Melvin Is Billed Tomorrow Here Steers 48, Eden 0

A smooth running herd of Steers overwhelmed a plucky but out-gunned Bulldog pack from Eden at the home field Friday night to the score of 48-0.

The lopsided score gave John Malone opportunity to run his Freshmen on the field several times, and they showed the fruits of playing together in Junior Hi, and gave a good account of themselves.

Rated by all sports writers to win, the Steers had the game pretty well in hand from the beginning, but the break for the first score came, with the Steers in possession of the ball about 20 yards from the Bulldog's goal line, when a 15 yard penalty against Eden put the ball to a first down, with goal to go. Coalson was over for a touchdown on the third play and Dodson took the ball for the extra two points. 8-0.

Dodson kicked off, Eden returned to their 28, and on the next play C. L. Sparks for Robert Lee recovered a Bulldog fumble, then with Coalson and Wink blocking,

Notes From The Oil Field

Reliable information is that Tucker Drilling Company will re-enter Ocie Devoll No. 1, drilled about 18 months ago (March, 1962) by Standard of Texas. The purpose of re-entry is given as intent to test the Strawn limestone formation. This well was abandoned as dry.

With the investment Union Texas has in their big plant southwest of Silver, and with Sun Oil Company increasing the capacity of their Jameson Plant by nearly two-thirds, it appears that the supply of gas in the Silver area is not likely to play out soon.

Since there is now water coming into the field from Lake Thomas through a big pipe line, the question becomes a live one — what about the industrial future up there, when the water flooding process is completed, or even before, if more water is provided from a dam on the Colorado River?

With rail and highways, water, and fuel, western Coke County could well have more industry as time goes on.

The new location made last week on Standard of Texas' Boswell et al lease is a unit well, we understand, and the last to be drilled in that lease on an 80 acre spacing.

The number of these four Boswell wells is confusing, without the record at hand, but the well now in a try for completion, which we have been designating Boswell et al No. 3, is still a very "tight" hole. But, judging from the equipment and materials going to it, there has been a try for completion in the Ellenberger lime, with the local report that there

Father of Mrs. Hooks Fatally Injured In Wellington Collision

Mr. and Mrs. D. D. Hooks and their three children attended the funeral of Creed Baker, father of Mrs. Hooks, who was fatally injured in an automobile collision at Wellington, September 6, dying from the injury Sept. 12. Funeral was held Sunday at Wellington.

Mrs. Baker, and the driver of the other car, Ben Ratliff, were both injured but doing well at last report.

Mr. Baker is survived by his wife, thirteen children, and 27 grandchildren.

Mr. and Mrs. Hooks live in one of the A. B. Sheppard houses, and he is with Butler Roustabout Service, here.

New Fire Truck Is Now On Duty

The Robert Lee Volunteer Fire Department tried out their new fire truck Monday night, under instruction of M. B. Pittman of Corpus Christi, with the Gulf Fire and Safety Equipment Company.

"It's a go-getter," commented Fire Chief Calvin Wallace. The water pump is an amidship centrifugal with capacity of 500 gallons per minute.

All panel instruments are on the

side, and one man can operate it, making it possible for one man to drive the truck to an ordinary fire and put it out by himself.

The new truck, costing \$11,500 dollars completely equipped, has both chemical and foam type extinguishers and also the newest type of fog nozzles Mr. Wallace explained it is possible to turn on these fog nozzles and walk right into a fire.

Such a truck, on the scene in time could have handled the disastrous fire last year in Bronte's business section, as the fog nozzles and foam extinguisher are especially adapted to dealing with oil or paint-fed flames.

The older of the two trucks owned by the city before delivery of the new truck, has been turned back to the county, to be transferred to Silver.

This leaves two trucks stationed at Robert Lee. The older of these two will make runs to grass fires and ordinary fires outside the city limits. Under state regulations one truck must be kept in the city limits at all times.

The new truck is to be used on fires requiring the special equipment, in which case the older truck will be kept in reserve. In emergencies such as the Bronte downtown fire, the new truck will be available in this way, and has the only equipment in the county adequate for that kind of fire.

