With wagons like this one in the lineup, it's no wonder Chevrolet is the most popular car in the whole U. S. All five Chevy wagons, 6- and 9-passenger models, are widest where wagons should be wide—with comfortable seating space that becomes up to 92cu. ft. of cargo area by a simple adjustment. All five feature all the things that are making Chevrolet first choice, too: FULL COIL SUSPENSION cushioning all four wheels ... an ECONOMY TURBO-FIRE V8 that gets up to 10% more miles to the gallon on regular gas, or that well-known saver, the HI-THRIFT 6... the shift-free smoothness of TURBOGLIDE*... a wider front seat and more entrance height in Chevy's ROOMIER BODY BY FISHER than you'll find in any other car of the leading low-priced 3. TO THE PEOPLE OF COKE COUNTY

I have tried to see as many of you as possible, but due to the short time between primaries it has been impossible for me to contact everyone. I hope that you will take this as a personal request for your vote on June 4th.

I think experience is the best teacher you can have in any line of work and I feel that after several years of working as a deputy in the office of Sheriff-Tax Assessor Collector I have the experience to set up and operate this important office in the manner you want and deserve to have it run.

I wish to thank everyone again for the fine vote I received in the first primary and for all the courtesies shown me during the campaign.

I will appreciate your vote next Saturday, June 4th.

Sincerely,

O. B. JACOBS

SMALL TALK

A short time ago Mayor W. D. McAdams, BCD President Cumbie Ivey Jr. and Bill Tom Roach attended a community development meeting in San Angelo. They said it was worth while.

Following is a report on the "Wool Gathering' column:

attended the West Texas Utilities year's subscription to The Ob-Co. Community Development Conference in San Angelo last Thurs-

It was pointed out there that 35 Jeanie. of the 49 counties served by WTU lost population during the last 10 years; then some good ideas were tossed about as to how these communities could check their decline.

Industry and tourists were viewed as the most likely possibilities for building business and and family. She is spending the population. Most industry, it was pointed out, is home grown industry.

by using the resources, resourcefulness and manpower available stationed at a Virginia army base, at home to produce a product in demand. Towns like Menard will his parents for a few weeks leave. have a hard time competing with larger cities to draw industry from out of state.

But there's nothing to stop us from growing our own. We have the resources. We have the manpower, in limited quantities. It is likely we have the resourcefulness. Now all we need is the financing and the community spirit to get things done.

Getting action sometimes poses a problem. As one speaker noted, some people are like wheelbarrows when it comes to serving their community. They are useful only when pushed - and they are too easily upset.

If it's true that a fool and his money are soon parted - then tell us how they got together in the first place.
