

THE CASTRO COUNTY NEWS STAFF JOINS WITH ALL AMERICANS IN MOURNING THE DEATH OF PRESIDENT JOHN F. KENNEDY, THE VICTIM OF AN ASSASSIN'S BULLETS FRIDAY, NOVEMBER 22, IN DALLAS

about dimmitt and castro county

by b. m. n.

We had stopped our car at a service station in the north edge of Austin on the Burnett Road to refuel for the trip to downtown Austin and for the first leg of the journey back home. The time was about 3:15 p.m. when I stepped inside the station to purchase a cigar. A television on a rather high shelf in the corner of the station building attracted my attention as Walter Cronkite's picture was flashed on the screen and he announced, "President John F. Kennedy was killed by an assassin's bullets at 12:30 today on the streets of Dallas, Texas." Joe Cowen stepped into the station about the time Cronkite had completed his first sentence, and although dumbfounded, I pointed to the television and told Joe to listen. He turned pale and was momentarily speechless. After regaining some semblance of composure I returned to the service station driveway and broke the news to the other members of our party, George Bradford, Norman Cleavinger and Ray Bearden. Their expressions registered disbelief, incredulity, horror and all the other emotions occasioned by announcement of a heinous deed of such magnitude.

The five of us had gone to Austin to attend the dinner being sponsored by the State Democratic Executive Committee Friday evening. President Kennedy and Vice-President Johnson were to have been the speakers. We just stayed in Austin long enough to go by the hotel and cancel our reservations and to visit briefly with state committeewoman, Mrs. Wiley Bullock of Lazbuddie, and other members of her party from Farmer County.

As we drove to downtown Austin we noticed that flags were already flying at half-mast. People on the streets and in the hotel lobbies seemed to be in a daze while they stood quietly, either alone or in very small groups. It was easy to surmise, with modern instantaneous communication, by the surrounding sampling that the entire nation was stunned and all but speechless. In those first hours of misery and self-retribution about the only remark that I heard made more than one time was "I am not proud that I am a Texan today." Of course after some reflection it is natural for any Texan to rationalize that the heinous crime could have been committed in any one of the fifty states, however the stigma will remain on Texas, and Dallas in particular, for generations to come. The blood of one of the Nation's ablest Presidents and one of the world's finest young men was needlessly spilled on the streets of Dallas on the day of infamy, November 22, 1963.

Of little comfort is the fact that through modern electronics the people of America were apprised of the murder of their President, and all details in connection with the crime, within seconds after it happened. Although progress has been made in communications and other fields of science we have exemplified that in the humanities we are still enmeshed in the Dark Ages.

The evidence seems to be conclusive that Lee Harvey Oswald, a 24-year old resident of Fort Worth employed in Dallas, fired the shot or shots that snuffed out the life of our President. No doubt he will, as he should, get the direct blame for the crime. But before the rest of us entertain too many thoughts of self-righteousness we had better reflect back on

past twenty or so years when we have allowed a steady torrent of hate and hate doctrines to seep into our lives as it has been dispensed by all too many groups and individuals. Texas has had more than its share of hate mongers in persons of such caliber as General Edwin A. Walker, other John Birch Society members and fellow-travellers, newspaper columnists that are dedicated to the task of creating distrust in our government while planting the seeds of racial and religious strife in every feeble mind where there is a chance of growth. The hate doctrines preached by the Amarillo and Dallas newspapers have done their job, the results are absolute. The columns and columns of hate material along with the Chicago Tribune propaganda under the guise of news stories, along with cartoon caricatures depicting the President of the United States as anything but an intelligent individual.

THANKSGIVING--AN AMERICAN HERITAGE

Thanksgiving has been observed longer than any other holiday in the United States with the exception of Christmas. This day of feasting is traditionally an American day, although it has spread to other countries.

The Thanksgiving we observe this week in Castro County has its origin in the second winter spent at Plymouth Rock by the Pilgrims.

People of the United States have since set aside one day each year as Thanksgiving Day. On this day, people give thanks with feasting and prayer for the blessings they have received during the year. The harvest festivals, or days for thanking God for plentiful crops. For this reason, the holiday still takes place late in the fall, after the crops have been gathered.

For thousands of years people in many lands have held harvest festivals. The American Thanksgiving Day probably has its basis in European festivals.

In the United States, Thanksgiving is usually a family day. Celebrated with big dinners and joyous reunions. Many persons travel hundreds of miles to spend the day with their parents. Thanksgiving is also a time for serious religious thinking, church services and personal prayer.

The first American Thanksgiving Day was celebrated during the second winter the Plymouth colonists spent in the New World. The first terrible winter in Massachusetts had killed nearly half the members of the colony. But new hope grew up in the summer of 1921. The corn harvest brought rejoicing. Governor William Bradford decreed that December 13, 1621, be set aside as a day of feasting and prayer to show the gratitude of the colonists that they were still alive.