"Having the old truck at Silver will be a great help to us here," Mr. Wallace said, "especially if something happens like the grass fire that got out of hand last year when Mr. Henson's car was burned and two trucks needed in the country."

Mrs. Coalson to Show Holy Land Film Tonight at 8

The local unit of the Parent-Teacher's Association will hold its first meeting of the new year Thursday, September 19, at 8:00 P.M. in the Robert Lee School auditorium.

The program, under the direction of Mrs. Cumbie Ivey, Jr., will consist of the introduction of the school board and faculty members by Supt. Dorman Thomas.

Mrs. Ivey will present the year's theme, "Focus on the Family; Strength Through Parent Education." Mrs. Coalson, a member of the High School Faculty will present films and a discussion of an extensive trip through Europe and the Holy Lands, which she made the past summer.

Every parent of school age children is invited to attend, by the local leaders, who comment: "The P.T.A. is a 12-year course with homework, but no classes; study programs with no examinations — elective, not required. It's work, but it's fun.

"One of the smartest things you as a parent can do is to sign up for the course when Tommy or Susie is ready for first grade... and stay with it from dolls to dates, from marbles to auto driving. Come and join us Thursday night!"

WTU Invites Everyone to Attend Oak Creek Plant Visitation Day Thursday Afternoon of Next Week

People of Robert Lee and area, through an announcement appearing in Observer advertising space this week and through the personal invitation of W. D. McAdams, local manager, are invited to visit the West Texas Utilities Oak Creek plant.

This ten million dollar asset in Coke County is, aside from oil-related plants, the largest industrial establishment in the county, and has provided a closer source of adequate power for domestic and industrial use in this community.

The newest power plant in West Texas and one of the most modern in Texas will be open to the general public for the first time, Thursday afternoon, September 26 from 1:30 to 6:30 p.m.

WTU's Oak Creek Power Plant, located on Oak Creek Reservoir between Blackwell and Bronte, has scheduled a Visitation Day for West Texans.

The Plant Chief Engineer, R. E. Patton, today issued an invitation to West Texas families to visit the

Plant Superintendent

R. E. PATTON

plant and see how electrical energy is generated. Patton said guided tours will be conducted for the visitors. The tour will take from 25 to 30 minutes. Each tour will be conducted by power plant personnel who can answer questions concerning the plant and its operation.

Patton pointed out that the Visitation Day is to be an informal affair. Refreshments have been planned for the visitors and it is hoped they will remain on the grounds to meet and visit with the plant personnel.

The Oak Creek plant is located on Highway 70, one mile north of the intersections of Highways 70 and 277. The plant site is about midway between San Angelo and Abilene. The plant, which is the newest in WTU's system, is interconnected with 138,000 volt transmission lines with other plants in the WTU system. High voltage transmission lines from the plant carry electric power north to the Abilene area, east to the Ballinger area, and south to San Angelo.

"The Oak Creek Plant," Patton said, "its of the very latest design and engineering. It was completed last year at a cost of approximately \$10 million."

WTU operates six electric steam generating plants and one gas turbine station, providing electric energy for a 52,000 square mile area in 50 West Texas counties. The company provides electric service for 166 communities and the surrounding areas, and 18 Rural Electric Cooperatives, in a region extending from the Red River to the Rio Grande.

HOSPITAL NEWS

9-11. Admitted, Mrs. Jessie Ensor, Baby Ensor.

9-14. Dismissed, E. C. Davis, Mrs. Jessie Ensor and daughter.

9-15. Admitted, Ethel Green. Dismissed, Raul Olivias.

9-16. Admitted, Henry Varnadore.

Game Management Barbecue at Bronte Saturday, Sept. 28

All who are interested in hunting and game management in Coke County, including all landowners, are invited to attend the annual barbecue at Bronte Park at 5 p.m., Saturday, Sept. 28.

Sponsored by the Coke County Game Management Association, tickets will be \$1.00 per person, which will also take care of membership dues.

Game warden Henry Burkett will be in charge of a short program.

