COKE FAIR SET FOR SEPT. 20-22

The Coke County Fair will be held Sept. 20, 21 and 22.

A fair catalogue will be published soon and mailed to all boxholders in the county.

All categories and entries will be very much the same as last year, it was announced. Entries must have been completed since the past fair.

Kerr Manufacturing Co. will again give fruit jars and canning booklets to top winners in each canned food division.

Commercial firms may rent space at \$1.00 per front foot.

Everyone in the county is urged to get busy now so as to have lots of entries. More information will be appearing in papers as it becomes available.

COKE IN AIR FORCE FLY OVER AREA

Some areas of Coke County are in the path of high speed, low level routes for intensive training of tactical air reconnaissance aircraft, according to a news release from Bergstrom AFB.

The routes are purposely designed to avoid populated areas and are confined to rural locations at operating altitudes between 500 and 1500 feet.

The RF-4C Phantom jets which will fly the routes carry no weapons of any kind during their flights and flying safety is paramount in the planning of every flight.

(Editor's note: This newspaper was in error last week on some of the facts concerning Judge W. W. Thetford's report on possible expenditure of federal revenue sharing money. We hope that we have been able to get the facts straight this week. But it isn't easy.)

BCD Discusses Law Enforcement

The main item of discussion at Tuesday's meeting of the BCD was the need for more law enforcement personnel in the Robert Lee area.

The discussion centered around the idea that the city needs a full time nightwatchman, or an officer on duty during the late hours of each night.

Considerable damage has been done to roofs on buildings in the downtown area by persons who have climbed upon store buildings and run over the roofs.

Robert Lee businessmen feel it is time to stop this sort of mischief and vandalism. Replacing roofs, they say, is expensive, and they would like to see something done to stop the pranksters who are guilty.

It was brought out that Bronte has a deputy sheriff who is responsible for that area, but that his duties in East Coke County

ceived through the President's revenue sharing idea went like this:

The water district to provide water in rural areas received the most No. 1 votes. In spite of the fact that the water project received the highest priority from Coke County citizens, it will have to be pushed aside for the time being at least, because its ultimate cost is out of line with what the county can expect from the federal revenue sharing program.

It is expected that enough of the county's money will be spent to bring up to date the county's water and sewer plans which were drawn up six years ago. In case federal grants again become available, the county would then be ready to apply immediately for assistance in developing a county-wide water plan.

Receiving most No. 2 votes in the poll from the west side of Coke County was a new stock show barn, while citizens of the east side voted No. 2 for a recreation center at Bronte.

In view of all aspects of the situation, it appears that the commissioners' court will spend the federal money available for these two projects.

The county is required before June 30 to publish a legal notice on how the federal money is to be spent, and building either a rec hall at Bronte or a show barn in Robert Lee would well take care of the \$34,000 which must be reported on before the end of this month. The official notice on the matter says that the county will spend \$34,000 on "recreation-cul-

By Congressman O. C. Fisher

Did you ever have a doctor tell you you've got a heart ailment? Well, I have. Not bad, but the sort of thing that sounds a warning, you know!

Feeling a bit weary one day recently I casually dropped by the Capitol Physician's office for a brief checkup. I was soon receiving a cardiogram (EKG they call it). Dr. Cary didn't seem to like what he saw, and promptly ordered another EKG.

In 20 minutes I was on my way to a hospital!

"Doctor," I protested, "I'm not sick, I have no pain!"

"It's a matter of precaution," the M.D. explained.

"But Doctor," I persisted, "Surely not now—my full committee meets tomorrow on our big annual \$20 billion military procurement bill. It's the big day of the year. I'm chairman of a subcommittee that for six weeks has been holding hearings on three sections of the big bill. I've got to make that report myself. Can't you give me a couple of days? I feel fine."

"Nope," said Dr. Cary. "Your health comes first," and by then I was on my way.

Forty minutes and one more EKG later I managed to call my office and explain my where-

abouts. After getting settled in the Coronary Ward at the Naval Medical Center, between blood tapping and EKGs I got to thinking about some commitments.

