tinkler boys played a lot of base ball with "Red" in former years, and they consider him a fine catcher and a good batter.

This week's game concludes the first round of league games. Robert Lee had most of its games at home, but during the second half they will play away most of the time. Only three home games are scheduled for the second half. They include Lowake, Veribest and Bronte.

Last Sunday's scores:  
Miles 31; Eldorado 4.  
Ozona 31; Maverick 8.  
Ellis Parts 4; Sonora 0.  
Bronte 9; Eola 5.  
Veribest 7; Robert Lee 0.

Next Sunday's games:  
Bronte in Veribest.  
Eola in Ozona.  
Miles in Robert Lee.  
Maverick in Lowake.  
Sonora in Eldorado.

## Stanolind Exploration Party Begins Operations

Stanolind Oil and Gas company's exploration crew began work the first of the week, the center of their operations at present being located between Robert Lee and Edith.

Ten men working in two shifts will operate the core testing equipment which will drill various depths to a maximum of 550 feet. Stanolind has a large acreage under lease through the central part of the county south of the river.

An office for the exploration party has been set up in the Ernest Lowrance property, a block east of the water tower. The building was moved from Camp Barkely and has been modernized.

### Ivey's Plan New Home

Mr. and Mrs. Cumbie Ivey are planning a new home at the northwest edge of town where they purchased a building site on the highway from Willis Smith. They have purchased a 26x60 feet building at Camp Barkely which is being moved here this week by A. E. Latham. The structure served as the bank building at the army camp and is well constructed. Mr. and Mrs. Ivey will remodel it into a ranch style home.

### New City Secretary

R. S. Crum has been appointed city secretary of Robert Lee, succeeding Fred O. Green, who resigned last month because of ill health. Mr. Crum says an equalization board to adjust city property assessment has been appointed to consist of R. C. Russell, Frank McCabe and Gerald Allen. They are expected to go into session soon and make a thorough study of local property valuations.

### Fred O. Green III

Fred O. Green, city secretary here for many years and well known civic leader, lies critically ill at his home. He suffered a hemorrhage early last Friday and his condition became steadily worse. Relatives who have been called to his bedside include a daughter, Mrs. Dorothy Maxwell of Alexandria, La., a son, Fred O. Green, Jr. of Texarkana, and a sister, Mrs. Frank Anderson of Laguna, N. Mex.

### New Chevrolet Truck

Many persons have been stopping at Casey Chevrolet company the past week in inspect the new model truck which is on display. It is said to be the first new model truck to come out since the war started. Oren Fletcher will get the new vehicle.

## Roping Contests Draw 40 Entries

A good sized crowd turned out for the roping contests here Saturday afternoon, and Messrs. Raymond Schooler and Delmar Shepard are being congratulated for their success in arranging a good show.

More than forty contestants were entered, with some of them coming from as far as New Mexico. Doyle Riley, rated as the 4th top roping artist in the nation, took part but failed to win any prize money.

The matched roping between Wayne McCabe and James Counts of Robert Lee vs. Bob McGuire and Clay Man Smith of Mitchell county, resulted in a victory for the local boys. Although the home boys took the purse, there was little glory in it because of poor time. Both McCabe and Smith had bad luck with their calves, but Counts came through with roping times of 19 flat and 12 8 seconds, and his performance deserved the Coke county victory.

A ladies goat roping contest between Betty Barron and Josephine Wills resulted in a close victory for Miss Barron in the good time of 44.3 seconds.

Results of other events follow:  
Ladies Barrel Race, \$5 entry fee—Mrs. Russell Green, 1st, 10.5; Mary Sellers, 2nd, 10.6; Mrs. Wilson McBride and Betty Barron, tied for third, 10.8 seconds.

Men's Jackpot Calf Roping, \$4 entry fee—Glen McFarland, 1st, 15.1; Herman Virden, 2nd, 16; Fred Middleton and N. A. Pitcock, tied for 3rd, 16.7.

Men's Jackpot Calf Roping, \$4 entry fee—Punk Snyder, 1st, 14.1; Curtis Barron, 2nd, 14.7; Wilson McBride, 3rd, 15 seconds flat.

Mrs. Frank Percifull entertained fifty guests at her home last Friday afternoon honoring Mrs. A. V. Hughes with a stork shower. Assisting hostesses were Mrs. Willis Smith, and Mrs. Howard Eaton.

Drexel Black, popular Robert Lee groceryman, submitted to a gall bladder operation Wednesday at a San Angelo hospital. His condition is reported to be very satisfactory.

County judge Bob L. Davis, W. L. Carr and Dave King were in Austin a couple of days this week on matters concerning the Green Mt. school at Edith.

## Sixth Producer in Sun Jameson Field

A sixth producer in the Jameson field in northwestern Coke county was indicated Thursday following a drillstem test of Sun's Fred Jameson No. 3.

The test was made from 6,000 to 6,135 feet. Gas came to the surface in 13 minutes and oil in 49 minutes. Recovery was 720 feet of clear oil and some gas and oil cut mud. The tool was open 47 minutes. Maximum working pressure at the surface was 470 pounds, and bottom hole pressure was gauged at 2,710 pounds.

Operators report a heavy gas cap during the last 200 feet, with top of the crinoidal lime being reached at 5,850 feet. Probable gas and oil contact is approximately 6,100 feet which leaves a possible 300 feet or more of oil paying formation.

Further drillstem tests will be taken as drilling continues deeper. No. 3 Fred Jameson is located a half mile west of No. 2 Fred Jameson. It is three-quarters south and a quarter west of the Allen Jameson No. 1 pool opener.

Sun No. 2 Allen Jameson, which failed to show production in the Ellenburger, has plugged back to the Strawn in an effort to obtain production from the Pennsylvania. A good showing of oil was secured in the Ellenburger from 7,085 to 7,110 feet, but acid treatment with 5,000 gallons released a large quantity of sulphur water.

Several hundred feet of the lower section of the hole were filled with cement and gravel and a packer set near the 6,400 foot mark. When casing was set an 85-foot section of special pipe was used through the Strawn formation. Haliburton equipment was used to disintegrate the 85-foot section with acid, and operators were preparing Thursday morning to ream the hole and prepare for acidizing. The formation is very hard and there is a possibility that nitro glycerine will be used to "shoot" the well.

No. 2 Allen Jameson is a half mile north of No. 1 Allen Jameson, the pool discovery.

Sun's No. 1 Willie I Tubbs flow-naturally something over 200 barrels in an official test last week and is now flowing to tanks.

No. A-1 Tubbs, a quarter mile north, spudded in a week ago and set 9 5/8 inch surface pipe this week at 1,471 feet. Drilling was resumed soon after midnight Wednesday night and a depth of 1,695 feet was reported at 7 a. m. Thursday. Before setting pipe considerable trouble was encountered by drillers losing circulation.

### Hollywood Breakfast in Bronte

The Ft. Chadbourne home demonstration club will sponsor a "Breakfast in Hollywood" Thursday, July 24, at 8 p. m. in Bronte. They would like to have letters of recommendation for good neighbors who must be residents of the county. Letters are to be sent to Mrs. Lee Parker, Rt. 1, Bronte. Watch for more details.

Mrs. Frank McCabe was taken to a San Angelo hospital recently for additional treatment. She has failed to make a complete recovery from a recent surgical operation.

WEEKLY NEWS ANALYSIS

Seek To Abandon Farm Control; Gromyko Hits Disarmament Talks; Open Universal Training Hearings

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Secretary of the Interior Julius A. Krug (left), Undersecretary of the Navy John L. Sullivan (center) and Max W. Ball, director of oil and gas division of interior department, meet to probe nation's critical petroleum supply shortage. Experts forecast empty auto gas tanks, closed factories and chilly homes this winter because of tight oil situation.

FARM CONTROLS: Opposition Grows

American Farm Bureau federation, powerful farm group which sponsored most of the agricultural legislation now in force, is considering recommendations for total abandonment of all farm price and crop controls by the government.

Edward A. O'Neal, president of the federation, said the board is not satisfied with the old AAA, established during President Roosevelt's first term. He revealed that a better agricultural program than the one the farmers now have is being sought. The AAA authorizes payments to farmers for reducing acreages in the basic crops of wheat, corn, cotton, rice, tobacco and peanuts.