WANTED: NAMES OF LOCAL STUDENTS NOW AT COLLEGE

Parents or other near relatives of young people who are going or have gone away to college this fall are invited to turn in the information to the Observer.

Also students themselves are invited to write the paper to let friends here know where you are.

Dodson went to first and 10 on the 13 yard line, Coalson was through to the 2 yard line, and Dodson over, and the score was 14-0.

Eden's first threat came at the last of the first quarter when Colley returned Dodson's kick 15 yards to Edens 49 and in a couple of line plays and pass Stansberry to Sawyer ended the quarter on the 21 yard line, but the Steers got the ball on downs near their own goal at the first of the 2nd quarter, it was 2nd and on the Steers 40, then Dodson to the 47, and a pass, Wink to Gartman and run by Gartman, and it was first down and goal to go on the five yard line. Pass Wink to Gartman was incomplete, it was 3rd and 9 to go, then Dodson was over on the next play, and a pass to Hatch was good for 2 points, and the score was 22-0.

The next counter was after Gartman snagged a 33 yard pass from Wink on the Steers right flank, ran around the Bulldogs left end almost to the goal, a quarterback sneak put the ball over and Wink's pass to White was good for the 2 points — Score 30-0.

Eden gave it all they had, fighting pluckily all the way.

In the start of the second half, Dodson's kick was a short one, Eden recovered their own fumble on their 42 yard line, Jones was off tackle for 16 yards and it was Jones again to Steers 25 yard, Colley was downed on the Steers 25, Eden's pass was incomplete, and the ball went over to the Steers.

The next counter was on a pass, Wink to Hatch for 33 yds, but Dodson hit a wall in try for points, and it was 36-0.

Steer pass was intercepted Jones took it to the Steers 48, on an end run. Coalson intercepted a Bulldog pass to put the ball on Eden's 48, and Dodson bulldozed the line for a 46 yard run to another touchdown, 42-0.

The rest of the game Coach Malone substituted freely, exercising younger members of his crew, the final counter coming after Eden lost the ball on downs on the Steers 10 yard line, Gartman got through and ran to the 46, Dodson took it around end for 23 yards, then caught one of Wink's passes to cross the goal line for a final count of 48-0.

For the Bulldogs, Robert Stansberry, and Larry Jones stood out on both offense and defense, Larry Colley did notable ball toting, John King, Bobby Scoggins and Jerry McDonald stood out in the line.

RAINS GIVE PROMISE OF FALL GRAZING

Spotted rains fell, with the most reported in Robert Lee, over the weekend. Robert Lee rain gauges registered from 1½ inches up to nearly 2½. Sanceo had slightly over an inch. George McCaleb's place southwest of town reported 1.9 inches.

The rains interrupted fall shearing of sheep and goats and gathering of cotton, but gave promise of freshening grass for livestock men.

LONG DISTANCE CALL FOR THE PRESIDENT.

Jack, this is Wallace, Birmingham.

Fine, Jack, and you? House of Representatives? S-Tough. Yeah. Integrating Congress would be somethin'. No, I reckon bein' governor of Alabama ain't quite like that.

What I called for, are you goin' to need the Alabama National Guard for the next couple hours?

No, I already been to school — it ain't schools this time.

Well, you see, some of your demonstrator anti-discriminators are likewise eliminators — razors, switch blades, and things like that, you know.

No, Jack, it ain't schools. It's a crap game.

How will it affect the Negro vote? I don't know about that, but its a segregated meetin' and sounds like they're carvin' up some voters.

Yeah. That's about it. If you'll let me have my army back, I'll

try and integrate this segregated crap game.

Okay, Jack, see you around.

Another thing, a lot of black cattle are segregated on Texas ranches, and Lyndon knows that, too.

Melvin whipped Junction's B team 44-0 Saturday, but Menard had trounced Junction's first team Friday 35-0.

Considering that Robert Lee won over Menard 30-7, our light weight boys may have a chance to get in the game again this week.

Somewhere there is a better world than this. Once that might have sounded like dreaming. But cold science now is looking for another — ready to go and find out.

There are two ideas of land titles. Once—that the sovereign, or the government owns the land, the other that it inherently is to be held by people.

