One-key control: only Chevy in its field has done away with fumbling for two or three keys. The same key unlocks the door, starts the engine, opens the glove box and trunk.

WHY DO WITHOUT THIS CONVENIENT LITTLE TOUCH... LET ALONE

THESE BIG CHEVY VIRTUES!

BIGGER BRAKES

Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

GREATER ROOMINESS

Official dimensions reported to the Automobile Manufacturers Association make this point abundantly clear. For example, Chevy's front seat room is up to 5.9 inches wider than in comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

MOST ADVANCED ENGINES

We'll let SPORTS CARS ILLUSTRATED talk about Chevy's standard passenger car and Corvette V8's: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." And every motor magazine concurs! There are eight V8's to pick from—the widest choice in Chevy's field.

FRESH STYLING

POPULAR SCIENCE magazine's experts took one look and said, "In its price class, Chevy establishes a new high in daring styling."

HIGHER TRADE-IN

N.A.D.A.* Guide Books carry the proof of Chevy's extra trade-in value. They show that Chevrolet used car prices last year averaged up to a solid \$128 higher than comparable models of the other two cars in Chevy's field.

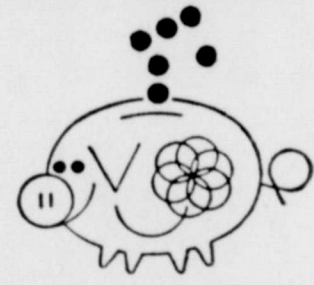

*National Automobile Dealers Association

FULL COIL RIDE

You've almost got to find a really rocky road to show off Chevy's easygoing ride to full advantage. MOTOR TREND magazine gives you an idea, though: "... the smoothest, most quiet, softest riding car in its price class."

BIGGER SAVINGS

Two Chevrolets packing our pennypinching 6 with Powerglide delivered a whopping 22.38 mpg in this year's Mobilgas Economy Run, winning the first two places in their class and walking away with top honors among all full-size cars. How can you argue with a figure like that?

No wonder more people are buying Chevrolets in '59 than any other car

Kill Rabid Fox At Seltz Farm

By STERLING LINDSEY
Coke County Agent

Rabies has been found in the area again. Francis Seltz, of Sango, found a fox bothering his chickens a few nights back. His dog killed the fox and Mr. Seltz sent the fox head off for a rabies analysis. The report came back positive for rabies.

This is the first case in several months that has been found positive for rabies. Nevertheless, we should be observant around dogs, cats and varmints. If your pet should act abnormal, such as becoming wild eyed, nervous, or it becomes sullen and drowsy, place it in confinement or restrain it. Varmints that act strangely that have not exposed any animal or human should be destroyed. If someone or some animal has been exposed, then a laboratory analysis of the brain should be made.

Generous Rainfall

Regardless of what happens from this point on, the rains thus far this summer have been almost perfect over most of the county. The pastures and fields have a spring like appearance. The heavy growth of vegetation will deplete what has been stored rapidly, but the present situation is heartening.

Cotton Boll Warning

Cotton farmers need to be watching their cotton closely for a possible build up of cotton boll worms. Conditions have been favorable for a boll worm build up in most of the county. I have found light to heavy deposits of bollworm eggs in scattered cotton fields over the county.

Again, check your cotton at regular intervals. If you find a few hatched bollworms, numerous white to brownish dome shaped eggs on the terminal leaves, then it is time to apply control measures. One boll worm, if uncontrolled can knock off three to eight forms and bolls. Allowing a hatch to get by you could prove costly.

Gas Tax Refunds

Have you applied for your Federal gasoline tax refund? Last year alone \$50 million in refundable gasoline taxes was unclaimed. Qualified operators have until September 30 to apply for the refund, but there is no better time than now to complete and send in the simple form. If you do not have an application blank or need assistance in completing the form, we will be glad to assist you or provide you with the necessary form.

Pecan Trees Hit

Walnut caterpillars continue to plague the pecan trees of the area. And they will probably complete another cycle and have another hatch before the summer is out.