The women of the colony spent many days preparing for the feast. Foods were boiled and baked and roasted. The children were kept

busy turning roasts on spits, or rods, in front of open hearth fires.

More than eighty friendly Indians came to the feast. The Indians brought wild turkeys and venison, or deer meat, as their share. The tables were set outdoors, and all the people sat around them like one large family. Prayers, sermons, and songs of praise were a major part of the celebration. Three days were spent in feasting and prayer. Then the Indians returned to the forest and the colonists to their tasks.

The custom of Thanksgiving Day spread from Plymouth to other New England colonies. During the Revolutionary War, eight special days of thanks were observed for victories and for being saved from dangers. On November 26, 1789, President George Washington issued a general proclamation for a day of thanks. In the same year the Protestant Episcopal Church announced that the first Thursday

in November would be a regular yearly day for giving thanks, "unless another day be appointed by the civil authorities."

For many years there was no regular national Thanksgiving Day in the United States. Some states had a yearly Thanksgiving Day in the United States. Some states had a yearly Thanksgiving holiday and others had not. But by 1830 New York had an official state Thanksgiving Day and other northern states soon followed its example. Virginia was the first southern state to adopt the custom. The Virginia state government proclaimed a Thanksgiving Day in 1855.

Mrs. Sarah Josepha Hale, the editor of Godey's Lady's Book, worked for thirty years to promote the idea of a National Thanksgiving Day. She sent out pleas through the columns of her journal and wrote letters to the various Presidents. In 1863, President Lincoln issued a proclamation setting aside

the last Thursday of November in that year as a day of thanksgiving and praise to our beneficent father. He issued a similar proclamation in 1864.

Each year afterward, for seventy seven years, the President of the United States has proclaimed that Thanksgiving day should be celebrated on the last Thursday of November. The governors of all the states also called on their people to give thanks. In 1939 President Franklin D. Roosevelt proclaimed Thanksgiving Day to be celebrated one week earlier. His purpose was to help business by making the shopping period between Thanksgiving and Christmas longer. Some governors refused to follow his example and their states celebrated Thanksgiving on the traditional day. Congress finally ruled that after 1941 the fourth Thursday of November would be observed as Thanksgiving Day and would be a legal holiday.

Swifts To Meet Darrouzett In Regional Playoff

Nazareth Swifts will meet Darrouzett Longhorns at 2:30 p.m. Saturday in White Deer football stadium for the regional playoffs.

The Swifts earned the trip to regional after defeating the Wellman Wildcats 39-24 Friday in Littlefield. Darrouzett drew a bye in bi-district.

This will be the final game for the season. Teams playing 6-man 8-men and Class B go only to regional.

The fired-up Swifts will face plenty of competition when the meet the Longhorns. Darrouzett's main strength is in their line. Their line averages 8 lbs. per man heavier than the Swifts. The Longhorns have a center weighing 201 lbs. and a right guard weighing 203 lbs. Their line averages 175 lbs. per man and the Swifts' line average 167 lbs. per man.

The Longhorns outweigh the Swifts two lbs. per man in the backfield. Team backfield averages are Nazareth 158 lbs. per man and Darrouzett 160 lbs. per man.

The speed of both teams averages about the same according to Coach Jack Aldridge.

The Swifts are in top shape and have no injuries plaguing the team. Nazareth will probably be passing more this week. They completed two out of three passes in last week's ball game.

Darrouzett will probably be watching for Denis Gerber who scored 24 points for the Swifts against Wellman. Nazareth expects to take full advantage by breaking loose Quarterback Tommy Wethington and Quarterback Marvin Hoelting.

Darrouzett's offense uses a large amount of passing. So the Swifts will be fighting up their defense for pass interception.

This game will decide the Region I 8-man championship. This region includes all of the South Plains, panhandle and far West Texas.

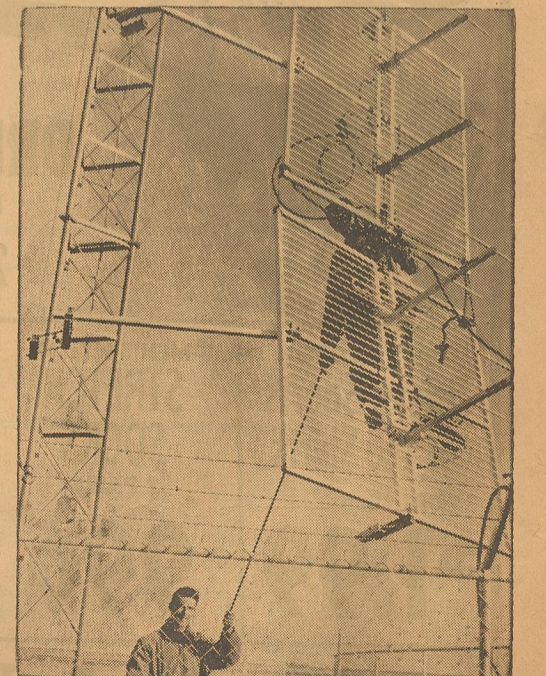

Nazareth's record is now 8-2-1. The Swifts have not lost an 8-man game since the first of the season.

