LARGE CROWD ATTENDS HOSPITAL MEMBERSHIP MEETING TUESDAY

A large crowd was present Tuesday night for the first annual membership meeting of the Plains Memorial Hospital, Inc. The meeting was held in the Dimmitt High School auditorium with the president of the Board of Directors, Mr. W. R. Simon, presiding.

A very gratifying financial report was made by the business manager, Mr. Ester Noble, who declared that all indebtedness of the organization had been paid and a nice reserve accumulated in the general fund and in the building fund.

Following the report of the business manager the matter of electing a Board of Directors was in order, with two members of the old board, W. R. Simon and T. E. Harrison expressing their inability to serve further in the capacity of board members, before the procedure of nominating began. Another member of the original board, Mr. E. L. Carpenter, had withdrawn from the Association several weeks ago when he moved to St. Louis, Mo. A motion by Mr. Swain Burkett that the remaining six members of the old board be retained was approved, and three new members, D. Neumayer, Morgan Dennis and Ray Sheffy were elected to fill the above mentioned vacancies. Directors re-elected were O. D. Dinwiddie, Walter Hodges, Sam Hunter, Ed Drerup, Tom Bice, and B. M. Nelson. Beginning with the next regular meeting three members will be elected each year, with six members of the previous board being carried over.

SLIGHT DAMAGE RESULTS FROM GASOLINE FIRE

The Dimmitt Fire Department was called to the Hays Implement Company building late Wednesday afternoon when a fire broke out in the mechanical department. The fire started while a mechanic was working on a tractor belonging to C. G. Maples. A spark from the magneto ignited gasoline being used to clean the tractor motor and the flames spread to a large washing and drain vat. Only slight damage resulted from the heat and smoke.

METHODIST CHURCH

The resources of heaven which are at our disposal are without limit. "With God nothing is impossible, and Jesus has 'all power in heaven and in earth.' He has promised to man, 'whatsoever things ye desire, when ye pray believe that ye receive it and ye shall have it.' 'If thou canst believe, all things are possible to him that believeth.'"

We need the worship and fellowship we receive at the house of God. Attend services somewhere Sunday, "not forsaking the assembling of ourselves together as the manner of some is."

We welcome you to all of our services.

Clean Up C'pgn Most Successful Ever Staged Here

The city wide clean up campaign which has been in progress here for the past two weeks was probably the most successful campaign of that type ever staged in Dimmitt. After general clean-up work had been in progress for several days the various business firms closed house Tues. afternoon and owners and employees pitched in and put the finishing touches to the campaign by cutting, raking and burning weeds in alleys and on vacant lots. They also commanded a number of trucks to haul away rubbish and trash.

The clean up campaign was under the general supervision of a Lions Club committee composed of Joe Benson, T. A. Singer, Dan Boothe and Elmer Jones, in cooperation with the city government.

Although practically one hundred per cent of the citizens of our city cooperated in the clean up campaign, there is still some work to be done, according to a statement by the committee, and they are making an appeal for the continued effort of workers until all of the rubbish has been removed from the city limits.

ALLAN SHIVERS RUNS FOR U. GOVERNOR ON QUALIFICATIONS

Senator Allan Shivers, leading candidate for lieutenant governor, is seeking election to that office solely on the basis of his qualifications of wide training and experience.

In every way, Allan Shivers, the legislator, lawyer, farmer and World War II combat veteran, is exceptionally qualified for the No. 2 state office. As a state senator for a number of years, he established an excellent record of public service. A loyal Democrat and native Texan, he is a man of highest character and splendid personality. The majority of Texans believe he will reflect credit and honor on the State of Texas.

Shivers, a war veteran of two years overseas, during which time he earned five battle stars, did his best to make this a free country for a free people. He will continue that course as lieutenant governor. He has conducted a dignified campaign, free of mudslinging and personalities. His platform appeals to every Texan: Better farm-to-market roads, better salaries for school teachers, enlarged public health program, redistricting of the state for legislative purposes, greater aid to the aged, readjustment to war veterans, reorganization of the pardon and parole system, a first class university for the colored, and equal responsibility from both labor and management. He is against a sales, state income or any other form of new taxes.

Allan Shivers will be the lieutenant governor of all the people. In addition to integrity, sincerity and ability, he has a background of training and a record of public service already performed which gives him the right to ask for promotion.