"Doctor," I ventured, "next Friday I'm due at the big Scottish Rite banquet in San Antonio. I promised six months ago I'd be there. And the next day after that, I'm due in San Angelo for the Fiesta del Concho. I'll be out of here by then, won't I?"

"I don't know but I advise you to cancel."

"Well," I implored, "I'm the luncheon speaker at the convention of the Reserve Officers Association in Las Vegas on June 15. It's really a big event, and I want very much to attend. I hear I'm to receive a national honor."

My two doctors consulted a moment and said, "You've had no heart attack, but you need to get some rest. You've been pushing too hard. You should get some rest and get away from this place for awhile—too much tension!"

"Well, you're the doctors," was all I could think of to say. You know, when he starts talking about your heart you don't argue with a doctor.

Fashion Follies

Fashion plates beware! Those wide, swingy palazzo pants and high, stilt like platform shoes which have become standard parts of your wardrobe have something else in common besides their attractiveness. They can turn you into a walking accident!

Pants with wide, loose cuffs get caught in bus doors, car doors, revolving doors, elevator doors. They can be gobbled up by escalator teeth, swept up on bicycle chains and wheel spokes. They can catch your shoe heels as you get into them, or trip you as you climb stairs. For safety's sake, fit them properly around the waist so that they don't ride down, and hem them so that they hang no lower than the ankle bone. If you must ride a bike while wearing wide, wide pants, use a clamp on the pant legs to narrow the expanse. And be careful!

Platform shoes are a bone of contention between foot doctors and female enthusiasts. Although demand in some stores continues to be as high as some soles, there are women whose injuries give weight to the claims of many foot specialists that wearers of clogs risk a twisted ankle. If you must wear them, watch your step. Judge each movement with your shoes in mind and allow for the deeper sole area at each step, curb, or any floor level change. Cultivate a crisp, steady gait. Platforms and pedals don't mix, and do keep a pair of normal shoes in the back seat of the car or in the bicycle carrier.

Single Knits

For one of today's major looks in fashion, soft and unstructural, the single knit may be a perfect choice of fabric.

But the pattern selection must be made carefully.

The "right" style for single knits will have simple lines, and will be suitable for medium to lightweight fabrics.

Look for gathers or soft draping, so appropriate for soft fabrics.

Avoid such features as A-line skirts, which depend on the firm-

ness of the fabric for shaping. Check the back of the pattern envelope for the recommended fabrics listed.

If a four inch wide strip of the knit will stretch crosswise to five inches or more, it is quite stretchy.

In this case, find a pattern designed "for knits only." These patterns are designed with less ease, fewer closures and darts. When made in a stretchable knit, the resulting effect is a satisfying one for the home seamstress.

Today's Health News

Published by the American Medical Association

What's wrong with America's health knowledge? . . . More than 100 million adult Americans believe that vitamin pills give added pep and energy, 90 million say that a bowel movement every day is necessary for good health, and almost 13 million think that over-the-counter "diet pills" really work. And they're all wrong, say doctors interviewed by Today's Health.

Except for those suffering from an extremely poor diet or for others in special medical situations (such as pregnancy, nursing, and recuperation from a long illness), there is no sound evidence that extra vitamins do anything at all to improve health — although in most cases they do no harm, says Philip L. White, Sc.D., of the American Medical Association. The greater danger, according to John F. Mueller, M.D., of the Brooklyn-Cumberland Medical Center, is that people use vitamins to treat their own illnesses instead of going to the doctor.

What about regularity? TH talked with several gastroenterologists and all agreed about one thing: Americans are much too concerned about this problem, and for no very good reason. There is no single standard of "regularity" that can be applied to whole populations. A recent English study showed, for example, that normal, healthy adults had bowel habits ranging from three bowel movements a day to fewer than three a week. Those who habitually use laxatives, without doctor's orders to do so, may become overly dependent on them

and may miss a more serious problem, underlying the need for laxatives.