The Swifts had a large following at Littlefield and the team hopes to have more at White Deer.

A community pep rally will be held at the school, Friday at 6 p.m.

RECENT SURGERY

Mrs. Bob Mooney returned home Wednesday after major surgery in Hereford Hospital.

MOUNTING OF ANTENNAS on the Community TV tower completed Thursday and Friday. The tower is supporting 18 special antennas that pick up the signal from six TV stations and the FM stations. The tower will receive three Lubbock Channels including 11, 13 and educational Channel 5 and the three Amarillo Channels, 4, 7 and 10.

Plains Irrigation Gas Users Board Rejects Pioneer Gas Proposal

A regular meeting of the Board of Directors of the Plains Irrigation Gas Users Association, consisting of one Director from each of the 14 counties in the Association, held at Wayne's Restaurant in Plainview on November 14, 1963, to consider the proposals made by Pioneer in a letter to the gas users were unanimously rejected by the Board. Mr. Bruce Parr, President of the Board,

was instructed by the Board to appoint a committee to draft a letter of reply to Pioneer. Attending from Castro County were Ray Joe Riley, Sunnyside and Ed Bennett, Hart.

By letter to the gas users dated August 22, 1963, Pioneer suggested that the users agree (1) that 7.45 per cent rate of return was a reasonable rate of return on irriga-

tion gas and (2) that the method of allocation used in Docket No. 300 before the Railroad Commission be the basis of any check and study of rates.

The letter from Pioneer was written in response to a request from the gas users that Dr. E. A. Steinberger, the rate consultant hired by the Plains farmers, be permitted to check the workpapers of the rate accounts hired by the gas company by which they arrived at the 7.45 per cent rate of return.

Pioneer made the findings and the methods of allocation in Docket No. 300 a condition before permitting further discussion as to whether or not Dr. Steinberger might review the records for the Plains farmers. Docket No. 300 was an application by Pioneer to the Railroad Commission of Texas to fix a gate rate to the majority of the cities served by Pioneer.

In reply to the letter of Pioneer, the gas users stated in part: "There are several inaccuracies in your letter regarding our meeting with you of June 19th. We were not told that the figures employed in Docket No. 300 before the Railroad Commission. We were not asked to agree to the findings made in Docket No. 300, and certainly would not have agreed since Pioneer made every attempt to exclude farmers from the hearing and since no farmer was a party to that hearing. Pioneer's position was that it had no bearing whatsoever on irrigation gas. The transcript of that hearing bears this out.

In our June 19th meeting you did not limit the material to be furnished to us to that material resulting from the study made in Docket No. 300, and, as a matter of fact, Docket No. 300 was not discussed; but on the contrary, you said that you would have Mr. LaGrone make a study to determine the rate of return on irrigation gas. You said at the time that when Mr. LaGrone completed his figures, they would withstand the inspection of any authority, Courts or otherwise, leading us to believe that you could have no possible objection to a review by Dr. Steinberger. In fact, we told you at the time, that before the figures could mean anything to us, Dr. Steinberger would have to make such review as he felt necessary to substantiate the figures furnished to us.

Our Board has unanimously agreed and the Board members tell me that in every meeting that has been held in our various counties, there has been complete agreement that we should reject the proposal contained in your letter. In the first place, we could not agree that a 7.45 rate of return is fair for irrigation gas when the Railroad Commission has never allowed to

any utility a greater return than 6 1/2 per cent and our members fail to comprehend why your company should feel that farmers should be discriminated against in this manner, or why you would ask them to agree to a higher rate than would be permitted by any regulatory body. If the figure of 7.45 rate of return can be substantiated and supported by accurate figures taken from your records, then our membership completely fails to understand your hesitancy to permit Dr. Steinberger to review your records.

Although we do not feel that farmers should be discriminated against by paying a 7.45 per cent rate of return, our members feel that the actual rate of return on irrigation gas is substantially higher than that otherwise, there would be no hesitancy on your part to permit a review of your records.