Nature's Forces Hold the Rings Around Saturn... and OIL-PLATE Your Engine!

NO one knows just why Saturn is the only planet to have rings around it. We know, however, that mighty forces of gravitational attraction hold them there. Through extensive research into the forces of attraction between molecules of liquids and solids, Conoco scientists are able to bring America's motorists the benefits of new and better oils.

Using the force of molecular attraction (basic force that holds things together), a special ingredient in Conoco N#4 motor oil is attracted to working surfaces of your engine. In fact, so strong is this attraction that cylinder walls are OIL-PLATED.

And, because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight... you get these benefits:

added protection during the vital periods when you first start your engine; added protection from corrosive action when your engine is not in use; added protection from wear that leads to fouling sludge and carbon; added smooth, silent miles. That's why you'd be safer to OIL-PLATE your engine now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company.

Hays Implement Co. Nature's Forces Hold the Rings Around Saturn... and OIL-PLATE Your Engine! NO one knows just why Saturn is the only planet to have rings around it. We know, however, that mighty forces of gravitational attraction hold them there. Through extensive research into the forces of attraction between molecules of liquids and solids, Conoco scientists are able to bring America's motorists the benefits of new and better oils. Using the force of molecular attraction (basic force that holds things together), a special ingredient in Conoco N#4 motor oil is attracted to working surfaces of your engine. In fact, so strong is this attraction that cylinder walls are OIL-PLATED. And, because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight... you get these benefits: added protection during the vital periods when you first start your engine; added protection from corrosive action when your engine is not in use; added protection from wear that leads to fouling sludge and carbon; added smooth, silent miles. That's why you'd be safer to OIL-PLATE your engine now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company. CONOCO N#4 MOTOR OIL. Sixteen Texas Boys Win Opportunity for Education

Sixteen honor graduates of Texas high schools, representing every section of the State, will enter Texas A. & M. College in September as the first winners in a new major scholarship program. The scholarships, known as "Opportunity Awards," are designed to offer outstanding Texas boys who would otherwise be unable to attend college an opportunity to secure an education. The program is sponsored by the Texas A. & M. College Development Fund, a joint organization established by the college, its former students and its friends. Ten of the awards were underwritten by the Association of Former Students through gifts of A. & M. men, one by A. F. Mitchell of Corsicana, chairman of the Development Fund board, and five, for boys majoring in agriculture, were financed through a gift from Mr. and Mrs. Jesse H. Jones. Winners in a statewide competition each year receive scholarships which pay \$200 to \$300 per year throughout their college careers, plus an opportunity to earn additional money at student jobs. Selected on the basis of scholarship, leadership and character, the first year's winners of Opportunity Awards were: Franklin Cleland of Genoa, John Hunt of Fort Worth, Carl King, Jr., of Dallas, Jimmy Morrow of Grafton, Harry Mueller of Brenham, Lannon Stafford of San Antonio, Joe Mullins of Carrizo Springs, Vernon Porter of Italy, Royce McClure of Dallas, John Taylor of Rotan and Joe Zumwalt of Hallettsville. The Jones Scholarship winners were Humberto Reyes of Berclair, Bobby Bland of Merkel, Robert Williams of Waco, Henry Simpson of Dallas and James Robertson of Plainview. Highest scholastic average in the group was a four-year grade average of 97.64, lowest was 93.57. All had held responsible class or school offices and had excelled in some extra-curricular activity. All had excellent records of earnings through after-school and summer work.

Texas Comes First!

That is the political philosophy of

BEAUFORD JESTER

of Corsicana

Candidate for Governor of Texas

In his opening campaign address Beauford Jester declared:

"The Political Action Committee of the CIO is not going to dominate the people of Texas."

"I am opposed to labor monopolists as much as I am to capitalist monopolists."

"There must be no threat to the life, livelihood or property of any citizen."

"In Texas we want equal responsibility from both labor and management—responsibility to the public itself."

"I am urging the people of Texas to return to first principles in government."

"The Home, the Church, and the School are the foundations of our society and well-being. As Governor of Texas I shall ever strive to strengthen these foundations of Texas."

"I am a liberal Democrat, but I am not a loose Democrat."

Beauford Jester long has been an active worker for the better things in life, church, welfare, civic development, education, agriculture and athletics. He has served with distinction on the Texas Railroad Commission. His record as a citizen and as a public official justifies his promotion to the governorship.
