### Scouts To Leave Sunday for Camp

An exodus of Boy Scouts will begin at 1 p.m. Sunday when at least 35 scouts from Robert Lee and Silver will leave for Camp Sol Mayer near Menard. Robert Lee's troop will send 23, and possibly 25, Boy Scouts and three Explorers, and Silver's troop will have nine boys making the trip. The delegation will leave from the scout hut here.

Camp Sol Mayer is maintained by the Concho Valley Council for use of scouts in this area of West Texas. Part of the money raised each year in the Boy Scout fund drive is used to maintain the camp. Boys who spend a week at the camp are given an opportunity to live close to nature and put into practice many things they have learned in their scouting experience.

The camp is located on the San Saba River and provides an excellent place for swimming, lifesaving, canoeing and other water sports.

Accompanying the boys as adult leaders will be Gene Hinnard, Robert Lee Scoutmaster; Jim Herford, Silver Scoutmaster, and Fred Beaty.

Thursday night, June 16, has been designated as Family Night during the week of camping. Parents and other interested persons are invited to go to Camp Sol Mayer and see the scouts exhibit some of the things they have learned. Those who wish to attend are requested to meet at Froggy's Cafe at 5 p.m. Monday, June 13, to make plans for the trip Thursday night.

Mr. and Mrs. Calvin Wallace returned home last week from a ten day visit with his brother and family, Mr. and Mrs. Gilbert Wallace at Pecos.

to scouts for service and spiritual achievement. Scout leaders urge boys to participate in this service to their church. The work is done under direction of the pastor and other church leaders.

Young Key has given much time to the project for the past several months. The work was done in five principal areas: Christian faith, Christian witness, Christian world outreach, Christian citizenship and Christian fellowship. He has sought to be faithful in Church attendance, study of Scriptures and missions, being a good material steward, showing a concern for others and serving his church, his God and his fellow man.

The work consisted not only of study but of practical service projects outside of the church walls.

### Last Rites Held For Mrs. Calder

Funeral services were held Tuesday at 2:30 p.m. in First Baptist Church of Mullin for Mrs. Susie Calder of Bronte. She was 81 years old. Burial was in Mullin Cemetery under direction of Williams Funeral Home.

Mrs. Calder died at 10:15 p.m. Sunday in West Coke Hospital at Robert Lee.

She was born Jan. 15, 1885, in Erath County, and came to Coke County from Loraine in 1927.

Among the survivors are two sons, Lewis Calder of Bronte and C. E. Calder of Robert Lee; 18 grandchildren and nine great grandchildren.

Mr. and Mrs. Fagan Parker, Carolyn and Gary returned last week from a 3600 mile trip through the Yellowstone National Park. They visited Mr. and Mrs. Howard Varnadore and children and Mr. and Mrs. Ernest Varnadore at Del Norte, Colorado, and spent several days visiting Mr. Parker's brother and sister-in-law, Mr. and Mrs. John Parker at Pocatello, Idaho.

### Many New Homes Built In Robt. Lee

A large number of new homes have been built or moved into Robert Lee during the past ten months. Most of the newcomers have moved here from Silver, following Sun Oil Co.'s announcement last August that its camps at Silver would be closed this summer.

Among those who have moved houses from Silver are Jim Herford, Perry Post, H. W. Keener, Henry Baker, Jack R. Denman, C. F. Patterson, G. E. Conner, N. K. Cheatham, W. W. Koonce, A. H. Jones, J. D. Mumford, F. L. Haley, Mildred Baker Sparks, John C. Morris, Orval Lee White, Gerald R. Brasuel, Wayne S. Reed and Earl Lindsey.

Other Silver residents who have moved here and are renting are Leon Sockwell, Edwin Wright and Freddie White.

Area residents who have built new homes and moved into town are Will Percifull and Wilson Bryan. Bob Fields, A. V. Hughes and Ralph Garvin also have built new homes.

A. R. Palmer has moved here from Brady and bought the Donald Walker home. A. E. McCoy has purchased two lots, moved his mobile home on them and added a carport.

### INFANT SON OF CALDERS DIED JUNE 3 IN ITALY

Word has been received from Naples, Italy, that the infant son of Mr. and Mrs. Wayne Calder died there June 3. He was two days old. The baby was born June 1 and had been named Thomas Wayne Calder.

Survivors include the parents; a sister, Tami Lynn; grandparents, Mr. and Mrs. Fred Smith and Mr. and Mrs. Clifton Calder, all of Robert Lee, and Mr. and Mrs. Lowell Snyder of Eastland.

Mr. and Mrs. Billy Wayne Roe returned last Friday from Dallas where he attended a three-day training school at the Ford Market Institute. The couple stayed at the Marriot Motor Hotel and visited with relatives as well as taking several sight-seeing tours. They reported the "House of Wax" there is most interesting.