It would be particularly useless for us to agree to the conditions in your letter since you made no commitment to let Dr. Steinberger examine your records, even if we would agree to your conditions. You simply stated that if we would agree to these points, you would arrange for a meeting between Dr. Steinberger and Mr. LaGrone. There is no commitment in your letter to permit Dr. Steinberger to examine your records even if we agreed to your conditions.

We deeply regret that you cannot see fit to permit Dr. Steinberger to review your calculations and records. In view of the facts hereinabove set forth, our Board has concluded that we cannot agree to the conditions contained in your letter.

Yours truly,
Bruce Parr, President
Plains Irrigation Gas Users Association."

ANSWERS TO SOME QUESTIONS ABOUT PLOW DOWN

WHY NOT WAIT UNTIL MY CROPS NEED NITROGEN BEFORE PUTTING IT INTO THE GROUND?

Nitrogen, in the form of anhydrous ammonia, does a more efficient job of boosting yield when applied early. An early plow down application enables the nitrogen to do the extra job of helping decompose your turned under stubble. This stubble decomposition makes more plant foods available to next year's crop, while putting your soil in better condition to absorb and hold moisture. These extra plant foods and moisture can mean an increase of 10% or more in yield. That can be a big increase in profit! And by plowing down now, the uncertain spring weather can't interfere with your fertilizer program.

IF I PLOW ANHYDROUS AMMONIA DOWN NOW, ISN'T IT LOST DURING THE WINTER MONTHS?

Anhydrous ammonia is the only form of nitrogen that does not leach. When released, the nitrogen attaches itself to the clay particles and organic materials... actually becomes part of the soil.

Even though the soil bacteria that do the work in stubble decomposition need nitrogen; their use of the nitrogen does not reduce its effectiveness. All the nitrogen you plow down in the form of anhydrous ammonia to speed stubble decay is still available to crops in the spring.

WOULDN'T IT BE JUST AS PROFITABLE TO PLOW DOWN ANOTHER FORM OF NITROGEN FERTILIZER?

First of all, anhydrous ammonia costs less per pound of usable nitrogen. And it does not leach! Other forms of nitrogen fertilizer do not attach themselves to stable parts of the soil. Therefore, they are subject to becoming soluble, which means they can follow water movement, up or down, out of the root zone... leaching.

Because early application of anhydrous ammonia can increase yield and nitrogen in this form is not lost during the winter, it makes sense to plow it down now.

EARLY APPLICATION ALSO MEANS THAT YOU WON'T HAVE THE EXTRA PROBLEM OF FERTILIZER APPLICATION LATER ON WHEN YOU ARE SO BUSY WITH OTHER IMPORTANT OPERATIONS.

You can get quick delivery on Nitromite, Shamrock's fine brand of anhydrous ammonia, from your local dealer.

CALL HIM TODAY. IT CAN MEAN A BIG PROFIT INCREASE FOR YOU NEXT YEAR!

Grain Sorghum Chat

by Wes Anthony
I have just attended a meeting of National directors and officers of the G.S.P.A. There were several speakers from Texas Tech, Texas A & M and Halfway to tell the progress being made in research for control of midge, how to raise more raise more mize on less acres at less cost.
The average farmer cannot conceive of what is being done until he hears some of these men talk. Other men are working on the

legislative and trying to keep us informed on legislation being carried on in Washington. The President of the U. S. has an agricultural advisory board consisting of twenty eight men. Of this number, five of them are from this territory (from Kansas south).
Our executive vice-president and secretary's office is in direct contact with foreign buyers almost constantly.
There area number of men on those boards that do not draw a salary and no expense money.
It makes you feel very small and inappreciative to see these

Hale - McAdams Exchange Vows

Mrs. Alice Buckmaster Hale, formerly of Dimmitt, announces the engagement and approaching marriage of her daughter, Miss Emma Carol Hale to Robert Kenneth McAdams, son of Mr. and Mrs. R. W. McAdams of Hamilton.

The bride-elect is the daughter of Mrs. Hale and the late Arthur F. Hale.

The candlelit wedding ceremony will be performed November 28 at 8 p.m. in the home of Mr. and Mrs. William H. Rutherford, close friends of the bride-elect's family, in Hamilton.

Miss Hale attended Pottsville High School and McAdams attended Fairy High School, both of which are in Hamilton County. The bride-elect attended Howard Payne College in Brownwood.

Fellows give of their time and money so freely and we as individuals sit very complacently by, letting the other fellow do it for us. Then we complain.

We need these fellows to keep on showing us how to raise more on less acres at less expense but we also need to have a market for the goods after we have produced it at a fair price.

Fellows, Let's wake up. If you tink your G.S.P.A. is good for you and I, then lets support it. If not lets discard it and continue to pile up these surpluses. After all, grain sorghum is our bread and butter. And it does take money.

