Truck Barely Misses Adkins House

Truck Wreck Dumps Cattle

Two men escaped with minor injuries when their large tractor-trailer cattle truck overturned shortly after 2 a.m. Saturday at the "Y" intersection in Robert Lee. The rig, owned by T&W Transport, Inc., of Abilene, and loaded with 84 head of cattle, failed to make the curve and flipped to its side, coming to rest a few inches from the front of the home of Mr. and Mrs. Mac Adkins, just west of the Skelly Station building.

Mrs. Adkins, her two year old daughter, Michelle, and her sister, Debra Read, were in the house asleep when the accident occurred. Mr. Adkins was away at work.

Driver of the truck was Wendell Gallaway and with him was Sherman West, both of Abilene, who had loaded at San Angelo and were headed north on Highway 208 when

the accident occurred. They were reported to be taking the load to Phoenix, Ariz. A heavy fog at the time made driving hazardous.

As the big truck left the road, it sheared off highway sign posts and a water pipe and gas meter to the Adkins home. Gas spewing from the broken line created a hazard, along with diesel fuel leaking from the truck's tanks. City employees Sherman Williams and Gary Williams were called to shut off temporarily the gas and water. Robert Lee firetrucks stood by until the truck was moved at 11:15 a.m.

REDDY'S REFRIGERATOR SAVINGS TIPS

Don't open refrigerator door unnecessarily. Plan your trips to the refrigerator while cooking. Make sure the children maintain a closed-door policy.

Buy the size that fits your needs. An over-large refrigerator or freezer wastes space as well as electricity.

Clean external coils, fins and motor often and keep them free from dust.

Defrost your refrigerator and freezer before ice deposit exceeds ¼ inch. Excess ice causes your refrigerator to work harder.

Cleaning

Inside of cabinet

- a. Should be cleaned twice a month
 - dispose of forgotten foods
 - clean up spillovers
 - eliminate "off" odors that transfer flavors
- b. Use warm water and baking soda solution. (1 teaspoon soda to 1 quart water). Rinse in clear water and dry.

**Now that
you've retired,
put your savings
to work.**

**Trade your E Bonds
for H Bonds**

Bought a lot of Series E Savings Bonds over the years? Well, you probably want to keep your nest egg intact. But retirement is the time when you need some extra income.

Here's how to get that income. Just exchange your E Bonds (in cash value amounts of \$500 or more) for Series H Bonds. H Bonds pay out interest every six months by Treasury check mailed right to your door, and at a rate averaging 6% annually when held to 10-year maturity.

Just the thing for retirement, when you need steady income coming in.

You'll get a tax break on the exchange, too

When you exchange your E Bonds for H Bonds, your tax liability on your accumulated E Bond interest continues to be deferred. Right up until the H Bonds are cashed or reach final maturity (there's an optional 10-year extension privilege after original maturity).

The result? You get more for your money in the exchange. And when your H Bonds are redeemed, and you finally pay your deferred E Bond tax, it's at your lower post-retirement rate.

Get income as it's earned

Steady, dependable income. Twice a year. Or, if you prefer, get interest checks every month. Just buy an H Bond a month for six consecutive months. That way, you've got a regular income guaranteed.

Purchase \$500 to \$5,000

Your banker has exchange (as well as new purchase) applications for H Bonds. At face values of \$500, \$1,000 and \$5,000. There's an annual purchase limit of \$10,000 (\$20,000 with a co-owner), but this won't apply if you're trading in E Bonds.

H Bonds. A good way to make sure your money won't retire when you do.

**Take

Buy Series H Bonds—
now averaging 6% when held
to maturity of 10 years.