As long as people are sovereign, then the two come close together. If the people are not sovereign, then the two may become as wide apart as the east is from the west.

In that case, the idea that the government owns the land is in one form the Communist idea, the idea of Feudalism.

Communism and Feudalism have much more in common than feudalism and capitalism.

I. A. Bird, with his daughter, Mrs. Aubrey McKinley visited his sister, Mrs. Tennie Berryman, at Eunice, New Mexico, last week, and her son and family, Mr. and Mrs. Carroll Berryman at Cebolla.

Must Not Take Our Nation For Granted, Lesson Of Seminar

Ben Boykin and Sandra Thomas, Robert Lee High School Seniors, attended the Citizenship Seminar at Sam Houston State College, Huntsville, as guests of the Coke County Farm Bureau.

The Observer Editor asked them to report on their trip, hence the following written by them.

It was a most inspiring three days with lectures each day by outstanding men. Dr. George S. Benson spent eleven years as a Missionary in Canton, China. Dr. Benson has more Freedom Foundation Gold Medal Awards than any other American for citizenship training. Dr. Clifford L. Ganus, vice president of Harding College, has traveled extensively and made a study of European life under Socialism.

John Noble, author and lecturer dedicated to a public affirmation of the American way of life, spent nine and one-half years under slave labor in the Soviet Russia. Dr. Harry Love is a nationally known speaker on basic economics and America's free enterprise system. Cleon Skousen studied Communism while serving with Federal Bureau of Investigation. Cleon Skousen is known for his book "The Naked Communist" which outlines the communist plans. The book also tells of some things we must do to combat Communism.

Their brilliant lectures enriched our lives and made us realize how good it is to be Americans, and that Communism really plans to wreck the free world in which we

The Observer, Robert Lee, Texas

Sept. 19, 1963

live. Property rights, human rights, Religious rights, and our wonderful heritage is up to us as Americans. Communism is truly a threat and a crisis of our generation.

We thank the Coke County Farm Bureau and members for this privileged opportunity that was given to us. We hope that again next year students from Coke County

will have the same opportunities. Our job from the Seminar is to help convince the people that our Nation is not just something we take for granted, but something we must still work and fight for. Our enemy is not only one from the outside but it is getting hold on us on the inside.

All Around SILVER

By Mrs. George Fugate

Local College Students Prepare For Departure

Silver's college-aged students have finished preparations for departure to their various colleges. Silver is well represented in colleges and universities throughout Texas.

San Angelo College will be the place of study for Becky Beaty, Richard Ramsey, Pat Wilkes, Stanley Post, Ann White and Dwayne Walker. All these students will be freshmen.

Bill Newell will be a sophomore student at El Dorado Junior College in Kansas.

Baylor University is the school at which Susan Hughes will receive her sophomore year of study.

Doug Wilkes will attend Texas Tech as a junior student.

Attending West Texas State will be Jimmy Palmer, a junior, and Jerry Whitaker, a sophomore.

Larry Cheatham has returned to East Texas State as a senior.

Allen Clendennon will study at Hardin-Simmons as a freshman student.

Returning to North Texas University as a junior is Larry Lindsey. Also attending North Texas as a senior student is Mike Wheeler.

Adrian Welch will begin his freshman year at Howard County Junior College. Gerald Sorrells will also attend Howard County as a sophomore.

Wayne Reed Jr. will continue his education as a junior at Texas University.

Returning to Texas A & M are Rusty Whitaker, a junior, and Johnny Theis, a sophomore student.

Silver PTA Meets

The first meeting of the year for the Silver PTA was held at the Silver Peak School, Sept. 10, with Mrs. Jim Herford, presiding.

During the business session, the members voted to purchase library books for the school for their annual project. They also voted to continue to sponsor "Banking Day" at the Silver School.

Mrs. Frank Hearne, chairman of the Finance Committee, announced that the main fund raising project will be a Halloween Carnival. A "come as you are" coffee was held Thursday morning at the Sun Recreation Hall to help raise funds. Mrs. Lawrence Feaster was in charge of this.