Again fellows, let me appeal to you, let's have a part in forming our policy on grain sorghum. Lets not have someone else do it for us. Your Association needs your support now.
Is one tenth of one per cent too much? Is two pounds per 5000 lbs. lost too much? Think it over.

Mogford Writes Letter To World War I Veterans

Dear Veterans of World War One,
A little over 45 years ago the Armistic was signed to end World War I which we fought to end all wars. You were young and happy, willing to give anything you had just to get back home.

You were the heroes that stopped the mightiest army ever assembled, not thru long training, superior weapons, larger troop numbers, nor victorious allies but by your sheer courage and endurance. You came home to find your job gone, no money and a Depression coming on. However, you bought bonds for two, three wars, lived through two depressions, set up a standard of retirement for later service men that put them on equal living and educational benefits with non-service men and many other things of value to make a more prosperous nation.

Your average age is now nearing 70 years, retirement is being forced upon you, with job restrictions approved by our government in force. However, approximately 80 percent of our numbers remaining have incomes below present living standards.

Buddies let's reorganize for our own good and respect. We can stop our Congress men from allowing the Syndicate Papers from referring to us as "Boozy Old Bums" While the Government is giving away billions of tax dollars each year, many of the nation's defenders need hospitalization and medical care which the government budgeteers say it is unable to permit.

Foster Wheeler Corp. constructors of Western Ammonia Plant here joined the Nation Monday in paying final tribute to the loved President John Fitzgerald Kennedy.

Russel O. Adams, resident manager of Foster Wheeler Corp. suggested that all craftsmen on the job take all the time necessary after the Monday noon lunch period to observe this most sad occasion.
"Mr. 'Hap' Hardin of Plainview gave a short sympathetic and heartfelt talk followed by a prayer that many of the workers will never forget as they stood, each man with his hat in his hand and his head bowed," stated Adams.

Teachers Essay Contest Added To Heritage Program

An essay contest for teachers has been added to activities of the Plains American Heritage Program according to Charles F. Ogilvie, director of the program coordinated for public schools in 11 cities by Wayland Baptist College.

Initial plans were presented at the November meeting attended by five Dimmitt teachers: Mrs. Patricia DiCuffa, S. T. Newman, Mrs. Avis Smith, Mrs. Louise Hilburn and Paul Hilburn.

Vying for an expense paid trip to a professional meeting, teachers of any grade may enter the contest which differs from the annual essay contest for high school students in requirements for both subject and length. As their subject teachers will have "A Definition of the American Heritage." The writing effort should be approximately 10 pages in length when typed with double spacing. Entries should be sent to Ogilvie, history instructor at Wayland, by Jan. 15.

Writer of the first place essay will be given a trip to the Mississippi Valley Historical Association meeting in Cleveland, Ohio, in late April. Although complete details have yet to be worked out, it is likely that the teacher will be flown to the meeting and will have meals and hotel expenses paid, Ogilvie relates. In addition, the winning essay will be read as the program for the annual Plains American Heritage Awards Banquet when student winners of essay, poster and project contests are guests. Two runners-up to the first place teacher will each receive a year's

Nazareth Takes Bi-District Title

Nazareth Swifts brought home the bi-district championship Friday after one of the longest winning streaks in Texas came to an abrupt halt at Littlefield when the Wellman Wildcats fell to the mighty Swifts, 38-24, in an 8-man contest.

Wellman went into the contest having not lost in its last 31 games, although the Wildcats had been tied twice during this span.

The Swifts' Denis Gerber sparked the team as he scored three touchdowns and ran over as many extra points attempts, to score 24 points.

A good defensive team gave the Swifts the needed edge to win the bi-district game. They intercepted two passes, which were turned into touchdowns, and recovered a fumble to keep them in business. And the Swifts had help in the penalty department, too.

Wellman received a few breaks in the hard-fought battle also. As Quarterback Mike Falls blocked a punt and put the Wildcats on the Nazareth 12-yard line. On the first play, Clois Morton plunged over for the score and he added the points to make it 8-0.

On the next drive, Denis Gerber scored on a 17-yard run to make it 6-8. Twice Wellman stopped Nazareth extra points attempts but was offside on both occasions. On the third attempt, Gerber ran over to make the score, 8-8.

Nazareth scored the next time they had the ball after stopping a Wellman drive on their 37-yard line. After moving to the 14, consecutive offside penalties put the ball on the 4-yard line and two plays later, Tommy Wethington went in for the score. Extra point attempt failed.

Wellman went back ahead on the second play of the second quarter, when David Franklin went over from the 5-yard line on fourth down. Morton ran the points to make 16-14.