O'Neal

Farmers from the North and Northwest have consistently opposed federal subsidies, and sentiment was reported to be growing among the producers for letting farm products seek their own price level as a permanent policy.

In the South, however, cotton and tobacco growers are known to be satisfied with the situation as it stands, favoring tight controls if prices start to slip.

One of the federation's economists predicted at least a 10-year period of good prices for farmers at levels slightly below those prevailing now.

DEFIANCE: Gromyko Again

In what was possibly his most defiant action since he walked out of the security council a year ago, Andrei Gromyko, Soviet delegate to the United Nations, acidly warned the U. N. disarmament commission that its refusal to include atomic control in the negotiations on general disarmament would bring about a total "collapse" of disarmament efforts.

He said the commission's refusal to link the two aspects of world peace plans was contrary to the wishes of the U. N. general assembly, but delegates of France, Great Britain and Belgium promptly denied the charge.

Ignoring previous Soviet warnings, the commission had voted down a long list of Russian and Polish proposals to tie atomic control with disarmament talks and approved an American-sponsored work plan to keep the two subjects separate.

FRUITED PLAINS: Apple Outlook Rosy

Despite a late spring and some frost damage in eastern fruit areas, prospects continue generally favorable for this year's crop of apples and other deciduous fruits, a department of agriculture report has disclosed.

The 1947 strawberry crop is estimated to be nearly a fourth larger than the 1946 crop, but still a tenth below average. However, the peach crop in 10 early southern states is expected to set a new record of more than 25 million bushels this year, the third successive large crop from those states.

In California, the sweet cherry crop of 23,000 tons is 15 per cent smaller than last year, but still 16 per cent larger than the 1938-44 average. California's 92,000-ton plum crop is slightly below 1946.

TRAINING: Hearings Begin

Although congress is scheduled to adjourn July 28, the senate armed services committee has voted to proceed with hearings on universal military training.

But in a formal statement the committee added that if a report cannot be made ready by July 28, it will attempt to have a report prepared for congress when it convenes again.

Decision of the senate group was reached as the Very Rev. Edmund A. Walsh, a member of President Truman's universal military training commission, told a house committee that "the politburo in Moscow is not going to adjourn for the summer as its forces creep across Europe."

Father Walsh said that America is definitely on the Soviet agenda of conquest, and Russia will be ready to start her "shooting war" as soon as her atom bombs are in production.

TAX PLANS: To Think Over

Congress has been presented with four tax-revision plans to think over until it gets ready to have another go at the income tax problem.

The treasury department has given the house ways and means committee studies of four plans to equalize federal income taxes on married couples in all 48 states.

One of the proposals would save 4,900,000 couples three-quarters of a billion dollars annually by giving those living in 38 states the same "income splitting" rights now enjoyed by couples living in 10 states which have community property laws.

Secretary of the Treasury John Snyder has indicated that the administration considers the proposed plans to be among the "right kind" of changes in the tax setup.

IKE TO STAY: Denies Report

Gen. Dwight D. Eisenhower will not resign as army chief of staff, at least this year.

Walter Winchell, in a copyright story in the New York Daily Mirror, had reported that General Eisenhower had tendered his resignation as chief of staff and would become president of Columbia university next fall. The story said that Eisenhower's resignation was in the hands of President Truman.

The nation's military leader, however, issued a firm denial: "I have no intentions of resigning as chief of staff during the current year, and in no event would I do so without first getting full approval of the President and the secretary of war."

Price of Warfare

How much does a war cost? Many answers are possible, says a review by the National Industrial Conference board, but the cost of any war cannot be determined definitely until at least a century after the end of hostilities.

For example, it was not until this year (1947) that the last pensioner of the War of 1812 disappeared from the United States budget. As another instance, the military cost of the Spanish-American war was a mere 582 million dollars; however, the continuing costs—interest on war debt, pensions and care of veterans—amounted to 2,400 million dollars during the 48 years ending June 30, 1946.

THE MANAGEMENT: Money Talks

Under the 300 million dollar American aid program to strengthen Greece against inroads of Communism the United States will take over virtually the entire economic management of that country, an exchange of notes has indicated.

It was reported unofficially that the United States also will favor some political reforms in the Greek government—specifically, the admission of "liberal" elements to responsible governmental positions.

Notes between Washington and Athens setting forth a comprehensive program of economic reforms to be undertaken in Greece have been made public by the state department. They concern taxes, industry, government administration, trade, finance and agriculture.

Contained in the notes is a guarantee that Dwight Griswold, administrator of the aid program, will have effective supervision over all the dollars spent for Greece.

OPEN SESAME: The Holy Land

The bitterly tragic puzzle of Palestine and the Jews appeared as insoluble as ever as the United Nations committee on Palestine opened hearings in Jerusalem.

Reporting at the committee's first open meeting, the Jewish agency for Palestine persistently demanded unlimited Jewish immigration into the Holy Land, contending that immigration was the key to the whole Jewish case.

The British previously had testified in a closed session from which the press and public were barred.

Moshe Shertok, head of the political department of the Jewish agency, asserted that it was impossible to estimate how many more Jews could be absorbed into Palestine, adding that while Jews now make up only one-third of the population, two-thirds of the local internal revenue comes from them. The bulk of Palestine's local budget is spent in a way to benefit the Arabs principally, Shertok said.

Mr. Whiskers

Rep. Chester Gross (Rep., Pa.) donned phony beard in the house chamber and invited his colleagues to attend sesqui-centennial celebration at Waynesborough, Pa., where male population stopped shaving last February to cultivate whiskers for event.

ANOTHER CRASH: Fifteen Die

Fifteen persons were killed and another 10 injured when a Pan American Airways clipper carrying 27 passengers and a crew of 10 crashed to earth near the Euphrates river in eastern Syria.

The plane had left Karachi, India, the previous day and was en route to Istanbul as its first scheduled stop on a return trip to New York. Identified as the Eclipse, the clipper had turned back at Gander, Newfoundland, on the outbound flight from New York after developing engine trouble.

A flight control officer in Cairo, Egypt, said that about two hours before the crash the plane had radioed that one engine was ablaze, and a subsequent message said that the pilot was trying to crash-land the craft.

G.I. BILL: Curb Benefits

The senate has passed legislation stopping benefits under the G.I. bill of rights to those who enlist in the services after August 31. If the measure is approved by the house it will mean that future servicemen will not be eligible to receive educational allotments or on-the-job training grants.

At senate hearings on the legislation, the army and navy did not object to fixing the August 31 cut-off date but asked authority to set up a substitute program to encourage further enlistments.

HIGHEST PEAK ON CONTINENT . . . Mighty Mount McKinley rears its snow-covered head high into the clouds, reaching an altitude of 20,300 feet above sea level. The peak is the major attraction of Mount McKinley National park, one of the two parks located outside the continental limits.

STUDY IN CONTRASTS

Lush Tropics, Frozen Arctic Embraced in Overseas Parks

WNU Features.

Two of the great national parks, which belong to the people of the United States, lie in our territories overseas — Hawaii National park on the islands of Hawaii and Maui in the Hawaiian archipelago and Mount McKinley National park in Alaska. These two parks present a study in contrasts. Hawaii, within the tropics, basks in perpetual spring. Its forests with lush ferns 40 feet high are gay with birds of brilliant plumage. McKinley, on the other hand, enjoys a brief summer season of warmth, and during most of the year sleeps in Arctic silence. Here in winter some of the birds and small animals even don white habits to travel like spectres over the snowy landscape.

Hawaii National park was established by act of congress on August 1, 1916, and was placed under administration of National Park service which also was created in the same month. Main features in the park are two spectacular volcanoes, frequently active, Kilauea and Mauna Loa on the island of Hawaii, and one of the world's largest dormant volcanoes, Haleakala on the island of Maui. The total area within the two sections of the park is about 275 square miles.

Kilauea, probably older than its neighbor, towering Mauna Loa, creates the impression of being a crater in the side of the higher mountain, although it is itself a mountain with an altitude of 4,090 feet. This illusion is the result of a broad depression at its top and of its gentle slopes, caused by lava flows from many lateral vents. Within the depression is a vast pit, Halemaumau or "House of Fire," which often contains a boiling, bubbling mass of molten lava whose surface fluctuates from bottom to rim.