During the meeting, Mrs. M. C. Hendry was appointed Health Chairman.

The P.T.A. will hold their meetings at 3 p.m. on the 2nd Tuesday of each month, unless otherwise announced. The Executive committee will meet the preceding Friday.

Following the business meeting, Mrs. Bob Hughes was in charge of the program.

Scout News

Den 1 of Cub Scout Pack 446 will meet at the Silver Methodist Church each Thursday with Mrs. Bob Howell, den mother.

These boys are starting the last year of Cub Scouting and are

working on the Lions Badge. The requirement that they are presently working on are the Flag ceremony and flag folding.

Members of Den 1 are Ernest Herford, Jerry Sirus, Craig Howell, Mike Mumford, Nelson Barnes and Jay Eubanks.

Girl Scout Troop Organized

The first meeting of the year of the Girl Scout Neighborhood was held Wednesday, Sept. 11, with Mrs. Jerry Eubanks, neighborhood chairman, presiding.

Leaders for the four Scout troops will be:

Brownies, 2nd & 3rd grades — Mrs. M. C. Hendry and Mrs. Barbara Lambert.

Juniors, 4th, 5th & 6th grades —

Mrs. J. A. Weatherby and Mrs. Harold Keller.

Cadettes, 7th & 8th grades — Mrs. Bob Henderson and Mrs. J. P. Jameson.

Senior Advisor — Mrs. Hale Kincaid.

Organization of each troop will begin very soon.

Senior Troop Elects Officers

Brenda Jameson is president of Senior Girl Scout Troop 262. Other officers are: Fredda McCabe, Secretary; Debbie Hines, treasurer; Cynthia Davis, Reporter; Aletris Ackerman, Patrol Leader and Susan Newell, Asst. Patrol Leader. Karen Fugate and Judy Kincaid were chosen as representatives of the Senior Planning Board, which

The Observer, Robert Lee, Texas

Sept. 19, 1963

meets monthly at Camp Boothe Oaks in Sweetwater. Mrs. Hale Kincaid will be the Senior Advisor.

This troop will be ushers at the Girl Scout Fair, which will be held at the Sweetwater Coliseum, Sept. 21.

New MY F Officers for 1963-64

The Silver MYF met Sunday at the Methodist Church and elected the following new officers:

President — Raymon Kincaid
Vice-Pres. — Bill Paul
Secretary — Aletris Ackerman
Treasurer — Susan Newell
Reporter and Program Chairman — Karen Fugate

