Who pays what share of the taxes has taken on some of its political appeal. The middle income taxpayer has come to realize that he is paying out more than he can afford. A recent newspaper headline noted: TAX PETER TO PAY PAUL? NO. The middle income taxpayer can be seen on the cover of Life magazine or the front page of the Chamber newsletter, Washington report, in that as of the end of 1974 there were some 8,300 of the 30 million persons receiving benefits who were 100 years old or older and had been collecting benefits for 35 years or more.

"The moral of this story," the Chamber adds, "is that you should firmly resolve to live to be a centenarian." It's called beating the system. The national flower may soon be the concrete clover leaf.