Until 1924 molten lava was usually visible at any time in Halemaumau, but activity since then has been spasmodic. Its risings are accompanied by brilliant fountains and inflows of liquid lava, and its lowerings by tremendous avalanches which send up enormous dust clouds.

To the west of Kilauea rises the vast dome of Mauna Loa whose summit crater, Mokuaweoweo, is included in the national park. Included also is a broad connecting belt between the two volcanoes. Mauna Loa thrusts its great bulk 13,680 feet above the surrounding Pacific. By eruptions in its summit crater and by flank outbreaks it is constantly adding to its mass.

In action Mauna Loa is even more spectacular than Kilauea, and steam vents continually send feathery clouds into the air. Extending northeast and southwest from the summit are volcanic rifts with many deep rents formed by earthquake and eruption as well as many brilliantly colored spatter cones, some 200 feet in height. Twice since 1880 the City of Hilo at the base of the volcano has been threatened by great rivers of lava which have flowed down the sides of the mountain.

HALEAKALA SECTION of Hawaii National park is on the island of Maui. This volcano derives its name, which means "House of the Sun," from a legend about the Polynesian demigod Maui, who climbed to the top of Haleakala, ensnared the rays of the sun, and forced it to travel more slowly in its course so that his mother might have sufficient time to complete her day's work. Haleakala, now rising more than 10,000 feet above sea level, was once a much higher mountain. A collapse of the dome, many years ago, formed a great crater 7½ miles long and 3 miles wide, with walls over 1,000 feet high.

Within these gorgeously colored walls lies a superb volcanic spectacle. Covering the floor are giant red, black and orange cinder cones which, although hundreds of feet high, are dwarfed by the immensity of their surroundings. The crater has a circumference of 21 miles and an area of 19 square miles.

Both sections of the park are reached from Honolulu by island boat or airplane. From Hilo, port of Hawaii island, one may rent an automobile for the trip to Kilauea or take the regular bus.

MOUNT MCKINLEY National park, situated in south-central Alaska, was created by act of congress in 1917. It contains an area of a little more than 3,000 square miles. Principal scenic feature of the park is mighty Mount McKinley, highest peak on the North American continent. This majestic mountain rears its snow-covered head high into the clouds, reaching an altitude of 20,300 feet above sea level, and rises 17,000 above the timber line. On its north and west sides McKinley springs abruptly from a plateau only 2,500 to 3,000 feet high.

For two-thirds of the way down from its summit Mount McKinley is enveloped in snow throughout the year. Denali, "home of the sun," was the name given to this impressive mountain by the early Indians.

Near Mount McKinley are Mount Foraker, with an elevation of 17,000 feet; Mount Hunter, 14,960 feet, and Mount Russell, 11,500 feet. Great glaciers fed by the high snow fields of this mountain range flow many miles both to the north and to the south.

During the park season, which extends from June 10 to September 10, with more than 18 hours of daylight each day, there is a wealth of flowering plants. The park is also the home of many interesting animals and birds.

Prospective visitors to Mount McKinley National park probably will make the trip to Alaska by steamer from Seattle. To use the war constructed Alaska highway through Canada requires a special permit from the Canadian government, and permits are not yet granted to motor tourists. Business men, settlers and bus passengers may apply for permits to L. E. Drummond, Traffic Control Division, Alaska Highway, Edmonton, Alberta.

VAST PIT . . . Halemaumau or "House of Fire" is a vast pit in the crater of Kilauea volcano, Hawaii National park.

## Locals Defeated 7-0 At Veribest

Robert Lee's baseball team had another one of its "off" days last week, losing at Veribest 7 to 0. A couple of regulars were not in the lineup and to be frank in the matter the Lee's efforts were nothing to brag about.

A half dozen errors played an important part in the Veribest victory. The winners scored in the first inning. With the first two men retired an infield error put Bowman on first and Phillips brought him home with a screeching two-bagger.

Things rolled along nicely until the sixth with the score 1 to 0. In that frame a fly ball near the left field line was dropped and two runs came in, and a duplication followed in the seventh, except the fly was in right. A single, two walks and a two-play hit scored two more in the eighth. Clarence Tinkler pitched a good game, but six errors by his mates were inexcusable. He allowed eight hits.

Robert Lee's poorest showing was at bat. They made only two safe hits off Joe Phillips and ten struck out. The only scoring opportunity came in the seventh inning when Chilly Tinkler led off with a hit to left field. Clarence followed with a grounder too hot for the short stop to handle. The next three batters were retired in order.

Troy Daffern, wife and little son of Kansas visited one day last week with his grandparents, Mr. and Mrs. G. A. Harmon, and greeted old time friends. He has re-enlisted in the army and is awaiting orders.

## Mathers Family Gathering

A family gathering has taken place this week at the Russ Mathers home near Silver, with all their children being home on a visit. They include Arch and Newman of Silver, Mr. and Mrs. Elton Mathers and children of El Monte, Calif., Miss Letha Mathers, who is attending the American Academy of Horology at Denver, Colo., and Doyle Mathers, who is employed at the Bar S ranch near Mertzon. Elton and family will go on to Oklahoma City to visit his wife's parents before returning to their western home.

## Opportunity for H. S. Boys

Capt. Wayne Hill, commanding officer of the San Angelo U. S. Army recruiting service, has received information from the War Department which will enable certain high school graduates to attend the technical training school of their choice in the army air forces.

Any high school graduate is eligible to apply for the courses of his choice prior to enlistment without obligation.

Complete and detailed information may be obtained from the San Angelo recruiting station.

## Newly Weds Honored

A shower and ice cream supper honoring Mr. and Mrs. Bunyan Millican was held Friday night at the Silver Baptist church. A large number of guests were present and the couple received many fine gifts. Hostesses for the affair were Mrs. J. B. Walker, Jr., Mrs. Jahew Jameson and Mrs. Raymond Bloodworth.

Olen Mathers and Sam Savage of Denver City spent the weekend with relatives in the Silver community.

## Coke Youth Shows Top Sonora Fleece

Weldon Schooler, 4-H club boy of Coke county, exhibited the grand champion fleece of wool at the 10th annual Sonora Wool & Mohair show last week. More than 100 club and FFA boys were entered in the show and judging contests.

Schooler's winning fleece was from a Rambouillet yearling ram. It weighed 17 pounds. It competed against all other first place fleeces and was chosen first over all by Stanley Davis, state college judge.

A Coke county judging team composed of LeDrew and J. B. Arrott and Schooler, placed third.

Other local winnings at the big Sonora show were as follows:

Yearling ewe, fine wool—First, Weldon Schooler; third, Joel Schooler, fourth, Weldon Schooler; fifth, Don Joel Schooler.

Aged ewes, fine wool—First, LeDrew Arrott; second, LeDrew Arrott; third, J. B. Arrott.

## Adult Division

Yearling ewes—Third, J. H. Ruth; sixth, L. R. Schooler.

Aged ewes, fine wool—First, J. H. Ruth.

Corriedale, aged ewes—Second, J. H. Ruth.

## Junior Division

Yearling ewe, fine wool—Fourth, Wayne Arrott

Aged ewes, fine wool—Third, LeDrew Arrott; fourth, J. B. Arrott.

Best put up bag—Second, LeDrew Arrott.

County group of single fleeces—First, Coke county.

County group of bags—Second, Coke county.

WHAT'S IN A NAME

Colorful Nicknames Abound In Underworld, FBI Learns

WNU Features.

"Cotton Patch Molly," "Bowlegged Bessie," "Iron Foot Florence," "Butcher Knife Lizz," "High Ball Lill," "Mustache Annie!" These probably aren't the type of nicknames which the typical American woman would choose for herself, but they are among the colorful and unusual appellations by which female characters of the underworld are known.

This is revealed by the identification division of the Federal Bureau of Investigation, which utilizes nicknames as means of tracking down criminals in its relentless drive against law violators. Files on nicknames, palm prints, footprints and general appearance data are maintained by the FBI for identification purposes to supplement its collection of fingerprints, largest in the world.

Indicative of the FBI's thorough and systematic effort to maintain complete data on members of the underworld mob, the file contained 469,515 nicknames at the start of the year. During the past year 47,560 nicknames were added to the list.

Although an individual may change his real name many times, as a general rule his nickname sticks, FBI agents point out in emphasizing the effectiveness of this means of identification. This has been found particularly true in cases involving check forgers, impersonators and extortionists.