Citizenship chairman — Keith Jones

Outreach Chairman — Gene Kincaid

Witness Chairman — Karen Fugate

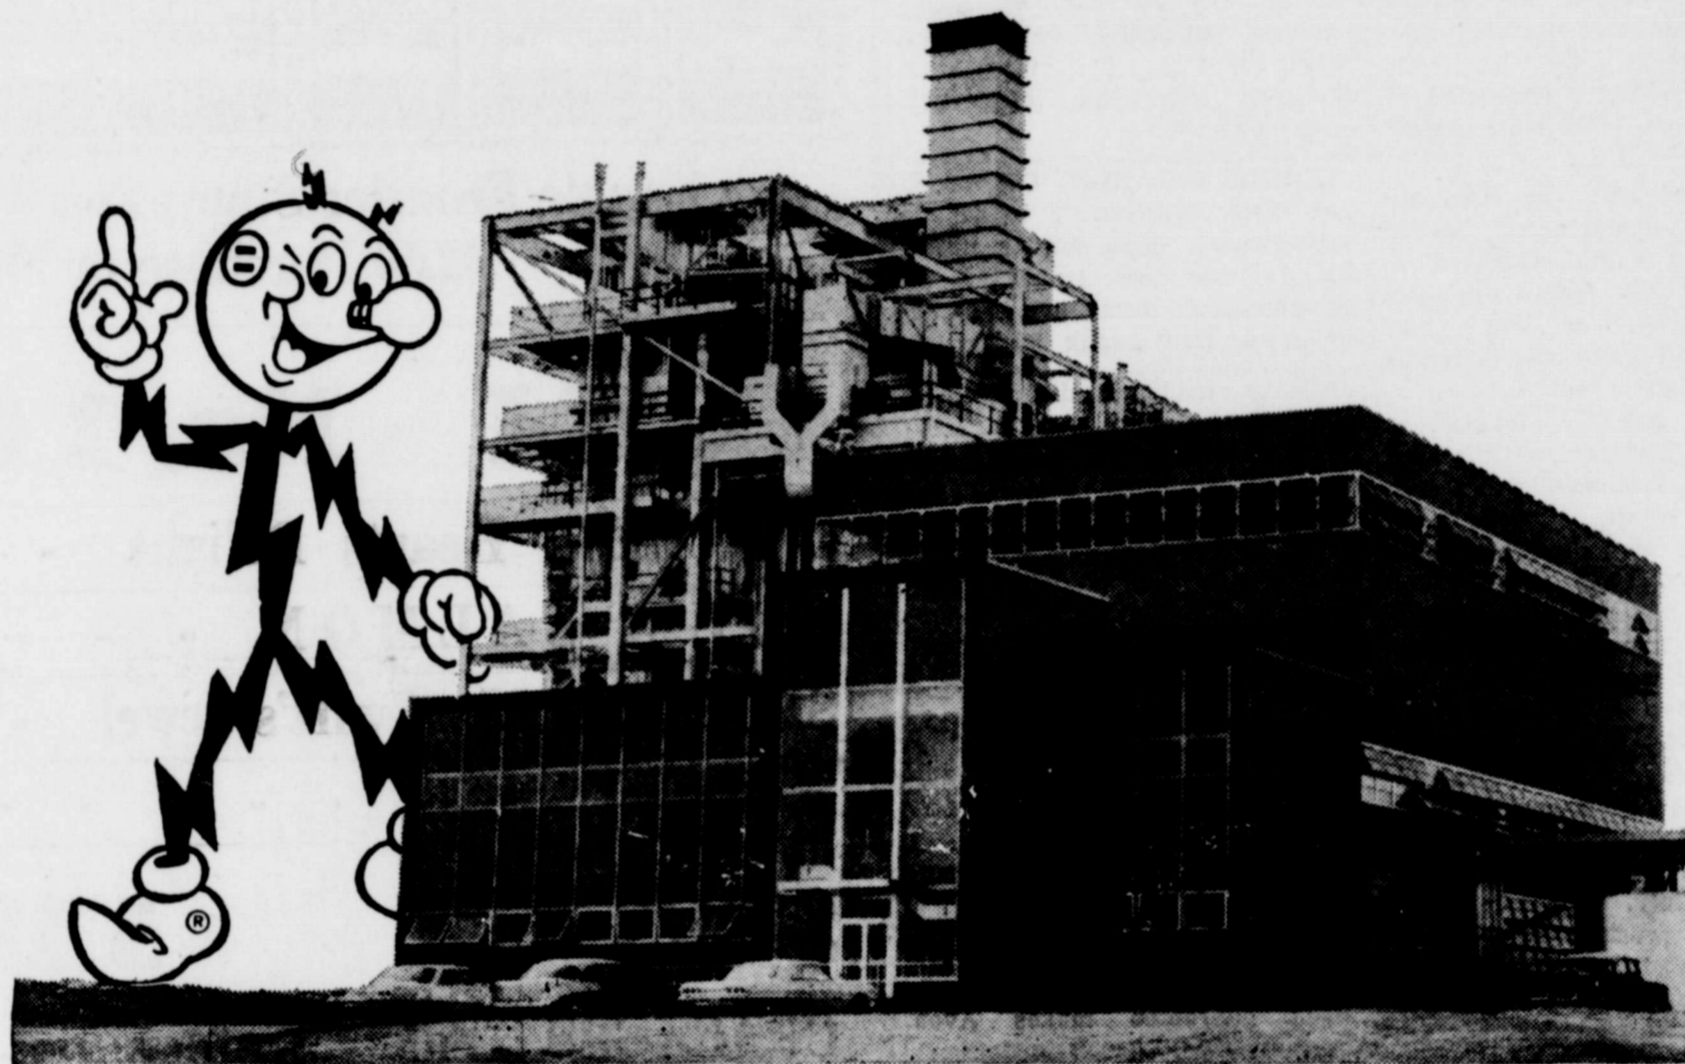

Fellowship Chairman — Judy Kincaid

Faith Chairman — Larry Paul

Mrs. Billy Jones is the new MYF sponsor, replacing Mrs. P. T. Wall. Fifteen attended the meeting.