Check your pecan tree daily if possible for groups of worms feeding on the leaves. They hatch and feed in a cluster, moving from limb to limb as a limb is stripped of foliage. Left uncontrolled, one cluster can completely strip a fairly large pecan tree. To control the caterpillar, you can use

DDT, chlordane or toxaphene sprays; however, if you find the cluster when they first hatch, removing the small twig they are feeding on is much simpler. If you find a cluster on your pecan tree, search the tree thoroughly for other clusters. Normally, more than one group of eggs will be deposited on the tree.

4-H Boys Camp

The 4-H club boys of Coke County will be off on their summer camp when you read this. Approximately 30 boys, adults, and leaders along with myself are spending a couple of days camping, fishing, swimming and gaming at the park in Ballinger. We were to load up Wednesday afternoon and will be back Friday morning shortly before noon — sunburned, tired and without any fish, probably.

SMALL TALK

By A. J. K.

Restrictions against skimpy attire are to be enforced at the County Park Pool in Robert Lee. At least complaints have been filed, and it is up to the management to do something about the matter. It is said that complaints were made two or three weeks ago, but over the weekend some swimmers were still wearing abbreviated coverings. Men bathers are the more frequent offenders, but some of the ladies outfits were also considered less than proper.

A sign noticed in the bank reads: **Money Isn't Everything; but it's away ahead of whatever is in second place.**

Commissioner Fern Havins has had some of his road hands mowing grass and weeds throughout the city. Property owners are urged to clean up their premises to help the general appearance of things, and guard against fires when the grass dries up.

I think some of the 4-H clubs came up with this slogan:

PUSH — if you can't push, PULL! If you can't pull, GET OUT OF THE WAY!

Polio outbreaks in some parts of the country are bad again this year. At Des Moines, Iowa, the whole community was alarmed when more than 100 cases were reported, and one was a person 52 years old. Authorities there phoned Dr. Salk, who advised them to take the shots, and recommended a fourth booster shot of the vaccine. Most of the cases involved those who had not been treated. However, Dr. Salk says the polio shots may not be more than 80% effective. We wonder if Coke County people haven't become complacent.

BRONTE GOSPEL MEETING

James E. Priest of Beaumont will be the speaker during a Gospel Meeting at the Bronte Church of Christ beginning Friday night, July 31. Evening services will be at 8 p. m. Bill Tyner, Jr., also of Beaumont, will direct the singing in the meeting.

Priest and Tyner will also assist in a five day Vacation Bible school to be held in connection with the meeting. The school will begin Monday morning, August 3. Hours for the school will be from 9 until 11 a. m.

Melvin Placke, Bronte minister, stated the first of the week that the public is cordially invited to all of these services. Both the meeting and school will close Friday, August 7.

Mr. and Mrs. Travis Allen and children of Arlington are guests this week in the parental home of Mr. and Mrs. Calvin Wallace. Mrs. Allen is the former Marie Allen. Mr. Allen is vacationing from his position with Pan American Oil Co. division office in Fort Worth. Mrs. Dee Hawkins came from San Antonio to attend the class of 1949 reunion and visited among kinfolks and friends. She is the former Mozelle (Tiny) Hurley.

4-H Girls Win Top Places In Pig Contests

Prescilla Wylie, daughter of Mr. and Mrs. T. M. Wylie, Robert Lee, and Juanita Johnson, daughter of Mr. and Mrs. Pat Johnson, Bronte, had the first and second place litters of pigs in the San Angelo store area of the heavy litter contest, according to a release from the District Extension Office.

Prescilla, a 5 year member of the Robert Lee Senior 4-H Club has received \$30.00 in prize money to further her swine program. Her litter of 9 pigs weighed 365 pounds at 8 weeks of age. They are necessary in most all contests that members may participate in and they are also needed for a member to receive year pins and other awards.

The instruction was given by Extension Agents Carole Hooper and Sterling Lindsey.

Girls and boys who attended are as follows: Leta Fay Robertson, Ida Lee Parker, Mary Sue McInturff, Rhea Jean McCutchen, Kitten Dean, Shirley Brice, Doris Caulder, Linda Thetford, Raynelle Bloodworth, Carolyn Prine and Lupe Tijerina, Marshall and Ellis Freeman, Doyle Robertson, Roy Lee Baker, Bill and Glenn Roach, James and Dickie Calder, Jerry Burson, James Byrd Pentecost, Gaylon and Darrell Pitcock, David Boykin, Eddie Glenn, and D.