The women have no corner on the unique nicknames found in FBI files. Also included in this category are such cognomens as "Alibi Good Kid," "Am I Blue," "Barrell House Shorty," "Beef Stake Bob," "Blue Shirt Slim," "Chew Tobacco Lewie," "Gold-Tooth Frenchy," "Liver Lip," "Sweet Cakes" and "Whoop Em Up Willie."

Notorious public enemies of the 1930s are recognized more often by their nicknames than their true names. The given name of "Baby-face" Nelson was Lester M. Gillis. "The Owl" was in actuality Basil Hugh Banghart. "Pollynose" Kator, a member of the Touhy gang, was

'FATSO' AND 'POLLYNOSE' Nicknames Stick

the nickname of August John Lamar. Roger Touhy was commonly known as "Black" Roger. Joseph Raymond Negri, associate of "Babyface" Nelson was dubbed "Fats."

Members of the Barker-Karpis gang also had their nicknames. "Ma" Barker was the name accorded Kate Barker by her sons and their underworld pals. Arthur Barker was known as "Doc." Alvin Karpis was nicknamed "Old Creepy" because of his cold stare and precision in carrying out his crimes. Charles Arthur Floyd was widely known as "Pretty Boy." A criminal may receive a nickname because of some physical characteristic, unusual personality trait or criminal specialty. "Cock-eye Mary" was labeled as such by her underworld pals because of her facial appearance. Another criminal's extensive vocabulary prompted the nickname of "Dictionary."

"Sweet Lips" did not live up to his name. FBI agents ascertaining that he had been in custody of police several times for offenses ranging from vagrancy through counterfeiting. The nickname, "Wildflower," also proved misleading. The individual bearing that name was arrested for assault.

In many instances law enforcement agencies will have little, if any, information about a wanted criminal except perhaps a nickname and a smattering of descriptive data. When this information is forwarded to the FBI, a search through the nickname file sometimes results in an identification.

"Kentucky Red" was the only name known for an individual who was selling drugs in New York City. FBI nickname files furnished his correct name, descriptive data and his whereabouts at the time.

Nicknames have not been confined to the criminal element. "Machine Gun" Kelly originated a nickname for the special agents of the FBI when they apprehended him in a dawn raid at Memphis, Tenn., on September 26, 1933. "Don't shoot, G-men, don't shoot!" he cried.

This name caught the fancy of the public as well as that of the underworld. To this day FBI agents are known as "G-men."

Off We Go AVIATION NOTES

Airport Chatter

Fliers from several Midwestern states participated in the first all-Upper Peninsula tour conducted under auspices of the Michigan state department of aeronautics. The flight covered 289 miles, stops being made at eight cities. . . . Ten charter members have signed up for the recently-organized Decorah Flying club at Decorah, Iowa. The club has purchased an Aeronca Chief plane. . . . Dedication services for the new Worthington, Minn., airport are scheduled July 5 and 6. More than 120 private plane owners have been invited to participate in the ceremonies. . . . Plans for a series of district meetings and flight breakfasts were perfected at the annual meeting of Flying Farmers of Iowa, held at the Ames municipal airport. The statewide organization, founded March 18, 1946, at a meeting on the Iowa State college campus, now numbers more than 500 members from some 70 counties. . . . An air show will be among the headline attractions at the American Legion summer jubilee at Harper, Kas., July 16-19.

Aerial Detective

Mark up another use for the airplane in agriculture.

W. V. Allington, plant pathologist of the department of agriculture, is using an aerial survey to spot evidence of a fungus disease—brown stem rot—that is reducing soybean yields in the Midwest.

Allington, who is stationed at the regional soybean laboratory at Urbana, Ill., uses his privately-owned plane to make aerial photographs of soybean acreage over a wide area. In the pictures, plants in infected fields show up much lighter in color than those in non-infected fields. By comparing his aerial pictures with road maps, Allington locates the fields where the fungus infection appears to be most serious.

Girl Scouts have taken to the air in a big way. More than 5,000 Girl Scouts receive pre-flight training and flight experience as members of 315 Wing Scout troops in 42 states and Hawaii. "Wing Scout" is the name of the organization's own Cub plane, presented to them by William T. Piper. It is the only airplane owned and used by a national youth-serving agency.

Civic Cooperation

Climaxing an unprecedented example of practical cooperation between two cities, dedication ceremonies were held for the joint municipal airport at Arkansas City, and Winfield, Kas. The two progressive communities in a rich oil and agricultural belt of southeastern Kansas buried the hatchet to acquire Strother field, former AAF fighter training base, as a joint project in August, 1946. Facilities offered by the field permitted the two cities to secure a new industry, the Fairchild personal planes division.

Gov. Frank Carlson of Kansas made the dedicatory address at a program which featured an elaborate air fair. Starting with a dawn patrol breakfast, the day's program included an exhibition and demonstration of personal planes, military aviation display, model airplane demonstration, flights by women pilots and fliers over the age of 40, parade and trap shoot.

'KNEELING DOWN' . . . A bending nose gear which enables a fighter plane to "kneel down" on the crowded deck of an aircraft carrier is a feature of one of the navy's fastest airplanes, North American Aviation's all-jet XFJ1. The equipment is devised to facilitate handling of the fighter on the ground and stowage on deck.

CONCEALMENT

"Doc, if there's anything wrong with me, don't give me a long scientific name. Say it so I can understand it."  
"Very well—you're lazy."  
"Gee, thanks. Now give me the scientific name. I got to report it to my boss."

SAFE AND SANE

The bartender waited for the two drunks at the bar to give their order, then looked down at their pal who had fallen in the middle of the floor and made no effort to rise. "What'll he have?" he asked.  
"Nothing, Bub," answered one of them, "he's driving."

Gems of Thought

## BRONTE NEWS

By D. M. WEST

Mrs. W. J. Cumbie of Robert Lee passed through Bronte Friday returning home from Lubbock where she had been visiting her sister.

A destructive fire in the First National Bank block was narrowly averted Friday afternoon about 4 o'clock when a blaze was discovered in the rear of the building back behind the machinery in Kemp Cleaners. The fire department was called but Mr. Kemp extinguished the flames before the truck arrived.

L. T. Youngblood, Bronte's banker, in the absence of the pastor, Rev. C. R. Blake filled the pulpit of the Bronte Baptist church Sunday morning, using for his subject, "God in the World Today." Those who heard the address speak appraisingly of it.

Rev. R. C. Blake, pastor of the Bronte Baptist church, filled the pulpit of the Baptist church at Jayton Sunday morning. Rev. Stuckey was to have preached in Bronte for Rev. Blake, but was prevented from doing so due to the illness of his wife, who is in a San Angelo hospital. Rev. Blake was accompanied by his daughter, Miss Juanell, and Miss Wanda Jean Tidwell. In the afternoon Rev. Blake went to Spur and visited friends where he was former pastor.

W. F. Norton of Portland, Oregon, and Mrs. Mae Coppel of Cleveland, Ohio, are visiting their sister, Mrs. H. D. Palmer. Mrs. Palmer and her brother had not seen each other in 32 years.

Mr. and Mrs. G. D. Kennedy and son, Gerald, spent Sunday with Mrs. Kennedy's parents, Rev. and Mrs. D. H. Palmer. Rev. and Mrs. Palmer had another daughter, Mrs. Curtis Walker and Mr. Walker and children from Silver as Sunday guests.

Ollie Eubanks sold a shipment of lambs on the Ft. Worth market the other day which was perhaps a record lamb sale of all time for Coke county. The shipment consisted of 250 90-day old lambs. They averaged 58 1-4 pounds and sold for 19 1-2 c per pound, making a total average of \$10.55 each.

Dowty McDonald, who resides at Ft. Chadbourne, narrowly averted fatal injury in his wheat field near Robert Lee late Saturday afternoon, when his clothing caught in the combine while it was in operation and threw him over on the tractor. Mr. McDonald was rushed to a San Angelo hospital where he received professional attention. He was found to have suffered only abrasions and bruises and severe shock. It is believed he can be returned home in a day or two.

C. R. Smith had a wreck with some loose stock on the highway the other night near Tennyson, as he was returning San Angelo.

Mr. Smith had been to Fort Worth via airplane. Returning to San Angelo he was enroute home. Near Tennyson two horses showed up on the highway instantly. Mr. Smith had no time to apply his brakes and the car killed both animals.