Five candidates signed up before the June 3 deadline to run for city alderman, if Robert Lee voters approve a change in their city government.

The city commission met Tuesday night and called an election for July 9 to vote on the change and to elect three aldermen or councilmen. Only one election will be held, with voters casting their ballots for or against the change and at the same time voting on the candidates.

Names which will be listed on the ballots are Melvie J. Thomason, O. H. Campbell, Gene Hinnard,

### Lions Broom Sale Set For Thursday

Robert Lee-Silver Lions Club members will have their annual Broom Sale today (Thursday), June 9. The big van full of all kinds of brooms, mops and other merchandise made by Texas blind workmen will be parked at Vaughan Davis' West Way Grocery in north Robert Lee.

John D. Mumford and Richard Day are in charge of the sale.

In addition to selling merchandise at the van, the Lions will make a house to house canvass of the town. A percentage of the money derived from the sale will be used for local Lions Club projects, while the remainder of the money goes for the purchase of material and wages for the blind persons who make the merchandise. The money raised in sales such as the one in Robert Lee is the only income for many of the blind persons who work in Blind Shops and Lighthouses in Texas.

A spokesman for the Lions Club urged everyone in the Robert Lee area to patronize the sale, "as it will not only help your local Lions Club, but many blind people, as well."

Only high quality merchandise is sold and includes all sizes and weights of brooms and mops, rubber door mats, ironing board covers and pads, and many other items. A complete list is being published in an ad in this week's Observer. It is arranged so customers can check off the items they wish to purchase when they visit the van or when Lions call at their homes.

A. B. Sheppard and Delbert Shoemaker.

Considerable discussion has been underway in Robert Lee for several months on changing the city government from commission to aldermen type. The commission type is made up of a mayor and two commissioners, while the alderman type city government is made up of a mayor and five aldermen, or councilmen.

Proponents of the change have pointed out that with more on the council, the anticipated rise in city problems and work could be better handled.

On the other hand, those who favor the present commission form say that agreement and harmony are easier to attain with the smaller group governing the city.

Voters of the city will have an opportunity July 9 to decide which type government they prefer. The election will be held in the city hall.

### Hayrick Lodge Building To Get Historical Marker

The historic Hayrick Lodge (Masonic) Building in Robert Lee has been named a Recorded Texas Historical Landmark, significant to the history of this community and state and worthy of preservation. This announcement was made June 1 by John Ben Sheppard of Odessa, president of the Texas State Historical Survey Committee.

Having completed the requirements for this high official designation, the Texas Historical Building Medallion with interpretive plate will be affixed to the structure. A beautiful certificate signed by Governor John Connally, Sheppard and County Chairman Mrs. Bryan Yarbrough will be presented at the dedication of this marker. The dedication date will be announced later according to Mrs. Yarbrough.

The aluminum markers with Swedish steel effect are not only durable but beautiful and require practically no maintenance. More than 2,500 historical markers and Medallions with plates have been awarded throughout Texas and daily more history is found which warrants such recognition, Sheppard stated.

The program of marking historical structures as worthy of preservation is part of a five-year plan to record, appreciate, mark, preserve and survey the history of Texas and is designated as the "RAMPS" program by the Texas State Historical Survey Committee.

This marker and its location will appear in the next edition of the Guide to Official Texas Historical markers, in tourists guides, and on maps, to stimulate tourist interest in the area, provide highpoint on historical tours, and focus attention of the citizens of the county with their unique historical past, Mrs. Yarbrough said.

The official inscription will read: Hayrick Lodge 696, A.F. & A.M. Organized 1890 at Hayrick, first county seat of Coke County. Moved to Robert Lee 1891. This hall was built in 1906 by a contractor, S. C. Wilkins, of concrete blocks mixed and cast by hand. First story has housed many businesses, U. S. offices."

### Sun Offices Merged At C-City

Sun Oil Company has completed consolidation of two area offices into a single operation with headquarters in Colorado City.

The new setup took effect Wednesday making the combined office operation the largest single area office in the Southwest Division of the company as to wells, production and personnel.

The company expanded its building at 1325 West Point to accommodate the increased number of personnel to an additional 14 office areas.

Two areas affected by the reorganization were those at Colorado City and Robert Lee. The new area also included the Sun's gas plant and office at Silver. The Colorado City area formerly was in charge of production from north of Interstate 20 to the Oklahoma-Texas border with Robert Lee area (office at

Silver) operating south of Interstate 20 through Concho County.

All drilling and producing of wells in the original two areas will now be done from the new headquarters office in Colorado City under the direction of Bennie Franks, area superintendent.

The area has a total of 888 wells with a monthly production of 400,000 barrels of oil. The gas plant at Silver produces 60 million cubic feet per day, reported Mr. Franks.