Beside those Americans who worry about being healthy and regular, are those who worry about being fat. Most of the 17 million people who have used appetite suppression drugs have been under a doctor's care, but many have simply wasted their money on over-the-counter diet preparations. Summing up the effectiveness of the non-prescription "diet pills" widely advertised and readily available at any drug store, S. K. Fineberg, M.D., a New York physician, says: "They are mild, non-habit forming — and they don't work."

The survey of 2,800 representative Americans, commissioned by the Food and Drug Administration of the Department of Health, Education and Welfare (HEW) and part of a six-year federal study, also showed that:

*One in eight adults admitted that he or she would self-medicate, without seeing a doctor, for longer than two weeks for such common ailments as sore throat, hay fever, upset or acid stomach and sinus trouble.

*One fourth of all adult Americans claim to have arthritis, rheumatism, or a similar disease. Half of them have never had the condition diagnosed by a doctor, and half have never been treated by a doctor.

**After high school,
will your kid
go to work,
or to college?**

High school is the end of Free Education.

If your child decides to go on to college it'll take money. Lots of money. Money that you should probably be saving right now.

And there's no better way to start a college savings fund than by joining the Payroll Savings Plan where you work. That way an amount you specify will be set aside from each paycheck and used to buy U. S. Savings Bonds. Before you know it you'll have a nice little college fund on hand.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra

3/4%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Join the Payroll Savings Plan. And, if your child keeps studying and you keep saving, you'll both be ready for college.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.

**Take stock in America.
Now Bonds pay a bonus at maturity.**

Thoughts

From The Living Bible

Follow God's example in everything you do just as a much loved child imitates his father. Be full of love for others, following the example of Christ who loved you and gave himself to God as a sacrifice to take away your sins. And God was pleased, for Christ's love for you was like sweet perfume to him. Let there be no sex sin, impurity or greed among you. Let no one be able to accuse you of any such things. Dirty stories, foul talk and coarse jokes — these are not for you. Instead, remind each other of God's goodness and be thankful.

The cost of not saving keeps going up.

If you need cash and you haven't saved it, you have to borrow. And that means paying through the nose to use someone else's money.

So it makes sense to put away a few dollars of your own. One great way to do just that is by purchasing U. S. Savings Bonds through the Payroll Savings Plan where you work. It's an easy way to build a nest egg.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with comparable improvement for all older Bonds.

Buy U. S. Savings Bonds. It's a lot better to be receiving interest on your own money than paying it out on someone else's.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America. Now Bonds pay a bonus at maturity.

FEDERAL MONEY —

ture" for the citizens of this county.

The poll showed that No. 3 in the minds of Coke County citizens was new fire fighting equipment at Bronte and library services at Robert Lee.

The county has \$60,000 to spend but it does not have to be reported until later. It is anticipated, said Judge Thetford, that part of this sum will be spent to build either the rec hall in Bronte or the show barn in Robert Lee, allowing the original \$34,000 to be spent on one project or the other.

Judge Thetford said a meeting is planned with the Robert Lee and Bronte city councils to discuss the purchase of firefighting and emergency equipment and library services.

It seems that the remainder of the money may be spent for maintenance and repairs on such things as the old jail building, the airstrip and tennis courts at the Robert Lee Park.

Judge Thetford said money is needed for all these projects and the commissioners will have to decide on the way to spend the balance of the federal money which is waiting to be spent.

require most of his time, thus not allowing him much time to help alleviate the situation in Robert Lee. Possible employment of a city officer was mentioned, as was a BCD petition to present to the commissioners' court for an additional full time deputy for West Coke County.

At any rate, BCD members are concerned with law violations which have been occurring, generally in the late hours at night, and they want to do something about it. BCD officials requested parents to keep better track of where their youngsters are late at night.

The BCD also voted to help The Observer with its annual vacation edition by buying extra copies to be distributed over West Texas. Also voted was help with expenses for three Boy Scouts to go to summer camp.

President Roy Ford presided, Deputy Don Thorpe was a guest of Sheriff Melvin Childress and 12 members were present.