Mr. Smith phoned the highway department and an investigation was made. He did not get a scratch, but estimates the damages to his car at \$100.

Mrs. Annie Carriger and children of Corpus Christi spent one night last week with her parents, Mr. and Mrs. G. A. Harmon. Mrs. Carriger's old friends will remember her as the former Annie Harmon.

Mrs. Henry Britt of Galveston is spending the week here in the home of her mother, Mrs. Daisy McCutchen.

Mr. and Mrs. J. S. Craddock spent the weekend with their son-in-law and daughter, Mr. and Mrs. T. M. Wylie, Jr.

Mr. and Mrs. J. Q. Counts and children, Ellen and Rocky, of Merkel came over Saturday for a visit with her parents, Mr. and Mrs. Roy Taylor. J. Q. was an interested spectator at the calf roping events Saturday afternoon.

Milbourne Lee Daffern returned Saturday to his home in Ft. Worth after spending a week in Robert Lee with his grandparents, Mr. and Mrs. G. A. Harmon.

## Marvin Simpson Starts Registered Angus Herd

Marvin Simpson, well known Robert Lee stockman and rancher, purchased 12 head of registered Angus heifers and cows at the L. R. Kershaw sale on June 23 at Muskogee, Okla. This group of females carries the blood lines of Juanna Erica and are considered among the choicest breeding in America today.

The Kershaw sale, which included 60 head of breeding animals, brought an average of \$800 per head.

Mr. Simpson also purchased from J. A. McGill of Paris, Texas, a herd sire, Envy of Stoneybroke, a former Oklahoma A & M College herd sire. The total purchase price of the females and bull was \$5,865.

Marvin has had a few head of Angus and he plans to build up a good sized registered herd. He is making a good start by getting some excellent seed stock. The Simpsons have two sons, Marvin, Jr. and William, who are expected to take an active interest in the cattle business as they become older.

Mrs. Simpson, Marvin, Jr., William and Carolyn and Mr. and Mrs. R. C. Russell also attended the Kershaw sale and enjoyed the trip through northern Texas and eastern Oklahoma.

Mrs. Kate Good of Bronte is a guest of her son, Sheriff and Mrs. Paul Good.

Mrs. H. A. Nichols arrived Monday from Stratford, Tex., for a visit in the home of her parents, Mr. and Mrs. J. C. Snead, Sr.

Mr. and Mrs. Turney Casey visited over the weekend with her parents, Mr. and Mrs. C. S. Schooley, at Barstow, Tex., and went sight seeing in the Davis Mountains. They also visited Mrs. Casey's brother, H. C. Schooley, and family at Pecos. The Casey's daughters, Barbara Jean and Dian, returned home with their parents after a two weeks' visit at Barstow, and Mrs. Casey's sister, Rheba June Schooley, also came to Robert Lee for a visit.

Ava Lou Tubb returned last week from a vacation trip to Festus, Mo., where she visited her sister-in-law, Mrs. Frank Tubb. She was accompanied by her aunt, Mrs. Mabel Parker, and the latter's son, Howard, of Eldorado, Tex. The trip to Missouri was made through Arkansas, while the party returned through Kentucky, Tennessee and Louisiana. While at Festus, a small city near St. Louis, Ava Lou visited J. W. Service, Jr., Robert Lee young man who is stationed in the army air forces at Scott Field.

## Winnie Ruth Boone Marries Marvin Glasco

In a candle light ceremony performed at 8:30 p. m. June 29th, Miss Winnie Ruth Boone, daughter of Mr. and Mrs. R. S. Boone, became the bride of Marvin Glasco, son of W. L. Glasco.

The Rev. Nathan Jones, pastor of the Emanuel Church of Christ, read the single ring ceremony in the garden of the bride's home. Vows were solemnized before an archway banked with baskets of ferns, roses, daisies, dahlias, hydrangeas and multi-colored red foxglove. Annie Lou Boone and Vada Joyce King were the candle bearers.

The bride, given in marriage by her father, wore a light blue ninon evening dress, trimmed with white baby lace. She wore a finger tipped veil and her corsage was of pink and white carnations. She carried a white Bible tipped with wedding flowers. For something old she wore a pin belonging to her great grandmother, and for something borrowed she wore a gold bracelet.

Gwendolyn King, bridesmaid, was dressed in a light blue evening gown and carried a bouquet of ferns and carnations. Jessie Ray Robertson, uncle of the bride, was best man. Richard Boone and Forest Smith were ushers. Billye and Lonell Landers, accompanied by Mrs. Waymon Robertson, sang "I Love You Truly" and "Always."

A reception was held at the home of the bride's parents. A two-tiered wedding cake was decorated with orange blossoms and rosebuds, and was topped with a miniature bride and groom. Miss Zona Mae King registered guests in the bride's book. Eighty-five guests were present.

The bride is a graduate of the Robert Lee high school with the class of 1947. The bridegroom served 22 months in the armed forces, and spent more than a year in the Pacific theatre.

The couple will make their home temporarily on a farm near Robert Lee.

## SANCO NEWS

By Mrs. Sam Fowler

A nice rain was received here Saturday and there was some hail above Sanco.

Visitors in the Belva McCutchen home Sunday afternoon included Mr. and Mrs. Bill McCutchen and Joyce, Mr. and Mrs. J. W. Service and son, Maurice Cole and family, Billie McCutchen of Midland, Melba Wojtek and Lindy Devoll and wife.

Bro. Ulmer Bird is preaching every Sunday afternoon at 4 o'clock. Everyone is invited to come and hear him at the Sanco Bible Church.

A nice crowd was present for Sunday School at the Baptist church Sunday, and also at B. T. U. Sunday night. Come find your place and receive a blessing that's meant for you.

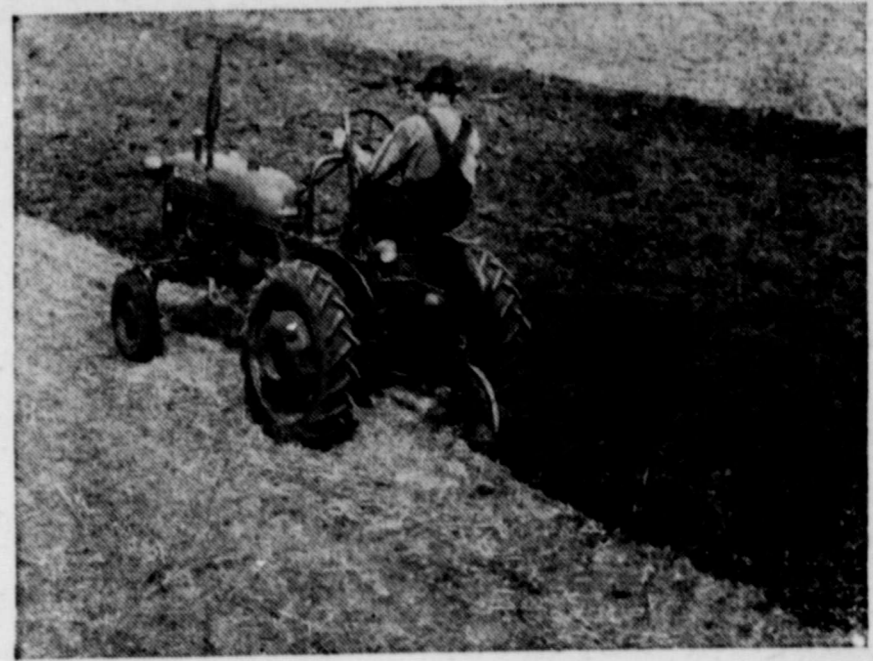

Sanco sewing club meets again July 7th at the club rooms. Bring your work and come.

Mary Ann Gartman went home this week. Clydene is here to spend some time with her grandparents.

John Allen has been enjoying a visit from his daughter the past few days.

### Small Hail Damage

A thunderstorm in the Sanco locality Saturday afternoon brought rain to a small area and hail did considerable damage to Bill Roe's crops on the Frank Preslar place. Bill had 60 acres in cotton and 30 acres in feed crops in the path of the hail storm.

**FARMALL CUB FOR PLOWING**—International Harvester's new Farmall Cub tractor offers the small-acreage farmer the advantage of complete, low-cost mechanization. It is designed to handle all field and garden crop operations. The above view shows a Cub's 15 1/2 moldboard plow turning a 12 inch furrow.