A costly fumble and a recovery by Gerald Brockman stopped another Wellman drive but the Swifts were unable to generate enough power and were stopped on the Wellman 25-yard line. Three plays later, Marvin Hoelting intercepted a pass and ran 27 yards and Gerber added extras to make it 22-16 with minute to go in the half.

Wellman took the third quarter kickoff and drove for a touchdown as Morton passed to Falls for five yards. Falls ran the extra points putting Wellman in lead, 24-22.

No to be outdone, Nazareth took the lead again when the sparkling Gerber went over from the 1-yard line after a pass interference was called on Wellman on the 1-yard line.

Marvin Hoelting passed to Jimmy Hoelting for the extra points making it 30-24.

The plays later, Gerber intercepted a pass and ran it to the Wellman 2-yard line and then ran it over on the next play. He ran the extra point to close and scoring.

Nazareth later was stopped on the Wellman 16, and had the ball on the 3-yard marker when the ball game ended.

Gerber was the top rusher and in good form with 132 yards on 24 carries while Morton had 69 on 14 carries for Wellman.

"If a teacher can honestly tell a student that he ought to enter the high school contest, then the teacher has as much an obligation to be a thinker and a writer as the student," believes the program director. "In facing problems concerning America's heritage, it should help to decide what one believes and put into writing."

Entries should be presented in such a way that the writer's name can be removed before the essays for judging and other information will soon be sent directly to the teachers by Ogilvie.

President John F. Kennedy

On May 29, 1917, John F. Kennedy was born in Brookline, Massachusetts. He was the second of nine children of former Ambassador to Great Britain Joseph P. Kennedy and his wife, Rose.

In 1940 Kennedy graduated from Harvard cum laude with a bachelor's degree. In 1941-45 he served in the U. S. Navy. Rose to rank of lieutenant in command of a PT boat. In 1943 he was badly injured when his boat was sunk.

In 1947-1953 he served as a U.S. congressman from Massachusetts. In 1953 Kennedy married Jacqueline Bouvier in Newport, Rhode Island.

In 1954-55 Kennedy spent six months in the hospital undergoing and convalescing from major surgery on a back injury aggravated by the sinking of his PT boat.

In 1956 he narrowly missed winning the Democratic vice presidential nomination, losing in a close contest to the late Senator, Estes Kefauver, Democrat from Tennessee.

In 1957 Kennedy became the father of his first child, Caroline. In 1958 he won reelection to the Senate by an overwhelming vote.

On July 14, 1960 he won the Democratic presidential nomination on the first ballot. And in November of 1960 he defeated Vice President Richard M. Nixon for the presidency in a close-fought battle that gave him a final edge of scarcely 100,000 ballots.

In 1960 Kennedy became the father of a son, John Jr. And in April of 1961 he took full responsibility for the ill-fated Cuban invasion staged by dissident exile groups.

In October 1962, he forced Russia to withdraw missiles they had secreted in Cuba.

On November 22, 1963, John F. Kennedy was assassinated in Dallas, Texas where he was going to make a speech. He was shot at 12:31 p.m. and died at 1:00 p.m.

John F. Kennedy was a good president and did a lot for his country. His motto was, Not what the country can do for you but, what you can do for your country.

Senior Of The Week

A member of the graduating class of 1964 who was selected for the spotlight this week is Eugene Oldham, son of Mr. and Mrs. O. A. Oldham.

Seventeen years ago on March 5, 1946, Eugene entered the world a sprightly and lively lad, and has now become one of Dimmitt's most valuable football players and citizens.

Since he lives on a farm, it is no wonder that he enjoys being a member of the Dimmitt Chapter of F. F. A., and plans to later become a rancher after attending South Plains College. But that is far in the future and we must now center our thoughts on what he is doing at the present time. Besides having interests in the activities already mentioned, he is a member of the "D" Club, and enjoys spending his free time as he so simply states "goofing around with Lynn and Ronald."

With such an industrious life one can be sure that he works up a hearty appetite, and nothing quite settles those hunger pains as well as steak and coconut pie.

In listing his favorites, John Wayne seems to head the list as the best actor, with Doris Day running close competition as the best actress, the one movie that seems to stand highest in his opinion is "North To Alaska". Whenever he is feeling sad, there is no finer way to chase away his blues than listening to his favorite song, "Boys Night Out".

If anyone would like to know how to win attention; just wear something blue, and I am sure you will get his undivided attention for this is the color that seems to magnetize him.

Just think what a bright and happy world this would be if everyone was as easy going and fun loving as Eugene. He has such a wonderful personality and never seems to get angry, that it is of no surprise that Eugene is liked by everyone. When he smiles you know he means it, for there is nothing fake in his character. With traits such as these we have no fear in predicting that whatever Eugene does in the future will be the best, for he is the best.