An estimated 30 employees will occupy the C-City office and will include 150 workers under its direction.

Franks explained the reorganization move by the company as a normal movement of an oil company to try to gain a more efficient operation with an evenly distributed work load. He noted that Sun currently is drilling three wells, one

each in Howard, Kent and Hardeman Counties.

Franks assumed his duties in Colorado City May 23 after serving as chief of development and production activities in Florida. He formerly was assigned to Colorado City from 1956 to 1961. While in Florida, Franks was instrumental in the development of Sun Oil's Sunoco-Felda Field that was discovered in Hendry County, Fla., in 1964. That field is only the second in the state of Florida and Sun Oil's first field there.

Other key men in Sun's operations in the Colorado City office will be Johnny Shimer, assistant district superintendent; Woodrow Koonce, assistant superintendent for the Silver gas plant; and J. C. Brown, assistant area superintendent.

**FORMER COKE MAN DIED**

Funeral services were held Tuesday in Dallas for Fowler Roberts, 60, former Coke County resident. He died Monday after suffering a stroke.

Mr. Roberts' parents were pioneer Coke County residents, having lived in the Valley View community. His mother survives and lives in San Angelo.

Mr. Roberts was a lawyer and had served seven years as Reagan County Attorney and was an assistant attorney general of Texas in the 1930s.

I did not have an opportunity to check a lot of pecan trees for casebearers last week, but did check three locations Monday, May 31. None of the three had a lot of casebearer sign, but all three had some. One location had casebearer hatched out from one to three days. Another had possibly 50% of the eggs hatched, most of them hatching Sunday and Monday. The third spot checked had none hatched that I found.

Summing up the above, not two sites will show the same infestation or timing. Generally speaking, based on our limited inspection, the peak hatch should have occurred between May 28 and June 3. This will vary with the location.

Freeze-branding being used in Texas — Reports from over the

state indicate that Texas stockmen are already using the new developed freeze-branding technique. The new method of branding is still an experimental procedure and no recommendations for its use have been made. Copper branding irons, chilled to 94 degrees F. below zero by a mixture of dry ice and alcohol, are used. It is supposedly painless, is permanent and leaves no scars to thickened areas to cause a dock in the price of hides. It destroys pigment producing hair follicles and the hair grows out a permanent white in color.

"Velvet Horn Deer" are no longer a problem in the Edwards Plateau. Jack Thomas, Texas Parks and Wildlife Service biologist, recently said the male deer born during 1968 and 1969 were the only ones showing the condition. It was probably caused, he said, by a deficiency in the diet of the deer which occurred only during these two years. The condition left male white-tailed deer sterile.

**Standard Operator For NE IAB Field**

Standard of Texas has taken over the Northeast IAB oil field extending northeast from Highway 208. They are working over a number of wells in the field, where sulphur water has eaten through the casings and preparing these wells for the water recovery program.

Engineers have been in the field recently, and studies have been made as to sources of water for the secondary recovery operation. Standard of Texas is the operating company for the unitized field.

The water problem has concerned operators, with no known source of sufficient water in the area, unless salt water can be found at a feasible depth, water pumped through pipelines from near the river or brought into the field from Silver through the pipeline in that field coming from Lake J. B. Thomas. Question has been whether or not Lake J. B. Thomas would provide this additional water.

**Coke 4-Hers Attend District Leadership Camp**

Kaye Roberts of Robert Lee, Sharon McCutchen of Bronte and Gaylon Pitcock of Sanco returned Friday from the District 7 4-H Leadership Camp held June 1, 2, and 3. The camp is held annually at Lake Christian Retreat on Lake Brownwood. Activities participated in were District 4-H Council meeting, career planning, isometrics, citizenship, morals and recreation.

The camp was attended by 165 4-H club members, leaders and agents from the 22 county area that makes up District 7.

Gaylon Pitcock was installed co-chairman of the District Council.

Coke County young people were accompanied by the extension agents, Mrs. Fay C. Roe and Sterling Lindsey.

Mr. and Mrs. Jesse Craddock of Colorado City visited their daughter and son-in-law, Mr. and Mrs. T. M. Wylie Jr. and attended the Sanco homecoming Sunday.

**Preventing clinging in Garments**

Slips, blouses and shirts of the newer man-made fibers have found wide public acceptance because they launder so easily and wear so well. Sometimes in cold, dry weather, these garments have a tendency to cling to the body. This clinging is caused by what is commonly called static.

This clinging tendency can be reduced in washable garments of the newer man-made fibers by adding a small amount of a liquid detergent, fabric softener, or a special liquid antistatic agent to the final rinse water. Liquid detergents and fabric softeners can be purchased at most food or grocery stores. Liquid antistatic agents can be obtained at notion counters in drug or department stores.