## International Harvester Presents The Farmall Cub

The International Harvester Company has begun volume production of its new, small, low-cost Farmall Cub tractor and a full line of matched implements, which represents the latest step in the evolution of farm mechanization, according to John L. McCaffrey, president.

This new all-purpose tractor, a scaled-down model of the row crop tractors used by large-scale farmers throughout the United States, is designed primarily to bring complete, economical and practical mechanization to operators of small general farms, truck gardens and orchards, whose annual gross income does not justify purchase and use of larger units.

"Its development," Mr. McCaffrey stated, "readily meets the power requirements of the nation's 3,000,000 farmers having up to 40 acres of crop land."

Produced at International Harvester's Louisville, Kentucky, works, formerly the Curtiss-Wright plant, the Farmall Cub is being introduced into the Farmall tractor line in response to the desire of the small acreage farmer to compete on a more comparable basis with farmers of larger tracts.

Among the many social and economic benefits to be derived from the use of this new tractor are:

1. Farms which now have low annual gross income will be able to increase production through the use of more complete, profitable and economical mechanization.

2. An increase in the number of farmers who divide their productive time between their farms and nearby industry. Complete mechanization will permit these workers in industrial plants to lessen their time in field work on the farm.

3. Promotion of soils conservation. Soil conservation authorities agree that tractor-powered equipment is indispensable in installing proper soil management improvements.

The Farmall Cub, pulling a single 12 inch moldboard plow, will plow up to 3 1/2 acres per 10 hours in most soils, and will cultivate one to four rows of crops at a rate of better than one acre per hour. And yet, the fuel consumption of its four-cylinder, four-cycle engine under maximum load is considerably less than one gallon of gaso-

line per hour. Despite its small size, which will be approximately two-thirds the weight and power of International Harvester's previous smallest farm tractor—the Farmall A—the Farmall Cub will be built with identical standards of materials and workmanship found in the company's largest tractors. The Farmall Cub weighs 1,200 pounds and has approximately 9 1/4 horsepower on the belt and 8 on the drawbar.

A full line of implements, engineered for every region, are being produced at various company plants for use with the new tractor. They are: One and two-way moldboard plows, disk plow, harrow plow, disk harrow, mower, cotton and corn planters, vegetable planters, corn and cotton cultivator, sugar beet and commercial bean cultivator, and a vegetable cultivator. All these tools, the company pointed out, are designed for quick change and easy operation.

A belt pulley, a power take-off shaft, electric starter and lights, and a swinging drawbar are among the attachments. Rubber tires are standard equipment. Ample crop clearance of 20 inches is provided under the chassis of the tractor.

Alloy steels, anti-friction ball and roller bearings, precision built, steel backed, babbitt-lined bearings and bronze bushings, magneto and pressure lubrication with replaceable oil filter element and oil bath-type air cleaner all will be standard International Harvester quality. These high quality components will be used to the same extent as in larger tractors.

The three forward speeds are 2, 3 and 6 miles per hour; reverse, 2 1/4 miles per hour.

Wheel treads are adjustable to spacings of 40, 44, 48, 52 and 56 inches to meet all row crop requirements. In vegetable and truck garden work multiple rows and bed planted crops can be planted and cultivated. Single rows of corn and cotton also may be cultivated.

The roomy, comfortable, well-located seat provides full vision of operations at all times.

"The Farmall Cub tractor," stated President John L. McCaffrey, "presents the first opportunity for the operator of the small family-size farm to mechanize at a price he can afford. The price of the tractor is \$545 f. o. b. factory. Attachments and implements are extra."

**WALLACE VOICES ANOTHER IDEA . . .** Henry A. Wallace, shown here with Sen. Claude Pepper (Dem., Fla.), waves to crowds at Washington Watergate where he spoke on international relations. Recently returned from a two-month cross-country speaking tour, Wallace told his Washington, D. C., listeners that President Truman should invite Soviet Premier Josef Stalin to "peace meeting" in Berlin to settle differences.

**ELLIOTT DECORATED BY FRENCH . . .** Elliott Roosevelt, son of the late president, is shown after receiving the legion of honor in the rank of chevalier and the croix de guerre with palm for outstanding service in North Africa in 1943. Left to right on lawn of French embassy in Washington are: Mrs. William Breyton, Air Attache Col. William Breyton of the French embassy, Elliott Roosevelt, Fay Emerson Roosevelt, Mme. Bonnet, wife of French ambassador, and Mrs. Eleanor Roosevelt.

**SLIGHT FAMILY RESEMBLANCE . . .** It's difficult to decide from this picture which of the two is the more proud—David Corn because he looks like his son, William, or little William because he looks so much like Pop.

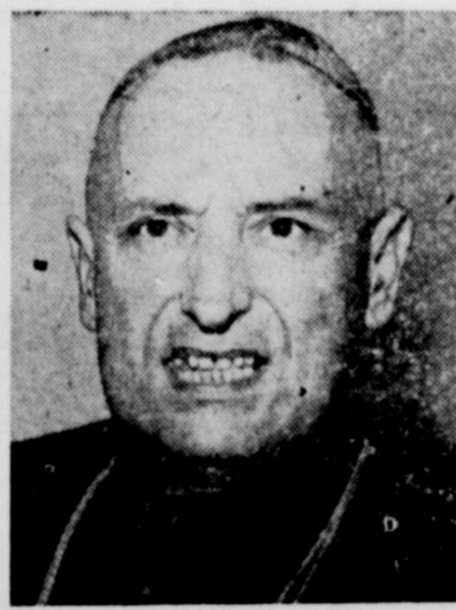

**FRIENDLY WORDS . . .** Mme. Andrei Gromyko, wife of Soviet delegate to the United Nations, made radio address from U. N. information and hospitality center. She took as her subject international friendship. Her audience was composed of United Nations personnel and their families.

**TELLS OF RED PLANS . . .** Dr. George Dimitrov, former head of Bulgarian Agrarian party, said Communist operations in Bulgaria and Balkans are part of conspiracy to plunge all of Europe under Soviet domination.

**GOOD SCOUT . . .** Rachel Claris, 17-year-old representative of Great Britain's Girl Guides, arrived in New York to attend first world encampment of Girl Scouts to be held since 1937.

**GIVES THANKS . . .** Joseph Cardinal Mindszenty, primate of Hungary, expressed his country's gratitude to the National Catholic Welfare conference in America for sending 14,000 meals daily to starving Hungary.

## Moral Integrity in Our Everyday Lives

LESSON TEXT FOR JULY 6—Job 1:1; 27:1-5; 31:19-23.  
MEMORY SELECTION—My righteousness I hold fast, and will not let it go: my heart shall not reproach me so long as I live.—Job 27:6.

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute, Chicago.

**WE LEARN** from Job and his experiences that it is possible so to live by the grace of God, that he can be pleased with our lives. That is an encouraging fact. Job was just a man, but he was a man who was

**I. Upright and Good (1:1).**  
**HE WAS** a man with a large family, with great flocks and herds, and so a man of business, and the husband and father in a growing and active household. But in it all he was upright, and a good, God-fearing man.

Many make excuses for their failure to serve the Lord. They say that their business duties and relationships make it just about impossible. Others say that family situations and responsibilities keep them from service and worship of the Lord.

The experience of Job explodes all such excuses and squarely faces us with the fact that it is possible to live for God in the midst of the very circumstances of modern life.

**II. Tried and True (27:1-5).**  
**AFTER** Job had lost his property, his children and even his health, three of his friends came to comfort him. But they only added to his sorrow by accusing him of being sinful, and suffering only what he deserved.

Job in these verses is replying to them. We note that in his ignorance of God's purposes, he accused God of being cruel to him (27:2; 30:21). This matter was later to be straightened out with the Lord.

But even now when he did not understand God's dealings, and stood there sick and destitute, he maintained his integrity. He would not turn from the Lord, nor would he be led off into wickedness.

It is possible for a man to be beaten and bruised and bewildered, and still true to the Lord. Let's never forget that!

**III. Kind and Fair (31:19-23).**  
**JOB** had been a rich man, but had not let his own prosperity dim his eye so that he could not see the need of his poor neighbor. He was not among those who, because they are well fed, can see no point in all the fuss about the hungry people round about.