Our Campus

The Band wishes to thank all who came and participated in any way to make the Thanksgiving Supper the success it was.

NOTICE The trophy cases have been filled with our athletic trophies won throughout the past years.

The Homemaking Case is displaying our foreign exchange student's Michele, first sewing project. We are very proud of you, Michele.

This little poem shows the forgetfulness of a typical teen-ager: "A mind? Yes, he has one of those. It comes, however, and it goes. And if, when it is called upon, it mostly happens to be gone, Don't fret, don't shout, Don't curse the lack. Just wait a while— It will be back."

Everyone is wished a happy Thanksgiving Day, and is encouraged to be ever thankful of all their blessings.

November 22, will live in the minds of all Americans, as well as the rest of the world, as the day of the death of John Fitzgerald Kennedy, President of the United States.

GOOD LUCK!! Is wished to all the Band members as they proceed to Lubbock to participate in the Marching Contest. Let's make that I, O.K.??

Fruit cakes are on sale by any member of the Band. If you wish to help the Band and want a fruit cake, please contact any Band member.

President Kennedy Assassinated In Dallas, Texas

John Fitzgerald Kennedy, President of the United States, is now dead. He was assassinated on November 22, 1963, in downtown Dallas, Texas, as he was riding through the city in a limousine. He was shot through the head from the fifth or sixth story of an office route. Governor John Connally of Texas was also seriously injured. The tragedy occurred as the President was making a tour of the State of Texas. Ironically, one of the reasons he was making the trip was to strengthen the Democratic Party in the state, and to improve his chances of winning the Texas Democratic nomination in the 1964 elections.

The President remained alive for about an hour after the shooting, and he died at approximately 1:00 p.m., Central Standard Time. The shock from his death spread all around the world.

The new President of the United States is Lyndon B. Johnson, the former Vice President, who succeeded the President by the laws of the Constitution. He was sworn in about an hour after the President's death.

After the President died, his body was placed in a bronze casket and was flown to Washington on the President's official aircraft. Also on the plane were Mrs. Jacqueline Kennedy and the new President, Lyndon B. Johnson.

We have witnessed a great moment of history, as one of the greatest champions for freedom has died.

Thanksgiving

Our Harvest being gotten in," Edward Winslow of the Plymouth Colony wrote in December, 1621, to a friend in England, "our governor sent four men out fowling, that so we might after a special manner, rejoice together after we had gathered the fruit of our labors." So into the new country came world old practice of putting the harvest to a festive use; and thus began our great autumn holiday of feasting and of thankfulness.

"And although it is not always so plentiful as it was at this time with us," concluded Winslow, "yet by the goodness of God, we are so far from want, that we wish you partakers of our plenty." Which sums up the spirit of Thanksgiving, then, now, and always.

Harvests were gathered every year, and thanks were given, but Thanksgiving Day did not become nationally celebrated until 242 years later, during the presidency of Abraham Lincoln.

As far back as history reaches, "harvest home" has called for merrymaking and for honoring the gods who foster crops. In Rome the goddess was Ceres and her day, October 4, was the "Cerealia" which shows us where our word, cereal, originated. In ancient Greece the goddess was Demeter, responsible for the soil and all that grew there in Athens was wonderfully gay on those three days in November when Demeter was presented with a cow and a sow, as well as honey, poppies, corn, and fruit. The Canaanites, in the Book of Judges in the Bible, "went out in the field, and gathered their vineyards, and trod the grapes and held festival, and went into the house of their God, and did eat and drink."

Fortunately we have no three-day Indian guests nowadays, but only families and friends who fill a table reasonably sized and feel well satisfied with just one meal. For what a meal it is!

The pilgrims of 1621 certainly placed their mark on American History. Today men are also placing their mark in history and helping to form a Great Country. A great President has just been assassinated, and we should thank God for his great leadership and courage. Let us never forget that it has been men like President Kennedy and our first forefathers who have made this country a great one in which to live.

Let us be forever grateful for our bountiful blessings and give thanks unto Him who has made Heaven and Earth.

Dimmitt Meets Sudan In Season Opener

The Dimmitt Bobcats met the Sudan Hornets Tuesday night to strike up a win for the opening game of the season. The Cats jumped to a 6-5 lead in the first period and then in the second period they added 13 points to Sudan's 10 points. At the end of the third period the Cats led 31-25. The Cats then added 11 more points in the final period to Sudan's 9 to win the ball game 42-34.

Landon Frazier led the Cats netting 15 points with Jacky Nichols chalking up 10 points for the Cats. Dimmitt's Bobbies, the fens, did not open the season with quite as big a bang but the Sudan fens knew they had competition. Starting for the Dimmitt Bobbies were: Forwards: Danell Crowley, Jane Cleavinger, and Linda Schreck. Substitute guards that played a majority of the game were Frances Glidewell, Danna Odom, and Ginger Kemp.