Wash the garments in the usual manner. Then rinse them in a solution of the selected product according to instructions given on the container, or adjust the amount used to suit the needs of the individual.

This recipe below is one I got a few years ago from the David Treadaways who manage Lake Christian Retreat, Brownwood. We enjoy it at our house as it keeps well and is a salad or a dessert.

**Sparkle Salad**

Dissolve 1 package each lime, lemon and strawberry flavored gelatin such as Jello in 1 1/2 cups hot water. Put each flavor of Jello into a flat pan large enough that the mixture is 3/4 to one inch deep. Chill overnight.

The following morning, dissolve 1 package lemon flavored gelatin in 1 cup hot pineapple juice and 1/2 cup hot water. Add 1/2 cup sugar. Mix and chill until thickened, but not set. Whip 2 cups whipping cream, fold into mixture. Remove from refrigerator fruit flavored gelatin made the previous day. Cut into 3/4 to 1 inch squares. Add to the whipped cream mixture, fold and mix well. Pour into mold or suitable containers, chill until set. The salad may be served on a lettuce leaf with the main meal, or eaten as a dessert. Flavors of gelatin may be varied according to the color scheme desired.

**Serve Chicken Often**

Women ask: Weight watching makes sense, but how can I satisfy my family's lousy appetites and still keep waistlines trim?

Serve them chicken... compared with other popular meats, chicken ranks lowest in calorie count. A three-ounce portion of skinless broiled chicken breast has only 115 calories; even with the skin, the count is only 185, according to the National Broiler Council. A serving of roast pork has 310 calories, market-ground hamburger has 245, while one half fried chicken breast (3.3 ounces with the bone) has a calorie count of 155. Other meats have even higher counts for the same size portion. In addition, no meat is lower in fat content than chicken. And 64 percent of the fat chicken does contain is unsaturated.

**Dental Check-Up Needed by Age 3**

At what age should young parents start taking their children to the family dentist?

You should arrange your child's first visit to the dentist by his third birthday — or as soon as all 20 of his primary teeth have appeared. Never neglect the primary teeth.

If one of these teeth is lost prematurely, the space may close and the permanent teeth cannot grow into proper position.

Early visits to the dentist make possible preventive dental care.

On the first dental visit, routine cleaning and careful inspection of teeth and gums may be all that is necessary for your child. However, Texas records show that this is of-

ten not the case.

Many youth who enter high school have never seen a dentist, according to records of the State Department of Health.

## Martin Takes Easy Win In County

Crawford Martin took an easy 120-13 victory in Coke County, as he did over the entire state, in last Saturday's Democratic Primary runoff election. Martin was running against Franklin Spears for attorney general of Texas, and their race was the only one voted on in Coke County. Martin is from Hillsboro and Spears is from San Antonio.

Only two voting boxes were set up in Coke County. Voters of commissioner precincts 1 and 3 voted in Robert Lee, while those living in commissioner precincts 2 and 4 voted at Bronte.

A light turnout gave Martin 60 votes at Robert Lee, 58 at Bronte and 2 absentees. Spears polled 13 at Robert Lee and 10 at Bronte. Martin's nomination, which is usually the same as being elected in Texas, will allow him to run against a Republican candidate next November. He is expected to have little trouble winning at that time.

## Crowd At Sanco For Homecoming

A crowd that comfortably filled the tabernacle for the eleventh annual homecoming at Sanco last Sunday voted to continue the event annually. They also enjoyed the long tables, heaped with food, including western style barbecue, visiting and reminiscing.

A corsage and boutonniere of red carnations were presented to Mr. and Mrs. Melvin Scarborough of Riverside, Calif., for traveling the longest distance to the homecoming. They are the son and daughter-in-law of Mr. and Mrs. Jess Scarborough of San Angelo, formerly of Sanco. A corsage was also presented to Mrs. Vela Plumlee of Robert Lee as the grandmother with the largest number of grandchildren — 26. A red carnation was presented seven-week-old Teresa Denean Frizzel for being the youngest person present. She is the daughter of Mr. and Mrs. Harold Dean Frizzel of Sweetwater.

S. B. Wallace, former teacher in Coke County, received the flower given to the oldest man present, and in turn presented it to his long time friend, I. A. Bird, of Sanco, only a few months younger at 84½ years.

Corsage for the oldest woman present went to Mrs. Laura Reid, 84, of Sanco.

Ulmer Bird, master of ceremonies, outlined work done by the homecoming attendants in cooperation with community groups in cemetery improvement and reroofing buildings in the community. He also reviewed the prospect of future growth in connection with the lake development.

Donors handed to Mrs. H. L. Reid, secretary-treasurer of the Community Association, over \$250 for community and cemetery work, and \$67 for homecoming expenses.