There is something very fine and worthy of our imitation here. It is so easy to take what we have as a special favor from the Lord, to be retained and used by us, when we ought to recognize it as a matter of stewardship for the Lord.

A vital part of real moral integrity is the right use of possessions. Many a man or woman who has passed all the other tests with flying colors comes to grief at this point.

**IV. Spiritual and Faithful (31:24-28).**

**THERE** were plenty of temptations in Job's day, as there are now, to depart from the worship of the true God to other modes of devotion.

The worship of the sun was common, and Jeremiah 44:17 shows that it continued for generations. In fact, what shall we say of the worldwide devotion to astrology in our day.

Then there was the temptation to worship gold. How up-to-date that is, for do we not have millions who worship "the almighty dollar," yes, even if they do not have it.

To all such temptations Job said a resolute "No." He would not even permit his innermost heart to be enticed secretly (v. 27). He stood true for the God he loved and served.

Who will question that one of our greatest needs in the world today is for men and women who, by the grace and blessing of God, will live good and upright lives, true to the Lord, and sacrificial, in real loving-kindness to men. God give us men, yes, that kind of men!

Released by Western Newspaper Union.

## Ain't It So?

One fellow who is always going around looking for something soft is the man who has lost his false teeth.

A reformer is one who insists on your accepting his conscience as your guide in life.

No woman ever has enough to wear. And no woman would wear enough even if she had it.

Dance band leaders are finding it difficult to obtain crooners. But not difficult enough.

The "man about town" is so often a fool about women.

## Ships, Unable to Make Headway, Tie to Iceberg

Ships sailing in the North Atlantic and the oceans surrounding Antarctica are sometimes unable to progress against strong head winds and surface currents, says Collier's. On the other hand, icebergs are not affected by these factors owing to their size and depth, but are moved only by deep currents.

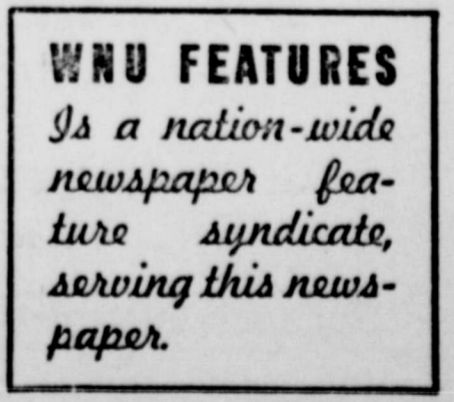

When possible, therefore, a ship in such a predicament will tie itself to an iceberg that is going its way.

## Dogs I've Known...

Frolicky Fritz Eats well, acts well, is well—on a basic diet of Gro-Pup Ribbon. These crisp, toasted ribbons give him every vitamin and mineral dogs are known to need. Economical, too. One box supplies as much food by dry weight as five 1-lb. cans of dog food! Gro-Pup also comes in Meal and in Pel-Etts. For variety, feed all three!

## Club Leaders Learn Frozen Food Methods

A frozen food Leadership Training School was conducted Monday, June 22, at the Robert Lee locker plant by Coke County Home Demonstration Agent, Miss Mary Pearl Bearden. A technicolor film on "Freezing Fruits and Vegetables" was shown and a demonstration on preparing fruits and vegetables for the locker was given.

Since we "learn by doing," a carton of beans and peaches were prepared by leaders from each WHD Club. These will be used in future WHD meetings when the leaders will give a frozen food demonstration to their respective clubs.

The agent quoted that with a home freezer or neighborhood locker plant, you can bring garden freshness to your family table all year long. Freezing gives you bright color, fresh flavor, and retains most of the vitamin values of fresh fruits and vegetables.

Frozen foods keep for many

months because organisms that cause spoilage are not active at zero, the temperature at which frozen food should be stored. Since freezing does not destroy these organisms, they become more active as the temperature rises. Therefore, frozen foods lose quality and may spoil soon after they are thawed.

Many frozen foods decrease in quality as they are held, but if properly prepared and stored they maintain their quality for as long as eight to twelve months. It is wise to plan ahead so as to freeze only as much of the different foods as your family will use during the year.

Food that comes out of the freezer won't be any better than the food you put in. Best for freezing are firm, well-ripened fruits and fresh tender vegetables right from the orchard or garden.

By carefully following modern methods for preparing and packaging, you can successfully freeze most fruits and vegetables.

## Folks You Know

Frank Dean Bryan and Glenn Simpson returned Thursday from a combined business and pleasure trip to Pueblo and other points in Colorado.

Recent guests of the Roy Braswells and J. W. Denmans were Mr. and Mrs. M. E. Ehle and son of Fort Worth. Mr. Ehle and J. W. were former buddies in the navy.

Mrs. Curtis Rumbin and daughter, Jo Ann, of Fort Worth are visiting her sister-in-law, Miss Minnie Weathers.

Doctors have ordered H. S. Lewis confined to his home for a couple of weeks because of a small blood clot in his leg. Mrs. Barclay Martin of San Angelo is a guest in her uncle's home this week.

Mr. and Mrs. Horace Scott and daughter, Sherry, of Del Rio were weekend guests of his parents, the H. L. Scotts.

Mr. and Mrs. Ray Mayhall have moved to Robert Lee from Sanco. Ray is now operating one of the transport trucks which haul crude oil from the Jameson field to railroad tank cars at Bronte.

Mr. and Mrs. Bill Burch of Monahans came the last of the week for a visit with her parents, Mr. and Mrs. B. H. Simpson, and other relatives.

Miss La Verne Darter of Munday visited over the weekend with Miss Mary Pearl Bearden. They attended college together.

W. H. Wyatt of Sanco came in Monday and ordered The Observer sent to his daughter, Mrs. Elgene Jones at Sweetwater.

J. W. Denman, who is taking treatment at the veterans hospital at Temple, came to Robert Lee for a weekend visit with his wife. He will return to Temple on Friday and will remain at the hospital for some time.

Mrs. J. G. Berryman of Eunice, N. Mex., visited among Coke county relatives and friends last week, including her brother, Ira Bird, and her sister-in-law, Mrs. Smith Bird. Mrs. Berryman is a former resident of the county.

Mr. and Mrs. P. L. Wilts and daughters of Maryneal were guests last Thursday in the Frank Burns home near Edith. Arriving Sunday for a visit in the Burns home were Mrs. Curtis Rumbin and daughter, Jo Ann, of Fort Worth.

Mrs. Mattie Tinkler and sons, Roy and Clarence, and the latter's family went to Fluvanna Thursday to take Elmer Tinkler home. The latter wrecked his car at the river bridge here the previous day.

**Blood Pressure Up**

A flustered woman, her arms full of packages, approached the department store floorwalker.

"Oh, dear," she said in an anguished tone, "I'm looking for my husband. I was to have met him here two hours ago. I wonder if you have seen him?"

The floorwalker did his best to look obliging.

"Possibly I have, madam," he replied. "Is there any distinguishing characteristic about him by which I could identify him?"

After a moment's thought, a frightened expression came over the woman's face.

"He's," she replied hesitantly, "I imagine he's purple by now."