Outstanding forward for the Bobbies was LaDawn Kemp who racked up 20 points with Sharon Lilley trailing closely behind with 14 points and Linda McColum chalking up 11. All these points just did not seem to be enough as Sudan won the game 54-47.

Coach Culepper's comment on the game was: "I was real pleased with the girls but we made a lot of mistakes and we are going to work hard to correct them. We will be playing Sudan Tuesday, November 26, here in Dimmitt and we plan to be ready for them."

The Snooper

Something funny always seems to happen in Miss Littlepage's history class. Wednesday was test day and everyone was cramming at the last minute while Miss Littlepage was calling the roll. When she called Glenda Smiley, Glenda promptly answered, "Hello!"

Has anyone noticed a red-headed boy wandering around in our halls with a black eye. That is Clint Summers. He seemed to have run into someone while playing basketball the other night, at least that was the excuse that he used.

Mr. Fuquay appeared to be upset the other day. He thinks that there are too many girls that can't make it to class without the help of boys. Couples, you had better stay further apart if you want to keep walking together because I have heard, from a secret source, that someone is going to have the parents come to school to walk behind them to class.

You should have seen what I saw Thursday morning. Did every one remember how humid it was? The band, no less, went ahead and marched in this weather. When the band students came back into the band hall you would have thought that we had all new girl students in D.H.S. I have never seen so much stringy and sticky hair in all my life. Spray net plus moisture in the air equals gum. Yes, and all the girls had gummy wet hair. They

couldn't even comb it because it was so wet. Yes, D.H.S. did have some different looking girls Thursday. Carlanne can best tell you the effects.

Robbing the cradle! That's what I hear, yet it could be that the younger boys are going for the older girls. Whatever the reason may be, I saw three Sophomore boys with senior girls rings on this last week. Suzie, Nancy, and Sharon, if you want your rings back, you might check with Tony, Brice, and Bruce.

A new romance has arisen, Oh boy, isn't this fun? Ricki and Jim Axe refused to walk with the other Civics students last week, but insisted that they walk together away from the group. Janis and Harold had better check into this.

Some boys always have to be up to some kind of mischief all the time. Eugene Oldham, Lynn Campbell, Ronald Young, Jim Aldridge, and Joe Wright are now starting to be beautians. They fixed, and I really mean Fixed, Janis Davis' hair during the lunch hour this week and then gave her a hat and placed it on her head. I think they called the hat, "The Trash Can Look".

Lynn Campbell has carelessly misplaced his notebook, with the help of some of his dearest friends. If any one at all wants to be of some help (to his friends), don't tell him where it is.

Tune in, same place, same paper, same section, next week for more news and stunts from the students of D.H.S.

McAdoo Eagles Law Bobcats

Dimmitt Bobcats met possibly one of the best teams in the area Thursday night and were defeated by the McAdoo Eagles by a score of 76-44.

Bobcats were never in the game as McAdoo jumped off to a big lead in the first quarter and kept the pressure on the rest of the three periods. McAdoo had four returning starters back from a team which won the state championship last year. This was the second game of the season for the Bobcats and it was the tenth game for McAdoo.

At the present time, 312 boys are being cared for, trained and educated at the Ranch. The 52 dairy cows milked by the Ranchers provide over 100 gallons of milk daily for them. The boys also fatten the heves that are donated to the Ranch, averaging about 20 at a time in the pens.

Moldable Cotton Fabrics

Moldable cotton fabrics are the latest development in cotton utilization research by the U. S. Department of Agriculture.

The researchers see uses for these molded materials in the manufacture of upholstered furniture, hats, shoes, and many other consumer products. The fabrics, that can be molded into three-dimensional shapes, have been worked out as the result of a continuing effort to find new uses for agricultural products.

The idea for these molded cottons came from the research to develop stretch cottons, according to the USDA. Through a process called slack mercerization, the cottons were made to stretch more than 50 percent. Since these stretched materials fitted contours well, the scientists decided that if the fabric were chemically treated and molded it would hold its shape permanently.

dual and the emblem of a man known as Uncle Sam as a decrepid derelict instead of the stately old gentleman, that in former years was the pride of every school child as well as adult citizens, has born fruit even beyond the fondest dreams of the most depraved of the lot.

A small segment of the citizenship of Texas, as well as the nation, has been sick and in their sickness they have made every effort to inflict their malady on as many of their neighbors as possible. Maybe the disease has run its course. It is to be hoped that the seeds of hate and fear are hybrids that will fail to reproduce so that confidence, understanding and the spirit of good will among men will create a national climate befitting our American heritage.