Miss Juanita Barger has moved to 1517 3d St., Abilene, and is teaching two courses in elementary education in Hardin-Simmons University.

Washington Newsletter

By O. C. FISHER

ANOTHER DRIVE to increase salaries of government employees is under way. Committee hearings are now being held, following a special message from the President recommending a general increase across the board, with a few substantial raises. This proposal follows recommendations made by a 12-man advisory panel, appointed by the President.

Under this plan, Cabinet Members would get \$50,000 a year; Members of the House and Senate, \$35,000; and Supreme Court Justices, the Vice President and the Speaker of the House would receive \$60,000 a year.

I am opposed to any such increases this year. It will be recalled that there was a very substantial general increase for government employees last year, costing about \$1.2 billion per year in addition to what was previously paid. Faced with a \$10 billion deficit this year, it hardly makes sense to talk about pay increases now. It would seem to be much more appropriate for the Congress to think in terms of reducing costs of government, tightening our belts, and making a concerted effort to achieve a balanced budget.

In June of 1962, the President appointed a special group, headed by a lawyer named Gerhard A. Gesell, to study racial problems in the military. On June 21, of this year that group filed a report that has raised grave concern among many people. Already the Secretary of Defense has indicated the Gesell recommendations will be put into effect.

Under this controversial proposal, a military base commander would have the authority to prohibit any of those under his command to visit or trade in business establishments in nearby communities which were allegedly practicing racial discrimination. Such business places could be declared "off-limits" for all such military personnel, whether on duty or off duty.

Basis for opposition stems from the belief that the military should not have responsibilities not connected with training for our national security. The attempt to mix the military into enforcement of social customs would be a dangerous departure from the whole concept of military preparedness, and could do serious harm to our defense efforts.

PEP RALLY—FRIDAY 13TH WAS NOT UNLUCKY

Opening with the band playing the National Anthem, the "Beat Eden" pep rally got under way with great "vigah."

The cheerleaders did a routine with orange and black pom poms to the record "Do Run Run".

Captains each week are chosen on the merit of the game before. For the Eden game, Lynn White, Dennis Gartman and Charles Askins were picked.

The five twirlers, Sandy Thomas, Linda Jacoby, Nancy Jacoby, Rhea Jean McCutchen, Mary Wojtek, and drum major Jo Alice Evans did their first twirling exhibition before the student body. Their new twirling uniforms will be ready by Friday.

Observations

(A Personal Word
By The Editor)

That wonderful quartet which sang at the funeral of Mrs. Ernest Lowrance is composed of Neelan Bahlman of Robert Lee and his three brothers. The two old songs they sang speak hope in sorrow — "How Beautiful Heaven Must Be" and "We'll Understand it Better By and By."

The two daughters who survive Mrs. Lowrance — Mrs. Archie Wheeler and Mrs. Freda Pickett, live in Amarillo.

Bruce Clift continues to show improvement, has been up and about in his room at his home here, and Mrs. Clift said early this week had dressed to go outside for the first time since his recent illness.

The Observer, Robert Lee, Texas

Sept. 19, 1963

NOTES FROM THE OIL FIELD—Continued from Page 1

was too much salt water there. Evidently a sand fracturing job is under way at a higher level, either at a new 6,400 foot pay or at the usual 5,000 Sanco pay, both of which are sands.

If this well is completed in the 5,000 foot sand, it is just another well. If it produces from a sand

below 6,000, it opens up a new field, which could bring about drilling a second well on each 80, also more wildcat exploration at some time in the future.

Mrs. Viola Boswell, one of the Scarborough heirs, for whom the Boswell lease is named, has been seriously ill for several weeks. She lives in San Angelo.