**That Nagging Backache**

**May Warn of Disordered Kidney Action**

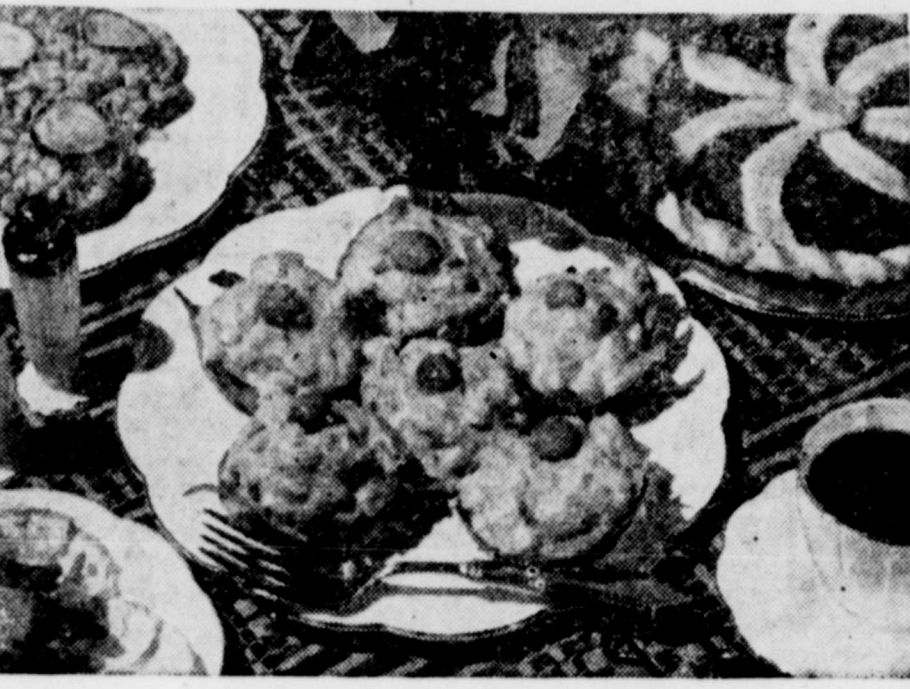

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

**HOUSEHOLD MEMOS... by Lynn Chambers**

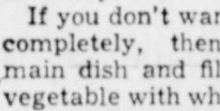

**Creamed Tuna in Potato Nests!**  
(See Recipes Below)

**First Aid for Lunch**

"If only I had a good list of main dishes and desserts for company luncheons," said a friend of mine recently, "but it always seems I get stuck with things and can't think about something the girls really like."

A good solution for the above problem is to keep a card file of complete menus for such occasions. Be certain to try out the foods before the company date comes along so you will be thoroughly familiar with the preparation, and then everything will run smoothly.

If you don't want to plan the menu completely, then select just the main dish and fill in the salad and vegetable with whatever is in season.

**LYNN CHAMBERS' MENU**

- \*Chicken Loaf with Mushroom Sauce
- Green Peas with Pearl Onions
- Tomato Salad
- Orange-Honey Rolls Beverage
- \*Lime Chiffon Pie
- \*Recipe given.

and pour into a greased loaf pan. Bake in a moderate (350-degree) oven for 35 minutes or until firm. Unmold carefully on platter and garnish with parsley. Pour mushroom sauce over loaf.

**Mushroom Sauce.**  
4 tablespoons butter  
4 tablespoons flour  
2 cups milk  
1/2 teaspoon salt  
1/4 teaspoon paprika  
3/8 cup cooked or canned mushrooms

Melt butter and blend with flour and seasonings. Add milk gradually and cook over low heat, stirring constantly, until thick and smooth. Add mushrooms and cook two minutes longer. Serve hot over chicken loaf.

**Lime Chiffon Pie.**  
1 1/2 teaspoons plain unflavored gelatin  
1/4 cup cold water  
4 eggs, separated  
1/4 teaspoon salt  
1 cup sugar  
4 tablespoons lime juice  
Green coloring  
Grated rind of 1 large lime  
1 cup whipping cream, whipped  
Baked 9-inch pie shell

Soften gelatin in cold water. Place in top of double boiler, the egg yolks, 1/2 of the sugar, salt, lime juice and rind. Cook over boiling water until thick and smooth, stirring constantly. Remove from heat, stir in gelatin and cool. When slightly thickened, fold in stiffly beaten egg whites to which remaining sugar has been added. Turn mixture into baked pie shell and chill in refrigerator for one hour. Spread or flute whipped cream over top.

A simpler combination than either of the two given thus far is this one of baked tomatoes and banana tarts:

**Baked Stuffed Tomatoes.**  
(Serves 6)  
6 medium sized tomatoes  
1 1/2 cups shrimp or crab meat, flaked  
3/4 cup thick cream sauce  
1/4 teaspoon mustard  
1 teaspoon salt  
Fine bread crumbs  
Butter  
Paprika

Scoop out tomato centers and mix half the pulp with shrimp or crabmeat, cream sauce and seasonings. Fill tomato shells with mixture. Cover tops with fine bread crumbs, dot with butter and sprinkle with paprika. Bake in a hot (450-degree) oven for 20 minutes.

**Banana Cream Tarts.**  
(Serves 6)  
4 bananas  
2 tablespoons sugar  
1/4 teaspoon vanilla extract  
3/4 cup whipping cream  
6 baked tart shells  
6 tablespoons shredded coconut

Fold sugar and vanilla into whipped cream. Slice bananas into tart shells. Cover at once with whipped cream and garnish with coconut.

**AROUND THE HOUSE**

When setting out upon a shopping trip, include an extra pair of stockings in your handbag. One can never tell when a run may occur.

To remove a hard-water deposit from the bottom of the washer, rub it with a cloth dipped in vinegar water.

Cranberry and most fruit stains will come out if boiling water is poured on them with force while stains are still fresh. Soap will set the stains.

Don't ever leave buckets, pans or tubs of scalding water on the floor where a child can stumble into them.

A quick way to cool boiled starch so it leaves no scum is to pour it over ice cubes.

A mirror adds immense charm to a room. It reflects and gives vistas; it increases the sensation of space and repeats the colors of the room. In short, the room comes to life, becomes animated through the eyes of a mirror.

## Folks You Know

Mr. and Mrs. T. M. Wylie, Jr. and daughter, Mary Francis, and the former's mother, left this week on a vacation trip to Colorado. The Wylie's smaller daughter, Priscilla Jane, is spending the time with her grandparents, the J. S. Craddocks, in Colorado City.

Wilma Roberts left Saturday for a two week's visit with her mother, Mrs. Viva Roberts, at Levelland.

Mr. and Mrs. Jarvis Littlefield have set up house keeping at the Bryan farm west of town which Jarvis has under lease for dairy operations. The house has recently been remodeled.

Mr. and Mrs. George Pennington and son, Dennis George, of San Angelo spent the weekend with her parents, Mr. and Mrs. C. E. Mathers, near Silver.

Mrs. W. F. Longwood and children have gone to Abilene for a visit with her grandmother, Mrs. E. G. Cole.

Mr. and Mrs. Wilton Scott of Lampasas were guests last week in the parental H. C. Varnadore home. Mrs. Varnadore, J. Cue and Lynn Doris went home with them for a week's visit.

Mr. and Mrs. S. E. Adams spent the weekend with her mother, Mrs. Will Pruitt, at San Angelo.

Mrs. S. M. Rippetoe and daughters, Belva Karen and Nona Gayle, of Bronte, spent Monday night with the former's sister, Mrs. A. W. Littlefield. They enjoyed a picnic on the river. Mr. Rippetoe has been in Oklahoma on a few days business trip.

Mr. and Mrs. E. G. Effington of Richardson came out last Thursday and visited over night in the home of Mrs. J. S. Gardner. Their daughter, Mrs. Winston Gardner, and little son accompanied them home Friday after a week's visit here.

Mrs. Bob Odom, who is taking summer school work at San Angelo junior college, spent the weekend with her family at Silver.

Mr. and Mrs. Bailey Russell visited relatives at Liberty Hill over the weekend. Returning with them to their homes at Liberty Hill were Bill and Dick Humphries and Barbara Phillips, who concluded a visit in the home of their uncle and aunt.

Mrs. F. A. Whitt is now occupying her new home on the county line north of Silver. The residence, which has 7 rooms and bath, was moved from San Angelo.

Lonnie Dale Evans of Winslow, Ariz., is spending the summer with his grandparents, the R. B. Allen, near Silver.

Delmir Sheppard is constructing a 14x20 living room addition to his ranch home west of town.

J. J. Yarbrough returned Sunday from a two weeks' visit in the home of his son, Boyd, at Snyder.

Mr. and Mrs. Marion Alzugary of Carlsbad, N. Mex., spent the last of the week with relatives at Silver and Robert Lee. She was formerly Mona Norfleet.

### Base Ball at Ballinger

The business manager of the Ballinger base ball team invites all Coke county fans to the game there next Monday night at 8.15 between the Cats and the Midland Indians. Ballinger has been playing good ball lately and is in third position in the Longhorn league standing, while Midland occupies second place. There is an attendance contest on and if a big crowd turns out Monday night it will help Ballinger get the the all-star game. The same teams play at Ballinger at 2:30 Sunday afternoon.

### Seats for Athletic Field

Supt. M. G. Hannaford and Dr. J. K. Griffith went to Abilene recently where they purchased lumber for new bleacher seats at the high school athletic field. The material will be delivered by August 1st and school authorities expect to have seating capacity for 600 persons ready for the opening football game. Plans are now under way to sod the field.
